PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

GOVERNMENT OF BENGAL,

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Dated Calcutta, the 3rd January 1893.

THE Lieutenant-Governor appoints Saturday, the 7th instant, at 11 A.M., as the time, and the Bengal Council Chamber at Dalhousie Square as the place, for a meeting of the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations, and hereby summons the several members of the said Council to attend the said meeting at the time and place appointed.

By order of the Lieutenant-Governor of Bengal,

C. H. REILY,

Assistant Secretary to the Govt. of Bengal, Legislative Department.

No. 1A.

GENERAL.—*The 27th December* 1892.—Mr. H. H. Heard, Deputy Magistrate and Deputy Collector, Santhal Parganas, is appointed to have charge of the Godda sub-division of that district, *vice* Mr. W. C. Mulier.

The 28th December 1892.—Mr. B. G. Geidt, Joint-Magistrate and Deputy Collector Rangpur, is appointed to act as District and Sessions Judge of Bankura, during the absence, on deputation, of Mr. Brojendro Coomar Seal, or until further orders.

This cancels the order of the 21st November 1892 appointing Mr. T. D. Beighton to act as District and Sessions Judge of Bankura.

The services of Babu Raj Kishore Narayan Singh, Deputy Magistrate and Deputy Collector, Gaya, are placed at the disposal of the Revenue Department of this Government for employment on the survey and record of rights in North Bihar.

The 29th December 1892.—Babu Rasik Lal Sen, substantive *pro tempore* Deputy Magistrate and Deputy Collector, Tippera, is appointed to perform the functions of a Collector under section 4 of the Public Demands Recovery Act VII (B.C.) of 1880 in that district.

Lieutenant E. J. Webb, Northern Bengal Mounted Rifles, is allowed leave of absence for six months, with effect from the date on which he may avail himself of it.

The 30th December 1892.—Babu Dina Nath Dey, Deputy Magistrate and Deputy Collector, Rangpur, is allowed leave for two months, under article 291 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

Babu Mohini Mohan Chakravarti, Deputy Collector, is appointed to perform the functions of a Collector under section 4 of the Public Demands Recovery Act VII (B.C.) of 1880 in the district of Bhagalpur.

The 31st December 1892.—Mr. J. H. Bernard, Joint-Magistrate and Deputy Collector, on leave, is posted to the head-quarters station of the Muzaffarpur district.

Mr. C A. Samuells, Magistrate and Collector, Malda, is allowed furlough for 20 months, under article 340 (*b*) of the Civil Service Regulations, with effect from the 15th March 1893.

The 2nd January 1893.—Second-Lieutenant W. A. Eaton, East Kent Regiment, is appointed to be an Extra Aide-de-Camp on the Personal Staff of the Lieutenant-Governor of Bengal.

Babu Behari Lal Mukhopadhyaya, Officiating Deputy Magistrate and Deputy Collector, is posted to the head-quarters station of the Muzaffarpur district.

The 3rd January 1893.—The services of the Revd. Charles Herbert Reynolds, Honorary Chaplain, Orissa Volunteer Rifle Corps, are placed at the disposal of the Government of the North-Western Provinces and Oudh.

Babu Devendra Nath Mitra, Sub-Deputy Collector, is allowed furlough for one year, under articles 264 and 371 (*b*) of the Civil Service Regulations, with effect from the 8th October 1892.

The order of the 29th November 1892, granting fifteen days' privilege leave to Maulvi Syed Mohamad Nasiruddin, Deputy Magistrate and Deputy Collector, Shahabad, is cancelled.

Babu Narendra Kumar Chowdhuri, substantive *pro tempore* Sub-Deputy Collector, Burdwan Division, is posted to the Contai sub-division of the Midnapore district, with effect from the forenoon of the 30th October 1892.

Babu Bhobotosh Banerjee, Deputy Magistrate and Deputy Collector, Rangpur, is allowed leave for one month, under article 291 of the Civil Service Regulations, with effect from the 15th December 1892.

Babu Mohini Mohan Chakravarti, Deputy Magistrate and Deputy Collector, Bhagalpur, is vested with the powers of a Collector under Act X of 1873 in that district.

Inspector of Schools, Rajshahi Circle.

JALPAIGURI, *the 28th December* 1892.

Examination of Candidates for Pleadership and Mukhtearship in Mufassal Courts subordinate to the High Court.

THE next examination of candidates for Pleadership will be held on the 15th, 16th, and 17th February next in the Senate House of the Calcutta University.

The next examination of candidates for Mukhtearship will be held at Calcutta, Patna, Dacca, Cuttack, Gauhati, and Sylhet on the same days; the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

The Pleadership candidates will be examined *viva voce* only on the 15th February commencing at 10 A.M., and two papers will be set each day for them at 10 A.M. and 2 P.M., respectively, on the 16th and 17th February. Two papers will be set for the Mukhtearship candidates on the 15th February at 10 A.M. and 2 P.M., respectively, and they will be examined *viva voce* on the 16th and 17th February, commencing at 10 A.M. each day.

Under no circumstances will any candidate be admitted to the examination room after these hours.

The candidates will be required to produce at the examination extracts from the Register, which will be furnished to them by the District Judge, through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination room with any memoranda or loose papers of any description (with the exception of the extracts above mentioned).

All writing materials will be provided with the exception of pens, which the candidates must bring with them.

HENRY T. HYDE,
Secy to the Board of Examiners for Pleadership and Mukhtearship.

On or about Friday 1st September ,, ...	1,927	1,715	3,642
On or about Thursday 5th October ,, ...	1,927	1,715	3,642
On or about Wednesday 1st November ,, ...	1,927	1,715	3,642
On or about Friday 1st December ,, ...	1,927	1,715	3,642
Total ...	23,124	20,580	43,704

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand

render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1891-92, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS, *Secretary.*

FORT WILLIAM, *the 24th November* 1892.

No. 2056B.

NOTICE is hereby given that the Second Sale of Opium, the provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 1st February 1893, at 11 A.M., and will comprise 3,642 chests, viz.—

Dacca Collectorate, the 18th November 1892. T. L. JENKINS, Collector.

APPENDIX XXIV.

SEE CHAPTER II, PART 3, RULE 26.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th January 1893, corresponding with the 29th Pous 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavations on the lands nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Monghyr Collectorate, the 21st November 1892. DHANESH CHUNDER ROY, for Collector.

NOTICE is hereby given that the undermentioned plot of land no longer required by Government, situated along the Tirhut State Railway, in the district of Monghyr, will be put up to sale at 12 o'clock on Wednesday, the 18th January 1893, corresponding with the 16th Pous 1300 Fusli, at Begamsarai Station, Tirhut State Railway.

The purchaser of the plot of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4*th*.—The plot of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Consecutive number of lot.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of lot.
					B. K. D.	A. K. P.	Reasons for exclusion.	A. K. P.		
1	2	3	4	5	6		7		8	9
1	Monghyr ...	Pargana Naipur, mauza Dwarkapur.	5	East and west	3 poles or 1 cottah, 6½ dhoors.		.....		The land is situated on mile No. 5, but the area has been shown on the plan of mile No. 6.	

Monghyr Collectorate, the 24th November 1892. DHANESH CHUNDER ROY, Deputy Collector, *for* Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Muzaffarpur will be put up for sale at the Collector's Office of that district on 4th January 1893, corresponding 23rd Magh 1300F., for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

1	2	3	4	5	6	7	8	9
Tauzi No.	Name of mahal and pargana.	Sadar jama of the whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of the property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.

MUZAFFARPUR, the 25th November 1892. T. W. FISCHER, for Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Champaran will be put up for sale at the Collector's Office of that district on the 5th of January 1893 for arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale:—

BANK OF BENGAL,
Calcutta, 29th December 1892

E. J. BIRCH, Offg. Chief Accott.
Rate for Demand Loans 5 per cent.
Percentage 50·3.

By order of the Directors,
W. D. CRUICKSHANK,
Secretary and Treasurer.

(905—1)

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests.
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.

¼ ,, ,, ,, 4 ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Caution.

Estate Raja Baroda Kanto Roy, late of Chanchra, in the district of Jessore, deceased.

THE public are hereby informed that the above-named Raja died indebted to Babu Ram Tarun Chutterjee, of No. 66, College Street, Calcutta, in the sum of Rupees fifteen thousand secured by a registered bond executed in his favour by the said Raja, and bearing interest at the rate of 12 per cent. per annum payable out of the zamindari of the said Raja, named pargana Shahosk, which sum still remains unpaid and is repayable out of the estate of the said Raja.

Any one purchasing or otherwise dealing with the said estate shall do so subject to this notice.

RAM TARUN CHUTTERJI, by his Attorney Akhoy Kumer Chutterjee.
66, College Street, Calcutta. (861—3)

(903—4)

Notification.

THE public are hereby informed that the zamindari dák cess on estates paying revenue upwards Rs. 50 in the district of Khulna has been fixed at Re. 1 per cent. for the year 1893-94.

2. The cess is payable in two instalments, viz., within 15th April and 15th October.

ABDUL KHALIQUE, Deputy Magistrate in charge.
Khulna Magistrate's Office, the 19th December 1892.

Notification.

THE zamindari dák tax in the district of Saran for the year 1893-94 is fixed at the rate of 12 annas per cent. per annum on the sadar jama of estates paying a revenue amounting to Rs. 50 (fifty) and over.

The amount due for each estate is payable in two instalments, the first being due on the 28th March 1893 and the second on the 28th September 1893.

M. SERAJUL HUQ, for Offg. Magistrate.
Saran Magistracy, the 16th December 1892.

FALAKATA FAIR.

Notice.

THE public are hereby informed that a "Fair" will be held at Falakata in the sub-division of Alipur, Western Duars, district Jalpaiguri. The Fair will commence on January 22nd, 1893 (A.D), corresponding with 10th Magh 1299 (B.S), and will continue up to February 5th, 1893. Tradesmen, dealers and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoceri horns, yak tails, musk, honey, wax, lac, ponies, and various other articles from Bhutan and Thibet; and also tea, paddy, rice, tobacco, jute, mustard-seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Falakata is situated on the river Moojanai, very conveniently for river traffic from East Bengal, viz., Dacca, Goalundo, Serajganj, Manikganj, etc., and within easy reach of Jalpaiguri and Kuch Bihar. A good cart and driving road exist all the way. Arrangements for good drinking water and for comfort of strangers, traders and shopkeepers, and special police arrangements for safety of property and goods, exist. Booths are also erected at Government expense for accommodating shops.

W. H. W. MACKENZIE, Sub-divisional Officer,
Alipore Duars.

Alipore Duars, the 7th December 1892.

ALIPORE FAIR.

Notice.

THE public are hereby informed that a "Fair" will be held at Alipore, in the sub-division of Alipore, Western Duars, district Jalpaiguri. The Fair will commence on 10th January 1893 (A.D.), corresponding with 27th Pous 1299 (B.S.), and will continue up to 24th January 1893. Tradesmen, dealers and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoceri horns, yak tails, musk, honey wax, lac, ponies, and various other articles from Bhutan and Thibet; and also tea, paddy, rice, tobacco, jute, mustard-seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Alipore is just 11 miles from Kuch Bihar, and within easy reach of Jalpaiguri and Kuch Bihar. A good cart and driving road exists all the way. Arrangements for good drinking water and for comfort of strangers will be made. The mêla will be held on high ground situate just on a good stream known as the Kaljani river. Houses, etc., will be suppli d at Government expense. Police and Government officers will see to the comfort and protection of all strangers attending the Fair.

W. H. W. MACKENZIE, Sub-divisional Officer,
Alipore Duars.

Alipore Duars, the 5th December 1892.

Road Cess Notification.

DISTRICT BOGRA.

IT is hereby notified for general information that, under section 46, Act III (B C.) of 1885, and section 38, Act IX (B.C.) of 1880, the District Board of Bogra have, on the 12th December 1892, determined that the road cess in the district for the cess year 1893-94 (from 1st April 1893 to 31st March 1894) shall be levied at the maximum rate, viz., one-half anna on each rupee of the annual value and annual net profits as described in section 6, Act IX (B.C.) of 1880.

UMES CHANDRA BANERJEE, Vice-Chairman.

Bogra, the 13th December 1892.

Road Cess Notification.

AT a special meeting held on the 12th October 1892, the Pabna District Board have determined that road cess in that district for the cess year 1893-94 shall be levied at the maximum rate, viz., one-half anna on each rupee of the annual value of lands, &c., as enumerated in section 6 of the Cess Act.

G. K. DEB, Chairman.

Berhampur, the 2nd January 1893.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series	10 0 0	2 8 0
,, each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	3 0 0
,, a part of each of the Madras Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit.

	For town. Rs.	A.	P.	For mofussil. Rs.	A.	P.
For the Calcutta Series, per copy ...	0	8	9	0	10	3
each of the Madras, Bombay, and Allahabad Series, per copy ...	0	5	3	0	5	9
,, the Calcutta Series. For the year	7	2	6	8	6	3
,, each of the Madras, Bombay and Allahabad Series. For the year	4	4	6	4	11	3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1892 *should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.*

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
,, three issues ...	,, 55	,, 36	,, 24
,, six ,, ...	,, 100	,, 68	,, 45
,, nine ,, ...	,, 145	,, 96	,, 64
,, twelve ,, ...	,, 180	,, 120	,, 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage. Rs.	A.	P.	With postage. Rs.	A.	P.
Bengal Law Reports for one year ...	20	0	0	22	8	0
Single copies, Rs. 2 per copy.						
Full Bench Rulings, Parts I and II ...	20	0	0	22	8	0

Bengal Secretariat Press, 10, Lyon's Range, Calcutta.
Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India
BY DR. GEO. WATT, C.I.E.
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with theSuperintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of "O." The whole work will, it is expected, be completed in seven volumes during the current year; but an eighth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 6 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

Jeypore Enamels. Super royal, 4to. Re. 30 (9s.)
Waste Lands in India, Rules for the Lease or Sale of, 1893. Fcap., boards. Re. 2 (5s.)

Krishna shoal light—Date of alteration postponed.

WITH reference to Notice to Mariners No. 181, dated 11th October 1892, issued by this office, intimating that the character of the Krishna shoal light will be altered from 1st January 1893, the Port Officer, Rangoon, through the Director of the Royal Indian Marine, has given further notice, that owing to the non-arrival of an important part of the new apparatus, the alteration of the light is postponed one month.

The light should be exhibited therefore on the 1st February 1893.

Intended alteration in the Kutubdea light.

WITH reference to Notice to Mariners No. 202, dated the 17th November 1891, issued by this office, a further telegraphic communication has been received from the Port Officer, Chittagong, stating that the new Kutubdea light has an interval of one minute between the revolutions or flashes; the duration of each flash being six seconds, and its greatest intensity two seconds.

As notified in No. 77 of the 14th April 1892, the new light will be exhibited on the 1st January 1893.

AUSTRALIA—KEPPEL BAY.

Main channel across Wide Bay Bar; and Lightship at Keppel bay.

THE Port Master, Brisbane, has given notice (No. 19 of 1892) that it has been reported that the main or north channel across Wide Bay Bar lies more to the northward than formerly, and, consequently, that the leading beacons, which have hitherto been kept open once their own width to northward, must be kept still more open. Until the bar has been examined, and the beacons altered to meet changes, vessels must approach and use this channel with caution.

The lightship at Keppel bay will be retained in her present position until further notice.

AUSTRALIA—WIDE BAY BAR.

Channel across the Bar—Beacons altered.

THE Port Master, Brisbane, has given notice (No. 20 of 1892) that the beacons which lead across Wide Bay Bar through the North Channel have been altered, and are now to be kept in line, bearing N. 74° W. (W. by N. ¾ N.), magnetic.

The least depth on this lead is at present 18 feet at low-water springs.

The beacons which lead through the South Channel have also been altered, and now lead N. 50° W. (N. W. ½ W.), magnetic.

On this lead the least depth is now 13 feet at low-water springs.

INDIA, WEST—BOMBAY COAST.

Universal system of buoyage, Bombay harbour.

THE Trustees of the Port of Bombay have given notice that all the Harbour and Shoal buoys in the Port have been painted in accordance with the recommendations of the Committee on the Universal System of Buoyage, namely:—

Starboard buoys painted *Red*.

Port buoys painted *Black*.

Middle Ground and Elephanta Shoal buoys painted black with white horizontal stripes.

The shapes of the buoys will also be altered in accordance with the recommendations of the Committee when it is found necessary to renew them.

AUSTRALIA, NORTH COAST—PORT DARWIN.

Charles Point light.

THE Secretary, Marine Board, port Adelaide, has given notice (No. 11 of 1892) that on and after 1st February 1893, a light of the following description will be exhibited from *Charles Point*:—Position (approx.) lat. 12° 23′ 20″ S.; long. 130° 37′ E. The tower is built of iron and painted red and white in horizontal bands. The focal plane of the light is 121 feet above high water, and the light will be visible from a vessel's deck in ordinary weather 18 miles. The light will be of the first order, revolving every thirty seconds, and will show over an arc of 257°, viz.:—A green sector of 60° over the Great Fish Reef and adjacent dangers, from N. 22° E. to N. 82° E.; bright 155° from N. 82° E. to S. 57° W.; and a red sector of 42° showing over the shoals to the west of Port Darwin entrance, from S. 57° W. to N. 81° W.; the remaining arc of 103° to be obscured.

Referring to Notice to Mariners, No. 5 of 1891, mariners are hereby informed that the erection of the lighthouse on Point Emery is postponed for the present.

AUSTRALIA, SOUTH—TASMANIA, WEST COAST.

Entrance islet light-house Macquarie harbour.—Amended sector of red light.

WITH reference to Notice to Mariners No. 212, dated 26th November last, issued by this office, the British Admiralty has given further notice (No. 516 of 1892) that a sector of *red* light would be shown from entrance islet light-house, Macquarie harbour entrance, through an arc of 35°, or from the bearing of S. 16° E. to S. 51° E.

The Government of Tasmania has given further notice that on 1st October 1892, the sector of *red* light would be shown from entrance islet light-house, through an arc of 35°, or from the bearing of S. 16° E. to S. 19° W. This sector is intended to cover the North spit, which extends from Entrance islet to the bar, and to guide vessels approaching from the northward when the inner leading light (*fixed green*) is obscured by Entrance islet.

Approximate position, lat. 42° 11′ 35″ S., long. 145° 13′ 30″ E.

CAUTION.—As the bar occasionally shifts to a greater or less distance from the North spit, Mariners are cautioned that they should not depend on being clear of the spit, and in the channel, directly the light changes from red to white, but should proceed as previously with the leading lights in line.

INDIA EAST—MADRAS COAST.

Alteration of date of exhibition of the new light at Madras.

IN continuation of Notice to Mariners, No. 170, dated 17th September last, issued by this office, the following information has been received from the Presidency Port Officer, Madras, and further particulars have been asked for to complete the notice in all its details :—

With reference to Notice to Mariners (*Madras*) on this subject, dated 2nd September 1892, it is now notified that the new light referred to therein will not be exhibited before the 1st April 1893.

2. The light will be visible in all directions from seaward at a distance of not less than 20 miles in clear weather.

3. The height above high water of the centre of the lantern of the new apparatus will be about 166 feet.

4. The main tower of the New High Court Buildings bears N. 18° W. magnetic 278 feet of the old lighthouse.

SCARCITY IN 1891-92.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 2nd January 1893.

RESOLUTION No. 17Agri.

READ again—

(1) Correspondence with the Commissioners of the Patna, Bhagalpur, and Rajshahi Divisions regarding the recent scarcity in parts of those Divisions.
(2) Records of the relief operations of 1873-74 and 1888-89.
(3) Bengal Famine Code, revised edition of January, 1892.
(4) This Government's Resolution No. 1529Agri., dated the 16th April, 1892.

Read—

Final reports of the relief operations of 1891-92, viz.—

(5) Letters No. 577M., dated 1st September, 1892, and No. 592Met., dated 31st October, 1892, from the Commissioner of the Rajshahi Division, with enclosures.
(6) Letter No. 728G., dated the 10th October, 1892, from the Commissioner of the Patna Division, with enclosures.
(7) Letters No. 2116R., dated 12th October, 1892, No. 2174R., dated 15th October, 1892, and No. 2270R., dated 29th October, 1892, from the Commissioner of the Bhagalpur Division, with enclosures.

THE rainfall of 1891 was below the average over the whole of Bengal, but the deficiency was most marked in Bihar and the districts of Bengal north of the Ganges. Although the *bhadoi* crop was not generally affected, much

damage was caused to the great winter rice crop of the Province. The information received from the localities suffering from drought indicated at an early stage possibilities of widespread distress, and the apprehensions which the Lieutenant-Governor had entertained were borne out by his observations when travelling through the Patna Division in November, 1891. It was, however, still possible then that a good fall of winter rain would enable a plentiful *rabi* crop to be reaped. This hope was disappointed; no rain fell in December or January, and the *rabi* crop, except on irrigated or low-lying lands, was almost a total failure. Full and periodical reports were called for from the local officers, and, in order to maintain the administration in readiness to meet famine should it come, the lists of works available for purposes of relief were prepared afresh, and a revised edition of the Bengal Famine Code was issued in January, 1892. In March and April, when relief operations were actually in progress, the Lieutenant-Governor visited the affected tracts in the districts of Monghyr, Bhagalpur, and Purnea, and found that on certain points the provisions of the Code were not precisely suited to the exact stage of distress which had then been reached. Detailed instructions were, therefore, issued in the Resolution of 16th April, 1892, quoted in the preamble, for the guidance of the officers concerned, as to the classification of relief works and workers, the calculation of the wage to be paid, the amount of work to be exacted from each labourer, the registers to be kept, and the returns and reports to be submitted in connection with relief works as well as gratuitous relief. The Lieutenant-Governor also reminded the District Boards that, as an integral part of the administration, they were required in times of scarcity or famine to do more than merely provide funds for relief works under Chapter XI of the Famine Code; that it was incumbent on them to recast their budgets; and that, after providing for all obligatory expenditure such as establishment, maintenance of works and buildings, and completion of works in progress which would suffer seriously from being stopped and entail great loss in the end, all the rest of their expenditure on public works should be devoted to such operations as could be classed as relief works.

2. Before the situation was fully developed, it was at first anticipated that the tracts which would suffer most would be the Gaya, Muzaffarpur, and Darbhanga districts, a portion of Shahabad, and the Monghyr, Bhagalpur, Purnea, Dinajpur and Bogra districts. Champaran, which had suffered severely in 1873-74 as well as in 1888-89, was subsequently included in the number of affected areas. Appendix I to this Resolution shows the rainfall in each of these districts from 1st May, 1891, to 31st July, 1892, the fall during the months of May to August, inclusive, in 1891, and for the two individual months of September and October, being compared with the normal rainfall and the actuals in 1873 and 1888. The short rainfall in 1891 was chiefly confined to the last two months of the ordinary monsoon period: the *bhadoi* or early rain-crop was probably a full average; and this fact, combined with the good harvest of the preceding year, mainly accounts for the comparative immunity from distress of all the districts in which the *bhadoi* is largely sown, in spite of the failure of the winter and spring crops. In the Patna Division, taken as a whole, and for the whole province the *bhadoi* crop was estimated by the Director of the Department of Land Records and Agriculture at 12 annas, an estimate which proved to be correct. But, except in the districts of Champaran and Bogra, and in the canal-irrigated portions of the district of Shahabad, the estimated outturn of the winter rice crop was nowhere above 6 annas in the districts about which anxiety was felt. There was a fairly general, though light, fall of rain in Bihár and Northern Bengal about the middle of February, but this rain was generally too late to do much good to the *rabi* crops. Happily no serious distress requiring the intervention of Government ever made its appearance in the districts of Bogra, Champaran, Shahabad, and Gaya. In Bogra, which was one of the districts considered likely in 1873-74 to be the severest sufferers, about one-third of the normal area had not been planted at all with winter rice for want of water at the time of transplanting. But the rain which fell in this district in September improved the prospects, and a 10-anna crop was obtained. The outturn of the *bhadoi* crop having been over 16 annas, there was no actual distress. The price

of common rice averaged 12 seers 11 chittaks, and test works opened at three places in the beginning of March, 1892, attracted very few labourers, and were closed on the 9th April. In Champaran the estimated average outturn of the winter rice was 10 annas, but, the *rabi* having generally failed, it was feared that there would be some distress among the labouring classes. In the Kesairi thana of the Sadar sub-division, the worst part of the district, test works were opened in June, and 516 persons attended on the 4th, and 490 on the 5th; but heavy rain fell on the night of the 5th, and, very few persons having come to work on the following morning, the works were closed on the 7th. In Shahabad, a great part of the district is protected by the Sone Canals; irrigation produced a magnificent rice crop and was extended to a much larger area of *rabi* than had ever been previously watered; still some anxiety was felt for the Bhabhua sub-division, especially the Chainpur and Mohania parganas, comprising an area of 1,000 square miles, and distress was also apprehended in a portion of Chausa (Buxar). In the Bhabhua tract, where population is sparse, the *bhadoi* outturn was estimated at ¼ annas, and the winter rice from 1 to 8 annas. But the *rabi* yielded from 8 to 12 annas, and there were eventually no symptoms of distress. The improvement in this sub-division was attributed chiefly to the rainfall, such as it was, in February, but was to some extent the result of embanking a hill stream called the Dargaoti, to which Government contributed Rs. 2,000. By this means a considerable area of country was irrigated, and a fine *rabi* crop secured. In the Buxar tract also the danger was averted by the outturn of the *rabi* crop, which was estimated at 10 annas at least. The position of Gaya was at one time more alarming, the worst parts of the district being half of the Aurangabad thana, and a portion of the Jahanabad sub-division, out of the reach of canal irrigation. The outturn of the winter rice was only 5½ annas, and that of the *rabi* crop varied from six to eight annas. From March to June, 1892, the price of common rice varied from 12 to 10¾ seers, and that of wheat from 15 to 13 seers, for a rupee. Test works were opened in different places from time to time, but the population nowhere availed themselves of the opportunities of obtaining work, although in one case a daily wage of 2 annas was offered. The explanation is that relief was effectually provided by agricultural works of improvement and by the advances made to carry them out. Up to 31st March, 1892, Rs. 35,000 were granted under the Land Improvement Loans Act, and Rs. 12,000 under the Agriculturists' Loans Act, and from 1st April to the end of June, 1892, the advances under these Acts amounted to Rs. 12,950 and Rs. 1,396 respectively. In Gaya there is an excellent system of catching the surface rain water, and leading it by channels into shallow reservoirs held up by earthen embankments. To carry out this method of irrigation a large amount of earthwork is required, and, with the advances made by Government, there was no dearth of employment. The effects of the scarcity were felt among the classes not accustomed to severe manual labour; the number of beggars increased, and a tendency was noticed among the poorer classes to abandon their helpless relatives and dependents, but private charity met all the necessities of the case, and the Mahant at Bodh Gaya is reported to have given alms to all applicants.

The districts where relief operations were actually carried on for any length of time were Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea and Dinajpur; and of each of these a detailed account is given below.

Muzaffarpur.

3. The tracts which suffered most in 1892 in the district of Muzaffarpur were the Lalganj thána of the Hajipur sub-division, and the Belsand and Shiuhar thánas, *i.e*, the south-western part of the Sitamarhi sub-division. There was also considerable distress in a tract to the west of Muzaffarpur between Paru, Sahibganj, and Bamraj, and in parts of the Katra and Muzaffarpur thánas in the Sadar sub-division. The outturn of the *bhadoi* of the year 1891 had been excellent, being estimated at 16 annas in the Sitamarhi and Sadar sub-divisions, and 14 annas in the Hajipur sub-division. Up to the middle of September of that year the prospects of the winter rice also were good, but from that time the crop began to be affected by want of rain, and to wither on the higher

lands. Early in October the reports became less favourable, and eventually the crop gave an outturn of 7 annas in the Sitamarhi sub-division, and of 5 annas and 3 annas in the Sadar and Hajipur sub-divisions respectively. In the Hajipur sub-division the rice crop is not important, but the *rabi* too failed, the estimated outturn for the district being 2 to 8 annas. Happily the northern part of the Sitamarhi sub-division, which had been the chief seat of distress in 1888-89, escaped entirely, being saved by the plentiful *bhadoi* crop, and the winter rice, the most important crop in this tract, was comparatively good. In March 1892, the Pupri thána of the Sitamarhi sub-division gave some cause for alarm, which, however, was never realised. When the distress was at its highest in May, the total area affected comprised 1,300 square miles, with a population of 1,173,785 persons. There was no lack of food in the district, and the imports and exports of food-grains by rail from the beginning of April to the middle of July 1892 were 1,52,438 maunds and 32,521 maunds respectively. Imports were largest in May and June, and exports increased as soon as the advent of the rains revived the confidence of the trading community. A comparative statement of prices of the principal food-grains for this as well as the other districts is given in Appendix II to this Resolution.

Relief works were opened in the first week of March, and the largest daily average number of persons employed was 14,147 (10,760 men, 1,568 women, and 1,819 children) in the week ending 4th June. From the second week of June the numbers steadily decreased until the works were finally closed on the 11th July, when field work became abundant. The relief operations have resulted in several valuable additions to the district communications. Many cart tracks, which were almost impassable in the rains, have been converted into raised roads of serviceable breadth. An embankment which protects the town of Muzaffarpur has been extended and strengthened, and the excavation of 17 tanks has been completed. A special feature of the relief operations in this district is that there were very few C class labourers, and no gratuitous relief was distributed. The average quantity of earth-work done by each labourer in one day was also large, being 92 cubic feet, and the average cost per 1,000 cubic feet, with a lead under 50 feet, was Re. 1-3-6. Mr. J. H. Bernard, who was Collector during the greater part of the relief operations, has recorded his opinion, based upon practical experience, that one rupee per 1,000 cubic feet with a short lead would be a sufficiently liberal rate for earth-work.

During the period of distress Rs. 25,616 were distributed as loans under the Agriculturists' Loans Act, and Rs. 200 under the Land Improvement Loans Act.

No death from starvation was reported or is believed to have occurred, though it may be accepted as a truism that it is likely that distress hastened the deaths of those who were already feeble from illness and old age.

In this district no private individuals assisted Government by opening relief works, but several indigo-planters rendered valuable service in supervising relief works, and also in the distribution of loans, which obviated the necessity of employing a large number of circle officers, and thus saved Government a considerable amount of expenditure on account of establishment. Their local knowledge was of the greatest assistance to the district authorities, and the punctuality and completeness with which they carried out instructions and sent in returns were most satisfactory. The Lieutenant-Governor desires that the thanks of Government may be conveyed to each of these gentlemen. Mr. A. Forbes was Collector of the district at the commencement of the relief operations, and was succeeded on the 17th May by Mr. J. H. Bernard. The latter has brought to the favourable notice of Government the good work done by Mr. E. V. Levinge, Sub-divisional Officer of Sitamarhi, and by Mr. L. F. Morshead, Sub-divisional Officer of Hajipur. Mr. G. W. Disney, as District Engineer, had immediate charge of the relief works, and by his knowledge of the district and able management rendered great help to the Collector.

4. The effects of the drought and consequent scarcity were more acutely felt in the Darbhanga district than elsewhere. The affected tracts were the Roserah and Bahera thánas, and a small portion of the Darbhanga thána to the east of the Darbhanga town in the Sadar sub-division; the Benipati and Khajauli thánas,

Darbhanga.

the northern half of the Madhubani thána and parts of the Phulparas thána, in the Madhubani sub-division. The Khajauli thána formed a part of the tract along the Nepal frontier, 90 miles in length, which suffered severely in 1888-89. These tracts, comprising in all 1,185 square miles, or about one-third of the total area of the district, are especially liable to famine, as they depend mainly on the winter rice crop. The outturn of the *bhadoi* crop of 1891 was 14 annas and 12 annas in the Sadar and Madhubani sub-divisions respectively, but this crop covers a comparatively small area. The winter rice crop of 1891-92 on the high lands was a total failure over the greater part of the district, and the outturn of the crop was only about 5 annas in both sub-divisions. Enquiries made in various places, however, tended to show that there were stocks of grain in the district, and from April to July 1892, inclusive, 3,02,622 maunds of food-grains were imported into the district, and 75,529 maunds exported, by rail. No difficulty was at any time experienced in providing supplies of food for the labourers on relief works. The statement given in Appendix II to this Resolution shows how remarkably little the prices of food-grains fluctuated. During the period of eight months common rice varied only between 14 seers per rupee as a maximum and 12 seers per rupee as a minimum. When the distress was at its height in May and the beginning of June, the highest price of *marua* (*eleusine corocana*), the staple food of the lower classes, was 17 seers 9 chittaks per rupee. As the normal price of this grain at that time of the year is about 25 seers the rupee, the ruling rate of the bazar indicates no great pressure. The observation is probably correct that it was a famine of money and not of grain, for those who suffered were the labouring classes for whom there was no work and the petty cultivators who, in ordinary years, live on the produce of their fields, eked out with labour paid for in kind in preparing the lands of wealthier raiyats.

The distressed tracts were divided into seven circles, viz., Benipati, Murukhia, and Bheja in the Madhubani sub-division, and Salehpur, Bahera, Hati, and Buchauli in the Sadar sub-division. The first works, consisting of three tanks, were opened in the Bheja circle (at first called Nawada) in the beginning of March. The Murukhia circle (at first called Katowna) was opened on the 14th March. In the Sadar sub-division operations were commenced on the 28th March, and by the beginning of April all the circles were at work except Benipati, which was opened on the 16th May. The distress in this circle was never so severe as elsewhere, and the task of Government, including the District Board, was lightened by measures taken by the Maharaja of Darbhanga, who owns a large portion of the land in the Benipati thána. Fears were entertained in May that the numbers of people on relief works were becoming so large as to exceed the capacity of the District Officer to organise them properly. Mr. D. R. Lyall, C.S.I., member of the Board of Revenue, paid a visit of inspection to Darbhanga, and his report satisfied the Lieutenant-Governor that the control over the masses of labourers was fairly efficient and that a good return was being obtained for the wages paid. The highest number of labourers, employed on the 11th June, was 47,452 (36,015 men, 6,162 women, and 5,275 children), but the rate of Re. 1-6-6 per 1,000 cubic feet of earthwork then allowed was suspected to have attracted a large number of professional diggers, such as *nonias* and *beldars*, and was reduced to Re. 1, the rate then prevailing in the district of Muzaffarpur. Consequently, by the 18th June the numbers had fallen to 25,815, and by the 2nd July to 12,899. This may be ascribed partly to the reduction of the piece-work rate, and partly to the rain which, about this time, began to fall and induced the people to return to their ordinary occupations in the fields. The number of labourers continued to decrease, and circle after circle was closed until on the 19th of July there was no relief work open in any part of the district. More difficulty was experienced in this district, by reason of the greater numbers involved, than elsewhere in the organization of the labourers employed on relief works. As a matter of fact, the distinction between classes A and B, *i.e.*, labourers paid by piece-work and those paid by task-work, respectively, was observed only in the Murukhia circle, and there was no difficulty in arranging for two classes only, A (labourers at piece-work rates) and C (persons capable of very light work and paid by daily wages), the people classed by the overseers as B themselves

preferring to work in class A. The intention of Government is that class B should be confined to those who are unaccustomed to earth-work, or are temporarily enfeebled by want, and that as soon as they grow strong and skilful enough to earn a full wage by piece-work, they should be transferred to the A class. As the District Engineer, Mr. H. W. Stevens, has reported, two classes, A and C, are practically sufficient, and in this district the stage of distress was never reached at which the permanent maintenance of an intermediate class was required.

The relief works carried out consisted of tanks and roads. Altogether 67 tanks have been dug at an actual cost, excluding establishment and other charges, of Rs. 94,310, the total quantity of earth excavated being 39,952,124 cubic feet. The total storage capacity of the tanks for water is 47,433,825 cubic feet, which would irrigate 19,764 bighas with two inches of water, and Mr. Dalton considers this enough to save the rice crop in the event of its being endangered by any future failure of the October rains. Work was taken in hand on 994 miles of road, of which 582½ miles have been finished, the total amount of earthwork done being 81,986,820 cubic feet, at a cost of Rs. 1,00,902, exclusive of establishment, the average rate per thousand cubic feet being Re. 1-3-8.

Gratuitous relief was found necessary only in four circles—Bheja, Murukhia, Salehpur, and Bahera. In Bheja and Murukhia, where this form of relief was commenced towards the latter end of April, there was, however, no great demand for it. In the Salehpur and Bahera circles gratuitous relief had to be given on a large scale. In these circles, respectively, the average number of recipients of such relief was 357 and 147 daily. The attention of the local officers was at first directed chiefly towards the northern and southerly circles of the district; the country about Bahera and Salehpur was not believed to be in so much danger; relief works were not opened in these circles till the beginning of April, and the regular distribution of gratuitous relief was not commenced till the 15th of May, when many persons of the most indigent classes had been weakened by insufficient food. The largest number in receipt of gratuitous relief, viz. 1,550 (248 men, 692 women, and 610 children), was reached in the week ending 28th May, and this form of relief was finally closed on the 23rd July. The total amount expended on gratuitous relief was Rs. 1,577-5-10, which was more than covered by the following contributions:—

	Rs.
Maharaja of Darbhanga, Rs. 500 a month for three months ...	1,500
Raja Rameshwar Sing	500
Rai Ganga Prasad	500
Total ...	2,500

C class labour being only another form of gratuitous relief, the Lieutenant-Governor approves the Collector's proposal that, when the final adjustment of accounts is made, this amount should be set off against the combined cost of gratuitous relief and C class labour.

As few individuals of the better classes received gratuitous relief in this district, there was little scope for successful efforts in the direction of obtaining some return for the weekly dole. A small amount of cotton-spinning was done by some *parda-nishin* women in the Bahera circle. The quantity of cotton spun was sold for Rs. 33-6, leaving a small profit to the famine account.

There was a great clamour for agricultural loans, which was not confined to the affected area, and it is a question whether many of the applicants did not contemplate lending the money again at higher interest. Of 2,186 applications received, all except 349 were rejected, and, in accordance with instructions given by Government, loans were restricted to the affected area and limited ordinarily to Rs. 2 per bigha. The advances made amounted to Rs. 11,880 in the Sadar and Rs. 19,992 in the Madhubani sub-division. There is no doubt that these loans enabled many of the poorer among the Brahman and Rajput cultivators to afford employment to a considerable number of labourers, and no lands anywhere lay uncultivated for want of either seed or labour.

There was no authenticated instance of a person previously enjoying average health and strength having died from inanition, but in Darbhanga, as in Muzaffarpur, the Collector heard of cases of old men and women dying, whose death was in all probability accelerated by insufficient nourishment. During the period of scarcity cholera was raging in the district, and some deaths, reported to be from starvation, were found on enquiry to be due to that disease.

The Maharaja of Darbhanga afforded material aid in the relief of distress. Besides paying a total contribution of Rs. 1,500 towards gratuitous relief, as already mentioned, he opened four tanks in May in the Raj circle of Rahika in which Benipati is situated, and instructed his sub-manager to attend to individual cases of want. He also provided four doctors for the treatment of the sick in the affected tracts, gave advances to his raiyats, and distributed a large quantity of seed *dhan*. The Lieutenant-Governor has much pleasure in recognizing the valuable assistance which the Maharaja of Darbhanga afforded to Government.

Mr. G. J. B. T. Dalton was Collector of Darbhanga throughout the period of distress, and though in bad health, never spared himself in the most trying weather. The works were directly under the District Engineer, Mr. H. W. Stevens, whose long acquaintance with the district was of much service in the relief operations. Mr. A. E. Harward was engaged during part of the time in visiting the distressed areas and reporting on the works.

Monghyr.

5. In the district of Monghyr anxiety was felt chiefly for a low tract of country in the Sadar sub-division on the north of the Ganges, extending to the boundaries of the districts of Bhagalpur and Darbhanga. Local exaggerations at the outset created a wrong impression of the real state of affairs. Ultimately Government relief operations were found necessary only in the extreme north of this belt, within the jurisdiction of the Bakhtiarpur outpost of the Gogri thána, which was a relief centre in 1874. The recollection of that year was still fresh among the people, and led to some apathy on their part, as they fancied that Government would again interfere with trade and import grain in large quantities. Mr. C. E. A. W. Oldham, Assistant Magistrate, was in charge of the relief operations. The distress in the tract affected was accentuated by the extreme poverty of the population in all seasons, the sandy nature of the soil over the greater part of the area, and the failure of the rains for two successive seasons. In 1891 the *bhadoi* outturn in the Gogri thána was only a four-anna crop, the yield of the following winter rice in Bakhtiarpur was about four annas, while the *rabi* crop of 1891-92 may be estimated at three annas. No figures are available as to the movements of food-grains in this particular tract, but the figures for the whole district, from the middle of May to the middle of August, show 1,43,059 maunds exported and only 28,308 maunds imported by railway.

Work was opened on two roads on the 7th February, but failed to attract persons in need of relief, as would have been the case if there had been real distress, till the latter end of May, when the excavation of some tanks in the extreme north of the district was started with the result that there was a sudden rush of labourers. It is believed that the people of the affected tract at first had recourse to the relief works in the Bhagalpur district, which were very close, and came back when tank work was started on the Monghyr side of the border. The Lieutenant-Governor does not feel sure that the real cause of the low numbers in April and May has ever been ascertained, but though close enquiry was made, nothing was found to raise a suspicion that the works were badly managed and that the labourers did not receive a fair wage for their work, though certainly the average outturn of work was very small. Mr. Vowell, as Collector of the district, visited the relief works on the 3rd July, and is stated to have been of opinion that tank work tended to relax discipline, which could be better exacted along a line of road. The Lieutenant-Governor does not understand why this should be the case, and considers that, within the comparatively small area of a tank, supervision can be exercised better than over a line of labourers stretching along several furlongs of road. But, as observed by Mr. Quinn in his report on the district of Bhagalpur, the

labourers may secure some special, and probably illegitimate, advantage in tank work; this, however, should be prevented to a great extent by close supervision and strict measurement.

The highest average attendance on relief works was reached in the week ending the 2nd July, when the average daily number was 1,815 (1,060 men, 500 women, and 255 children). The rains set in from the beginning of this month, and by the middle of it the situation was so far relieved and the prospects of the *bhadoi* crop were so assured that the labourers rapidly dwindled away and the works were closed on the 23rd. The works undertaken consisted of three tanks, and the raising of five, and construction of two roads, of which only the tanks were finished. The rate during the first week or two was 1½ annas per 100 cubic feet to males, and one anna to females for a corresponding task. Subsequently the rate was lowered to 1¼ annas for males. In Mr. Oldham's opinion this rate was not the least too high, and afforded as perfect a test as possible. Gratuitous relief was commenced in the latter part of February, and was continued till the 20th August, *i.e.*, a month longer than the works. The highest figure was reached in the week ending 5th March, when 250 persons were relieved. When the Lieutenant-Governor visited this district in the beginning of April, he saw the distribution of relief at Bakhtiarpur, and was pleased with the order and method observed. For the relief of women above the lowest orders, 30½ maunds of cotton were distributed to be spun into thread. The cost of the cotton was Rs. 542-13, and the value of the thread is estimated at Rs. 623, so that there is a probable gain of Rs. 80-13. Loans were confined to cultivators holding from 10 to 30 bighas of land. The total amount distributed was Rs. 19,088. There was no death from starvation, but the officer in charge of the relief operations came upon cases of destitution, discovered by personal enquiries, in which private charity had failed and state aid had to be given. There is nothing to indicate that the death-rate of the affected tract was in any way increased by the distress. In this district, as well as in Bhagalpur and Purnea to a certain extent, two roots, known as *chichar* and *bisaur*, proved a great help to the poorer classes. The former (*cyperus rotundus*) is a bulb somewhat like a very small potato, growing in low-lying swamps, and the latter is the root of an aquatic plant. Mr. Oldham has described how in every village a crowd of women and children might be seen digging up these roots and drying them for food, and he calculates that about 5,000 people were living more or less entirely on these roots.

The following zamindars came to the favourable notice of Government for their considerate treatment of their raiyats and their willing co-operation with the officials in the administration of relief:—Maharaja Ravaneswar Prasad Singh Bahadur of Gidhour, Babu Lachmi Prasad Singh of Saharpara in the Begusarai sub-division, Babu Kamaleswari Prasad of Monghyr, Babu Tarini Prasad and Chaudhri Mahbub Ali of Bakhtiarpur. They helped their raiyats by providing employment chiefly on irrigation and protective works, as well as by showing consideration in other ways. The estates of these proprietors, except the last, lie outside the Bakhtiarpur outpost where the Government relief operations were carried on; but there was quite sufficient pinching among the raiyats and labouring classes in the south of the district to afford scope for the benevolence of the zamindars. The Lieutenant-Governor appreciates the value of the services rendered by the gentlemen above-named, and desires that the thanks of Government may be conveyed to them in suitable terms.

Mr. R. M. Waller was in charge of the district until the 25th June, when he was succeeded by Mr. C. H. Vowell. During the latter's absence on short leave, the final report of the scarcity and relief was submitted by Mr. C. E. A. W. Oldham, who had been locally in charge of the relief operations, assisted by Babu Annada Charan Gupta, Sub-Deputy Collector.

Bhagalpur.

6. Three tracts were specially affected in the district of Bhagalpur. The first was a small area on the northern frontier of the district, lying west of the Birbandh; the second lay immediately round Supaul. In these tracts, each extending over an area of about 20 square miles, the distress was never very acute. The third tract of about 400 square miles was by far the largest and most seriously

affected. It extended from the Darbhanga boundary through the Bangaon thana of the Supaul sub-division and the Sadar thana of the Madhipura sub-division. The worst parts were those west of the Dimra, along the Darbhanga boundary and in the corner between Darbhanga and Monghyr. The three tracts together comprise 485 square miles, with a total population of 283,000. The Collector, Mr. Wace, who conducted the relief operations from February to May, was of opinion that the area affected was much larger, and the failure of each crop in it worse, than in 1888-89. The outturn of the *bhadoi* crops of 1891 was estimated by the local officers at only 3 or 4 annas in the affected tracts. An equally low estimate was formed of the winter rice crop in the affected parts, and it is stated that in the Bangaon thana the failure of this crop was all but complete, and that the yield of the *rabi* crops was less than 3 annas. But throughout the worst period the exports of food-grains by railway considerably exceeded the imports, the figures furnished for the months of December 1891 to August 1892, inclusive, being, exports 2,34,885 maunds, and imports 65,688 maunds (including 3,834 maunds of potatoes). This comparison shows that, though the food-stocks of the poorer classes were to a great extent depleted, while they stood in need of help in the shape of wages or loans to buy fresh supplies, the general store in and about the affected tracts was sufficient for local requirements. It has also been inferred by the Collector that the grain required for the food of the people in North Bhagalpur is very small in comparison with the quantity produced in normal years; for, although there was a failure of over 75 per cent. of the three principal crops, the prices, in spite of the quantities of grain exported, never reached famine point.

Work was first opened in the latter end of January on the Rajanpur embankment, in the Supaul sub-division, but was mismanaged, the work actually done being much too little and the wages paid too high. This was therefore no proper test of distress. Some tanks were taken in hand in February in both sub-divisions, but the relief operations cannot be said to have fairly commenced till the beginning of March; by the middle of that month 1,376 people were at work on them. Mr. H. R. H. Coxe, who succeeded Mr. Wace, reports that the first half of May was the most anxious time of the whole period of distress; there was hardly any rain, and it appeared probable that the young crops would wither, and that the rain would not come in time to allow the *bhadoi* rice to be properly sown. Rain, however, began to fall towards the end of May; the situation was then completely changed, and by the end of June the severity of the distress had passed. The daily average number of persons on relief works was highest in the second week of June, being 12,370 (6,333 men, 4,083 women, and 1,954 children); the numbers then declined owing to the vigour with which agricultural operations were carried on, and the excellent prospects of the crops, but it was not found possible to close the works finally till the 20th August, when the *bhadoi* rice came into the market. The works completed include one embankment, 26 tanks, and 10 roads. The Commissioner remarks that the fact that the value of the work done calculated at the normal rates considerably exceeds the amount expended in wages is evidence of good organization and supervision.

Gratuitous relief was not organised so soon in Bhagalpur as in other districts; the intention at first was that those who required such assistance should receive it at the works. A regular distribution of doles was commenced in the end of April, and closed in the third week of August simultaneously with the close of the relief works. The highest number of persons in receipt of gratuitous relief was 1,527 (399 men, 799 women and 329 children) in the week ending 23rd June. The recipients of gratuitous relief were in return required to spin cotton and, subsequently, to make string out of *sawai* grass. At first some pressure was required to get the work done, but, when the system was in full working order, it did not result in as large a diminution of attendance as might have been expected, thus showing that those who were not entirely helpless had by that time been more or less eliminated from the register.

The total sum advanced as loans was Rs. 37,180, of which the bulk was distributed between the middle of April and the middle of June.

There were no deaths from starvation, and it is evident that the distress never reached such a degree of intensity as to influence the death-rate materially.

The Lieutenant-Governor notices with great satisfaction the important part played by private relief in this district. The greatest assistance was given by the Maharaja of Sonbarsa, who spent Rs. 10,000 on the construction of a road, and excavated two large tanks. He has been made a Companion of the Order of the Indian Empire in recognition of his good services rendered on this occasion. The Maharaja of Darbhanga, who owns property in the tracts affected, spent Rs. 4,000 on tanks and Rs. 10,000 on advances, in addition to the expenditure incurred by him in the district of Darbhanga. Babu Ganput Singh distributed charitable aid and gave employment to labourers in the pargana of Harawat at a cost of about Rs. 5,000. He also made advances to cultivators to an almost equal amount. The Banaili Raj spent about Rs. 2,000 on relief works, and Rani Sitabati, Raja Padmanand Singh, and Babu Janardhan Singh of Barail each gave Rs. 1,000 in charity, the last-named gentleman devoting his own time and services to the distribution of his charity in accordance with the principles adopted by Government. Babu Tejendra Narain Singh distributed about Rs. 5,000 in the relief of distress. The total sum thus contributed towards the relief of distress was about Rs. 47,000, and His Honour desires that the thanks of Government may be conveyed to the donors individually for their liberality and public spirit. Sir Charles Elliott's thanks are due also to Mr. H. D. Christian, an indigo-planter of Bangaon, whose charge of the relief work near his factory took the place of official supervision. Mr. Maguire was officiating as Collector when the first measures for the administration of relief had to be taken: he was succeeded in February by Mr. Wace, who thoroughly organized the system to be followed and was in charge until 28th May, when Mr. Coxe relieved him. The Sub-divisional Officers of Supaul and Madhipur, respectively, were Babu Surya Kumar Sen and Babu Purna Chandra Gupta.

Purnea.

7. The area of actual distress in Purnea lay within well defined boundaries in the Kadwa and Amour thánas of the Sadar sub-division, and comprised in all 644 square miles, with a total population of 261,770 souls. The greater severity of distress in the Amour thána as compared with Kadwa is ascribed to the fact that the former is not so favourably situated as regards supplies as the latter, through which the railway runs with two stations, Katihar and Sonali, within the thána. The *bhadoi* crop of 1891 in the Sadar sub-division was estimated to have given an outturn of 6 to 12 annas. This was followed by a very poor winter rice crop in 1891-92, the estimated outturn in the affected tracts being only 2 annas, while the *rabi* ultimately yielded from 5 to 6 annas. The stock of food-grains had been much reduced by heavy sales in the previous year. This is borne out by the fact that there was no exportation of food-grains from the affected thánas, while between January and August about 1,76,090 maunds were imported from North Bihár, Bhagalpur, Malda, Bolepur and Nepál (until the Government of the country last-named prohibited exports). Numerous conflagrations occurred also, caused, it is said, by labourers with a view to stimulating the demand for labour. Some increase in crime also took place, attributable to the scarcity.

In this district relief was commenced about the same time as in Bhagalpur, and closed earlier than elsewhere, work having been opened on the 27th January and finally closed on the 28th May. The laying out of the works and the organization of labour were carefully carried out, but for a long time there was difficulty in exacting sufficient work from the labourers. Their numbers were too large for the officers available to supervise. This was noticed by the Commissioner, Mr. C. C. Quinn, early in March, and the introduction of the piece-work system under his orders effected some improvement in this respect from the latter end of the month; but the work done by each labourer continued to be very small till towards the end. In explanation of this, he states that the people of Purnea have never shown much aptitude for road work, and that the classes employed on the works were

enfeebled by fever which was very prevalent at that time. The cost of 1,000 cubic feet of earth work was at first so high as Rs. 6-2-5, and was gradually reduced to Re. 1-6-2 as better supervision was secured. The normal rate of cost in the district is Re. 1-12 to Re. 1-14 per 1,000 cubic feet. The highest daily average number of labourers employed was 4,826 (3,207 men, 917 women, and 702 children) in the week ending 12th March. Towards the end of April some 1,000 persons left the works on the introduction of lower rates of wages. About this time there was a sufficient fall of rain, which made work available at better rates elsewhere. Henceforward there was a steady reduction in the number of labourers. The works undertaken consisted of the raising of nine roads, of which three were finished.

Gratuitous relief, which in this district bore a larger proportion to works than elsewhere, was commenced on the 30th January, *i.e.*, about the same time as the relief works, but was continued nearly a month longer, having been closed on the 17th June. The highest number of persons on the register was 1,360 in the week ending 9th April. Some light work in the shape of making string from hemp and thread from cotton was done in return for the weekly doles. The total amount spent on gratuitous relief was Rs. 3,410 (including contingent expenditure of Rs. 211-12-7), of which Rs. 2,380 were borne by private subscriptions, the remainder devolving upon Government.

Enquiries in connection with the distribution of loans were more promptly undertaken in Purnea than in the other districts of the Bhagalpur Division. The advances amounted to Rs. 22,691, of which only Rs. 140 were granted under the Land Improvement Act, and the remainder under the Agriculturists' Loans Act. This form of relief was not, however, confined to the Kadwa and Amour thánas, but was extended to a tract in the Sadar thána, a small portion of Gondwara, and the khas mahal estate Belwa in Manihari. Except in very exceptional cases no loans were allowed to cultivators who owned much less or much more than 20 bighas: the amounts varied from Rs. 2 to Rs. 30.

The rate of mortality was high in March and April, being just over 4 per cent., but this was due to the sickliness of the year. A high death-rate, chiefly caused by fever, had set in long before the scarcity, and continued throughout. There were no deaths from starvation. Mr. C. H. Vowell was Collector of the district during the period of the relief operations; Mr. F. W. Duke, the Joint-Magistrate, was directly in charge of them, and worked with praiseworthy assiduity and energy. The completeness of the report of the scarcity and relief, submitted by Mr. Faulder, as Collector, is appreciated by Government. His subordinates, Maulvi Muhamed Habibullah, Deputy Collector, and Maulvi Shah Muhamad Azam, Sub-Deputy Collector, have been specially mentioned to Government for the performance of their duties. The services rendered by Babu Dharam Chand, a zamindar of this district, who gave loans and remitted rents where necessary, have already been acknowledged by Government.

Dinajpur.

8. Mr. A. C. Tute, by whom the final report has been submitted, has, in the absence of official documents, found difficulty in describing the earlier course of the scarcity and the measures taken to meet it. He assumed charge of the district on the 23rd November 1891; up to that date his predecessor and the District Engineer were in constant communication, but their correspondence was not brought on record. The want of such records must always cause great inconvenience, and the Lieutenant-Governor directs that, when distress is anticipated, and even before it is declared to exist, all the initial stages and steps taken should be carefully recorded for future reference.

The district of Dinajpur depends for its food-supply almost entirely on the winter harvest. The autumn rice is ordinarily a little over one anna of the whole produce, or about one-twelfth of the winter rice, while the *rabi*, which consists chiefly of oil-seeds, is of importance only as a money-producing crop like jute. The area affected in this district lay north of the Dinajpur branch of the Northern Bengal State Railway, extending over 1,030 square miles, with an estimated population of 447,000 persons. It comprised Western Thakurgaon, Ranisankoil thána, a part of the Pirganj thána in the Thakurgaon

subdivision, the Hemtabad thána, excluding Raiganj outpost, and a part of the Birganj thána in the Sadar sub-division. The tract lies between a line drawn from Birganj to Pirganj and the Railway. In this area there were bumper crops of winter rice and jute in 1890-91, the outturn of the autumn rice of 1891 was about 11 annas, and the yield of the winter rice of 1891-92 was estimated at three annas. As the ordinary condition of the people of Dinajpur in regard to the means of subsistence is distinctly above the average of Bengal, the distress in this district was never so acute as in Bihar. The Commissioner twice offered to find very remunerative work on the Duars Railway for the people of the tract where the failure had been greatest, but no one cared to migrate for this purpose. On the other hand, the villagers, who during the scarcity worked on roads for about half the current rate of wages, ordinarily decline such work on any terms, leaving it to immigrants from Bihar. This shows that, although the pressure never passed a certain point, there was unusual dearth of employment. No precise figures have been furnished by the Collector as to exports and imports, but it appears that from the district, as a whole, there was steady exportation to other districts, and that there was some importation of food-grains into the affected tracts from the south of the district. In Appendix II to this Resolution a table is given showing the prices of common rice which is the staple food of the district. But, as the Collector observes, as Dinajpur is a large exporting district, and two railways run through it, local prices are not governed by the quantity of grain stored in the district which would be available in a year of famine, but by the prices ruling in Calcutta or elsewhere, and are not therefore an infallible test for guidance. The ordinary cultivator always keeps a year's stock in hand before he sells anything, and is not affected by the prices ruling in the market until his stock is exhausted, when it is possible that he may have no money to buy, whatever the price may be.

About the 7th November, 1891, some relief works were opened in the extreme north of the district, and a daily wage of 3 annas was fixed, this being three-fourths of the ordinary rate in the district. In the course of a few days it came to light that the labourers would do no work, and Mr. Tute, soon after he had taken charge of the district, passed orders for strict task-work, which had the effect of closing the works altogether. The test applied by these works showed that an exaggerated idea had been formed of the distress then perceptible in the district. Mr. Tute stopped the preparation of formal lists of persons to be relieved, as improper claims for relief were advanced, and took other steps to allay the panic which prevailed at the time. He also noticed that the people were under the impression,—an idea fostered by persons who intended to profit by the situation,—that Government was going to stop exports and interfere with trade. He accordingly convened a meeting of all the traders in Raiganj, and told them that even if they brought out all their rice and burnt it he would not interfere. The opening of relief works was ultimately rendered necessary by the absence of the winter rain required to save the very large area sown in *rabi*. Relief works were opened in January, but there were no large numbers at work till about the middle of February, when the *rabi* had perished and the prospects of the *bhadoi* became gloomy. Heavy rain began to fall on the 16th March and changed the whole situation. The highest daily average number of labourers employed was 2,406 (1,995 men, 231 women, and 180 children) in the week ending 7th May. The number then gradually diminished until the works were closed on the 2nd July. During this period the rates of payment for labour were constantly regulated so as to prevent people from coming on the works who were not absolutely in need of employment. Work was undertaken on 16 roads and 8 tanks, none of which were finished during the period of distress.

No gratuitous relief was found necessary till after the close of the works, when, of the labourers who remained at the works till the last moment, about a dozen widows were found fit objects for charity. These women were taken care of until they were handed over to their zamindars, and the total amount spent under this head was Rs. 3-15. It was a satisfactory feature of the situation that the helpless poor were looked after by their zamindars, and in this respect all the zamindars in the district did their duty loyally, so that at no time was there an influx of beggars or cripples at the Government centres.

Several small *jotedars* (cultivators), who in ordinary years would have been helped by their mahajans, were at first refused assistance by them. They were in danger of having to sell their cattle and thus be deprived of the means of cultivating their fields. Steps were promptly taken to grant loans, and no sooner had a sum of Rs. 4,540 been thus advanced, than the mahajans and zamindars, knowing that the repayment of a Government loan would be a first charge, came forward, and thus the class of *jotedars* who might otherwise have suffered never came on the relief works at all. The total sum advanced was Rs. 5,838. There were no deaths from starvation. Mr. Tute makes the following deductions from the operations carried out, with which the Lieutenant-Governor desires to express his full concurrence:—

1st.—One year of scarcity will not cause a famine in this district. It may, and probably will, necessitate helping landless labourers to some extent, but as long as a *jotedar*, who cannot cultivate all his own land, has the means to do so, he will employ landless labourers;

2nd.—takávi loans are the best form of relief for small *jotedars* when mahajans refuse to lend; otherwise they are unnecessary. The issue of such loans has the effect of bringing out the mahajan's money, and the raiyats prefer dealing with him to dealing with Government for loans;

3rd.—in a year of scarcity like this, the zamindars of the district, if properly appealed to, are able and willing to cope with actual starvation and provide for the helpless;

4th.—the people of this as of all other districts are very easily demoralized, but are able to perceive that exceptional measures will not be taken solely because interested people desire them.

The Lieutenant-Governor desires to acknowledge Mr. Tute's judicious and efficient management of the scarcity and relief administration from almost the beginning to its close. Mr. Tute has brought to the notice of Government the services rendered by Babu Atul Krishna Mukharji, the District Engineer, who was indefatigable in visiting the works, watching their progress and controlling expenditure. The zamindar of Churaman is the only local resident specially mentioned for his charitable actions, but all the zamindars are said to have done their duty to the helpless and the poor.

---

9. Appendix III to this Resolution shows the progress of the relief operations in each district week by week, and in Appendix IV a diagram is given to illustrate the rise and fall of the numbers on relief works. The following is an abstract statement of the principal figures compared with those of 1873-74 and 1888-89 :—

District.	Area of the district in square miles.	Total population of the district.	Number of square miles affected.	Population of the affected area.	Duration of relief operations.	Relief Works.			Gratuitous Relief.			Advances.			
						Largest number of labourers employed on any day.		Total amount disbursed as wages.	Largest number relieved on any day.		Total amount disbursed.	Under the Land Improvement Loans Act.	Under the Agriculturists' Loans Act.	Total.	Per 100 of population; percentage of column 15 on column 3.
						Number of labourers and date.	Percentage on population, column 3.		Number relieved and date.	Percentage on population, column 3.

* Includes 117 square miles affected by floods outside the drought-stricken area in the district of Champaran.

10. The Lieutenant-Governor considers that in each district the necessities of the case were fully met by the measures taken. No poor-house relief or suspension of land revenue was found necessary at any stage of the distress. As far as is known, there were no deaths from starvation, and the people generally were as fit to work and as strong as they ever were, and the works carried out were sufficient to afford employment to those who required it. At the earlier stages there was a tendency to give too high wages, but as time went on, and experience was gained, they were sufficiently reduced to render the works attractive only to those who were really in need of relief. His Honour wishes to place on record his appreciation of the services of the Commissioners * and District Officers concerned, all of whom, during a trying period, loyally carried out the orders of Government and acquitted themselves to his entire satisfaction.

* Mr. D. R. Lyall, C.S.I. } Patna.
Mr. A. Forbes. }
Mr. C. C. Quinn. Bhagalpur.
Mr. P. Nolan. Rajshahi.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that copies of it, bound up with copies of the final reports, be forwarded to all Commissioners of Divisions and submitted to the Government of India.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

FINANCIAL RESOLUTION.

FINANCIAL DEPARTMENT—FINANCE.

Calcutta, the 27th December 1892.

RESOLUTION—No. 5191F.

In the Resolutions of the 17th April and 26th October 1891, the general results of the five years' Provincial contract of 1887 were briefly reviewed. This review was based upon the revised estimates of 1890-91 and the budget estimates of 1891-92. The Accountant-General's memorandum on the accounts of the former year has since been received, and although the accounts of the latter year have not yet been finally closed, the Appropriation Report for the year, furnishing approximate results, is sufficient for all practical purposes. A new contract has now been concluded for another five years, and materials are available for reviewing the Provincial finances during the period of the expired contract. The figures of the revenue and expenditure of the first seven months of the current year have been received from the Accountant-General, and these afford sufficient data for a revised forecast of the probable position of the province in the first year of the period upon which it has now entered.

PART I.—ACCOUNTS OF 1890-91.

2. The actuals of 1890-91 furnished by the Accountant-General in his memorandum on the accounts of the year are compared in the following table with the revised estimate adopted in the Financial Resolution No. 4501, dated the 26th October 1891:—

Receipts.			Outgoings.	
Revised estimate.	Actuals.		Revised estimate.	Actuals.
Rs.	Rs.		Rs.	Rs.
2,87,26,000	2,86,05,404	Principal heads of revenue	61,77,000	60,94,967

5,19,63,000	5,14,84,207	Total ..	5,22,63,000	5,26,87,980
36,77,000	36,76,547	Opening balance ...	.....	.....
.....	.....	Closing balance ...	33,77,000	24,72,774
5,56,40,000	5,51,60,754	Grand Total ...	5,56,40,000	5,51,60,754
		Excess of expenditure over receipts.	3,00,000	12,03,773

3. The revised estimate adopted in the Financial Resolution of the 26th October 1891 assumed that the year 1890-91 had opened with a credit balance of Rs. 36,77,000, and closed with a credit balance of Rs. 33,77,000; that the total amount available for expenditure was Rs. 5,56,40,000, and that Rs. 5,22,63,000 had been spent. The actual result was less favourable than this estimate by Rs. 9,03,773. The amount actually available for expenditure was Rs. 5,51,60,754, and the amount actually expended Rs. 5,26,87,980. The closing credit balance was Rs. 24,72,774.

4. There was a decrease of Rs. 4,78,793 on the Revenue side, of which Rs. 83,707 was under Jails, and this was due to no adjustments being made in the year after the revised estimate had been passed in October last for jail manufactures supplied to other departments, but for which an allowance of a like amount was made in the estimate.

The remainder of the decrease was almost entirely due to the transactions of the Tirhut and Bengal and North-Western Railways. The Government of India have not made any allowance for the loss to the Provincial revenues caused by the transfer of the Tirhut Railway to the Bengal and North-Western Railway Company, for which a credit of Rs. 2,24,334 was taken in the revised estimate. The gross receipts of this railway for 1890-91 and those of the Bengal and North-Western Railway for nine months from 1st July 1890, the date from which the accounts of the two railways have been combined, to 31st March 1891, amounted to Rs. 39,03,251, against Rs. 39,57,547 anticipated in the estimate of October 1891, showing a decrease of Rs. 54,296. The adjustments under Land Revenue on account of the shares of the Company in the net earnings of the Bengal and North-Western Railway for the nine months provided for a payment of Rs. 9,39,000, but the actuals amounted to Rs. 10,49,556, showing a loss of Rs. 1,10,556. The total decrease on account of these transactions thus amounted to Rs. 2,24,334+54,296+1,10,556=3,89,186.

5. The actual expenditure in 1890-91 compared with the revised estimate shows a net increase of Rs. 4,24,980. The fluctuations have been chiefly under (1) Land Revenue (—85,087), (2) Police (+5,72,884) and (3) Working Expenses of State Railways (—71,184).

The decrease under 1) was chiefly under Survey and Settlement charges, which amounted to Rs. 4,16,676 against Rs. 4,90,000, the revised estimate passed by the Government of India. The increase under Police was due to the inclusion of the charges connected with the Chin-Lushai Expedition and the formation of the South Lushai Hills district. In the revised estimate for 1890-91, these charges were eliminated from the Provincial account, as the question of their final adjustment had not then been decided. The decrease under State Railway Working Expenses was in the Tirhut and Bengal and North-Western Railway.

6. The net result of the year, as stated above, was unfavourable to the extent of Rs. 9,03,773, and the year closed with a credit balance of Rs. 24,72,774, against Rs. 33,77,000 anticipated when the revised estimate was framed. The deficit of the year, or the excess of charges over receipts, amounted to Rs. 12,03,773, which was mainly due to a special contribution of ten lakhs paid to the Imperial Revenues in consequence of the financial difficulties of the Government of India, and to a special grant of four lakhs made to the Public Works Department to undertake urgent works, especially to defray the cost of repairs and maintenance of the roads in the Darjeeling district which were much damaged by heavy rains, and the new feeder roads to the railway in Chota Nagpore.

PART II.—APPROXIMATE ACCOUNTS OF 1891-92.

7. The following table compares the approximate actuals for 1891-92 with the latest estimates adopted by the Government of India :—

8. Taking the Civil and Public Works heads together, the Provincial receipts of the year amounted to Rs. 5,78,00,113 against the revised estimate of Rs. 5,69,92,000, and the Provincial expenditure aggregated Rs. 5,78,87,871 against the estimate of Rs. 5,74,65,000. The revised estimate allowed for a special contribution of 3½ lakhs from Imperial to Provincial to make up the Provincial balance of 20 lakhs, which under the orders of the Government of India the Government of Bengal is ordinarily bound to maintain. No such grant was, however, necessary, as an unexpected increase occurred in almost all principal revenue heads in the last two months of the year. The main cause of the improvement in the financial position of the province was the increase in the Provincial share of receipts under Railways, as the following statement will show:—

	Estimate passed by the Government of India, 1891-92.	Approximate actuals, 1891-92.
RECEIPTS.	Rs.	Rs.
Eastern Bengal State Railway	70,90,000	68,41,226
Other sections of the Eastern Bengal System ...	43,60,000	46,22,609
Nalhati	90,000	92,353
Tirhut and Bengal and North-Western Railway	48,50,000	48,88,540
	1,63,90,000	1,64,44,728
Deduct—Imperial share of the receipts from Eastern Bengal State Railway (Proper) being excess over 30 lakhs of the net earnings of the Railway	8,25,000	4,05,180
Total ...	1,55,65,000	1,60,39,548
CHARGES.		
Eastern Bengal State Railway ...	32,65,000	34,36,046
Other sections of the Eastern Bengal System ...	28,85,000	28,26,747
Nalhati	60,000	48,177
Tirhut and Bengal and North-Western Railway	42,25,000	41,54,898
Total ...	1,04,35,000	1,04,65,868
Net receipts (Provincial) ...	51,30,000	55,73,680

The charges of the Eastern Bengal State Railway (Proper) amounted to Rs. 34,36,046 against Rs. 32,65,000 passed by the Government of India in the revised estimate. The increase was due to the adjustment of the claim of the East Indian Railway Company for arrear freight on coal amounting to Rs. 2,21,102. This increase raised the expenditure on the broad gauge section to Rs. 34,36,046; and as the receipts on that section fell to Rs. 68,41,226, there remained a surplus of Rs. 34,05,180, of which only Rs. 4,05,180, instead of the estimated surplus of Rs. 8,25,000, passed to Imperial revenues, as the Imperial share was limited to any excess over 30 lakhs of the net earnings of Eastern Bengal State Railway (Proper). Thus, while the gross receipts and charges under Railways exceeded the revised estimates only by Rs. 54,728 and Rs. 30,868 respectively, and the net earnings by Rs. 23,860, the reduction of the Imperial share in these earnings benefited the Provincial revenues to the extent of nearly Rs. 4¼ lakhs.

The revenue derived from the canals classed as Irrigation Major Works amounted to Rs. 16,02,710 against Rs 14,42,000 provided for in the revised estimate. The excess was due chiefly to larger collections of water-rates.

The heads of revenue and receipts in the Civil Department which chiefly contributed to the increase were Land Revenue (Rs. 58,000), Stamps (Rs. 1,50,000), Excise (Rs. 46,000), Provincial rates (Rs. 1,45,000) and Jails (Rs. 78,000).

9. The total expenditure exceeded the revised estimate by Rs. 4,22,871, and the chief fluctuations are explained below:—

Land Revenue.—The Accountant-General's account showed that the total expenditure under this head amounted to Rs. 41,14,224 against the revised estimate of Rs. 39,50,000. The increase was mainly under Surveys and Settlements which were actively pushed on during the year, and was partly also due to the creation of the Palamau and South Lushai districts.

Law and Justice, Courts of Law.—The actual charges under the heads of (*a*) "Law Officers," (*b*) "Civil and Sessions Courts," and (*c*) "Refunds" exceeded the revised estimates by Rs. 18,000, Rs. 29,000, and Rs. 13,000, respectively. The increase under (*a*) was due to the adjustment of large payments in Calcutta for conducting certain important law suits. The increase under (*b*) was caused by addition to the number of munsifs.

Police.—The revised estimate under this head was Rs. 58,31,000, but the total expenditure amounted to Rs. 59,53,275. The excess was under "Village Police" (Rs. 16,000), "Special Police" (Rs. 64,000), and "Refunds," (Rs. 50,000), the increase under the first head being due to the extension of Act V of 1887 to the district of Lohardaga, and that under the second to heavier expenditure in the South Lushai Hills.

Political.—There was larger expenditure under "Durbar Presents," and the total charges amounted to Rs. 34,505 against the revised estimate of Rs. 12,000. The increase was on account of khilluts purchased for presentation to the recipients of titles sanctioned after the revised estimate had been passed.

Stationery and Printing.—The original budget estimate under this head, amounting to Rs. 10,18,000, was raised by the Government of India to Rs. 13,09,000 on information furnished by the Superintendent of Stationery to meet a large increase of expenditure under "Stationery supplied from Central Stores." The actual charges amounted to Rs. 13,34,909, the increase being due to increased charges on account of rent of godowns and office expenses and miscellaneous, consequent on increased purchases and larger supplies of stationery.

Miscellaneous.—There was an increase of expenditure under "Donations for charitable purposes" (Rs. 25,000), due entirely to the larger payment on account of the contribution to the Calcutta Female Nurses' Institution made at the close of the year, and under "Miscellaneous and unforeseen charges" (Rs. 54,000), chiefly on account of the irrecoverable balance of embankment advances made in the district of Muzaffarpur from 1877 to 1882, amounting to Rs. 42,000, written off under the order of Government to debit of this head. The total expenditure amounted to Rs. 2,94,751 against Rs. 2,07,000, the revised estimate.

Irrigation Major Works.—An expenditure of Rs. 13,54,171 was incurred on account of the working expenses of the canals against Rs. 14,23,000 provided for in the revised estimate. The saving was mainly under the following heads:—

	Revised estimate.	Actuals.
	Rs.	Rs.
Midnapore Canal—		
Establishment	75,000	64,301
Sone Canals—		
Extensions	8,000	3,812
Repairs	2,71,000	2,59,804
Establishment	3,91,000	3,55,573
Refunds of Revenue	13,000	8,980
Total ...	7,58,000	6,92,470

Minor Works and Navigation.—The works in charge of the Public Works Department cost Rs. 15,59,796 against Rs. 16,84,000 provided for in the revised estimate passed by the Government of India. The decrease was mainly for smaller expenditure on the Hidgellee Tidal Canal and under Agricultural Works.

Civil Works in charge of the Public Works Department.—The increase under this head was Rs. 1,37,194, due principally to the increase of stock in the 1st Calcutta Division caused by the purchase of bricks from the lessee of the Government factory at Akra.

Civil Works in charge of Civil Officers.—The charges under this head aggregated Rs. 1,46,306 against Rs. 2,11,000 passed by the Government of India in the revised estimate. One of the chief causes of decrease was that the disturbances in the Lushai district prevented the construction of some projected works.

10. *Closing balance.*—The closing balance, as shown above, amounts to Rs. 23,85,016 against Rs. 20,00,000 estimated by the Government of India, and the increase has been obtained without taking any contributions from the Imperial revenues, while the estimate included a credit of Rs. 3,33,000 to make up the prescribed minimum balance of 20 lakhs.

PART III.—WORKING OF THE PROVINCIAL CONTRACT OF 1887.

11. In the Financial Resolution of the 24th December 1887, the results of the Provincial Contract of 1882, which was in force for the five years 1882-83 to 1886-87, were examined and reviewed. In this Resolution was also given some account of the terms of the contract which has just expired, governing the financial administration of this Province from 1887-88 to 1891-92. This period has now closed, and it will be convenient therefore to examine the operation of that contract.

The contract of 1887 was based for the most part on the arrangements proposed by the Finance Committee. No material advance in the system of decentralisation was made, but by a redistribution of the shares of the Imperial and Provincial Governments in the three principal heads of Land Revenue, Stamps, and Excise, and by certain reductions in expenditure which were considered feasible, a general standard of normal revenue and expenditure was obtained, which was adopted as the "Ruling account." The surplus of this account, amounting to Rs. 6,90,000, was appropriated by the Government of India through the Land Revenue head, leaving the province with a revenue and expenditure exactly equal. The Government of Bengal was admitted to a quarter share in the Land revenue collections, except those from Government estates, whilst under Stamps and Excise its share was changed from one-half in the preceding contract to three-fourths and one-fourth respectively. The proportion of charges under Stamps and Excise followed the proportion of receipts. The cost of surveys and settlements and of the maintenance of agricultural works and embankments was made entirely Provincial. Refunds and Drawbacks followed the proportions assigned for the revenues concerned. The Patna-Gaya State Railway was made Imperial, and the Eastern Bengal State Railway System, Provincial, with this reservation, that any excess over 30 lakhs in the net revenue from the Eastern Bengal State Railway (Proper) was to be credited to Imperial revenues. The interest on funds provided for outlay on State Railways and Irrigation Major Works was borne by the Provincial revenues, and was calculated on the entire capital outlay, including loss by exchange, from the commencement of operations, but excluding the amount advanced from Provincial revenues during the term of the contract.

12. The only important change made since the contract was finally settled is the transfer of the management of the Tirhut State Railway to the Bengal and North-Western Railway Company from 1st July 1890. But the Provincial accounts have been swollen by the inclusion of the receipts and working expenses of that Railway, including the payment to the Company of their share in the net receipts from the entire undertaking.

13. The following statements show at a glance the progress of the Provincial receipts and expenditure during the five years as compared with the assignments made in the contract:—

14. It appears on the face of this statement that the Provincial revenues have increased from the contract estimate of Rs. 4,64,47,000 to Rs. 5,78,00,113, while the expenditure on all accounts has risen from an assignment of a like amount to Rs. 5,78,87,871. But it would be misleading to say that the whole of this growth of more than 100 lakhs in revenue and expenditure has been the outcome of Provincial administration. As already stated, the accounts of the last two years, 1890-91 and 1891-92, have been swollen on both sides by the inclusion of the transactions of the Bengal and North-Western Railway from 1st July 1890, without affecting in any way the finance of the province. The accounts of these two years have also been swollen with excess duty levied under the Succession Act VII of 1889 on probates, letters of administration, &c., which has been paid back in entirety to Imperial through the adjusting head of Land Revenue. Again, out of the total capital outlay on the Orissa Coast Canal, amounting to Rs. 5,04,839, additional assignments of Rs. 3,10,000 and Rs. 1,81,000 were made to Provincial Revenues in 1887-88 and 1889-90 respectively, and advances aggregating Rs. 4,37,216 have also been made from Imperial Revenues during the last three years of the contract, for remodelling the Hidgellee Tidal Canal, the Provincial Government undertaking to pay interest on this last amount till it is paid back.

Since the settlement of the contract the Eastern Bengal Railway Police has been provincialized with effect from 1887-88 with an assignment of Rs. 41,000 a year; the ordinary political charges have been transferred from Imperial to Provincial revenues with effect from 1888-89 with a grant of Rs. 21,000, and the Police of Calcutta and the Suburbs has been made entirely Provincial with effect from the third year of the contract with an assignment of Rs. 2,00,000.

An additional assignment of Rs. 93,000 a year has also been sanctioned to meet the cost of interest on exchange on the capital outlay on State Railways, which was not taken into account when the contract was made.

The opening of the South Lushai Hills district caused a considerable increase of expenditure in the last two years, especially under Police, amounting to Rs. 12,26,860, against which the Provincial Revenues have received in the last year a grant equivalent to half the amount.

A Provincial Loan Account has also been opened from 1888-89, of which only the interest received and paid are entered in the General Account.

15. Eliminating the transactions which are purely formal, and which had no direct effect on Provincial finance during the period covered by the contract, exhibiting separately numerous other adjustments shown in detail in paragraph 17 below, and taking only the net results under Railways, the following table shows the actual growth of revenue and expenditure during the five years in *thousands* of rupees.

	Contract assignment.	Actuals, 1887-88.	Actuals, 1888-89.	Actuals, 1889-90.	Actuals, 1890-91.	Actuals, 1891-92.

It will be seen that the revenues have risen from Rs. 4,24,52,000 in 1887-88 to Rs. 4,33,31,000 in 1888-89, Rs. 4,51,90,000 in 1889-90, Rs. 4,54,31,000 in 1890-91, and Rs. 4,64,84,000 in 1891-92; that the expenditure has increased from Rs. 4,05,91,000 in 1887-88 to Rs. 4,34,87,000 in 1888-89, Rs. 4,39,04,000 in 1889-90, Rs. 4,54,04,000 in 1890-91, and Rs. 4,71,87,000 in 1891-92; that against this increase of expenditure additional grants aggregating Rs. 25,22,000 in five years have been obtained from the Imperial revenues, while, in addition to the annual payment of Rs. 6,90,000 out of the Provincial surplus, a special contribution of 10 lakhs has been made to the Imperial revenues, in 1890-91. The principal fluctuations under the major heads are explained in the following paragraphs.

16. *Land Revenue*—The receipts from Land Revenue Proper have been as follows:—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Gross Land Revenue	3,82,50,000	3,80,01,091	3,73,73,461	3,88,82,119	3,88,19,398	3,80,79,867
Deduct—Percentage on collections from Government estates set apart for management and improvements	3,87,000	3,83,896	3,25,880	3,94,620	3,83,574	4,68,873
	3,78,63,000	3,76,17,195	3,70,47,581	3,84,87,499	3,84,35,824	3,82,10,694
Provincial share	94,66,000	94,04,299	92,61,895	96,21,875	96,08,956	95,52,673
Percentage on collections as above ..	3,87,000	3,83,896	3,25,880	3,94,620	3,83,574	4,68,873
Total ...	98,53,000	97,88,195	95,87,775	1,00,16,495	99,92,530	1,00,21,546

Under the orders of the Government of India, Finance and Commerce Department. No. 4689, dated the 14th December 1886, special efforts were made to collect the full demand for 1886-87 before the contract came into operation, and this led to a considerable diminution of arrear demands for collection in the following year. The decrease in 1888 89 was chiefly due to the failure of the Burdwan Raj to pay its March instalment before the close of the year, and also to smaller collections in Government Estates in Midnapore and Orissa, which suffered from floods and droughts during that year. The short collections in 1887-88 and 1888-89 were made up in the two following years, and the receipts in 1891-92 were smaller than in the preceding year, as the arrear balances had again been comparatively reduced in the latter. The average realizations during the five years have been at the rate of Rs. 3,83,51,000, which shows an improvement of more than a lakh over the contract estimate, and this nearly corresponds to the increase in the current demand. When it is remembered that only a small part of Bengal is temporarily settled, and that there have been years of unfavourable harvest in parts of the country, this improvement may be considered satisfactory. The percentage on collections from Government estates for their management and improvement has been raised from 10 to 12 per cent. under the orders of the Government of India, Home Department, No. 196, dated the 29th May 1891, with effect from the beginning of 1891-92, in order to provide for sanitary improvements in villages, and this accounts for the large increase shown under this minor head in 1891-92. The total Provincial receipts in the five years amounted to Rs. 4,94,06,541, and the gain to the Provincial revenues under this head over the contract assignment of Rs. 5 × 98,53,000 or Rs. 4,92,65,000 *plus* 78,000, the additional percentage, or Rs. 4,93,43,000 has been Rs. 63,541 only.

17. The details of the adjustments between the Imperial and Provincial accounts effected through the Land Revenue head are shown below:—

Total ...	(—)6,89,000	(—)2,40,185	(—)5,01,838	+1,61,032	(—)22,97,338	+13,81,360

For items 8, 9, 15, 27 and 31, grants equivalent to nearly half the additional charges thrown on the Provincial Revenues were sanctioned, and if full assignment had been made, the province would have been better off by nearly twelve lakhs than the results show it to be. On the other hand the Provincial Revenues have been relieved to the extent of Rs. 1,01,941 in consequence of the change in the procedure of charging rewards paid out of criminal fines in Stamp and Excise cases, under the departmental heads of accounts instead of under the wholly Provincial head of Law and Justice, while an increase of revenue, amounting to Rs. 2,34,567, has been obtained under Stamps, in consequence of the duty levied under the Succession Act VII of 1889 on probates, letters of administration and certificates under Act XXVII of 1886, but the entire benefit to the Provincial Revenues which should have accrued from these two sources has been discounted by a debit to Provincial under the adjusting head of Land Revenue. The effect of the net adjustment for supplies and services obtained from, and rendered to, this Government, including those for exciseable articles produced in one Province and consumed in another (items 1, 6, and 7), afforded to Bengal a net credit for Rs. 2,09,931, while for the excess receipts included in the Provincial account on account of the Bengal and North-Western Railway, a sum of Rs. 4,55,513 has been paid back through the head of Land Revenue. A special benevolence of Rs. 10,00,000 was made to the Imperial Revenues in 1890-91.

18. The expenditure charged under Land Revenue has risen from Rs. 34,05,966 in 1887-88 to Rs. 41,14,224 in 1891-92, or by Rs. 7,08,258. The details are these:—

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.
(a) District Administration	28,37,134	28,32,555	28,36,137	28,48,848	29,14,878
(b) Management of Government estates ..	3,35,277	3,43,981	3,00,811	2,85,358	3,72,708
(c) Survey and Settlement	1,44,373	2,69,393	3,38,481	4,16,676	7,44,585
(d) Land Records and Agriculture ...	89,182	67,130	66,528	60,081	82,053
Total ...	34,05,966	35,13,059	35,47,957	36,80,963	41,14,224

The increase in 1891-92 under (*a*) is due partly to the creation of the new districts of Palámau and South Lushai Hills, and partly to the general growth of administrative charges.

The excess under (*b*) includes about Rs. 41,000 in 1891-92 for sanitary improvements, for which an increase of 2 per cent. in the collections of Government estates has been assigned.

The increase under (*c*) was due to more extensive operations of the Land Settlement and Professional Survey Department. The contract assignment for those charges was Rs. 2,90,000, or Rs. 14,50,000 for the five years. But the total expenditure in these five years amounted to Rs. 19,13,508, or Rs. 4,63,508 in excess of the assignment. Against this excess an additional grant of Rs. 2,27,292, equivalent to half the increase, has been made to the Provincial Revenues through the head of Land Revenue as stated above. A further credit for Rs. 25,047 has been allowed to the Provincial Revenues on account of the Duars survey in the three years from 1888-89 to 1890-91.

19. *Salt.*—The rate of rent of warehouses was reduced from Rs. 5 to Rs. 3 per 100 maunds, with effect from the 1st April 1887, and although in the first instance this led to the decrease of receipts in 1887-88 and 1888-89, the result in the long run has fully justified the change of policy then introduced. A considerable increase in bonding operations in the following two years was directly due to this cause. The increase in these operations in 1890-91 is attributed also to the rise in the price of salt brought about by the influence of the English Salt Syndicate. The decrease in 1891-92 was due to larger clearances, as, in consequence of the increasing importation of salt by steamers *viâ* the Suez Canal, and more rapid and continuous clearance from shipboard, the necessity of keeping large stocks in the golahs has been obviated. This is attributable to the introduction of Kilby's scales which, by simplifying and cheapening the weighment of salt, have rendered it profitable to merchants to import salt by steamers; and thus, though trade has been quickened and importation increased, there is no necessity for storing salt in the warehouses so long as was formerly the case. The result is that the Imperial duty from imports has increased, but the Provincial asset, rent of warehouses, has declined.

From the year 1888-89 the municipal taxes on the Sulkea Salt Golahs were debited to this head instead of to "32—Miscellaneous," which accounts for the increase of expenditure in that year. The increase in 1889-90 and subsequent years was due to the gradual introduction of Mr. Kilby's patent scales for the weighment of salt in Calcutta and other ports in Bengal. The payment of Rs. 10,456 in 1890-91 to the East Indian Railway Company as contribution towards the construction of a siding in the Sulkea Salt Golahs swelled the charges for that year.

20. Under the head, *Stamps*, the development of the revenue has been steady and continuous with a marked increase in every third year as is shown in the following table:—

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.
Court-fee stamps	1,02,64,782	1,00,88,114	1,03,48,831	1,01,88,732	1,09,51,000
General stamps	34,02,525	36,50,855	37,73,911	39,53,076	40,92,000
Miscellaneous	1,48,730	1,00,016	1,10,289	1,05,118	57,000
Total ...	1,38,16,037	1,38,38,985	1,42,33,031	1,42,46,926	1,51,00,000
Imperial share ...	34,54,009	34,59,746	35,59,508	35,61,732	37,75,000
Provincial share ...	1,03,62,028	1,03,79,239	1,06,73,523	1,06 85,194	1,13,25,000

The gross receipts in 1887-88 amounted to Rs. 1,38,16,000 against the contract estimate of Rs. 1,34,50,000. The increase in 1888-89 was only Rs. 23,000, but in the third year of the contract the receipts were Rs. 1,42,38,000, showing an increase of Rs. 3,99,000 over the receipts of the preceding year. The increase in the following year was only Rs. 0,000, while in the last year of the contract the receipts aggregated Rs. 1,51,00,000, being an increase of Rs. 8,53,000 on that of 1890-91. The increase under general stamps in 1890-91 was almost entirely due to the formation of companies, the transfer of shares, execution of leases, &c., consequent upon the gold speculation in Chota Nagpur, while the increase in 1891-92 was almost entirely in court-fee stamps, and is attributable to an increase in the number of civil suits. It is reasonable to ascribe these results partly to the increased facilities for obtaining justice, partly to a growing tendency to substitute written agreements for verbal contracts, and partly to improved administration and special vigilance in the prevention and detection of frauds. The gain of the Local Government on the contract under this head was 2¾ lakhs in the first year, nearly 3 lakhs in the second, nearly 6 lakhs in the third and the fourth, and 12½ lakhs in the fifth, so that the total Provincial increment come to nearly 30 lakhs in five years. But from this must be deducted Rs. 2,34,567 representing three-fourths of the excess duty under Act VII of 1889 on probates, letters-of-administration, which, as stated above, have been repaid to the Government of India under the adjusting head of Land Revenue. Under the orders of the Government of India the rate of copying fees has been reduced from four to three annas per folio from 1st April 1890, but this reduction has as yet had hardly any appreciable effect on the total revenue.

On the expenditure side the rate of discount on the sale of court-fee stamps of all values above one rupee has been reduced from 3 pies to 1½ pie per rupee from 1st April 1888. The total charges of the Stamp Department rose from Rs. 4,85,621 in 1887-88 to Rs. 4,93,778 in 1888-89, and Rs. 5,12,906 in 1889-90, and then fell to Rs. 4,85,282 in 1890-91 and Rs. 4,50,362 in 1891-92. The charges for stamp paper supplied from the Central Stores fluctuated according to requirements, while the discount paid on stamps varied according to the sale of stamps. The large decrease in 1891-92 is chiefly due to the lower rates secured for the manufacture of stamp papers under the new contracts with Messrs. DeLa Rue and Company. The direct cost of raising the stamp revenue in Bengal has now been reduced to about 3 per cent.

21. *Excise.*—The following table shows the total income derived from country spirit and that derived from other sources during the periods covered by the last three contracts:—

	Revenue from country spirits.	Revenue from other sources.	Total.
	Rs.	Rs.	Rs.
1877-78 ...	28,90,000	39,78,000	68,68,000
1878-79 ...	29,71,000	40,57,000	70,28,000
1879-80 ...	31,89,000	40,18,000	72,07,000
1880-81 ...	42,21,000	43,32,000	85,53,000
1881-82 ...	46,20,000	47,54,000	93,74,000
1882-83 ...	48,26,000	49,63,000	97,89,000
1883-84 ...	52,23,000	52,02,000	1,01,25,000
1884-85 ...	48,55,000	51,97,000	1,00,52,000
1885-86 ...	45,10,000	50,74,000	95,84,000
1886-87 ...	47,91 000	53,35,000	1,01,26 000
1887-88 ...	52,05,000	56,61,000	1,08,66,000
1888-89 ...	50,90,000	58,02,000	1,08,92,000
1889-90 ...	47,07,000	57,68,000	1,04,75,000
1890-91 ...	45,28,000	59,37,000	1,04,65,000
1891-92 ...	48,15,000	63,19,000	1,11,34,000

Under the contract of 1877 the extraordinary development of this branch of revenue was among the most striking feature of the financial history of the period. The receipts rose from Rs. 68,68,000 in 1877-78 to Rs. 93,74,000 in 1881-82 or by 25 lakhs. This remarkable increase was due partly to the introduction and development of the outstill system, and partly to the bumper harvests, the activity of trade, and the general prosperity of the country which marked the three years 1879-80, 1880-81 and 1881-82. But commercial and

agricultural prosperity soon received a check. The rainfall in 1883, 1884 and 1885 was unfavourable in quantity and distribution, and the failure of the crops was so serious as to necessitate the opening of relief works by Government. The revenue from Excise fell from Rs. 1,04,25,000 in 1883-84 to Rs. 1,00,52,000 in 1884-85, and to Rs. 95,84,000 in 1885-86. The return of good harvests and the favourable settlement of outstills led to the revival of the revenue, and it again rose to Rs. 1,08,92,000 in 1888-89; but soon after a reaction took place against a policy which was admitted to have looked too much to revenue, and to have paid insufficient attention to the duty of attempting to reduce consumption. The next three years, which coincide with the period during which the department has been under the administration of a separate Excise Commissioner have been a period of radical change, of difficult experiments, for the most part still incomplete, and of the introduction of new measures, all of which, for the time being, tended to check the expansion of revenue. On 1st April 1889 outstills were abolished in Calcutta, Howrah and the 24-Parganas, and the system of central distilleries introduced. A year later a similar change was made throughout the Presidency, Burdwan and Orissa Divisions. At the same time the number of outstills was reduced in the districts of the Patna, Bhagalpur and Chota Nagpur Divisions, and the upset fees for licenses of all kinds were materially raised. The combined effect of these measures has been a substantial reduction of revenue in 1889-90 and 1890-91. The resistance of the abkars to the excise policy of increasing taxation, the falling off in advance collections owing to the introduction of the distillery system, and agricultural scarcity brought down the revenue from country spirits from about 51 lakhs in 1888-89 to 45¼ lakhs in 1890-91. But it is satisfactory to find that the decline has been only temporary, and that in 1891-92 the revenue rose to Rs. 48,15,000 from country spirits, and the total receipts to Rs. 1,11,34,000, the highest figure ever reached, and this result has been obtained notwithstanding the reduction of the number of shops licensed for the sale of country spirits from 3,025 in 1890-91 to 2,919 in 1891-92, and the decrease of consumption from 877,048 gallons to 814,432 gallons. Compared with the contract assignment of Rs. 24,82,000, the Provincial Government, which has been allowed one-fourth share in these receipts, has made a profit of Rs. 2,34,436 in 1887-88, Rs. 2,40,909 in 1888-89, Rs. 1,36,329 in 1889-90, Rs. 1,34,210 in 1890-91, and Rs. 3,01,490 in 1891-92, so that the total profit amounted to Rs. 10,47,874 during the whole term of the contract.

22. The contract estimate for the Provincial share of expenditure of the Excise Department was taken at Rs. 96,000, but the actuals amounted to Rs. 1,06,629 in 1887-88, rose to Rs. 1,08,602 in 1888-89, Rs. 1,41,480 in 1889-90, Rs. 1,62,972 in 1890-91, and Rs. 1,66,416 in 1891-92. The increase in 1887-88 compared with the contract grant was due to the amalgamation of the offices of Income-Tax Assessors and Excise Inspectors in 20 districts of Bengal, and the inclusion of their entire salaries under this head instead of a moiety under Excise and a moiety under Assessed Taxes. The large increase from 1889-90 under Excise and subsequent years has been, as stated above, due to the creation of the appointment of a Commissioner of Excise, the inclusion of the charges for rewards in Excise cases under this head instead of under *Law and Justice*, the appointment of a larger number of Special Deputy Collectors, and the construction of several distillery buildings. In 1891-92 two Deputy Collectors were appointed as Inspectors of Excise to assist the Excise Commissioner in district inspections, and this led to a further increase of expenditure in that year counterbalanced in some measure by smaller expenditure on distillery buildings. The employment of larger establishments has been the natural outcome of the introduction of the sadar distillery system, which cannot be effectively worked without a large and well-paid staff. The outstill system established everywhere a self-acting detective agency, which tended to keep down illicit distillation. Under the central distillery *régime* no one's self-interest is enlisted on the side of Government, and greater vigilance and activity are demanded from the inspecting and detective staff of the Excise Department. Part of the increase is also attributable to greater liberality in granting rewards for the detection of Excise offences, and to the heavier expenditure on travelling allowances which the present method of administration involves. The appointment of an Excise Commissioner has rendered it possible to pay much closer attention to the supervision of the subordinate Excise officials, and the gradual improvement brought about in the standard of Excise

administration has its effect on the revenue. The appointment of Excise Commissioner, which was at first sanctioned for three years, has now been made permanent, and the Government of India have just sanctioned an elaborate scheme for reorganizing the subordinate establishments somewhat on the lines suggested by the Excise Commission of 1884. The pay and prospects of the subordinate staff have been improved, and a superior class of men have been induced to enter the department. The incidence of the gross Excise revenue is less than Rs. 16 per hundred of the duty paying population.

23. The head *Provincial Rates* represents principally the proceeds of the Public Works Cess, but it includes also the recoveries from district funds of the proportionate cost of collecting Road Cess and the Rates for the general management of Wards' and Attached Estates. The receipts have been as follows:—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
(a) Public works cess ...		38,19,860	37,97,870	39,11,693	38,93,461	40,79,753
(b) Proportionate cost of collecting road cess.	30,20,000	3,13,524	2,68,084	3,12,096	3,55,052	3,64,355
(c) General management of wards' and attached estates.		1,03,154	90,369	82,235	71,420	80,419
Total ...	39,20,000	42,36,538	41,56,323	43,06,024	43,19,933	45,24,527

The variations under (*a*) were partly due to the same causes which led to the differences in the Land Revenue collections and partly to progress in valuation and revaluation of districts. The gross rental assessed on the introduction of the road cess was Rs. 13,11,68,432, and on the same basis the statistics furnished by the Board of Revenue show that it amounted to Rs. 14,60,45,236 in 1890–91 and Rs. 14,78, 83,221 in 1891–92. Large recoveries of the arrears of rates on wards' estates were effected from the Burdwan Raj in 1887-88, and this accounts for the larger receipts under (*c*) in the first year of the contract. The comparatively smaller receipts under (*c*) in 1890 91 and 1891-92 were due to the release from the Government management of a large number of estates during the course of the former year.

Head (*b*) is a new head of account which appeared in the Provincial Account in consequence of the introduction of the Local Self-Government Act. Prior to the extension of the Act, the charges for the collection of both the Road and Public Works Cesses were shown in the District Road accounts, the cost of collecting the Public Works Cess being paid to the District Road Committees through the adjusting head of Contribution, an assignment of Rs. 47,000 being made in the Provincial Contract under that head. The arrangement has now been reversed. The collection of the cess in the districts where the Local Self-Government Act has been introduced is shown as a Provincial charge, and is recovered from the District Funds before the net collections of the Road Cess are made over to the District Boards. The receipts and charges have been as follows:—

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.
Total expenditure ...	3,47,213	3,17,410	3,37,184	4,05,650	4,34,287
Recoveries from District Funds ...	3,13,524	2,68,084	3,12,096	3,55,052	3,64,355
Cost of collection of Public Works Cess.	33,689	49,326	25,088	50,598	69,932

The increased charges in 1890-91 and 1891-92 were due to revaluations undertaken in several districts, and partly to arrear contributions recovered from District Funds on account of pensions of establishment employed for the collection of cesses. The net proceeds of the Public Works cess have been Rs. 37,86,171 in 1887-88, Rs. 37,48,544 in 1888-89, Rs. 38,86,605 in 1889-90, Rs. 38,42,863 in 1890-91, and Rs. 40,09,821 in 1891-92.

24. It will be interesting to show together the net proceeds of the Public Works cess and the charges properly debitable to them. The cess was originally imposed to enable the Government of Bengal to meet all charges for unremunerative public works made over to Provincial management, and to apply the balance, if any, to the construction and maintenance of public works of

Provincial utility. Accordingly, in 1877, the following works were made over to this Government, with the responsibility for the payment of interest charges on the capital expended on their construction: Northern Bengal Railway, Tirhut Railway, Nalhati Railway, Orissa Canals, Midnapore High Level Canal, Hidgelee Tidal Canal, and Sone Canal. The Calcutta and South Eastern Railway was also made over; but as the earnings of this line had been barely sufficient to cover the working expenses, no interest was charged on the capital. The amount of capital expenditure on which the Provincial Government was liable for interest up to the end of 1877-78 was—

		Rs.
Railways		2,10,17,000
Canals		4,56,43,000
Total ...		6,66,60,000

The sum due for interest on this capital at 4½ per cent., which was the rate of interest fixed at the time, was Rs. 30,00,000, while the net surplus of receipts over working expenses of Railways was Rs. 1,63,000, against a net deficit of Rs. 2,08,000 from Canals. During the quinquennial period covered by the contract of 1877, the net proceeds of the Public Works cess aggregated about 161¼ lakhs, the interest charges 157 lakhs, and the result of the Provincial administration of Productive Public Works added about 46 lakhs to Provincial resources With this additional revenue of about half-a-lakh of rupees and improvements under other heads, the Government of Bengal could spend about 20¾ lakhs for the construction or completion of railways such as those from Sonapore on the Calcutta and South Eastern Railway to Magrahat, from Parbatipur on the Northern Bengal Railway to Dinajpur, from Kaunia to Dharla, and from Bankipore on the East Indian Railway, to Gaya; and about 39 lakhs on Irrigation, such as those connecting the Gunduck river with the principal watercourses of the Saran district, on the Calcutta Canals, on the Jagooly Scheme, and the Orissa Coast Canal.

Similarly, during the term of the next quinquennial contract, the net proceeds of the public works cess aggregated about 187½ lakhs, and the net receipts from railways and canals 94 lakhs, while the charge for interest amounted to about 196¾ lakhs. Out of the surplus of about 84½ lakhs from this source, about 29 lakhs was spent for the completion of the Dinajpur Branch of the Northern Bengal State Railway, the Diamond Harbour Branch of the Calcutta and South-Eastern Railway, and the Kaunia-Dharla Railway. More than one lakh was spent on the acquisition of lands and other charges for subsidized railways, and about 31½ lakhs for the prosecution of the Orissa Coast Canal and the improvement of the Calcutta Canals, while in addition to this large expenditure amounting to more than 20 lakhs was incurred for the maintenance of several canals for which no capital account has been kept.

During the five years now under review, a considerable change was made in the financial relations between the Government of Bengal and the Government of India, so far as the railways were concerned, the Northern Bengal State Railway and the Calcutta and South-Eastern Railway with their branches and feeders being included in the Eastern Bengal Railway System, which is rather an Imperial than a Provincial undertaking, and the management of the Tirhut Railway being made over to the Bengal and North-Western Railway Company. Leaving aside the transactions of these railways, which moreover are now able to bear their own interest charges, and can no longer be treated as unremunerative works, and taking only the transactions of the canals, it will be seen that against the total net proceeds of the Public Works cess, amounting to about 192¾ lakhs, the charge for interest on irrigation canals amounted to Rs. 118 lakhs, while the earnings of these canals just covered their working expenses with a deficit of about Rs. 14,000 in five years. Out of the surplus of 74¾ lakhs, Rs. 36,53,000 has been spent on the maintenance and repairs of the Calcutta and other canals classed as "Minor works," Rs. 31,63,000 on Government embankments, Rs. 71,000 for the improvements of the Calcutta and Eastern, Midnapore, and Sone Canals and Damodar project, Rs. 87,000 on surveys, such as the Western Bengal Railway Survey, Darbhanga-Sitamarhi Survey, and Sakri-Jainagar Survey, besides Rs. 6,60,000 advanced on Takavi Embankments and Rs. 9,42,000 expended on the Orissa Coast Canal, and for remodelling the

Hidgelee Tidal Canal, and large amounts disbursed for the improvement of Provincial Road communications.

25. The increase in expenditure under *Customs* over the contract assignment was chiefly due to the adjustment under this head of the rent, rates, and taxes of the Customs buildings which were hitherto adjusted under Miscellaneous, and to the entertainment of additional establishment of appraisers for changes in the Tariff Act, for additional wharf establishment at Budge-Budge in consequence of the introduction of the Petroleum Act just before the close of 1887-88, for a new method of testing distillation of spirits, and for temporary preventive establishment according to the requirements of trade. The only fluctuation in receipts was in 1888-89, and was due to smaller recoveries on account of demurrage.

26. The head *Assessed Taxes* represents the receipts from the income-tax. The contract estimate of the Provincial share, which was limited to half the revenue, was taken at Rs. 17,84,000, whereas the actuals in each year were Rs. 18,69,971, Rs. 19,55,698, Rs. 20,83,503, Rs. 21,19,441, and Rs. 21,54,146. The development of revenue has been steady and continuous. The aggregate gain to the Provincial revenues has been about 12½ lakhs of rupees during the currency of the contract. The average charge for the assessment and collection of the tax as debitable to the Provincial account, which is half of the total expenditure, amounted to Rs. 81,833 a year against the contract assignment of Rs. 85,000; but it rose from Rs. 75,705 in 1887-88 to Rs. 87,930 in 1890-91, and to Rs. 90,014 in 1891-92, and the rise has been in proportion to the growth of revenue, but chiefly for increased charges under the head of travelling allowance. A part of the increase is due to the separation of the offices of Excise Inspector or Sub-Inspector from that of Assessor of Income-tax, which was decided on in 1889, and fully carried out in 1890-91. Service in the Income-tax Department, which had formerly been treated as temporary, was at the same time declared to be permanent and pensionable. Districts were divided into five classes according to the average revenue from income, and five grades of Assessors were appointed on somewhat lower rates of pay than had previously been allowed. The effect of this reorganization has been to provide every district with an officer whose whole time is given to Income-tax work, and will lead to improve the quality of the work done by the Assessors, and make the assessment registers a trustworthy record of the taxable incomes in each district. The average incidence of the tax on the whole population of the province, excluding assessments on the salaries of Government officials, and the interest on Government securities, was in 1891-92 Re. 1 to every 19·2 persons, and the proportion of persons assessed for the whole of Bengal was 1 to 688.

27. The Forest Department in Bengal is of comparatively little importance from a revenue point of view. The following figures compare the net revenue in each year with the contract estimates:—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Receipts	7,00,000	6,57,794	6,76,967	7,68,717	7,27,392	7,89,553
Expenditure	4,50,000	3,89,717	3,76,963	3,97,969	4,13,382	4,20,470
Net revenue ...	2,50,000	2,68,077	3,00,704	3,70,748	3,14,010	3,69,083
Provincial share in net revenue ...	1,25,000	1,34,038	1,50,352	1,85,374	1,57,030	1,84,541

There was an abnormal fall in net revenue in 1890-91 in the Sunderbun Division, attributable in a large measure to local agricultural distress, and the presence of excess stock of *sundri* wood in the market. The gross revenue in 1891-92 was the largest ever obtained since the department was formed; and the net revenue amounted to Rs. 3,69,083, notwithstanding a heavy outlay of Rs. 31,500 on account of a new steamer *Swan* purchased for the department, and increased pay of establishment sanctioned by the Government of India. The surplus in 1888-89 would have been larger but for the depression of trade in Chittagong attributable to the frontier raids which prevented access to the more remote parts, and also for the grant of considerable concessions to the inhabitants of Orissa during the scarcity of that year.

The net revenue in each year has been more than was anticipated in the contract, and the net gain to the Provincial Government during the five years has been Rs. 1,86,335.

28. Under the head of *Registration* the figures of gross receipts must not be looked at alone, as this is a Department where, more than in most other cases, increase in expenditure on establishment produces increase of revenues.

The following statement compares the net revenue from Registration in each year with the contract estimates:—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Receipts	10,76,000	10,17,825	10,93,544	12,00,066	12,39,079	13,34,313
Charges	5,90,000	5,78,462	5,99,459	6,28,631	6,29,743	6,83,474
Net receipts	4,86,000	4,39,363	4,94,085	5,71,435	6,09,336	6,50,839
Provincial share in receipts	2,43,000	2,19,681	2,47,042	2,85,717	3,04,668	3,25,419

It will be seen that, though the net revenue in the first year of the contract showed a decrease compared with the contract estimate, the revenue increased gradually every year, and that the Provincial revenues made a net profit of Rs. 1,67,527 under this head in the quinquennial period. These satisfactory results are greatly due to the steady expansion of Registration offices supervised by special, not official, agency, and to some extent to the speculation in gold and silver mining.

29. *Interest.*—Under the order contained in the Resolution of the Government of India, Finance Department, No. 13, dated the 13th January 1889, the control and management of loans and advances to municipalities and other public bodies (excluding Presidency corporations), to landholders and other notabilities, &c., have been made over to the Local Government. The total amount of loans and advances made under these orders and repayments received are shown in the following table:—

	1888-89.		1889-90.		1890-91.		1891-92.		Closing balance on 31st March 1891.
	Outgoings.	Receipts.	Outgoings.	Receipts.	Outgoings.	Receipts.	Outgoings.	Receipts.

LOANS TO MUNICIPALITIES AND OTHER LOCAL BODIES—									
Mufassal municipalities	28,960	1,771	30,000	1,851	1,50,000	71,936	37,500	5,492	
District Boards and other local bodies ...	505	205	.....	300	2,10,000	1,05,000	1,56,000	18,648	
Port Fund, Chittagong	.....	.....	.....	...	61,455	...	63,771	.....	
	15,70,782	1,52,884	8,37,175	2,91,114	8,12,341	5,17,207	10,26,894	4,83,024	28,02,762

It will be seen that during the last four years sums aggregating Rs. 42,47,000 has been advanced on all accounts, and Rs. 14,44,000 has been repaid. The interest received and paid by the Government of Bengal are:—

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.
Receipts	.....	24,820	34,231	33,676	56,988
Charges	.....	45,802	67,637	84,461	1,01,241
Deficit	.....	20,982	33,406	50,785	42,808

The charges represent 4 per cent. on the mean balance outstanding on the close of every year, which is payable to the Government of India under the orders quoted above.

The gradual increase on the charge side is due to the larger mean balance outstanding at the close of each succeeding year. The above table shows that the loss to the Provincial Revenue from the new arrangement has amounted to Rs. 20,982 in 1888-89, Rs. 33,406 in 1889-90, Rs. 50,785 in 1890-91, and Rs. 42,308 in 1891-92. The loss for the first year has only been recouped by an additional grant from the Imperial Revenues under the head of Land Revenue. The loss is, however, only temporary, as the whole amount will be more than recovered when the drainage and embankment works, for which the major portion of the advances have been made, are completed, and interest will be recovered with instalments of capital from the zamindars and others who will be benefited by the works. The interest payable on the advances has been included in the capital cost of the works, while interest payable to the Government of India is charged on the amount advanced from the Imperial Treasury; and thus when the recoveries are made, the Government of India will receive only the amounts actually advanced, and the Provincial Government will get the balance, which will include the suspended interest on the capital expended.

Besides the receipts shown above, this head also comprises interest on the securities of the Education Department and interest on arrears of Public Works cess. The aggregate of these receipts, exclusive of interest on loans, amounted to—

	Rs.
1887-88	67,093
1888-89	72,563
1889-90	70,036
1890-91	58,833
1891-92	59,230

30. *Post Office.*—The charges under this head in 1891-92 represented the charges incurred in the South Lushai Hills for the carriage of mails.

31. The General Administration Charges have risen from Rs. 15,42,579 to Rs. 16,16,326 as shown below:—

1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
Rs. 15,42,879	Rs. 15,71,096	Rs. 16,20,623	Rs. 15,84,964	Rs. 16,16,326

The increase in 1888 89 and 1889-90 was due to the deputation of officers on special duty connected with the revision of the statistical accounts of Bengal, and to enquire into the excise systems of the Presidencies of Madras and Bombay. In 1889-90 again the charges under the sub-head "Board of Revenue" included the salary of a Member of the Board of Revenue of the North-Western Provinces paid in Calcutta and recovered by inter-provincial adjustment from the North-Western Provinces. The increase in 1891-92 was partly due to the appointment of a special officer in the Judicial Department of the Secretariat, and partly to the payment in Calcutta of salaries and leave allowances of officers of the local Secretariats of Burma and Assam.

32. *Law and Justice (Judicial Courts).*—The following table compares the receipts and charges under this head with the assignments fixed in the contract:—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Courts of Law—						
Receipts	7,69,000	7,74,255	7,69,538	8,04,582	8,96,337	8,82,093
Charges	80,11,000	79,40,386	81,01,737	81,54,840	82,40,807	84,82,793
Net charges	72,42,000	71,66,131	73,12,199	73,50,258	73,44,470	76,00,700

No adequate provision was made in the contract for the improvement of Judicial establishments, which was left to be met from the improveable revenues made over to Provincial management. The increase of nearly 4¾ lakhs in 1891-92 in the contract assignment represents the financial effect of the increase which has been found necessary in the number of Subordinate Judges and Munsifs and Judicial establishments generally. There has also been a partial improvement in the ministerial establishment of the Civil Courts sanctioned

in consequence of the recommendations made in the reports of Messrs. Toynbee and Stevens who were appointed to enquire into the subject.

33. *Jails.*—The receipts and charges of the Jails Department are shown below:—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Receipts—Ordinary ...	5,000	4,362	7,753	2,319	2,836	2,214
Manufactures ...	8,41,000	7,05,917	7,67,268	8,57,183	7,63,457	9,18,428
Total ...	8,46,000	7,10,279	7,75,021	8,59,502	7,66,293	9,27,642
Expenditure—Ordinary ...	6,39,000	10,02,033	11,46,915	13,14,794	12,09,569	13,57,196
Manufactures ..	10,89,000	5,29,057	6,43,880	5,84,284	8,60,738	6,64,810
Total ...	17,28,000	15,31,090	17,95,795	18,99,078	20,40,307	20,22,006
Net expenditure ...	8,82,000	8,20,811	10,20,774	10,39,576	12,74,014	10,94,364

The comparative smaller expenditure in 1887-88 was due to the release and remissions granted on the celebration of the Jubilee. The total jail population fell from 14,629 on 1st January 1887 to 13,210 on 31st December 1887, and to 11,990 on 31st March 1888. The Bhagalpur District Jail was abolished in that year. In 1888, 14 District Jails were reduced to the status of intermediate jails, and this reduction was sanctioned on the expectation that provision would have to be made for the accommodation of 11,000 prisoners. The population has, however, since then considerably increased, as the following table will show:—

	1888.	1889.	1890.	1891.	1892.
Number on 1st January	13,210	13,985	15,048	15,211	16,599
Daily average number	13,731	13,076	14,777	15,916	.....

and this increase accounts for the growth of charges shown in the table.

34. The falling off of receipts under the head *Police* from Rs. 7,05,000 fixed in the contract to Rs. 3,13,349 in 1887-88 was due to the transfer of pound receipts from Provincial to Local in the districts to which the Local Self-Government Act has been extended. The increase in 1888-89 as compared with the actuals of 1887-88 was due to the inclusion of the recoveries on account of the Village Police in Hazaribagh and Lohardaga, consequent on the introduction of Act V of 1887 in those districts. The increase from 1889-90 was chiefly due to the credit for the first time under the Provincial head of the recoveries on account of the Presidency and Suburban Police, as the Metropolitan Police has been wholly Provincial from that year. On the expenditure side the contract grant was fixed at Rs. 47,48,000, and the actual charges rose from Rs. 47,86,787 in 1887-88 to Rs. 48,34,099 in 1888-89, Rs. 52,93,625 in 1889-90, Rs. 58,65,884 in 1890-91 and Rs. 59,53,275 in 1891-92. The details are these:—

Expenditure.	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Presidency Police ...		3,16,986	3,20,645	7,05,290	7,14,002	7,29,108
Superintendence		1,16,627	1,13,069	1,27,186	1,24,549	1,23,387
District Executive force ...		38,46,736	39,46,996	39,37,901	39,27,068	39,57,181
Village police		1,40,414	1,66,174	1,90,000	1,88,304	2,00,641
Special police		1,98,857	1,88,556	2,34,067	7,71,709	7,89,473
Cattle pounds ..		6,828	4,925	5,026	6,417	6,782
Steam-boiler inspection establishment.		13,074	17,611	18,974	20,099	21,483
Refunds		79,842	5,550	6,219	36,350	56,677
State Railway Police ...		68,423	70,573	68,962	67,326	68,544
Total ...	47,48,000	47,86,787	48,34,099	52,93,625	58,65,884	59,53,275
Receipts ...	7,05,000	3,13,349	3,38,197	4,26,742	4,51,678	4,48,640
Net expenditure ...	40,43,000	44,73,438	44,95,902	48,66,883	54,14,206	55,04,635

The increase in 1888-89 was due to the entertainment of a large number of temporary Assistant Superintendents of Police, to the additional force

entertained in Darjeeling and Jalpaiguri, and to larger expenditure on account of contingencies, chiefly for petty construction and repairs, and rents, rates and taxes. The marked increase from 1889-90 has been, as already explained above, due to the entire charges of the Presidency and Suburban Police being paid from Provincial Revenues instead of in the proportion of one-fourth and three fourths as before. Against this increase the Provincial revenues obtained an additional assignment of 2 lakhs from the Imperial revenues through the Land Revenue head. The charges in connection with the subjugation of the South Lushai district and the formation of the South Lushai Hills district have been adjusted in the Provincial accounts under this head from the year 1890-91, and this accounts for the large increase in the last two years. An assignment equal to half the cost of these charges incurred in the two years has been made to the Provincial Revenues and adjusted in the accounts of 1891-92. A part of the increase under District Executive Force in 1891-92 is due to the improvement effected in the position of the force by raising the clothing allowance of all constables from Rs. 4 to Rs. 5 and of the special reserve force from Rs. 6 to Rs. 8; stopping all deductions from pay for superannuation charges; and raising the pay of the lowest class of constables in Bengal Proper from Rs. 6 to Rs. 7. Free-kits are also now supplied to fresh recruits on their first joining the department.

35. The receipts and charges of the Marine Department are shown below:—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Receipts	8,08,000	9,10,096	9,11,734	8,54,207	9,18,736	9,65,408
Charges	7,81,000	9,16,601	10,71,199	12,11,342	9,40,470	9,42,251
Difference ...	+27,000	−6,505	−1,59,465	−3,57,135	−21,734	+23,157

The chief receipts are pilotage fees, which are of a fluctuating nature, and depend solely on trade and the tonnage of vessels visiting the port. There was a special receipt from the sale of the steamer *Undaunted* credited in 1888-89. A part of the increase since 1890-91 is due to the inclusion of surveyors' fees in the accounts from that year. On the expenditure side the charges in 1888-89 include the cost of building a pilot brig to replace the *Cassandra* at the India Government Dockyard at Bombay, for which an assignment of Rs. 1,91,423 has been received from the Government of India. The accounts of 1889-90 includes the cost of nearly four lakhs incurred in the purchase of the steamer *Guide* to replace the *Undaunted*. The charges for the maintenance of the State yacht *Rhotas* have been transferred to the Bengal Government from April 1890 with an assignment of Rs. 8,500 from the Imperial Revenues.

The net loss to the Provincial Revenues during the five years amounted to Rs. 5,21,682, against a gain of Rs. 27,000 × 5 = Rs. 1,35,000, provided for in the contract, but against this loss of Rs. 5,21,682 + 1,35,000 = 6,56,682 must be set the—

	Rs.	Rs.
Additional assignment sanctioned by the Government of India for the new vessel to replace P. V. *Cassandra*	1,91,423	
Additional assignment sanctioned by the Government of India for up-keep of the *Rhotas*	17,000	
		2,08,423
so that the net loss to the Provincial Revenues compared with the contract assignment has amounted to		4,48,259

36. The contract assignment for expenditure on *Education* was Rs. 32,46,000. The actual charges in 1887-88, however, amounted to Rs. 24,22,221. This decrease is nominal and is due to the transfer of certain Government schools to local bodies on the formation of District Boards under the Local Self-Government Act. The grants to the District Boards have been adjusted under the head of Contributions. The combined expenditure from Provincial and District Funds in 1891-92 amounted to Rs. 25,51,574 + 11,05,375 = 36,56,949.

37. The ordinary *Political* charges were provincialised with an annual grant of Rs. 21,000 from the year 1888-89. The loss to the Provincial revenues amounted to Rs. 18,041 during the four years of the contract period.

38. The large increase of receipts under the head *Superannuation* in 1890-91 and 1891-92 arose from recoveries made in those years of the arrear contributions for the pensions of employés transferred to the establishments of District Boards.

39. The large increase under *Printing* receipts in 1890-91 was on account of the supplies of census forms made to other Governments and Administrations, for which there was an increased charge under "30—Stationery and Printing."

40. The contract provided for no capital expenditure on State Railways from the Provincial Funds, but the outlay required for the construction of the Kaunia-Dhurla State Railway, which has been constructed entirely from Provincial funds, continued to be advanced from those Funds. In 1888-89 the steamer *Empress* attached to the Railway was sold, and the proceeds were credited to the Provincial Revenues. The actuals of 1890-91 include the cost of constructing 20 jute wagons for the Railway.

41. The following table shows the net financial results of the working of all Provincial Railways as compared with the contract estimates:—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
Gross receipts	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

The working of the Tirhut State Railway has been transferred to the management of the Bengal and North-Western Railway Company from the 1st July 1890. Under the orders of the Government of India in the Public Works Department, the gross earnings of the combined system of the Bengal and North-Western Railway and the Tirhut State Railway, and the actual working expenses plus the share of net receipts payable to the Company, were treated as revenue and expenditure respectively in the accounts. In accordance with this arrangement, the earnings of the Bengal and North-Western Railway Company for nine months, from 1st July 1890 to 31st March 1891, were included in the Provincial account for 1890-91, but as the account with the Company had not been closed, the payment to the Company could not be made during that year, and the amount of net earnings was passed over from the Provincial to the Imperial account through the adjusting head of Land Revenue. The amount so credited to Imperial in 1890-91 for the nine months was Rs. 10,49,556. The actual payment to the Company was, however, not made till May 1891. In 1891-92, therefore, the Company obtained the net earnings for three half-years, or for eighteen months, from 1st July 1890 to 31st December 1891, and all these payments were again under the orders of the Government of India shown under Railways in the Provincial account for 1891-92. The payments from Provincial Revenues thus included double payments for six months, and for this over-payment a write-back of Rs. 5,94,043 has been made in favour of the Provincial Revenues through the adjusting head of Land Revenue. The increase of Rs. 8,40,741 in the working expenses of the Eastern Bengal State Railway shown in the above statement was due mainly to renewals of permanent way and partly also to compensation paid for goods lost in flats and arrear charges for freight on coal. The increase under the Tirhut Railway arose from the inclusion of twelve months' expenses of the Bengal and North-Western Railway instead of nine months shown in the preceding year.

42. The contract made no separate provision for charges under *Miscellaneous Railway expenditure*, which mainly represent the share of the Public Works Secretariat debitable to Railways, but these were provided for in the assignment for establishment under Civil Works. The charges on account of surveys for new railway projects incurred on the recommendation of the Local Government were also adjusted under this head. The following table shows the details of the expenditure :—

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.
Public Works Secretariat share	68,290	68,246	69,453	79,914	76,163
Western Bengal Railway Survey	.....	62,999	12,191	.....	.....
Darbhanga-Sitamarhi Survey	.....	9,067	.....	.....	.....
Sakri-Jaynagar survey	.....	2,380	866	.....	... .
Total .	68,290	1,42,692	82,510	79,914	76,163

The total expenditure exclusive of Secretariat Establishment during the five years amounted to Rs. 87,503.

43. The following table shows the net financial result of the working of the Irrigation Major Works :—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Receipts	13,30,000	11,03,229	13,94,369	15,21,274	13,46,728	16,02,710
Working expenses	11,25,000	15,03,585	14,18,090	13,55,565	13,51,272	13,54,171
Net profit ...	+)2,05,000	(—)4,00,356	(—)23,721	(+)1,65,709	(—)4,544	(+)2,48,539

The table shows that the contract provided for a net annual profit of Rs. 2,05,000 under Major Works, but the actual result amounted to a loss of Rs. 4,00,356 in 1887-88, Rs. 23,721 in 1888-89, and Rs. 4,544 in 1890-91, while there was a gain of Rs. 1,65,709 in 1889-90 and Rs. 2,48,539 in 1891-92. The total loss during the contract period amounted to Rs. 14,373, which was met from savings under other heads, while according to the contract it was estimated that Rs. 2,05,000 × 5 = Rs. 10,25,000 would be available from these canals to meet expenditure in other heads.

44 The expenditure on *Minor Works and Navigation* in charge of the Public Works Department exceeded the contract estimate in each year, as the following table will show:—

	Contract.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
Capital.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Agricultural Works.						
Government embankments	6,50,000	5,95,519	6,53,405	6,60,038	6,26,201	6,28,281
Takavi embankments	1,28,000	1,21,840	1,29,796	1,51,667	1,26,648	1,29,997
Total Agricultural Works ...	7,78,000	7,17,359	7,83,201	8,11,705	7,52,849	7,58,278
GRAND TOTAL	11,43,000	15,18,533	14,75,746	14,19,180	15,02,988	15,59,796

In the contract no assignment was made for capital expenditure on Minor Works, but grants aggregating Rs. 4,91,000 were subsequently made for capital expenditure on the Orissa Coast Canal. The charges for remodelling the Hidgellee Tidal Canal have also been met by additional grants from the Imperial Revenues, but the Provincial Government has undertaken to pay interest at 4 per cent. on the capital advanced. The total expenditure under Minor Works in excess of Imperial assignment and grants has amounted to Rs. 8,08,027.

45. The large decrease of receipts under *Civil Works* in charge of civil officers, as compared with the contract estimate, was due to the transfer of ferry receipts from Provincial to Local under the Local Self-Government Act. The receipts of the Public Works Department in 1889-90 included the Provincial share of the sale proceeds of the Barakur Iron Works, while those for 1890 91 included the sale proceeds of the buildings and land in the north-west corner of the Custom House premises, Calcutta, sold to the East Indian Railway Company on the understanding that a sum equivalent to the proceeds would be expended on the construction of a new building for the Calcutta Collectorate and for the improvement of the Custom House.

46. The Contract assignment for *Civil works in charge of the Public Works Department* was Rs. 29,90,000, viz.—

	Rs.
Original works	7,10,000
Repairs	12,22,000
Establishment excluding what is debitable to Railways	10,08,000
Tools and plant	50,000
Total ...	29,90,000

In 1888-89 the Calcutta and Jessore road was transferred to the District Boards of Jessore and the 24-Parganas, the Ganges and Darjeeling Road from Karagola and Titalya to the District Board of Purnea, and the Grand Trunk Road from Pulta ghat to Chote-kund (34 miles) to the District Board of Hooghly.

In 1889-90 the Grand Trunk Road from Chote-kund to Barakar (97¼ miles), the Raniganj-Midnapore road from Raniganj to Damudar river (3 miles), the Sithona road from the Damodar river to the Grand Trunk Road (3½ miles), were transferred to the District Board of Burdwan. The Raniganj and Midnapore road from Damodar to Kurkasole and the Bishenpore Loop-line road (4 miles) were transferred to the District Board of Bankura. The Grand Trank Road from Bhullua Chatti to the Sone river was transferred to the District Board of Gaya, and the Chittagong Trunk Road, passing through the districts of Chittagong, Noakhali and Tippera, was made over to the respective District Boards concerned.

The aggregate cost of the maintenance and repairs of these roads, transferred to the District Boards, amount to Rs. 2,72,472. Excluding these, the total expenditure on Civil works during the five years has been as follows:—

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Tools and plant	17,000	48,000	57,000	47,000	33,000	2,02,000
Suspense	−2,38,000	−90,000	−4,15,000	−75,000	2,70,000	−6,68,000
Total	5,09,000	6,49,000	4,14,000	6,94,000	10,67,000	32,78,000
GRAND TOTAL	27,61,000	39,04,000	31,24,000	35,06,000	38,80,000	1,71,75,000

In the first year of the contract it was necessary to proceed with extreme caution in regard to the expenditure on Public Works. The grant could not be placed at a higher amount than the contract assignment less the cost of establishment debitable to the Irrigation grant, which was included in the assignment under Civil Works. The increased balance at credit of the Provincial Government at the end of the year, and the rapid growth of revenue under Railways, enabled the Lieutenant-Governor to spend on Civil Works during the last three years of the contract sums exceeding the assignment by 4, 8, and 11½ lakhs respectively.

The Provincial grant under this head is almost entirely spent on metalled or unmetalled roads and on Civil buildings. The outlay on Civil Works during the five years amounted to Rs. 1,71,75,000. In Calcutta a new building for the accommodation of the Police Court and the Fire-brigade has been completed, a new wing has been added to the Indian Museum in Sudder Street, a new building has been provided for the Port and Shipping Office, and considerable extension has been made to the Calcutta Small Cause Court. A new building for the Calcutta Collectorate and Income-Tax Office has been commenced, on which Rs. 82,336 has already been expended. The head-quarters of Chittagong have been provided with a set of Revenue and Judicial offices, at a cost exceeding 5 lakhs. Court-houses have been constructed at Dumka, Jalpaiguri, Mymensingh and Noakhali, and several sub-divisional Court-houses and Munsifis have been built. A new collectorate building has been erected for Khulna, and a khas tahsil office at Cox's Bazar sub-division. Considerable expenditure has also been incurred in the construction and improvement of distillery buildings at Russa, Darbhanga, Bankipore, Monghyr, Rajmahal, Godda, Muzaffarpur, Chapra, and Arrah; while Chapra, Buxar, Narainganj, Kutwa, and Khulna have been provided with new circuit-houses.

47. In the contract the amount of contributions to Incorporated Local Funds was fixed at Rs. 1,59,000, thus:—

	Rs.
Payment to Road Committees for collection of Public Works cess	47,000
Payment to Road Committees for road works out of collections from Government estates	58,000
Contribution to District Road account in Chittagong Hill Tracts, Sonthal Parganas, and Singhbhum	54,000
Total ...	1,59,000

The actual grants, however, amounted to Rs. 2,61,063 in 1887-88, Rs. 7,50,184 in 1888-89, Rs. 11,82,950 in 1889-90, Rs. 8,94,450 in 1890-91, and Rs. 8,78,841 in 1891-92. The increase is due to the inclusion of the grants made to the District Boards in adjustment of the excess of charges over receipts transferred to them on the extension of the Local Self Government Act III (B.C.) of 1885.

The provisions of this Act were in force in 16 districts from 1st October 1886 and were extended from the 1st April following to all other districts in the Province except Darjeeling, the Chota Nagpur districts, the Sonthal Parganas and the Chittagong Hill Tracts. District Boards have been constituted in 38 districts, and Local Boards established in nearly all districts where there are sub divisions. The District Boards have been vested with the administrative control and financial responsibility of all cattle-pounds, of Government middle English, middle vernacular and public primary schools, or where there are none of the last-named, their duties are confined to aiding primary schools under private management. Some charitable dispensaries, all bridges, roads and other property hitherto under the care of District or Branch Road Committees, and most of the public ferries and their proceeds, have been placed under their control and administration; and lastly, the provisions of the Act which relate to sanitation have been expressly extended to them. The maintenance and repairs of certain provincial roads have also been transferred to them. Local Boards have been in most districts entrusted with the administration of the grants

for village roads, pounds, ferries and primary education. The net grants payable to the District Boards are shown in the following table:—

	Receipts.	Charges.
	Rs.	Rs.
Pounds (police) ...	4,20,153	22,297 3,758
Ferries (civil works) ...	2,96,076	3,808
Education	24,968	10,39,177
Medical	300	2,424.
Stationery	.....	16,750
Miscellaneous	.....	3,676
Improvement of roads in Government estates out of percentage on collections ...	.....	56,298
Administration	.....	11,292
Maintenance of provincial roads	.....	2,72,472
Total ...	7,41,497	
Net grant ...	6,90,455	
GRAND TOTAL ...	14,31,952	14,31,952

The comparatively smaller grants in 1887-88 were due to the fact that the adjustments for the year were not completed within the year, and the accounts of the next year include necessarily for the most part the net grants for two years.

The principal items of receipt and expenditure besides provincial roads transferred to the Boards are Pounds, Ferries and Education, and the following table shows the progress made in the last two years under these heads:—

	Fixed assignment made from provincial revenue.		1890-91.		1891-92.	
	Receipts.	Expenditure.	Receipts.	Expenditure.	Receipts.	Expenditure.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Education	24,968	10,39,177	33,496	10,01,855	37,803	11,05,375
Pounds	4,20,153	22,297	4,43,775	29,618	4,72,187	33,574
Ferries	2,96,076	3,808	3,38,558	53,165	3,76,664	38,458
Government grant ...	3,24,085	.....	3,24,085	.....	3,24,085	.....
Total ...	10,65,282	10,65,282	11,39,914	10,84,638	12,09,739	11,77,707
Surplus (+) or Deficit (—)	Nil	Nil	+55,276	.....	+32,032	.....

The receipts under these heads have increased by Rs. 1,44,457, while the expenditure has risen by Rs. 1,12,425.

48. The general financial results of the contract of 1887 may be summarised thus: the Provincial resources which were estimated at Rs. 4,64,47,000 averaged Rs. 5,15,29,000, being an increase of Rs. 50,82,000; the expenditure, which was estimated at Rs. 4,64,47,000, averaged Rs. 5,14,52,000, showing an increase of Rs. 50,05,000. The chief branches of revenue which contributed to the increase of receipts were Stamps, Provincial Rates, Assessed Taxes and Railways. The contract period began with a balance of Rs. 19,99,000 and closed with a balance of Rs. 23,85,000.

PART IV.—THE NEW CONTRACT.

49. Such were the results of the five years' contract of 1887, the term of which has just expired with the year 1891-92. A new contract has now been made for another period of five years, commencing from 1st April 1892, under which no material change in the system of decentralization has been made, but the contract has been expressly declared to be a consolidated one for all Provincial revenue and

expenditure, and not a collection of separate assignments for each head. The following changes have been made in the Provincial receipts and charges. The cost of surveys and settlements under Land Revenue, which under the last contract was entirely Provincial, has been made Imperial, with the reservation that, if the recoveries on account of the survey and settlement operations in Bihár fall short of the expenditure which is recoverable from the zamindars and raiyats, the difference will be charged to the Provincial Revenues. The whole of the general establishment of the Accountant-General has been made Imperial, but the charges of the Examiner of Local Accounts and his establishment will continue to be Provincial as before. The cost of plain paper used with court-fee stamps will be charged under "6—Stamps" instead of, as in the past, under "30—Stationery." All police charges, including Railway Police, have been made Provincial. The salaries and allowances of officers on the cadre of the Civil Veterinary Department will be Imperial, but all other charges of that department have been made Provincial. Inter-provincial adjustments have been abolished. The Nalhati and the Tirhut State Railways have been made Imperial, while the net receipts of the Eastern Bengal Railway system will be divided equally between the Imperial and the Provincial Revenues. It has also been decided that the Government of Bengal will not exercise any administrative or financial powers in regard to railways. The capital expenditure on the Hidgelee Tidal Canal required to complete the work will be advanced from Imperial Funds, the Provincial Government paying interest as before. After making allowance for all these alterations, the Government of India have adopted the following figures as the estimates of the total Provincial revenue and expenditure for the new contract:—

	Rs.
Revenue from all sources	4,24,93,000
Total Provincial expenditure	4,10,54,000
Surplus	14,39,000

This surplus (Rs. 14,39,000) has been appropriated to the Imperial Revenues through the Land Revenue head, and the Province has thus been left with a revenue and expenditure exactly equal.

Budget Estimate for 1892-93.

50. The Lieutenant-Governor has already in separate Resolutions reviewed the estimates of receipts and expenditure for the current year. Later information, however, has led to a modification of these in some respects. The following table shows the estimates of the Local Government submitted to the Government of India, the figures accepted by the Government of India, and the estimates which the Lieutenant-Governor has finally resolved to adopt:—

Receipts.	Estimate of the Government of Bengal reported to the Government of India.	Estimate sanctioned by the Government of India.	Estimate now adopted.

Provincial surplus (+) or deficit (−)	(−)2,57,000	.....	(−)2,31,000

Receipts.

51. *Land Revenue.*—The Government of India have accepted the estimate of total collections under this head as passed by the Local Government for 1892-93, amounting to Rs. 3,83,95,000 against Rs. 3,83,51,000, the average receipts of the last five years. The collections in the first five months of the current year amounted to Rs. 74,38,000 against Rs. 70,28,000 in the corresponding period of last year. But the September kist having fallen during the holidays, the collections to the end of that month were Rs. 1,20,57,000 against Rs. 1,30,12,000 obtained during the same period last year. The October returns, however, show that the collection in that month exceeded those of the same month last year by Rs. 8,42,000. In view of these figures the Lieutenant-Governor does not anticipate that there will be any serious falling off at the end of the year, but with reference to the actuals of the last three years amounting to Rs. 3,88,82,000,

Rs. 3,88,19,000, and Rs. 3,86,80,000, would raise the estimate to Rs. 3,85,00,000 and place the Provincial share at Rs. 99,78,000 thus:—

	Rs.
Gross revenue	3,85,00,000
Less percentage on collections from Government estates ...	4,71,000
	3,80,29,000
Provincial share	95,07,000
Percentage on collections	4,71,000
	99,78,000

52. *Adjustments.*—Under the orders of the Government of India in the Public Works Department, the construction of a new Telegraph office at Sirajganj and the maintenance of certain Imperial buildings and works have been transferred to the District Boards with grants amounting to Rs. 32,352. The grants to the District Boards have been passed through the adjusting head of Contributions from Provincial to Local, and, subject to the final orders of the Government of India in the Finance and Commerce Department, a credit for this amount has been taken under Land Revenue. The Government of India have consented to bear from the Imperial Revenues only half the amount of honorarium granted to Mr. Kilby for his patent salt-weighing scale. A credit for Rs. 37,500 has accordingly been taken on this account. The total payment to Imperial Revenues under Land Revenue adjustments will then amount to Rs. 13,01,000, thus:—

	Rs.	Rs.
Fixed contribution to Imperial		14,39,000
Deduct—		
For transfer of Imperial buildings to Local Funds	32,352	
Honorarium to Mr. Kilby ...	37,500	
Hidgellee Tidal Canal	68,500	
	1,38,352	
Or in round numbers		1,38,000
Net payment ...		13,01,000

53. *Salt.*—The receipts from warehouses during the first six months amounted to Rs. 28,152 against Rs. 44,747 during the six months of last year. The total receipts in last year amounted to Rs. 1,11,000. It will not be safe, therefore, to place the estimate for the current year at a higher figure than Rs. 90,000.

54. *Stamps.*—The estimate of total revenue under this head, as passed by the Government of India, amounts to Rs. 1,49,00,000. The statements of the Comptroller-General and District Returns show that the receipts in the first eight months of the current year amounted to Rs. 99,37,000 against Rs. 96,34,000 obtained in the corresponding period of last year, showing an increase of more than three lakhs in eight months. The actual receipts in 1891-92 amounted to Rs. 1,51,00,000, and the Lieutenant-Governor thinks that the estimate for 1892-93 may be raised to Rs. 1,55,00,000. The Provincial share will be Rs. 1,16,25,000.

55. *Excise.*—The estimate of total revenue under this head amounts to Rs. 1,09,50,000. The monthly returns show that the receipts in the first eight months of the current year were Rs. 1,85,000 in excess of the receipts of the corresponding period of last year. The total collections in 1891-92 amounted to Rs. 1,11,34,000, and the results of the recent settlement of excise shops for the current year show an increase of about 4 lakhs in license fees as compared with those of the last year. In view of these figures, and of the fact that the crops in Behar show great promise, the estimate for 1892-93 will be raised to Rs. 1,14,00,000. The Provincial share will stand at Rs. 28,50,000.

56. *Provincial Rates.*—The estimate of total receipts under this head amounts to Rs. 44,17,000 against Rs. 45,25,000, the approximate actuals of 1891-92. The collections in the first eight months of the current year fell short of those of the corresponding period of last year by Rs. 19,000. In view of these figures,

the Lieutenant-Governor does not consider it safe to raise the original estimate, which stands at Rs. 44,17,000 against Rs. 45,25,000, the actuals of last year.

57. The Provincial receipts under Customs during the first seven months of the current year amounted to Rs. 26,424 against Rs. 34,117 in the corresponding period of last year. The total receipts in 1891-92 were Rs. 57,100. The estimate for the current year will be reduced from Rs. 57,000 to Rs. 50,000.

58. *Assessed taxes.*—The receipts under this head during the first eight months of the current year amounted to Rs. 29,91,000 against Rs. 29,28,000 obtained in the corresponding period of last year, showing an increase of Rs. 63,000. The total receipts in 1891-92 amounted to Rs. 43,08,000, and looking to the steady growth of this revenue, the Lieutenant-Governor would raise the estimate to Rs. 43,50,000. The Provincial share will stand at Rs. 21,75,000.

59. *Forests.*—The Conservator of Forests anticipates a decrease of Rs. 32,000, chiefly owing to the abandonment of the departmental system of collections and supply of timber and other forest produce which has been approved by Government, and has also made a reduction of Rs. 27,000 on the expenditure side. The provincial share of receipts has accordingly been reduced from Rs. 4,16,000 to Rs. 4,00,000.

60. The Registration receipts during the first seven months were Rs. 8,31,000 against Rs. 8,02,000 of the same period of last year showing an increase of Rs. 29,000. The actuals of 1891-92 were Rs. 13,34,000. In view of the steady expansion of revenue under this head, the estimate will be raised from Rs. 13,60,000 to Rs. 13,70,000. The provincial share will stand Rs. 6,85,000. A corresponding increase has also been made on the expenditure side.

61. *Police.*—The estimate under this head amounts to Rs. 4,60,000, which includes Rs. 25,000 for recoveries on account of clothing from District Executive Force. Under the orders of the Government of India, No. 458, dated the 31st July 1891, the clothing allowance of the constables has been raised from Rs. 4 to Rs. 5 per head, and in the case of special reserve from Rs. 6 to Rs. 8, and this will be sufficient to cover the cost of uniforms, so that no recoveries will virtually be made from the pay of the force, and free kits are also supplied to fresh recruits on their joining the Department without any deductions from their pay. The provision of Rs. 25,000 will therefore be struck out. But as the actuals of the first seven months of the current year irrespective of these recoveries show an increase of Rs. 18,000 as compared with those of the corresponding period of last year, the original estimate of Rs. 4,60,000 does not appear to be high. As, however, under the orders of Government, No. 3775F., dated the 12th October 1892, two separate local accounts have been opened for the receipts and charges hitherto included under the Provincial Minor head of Village Police, the estimate which includes Rs. 1,94,000 on the receipt side, and Rs. 2,20,000 on the expenditure on this account, will be reduced by these amounts. The estimate of receipts will accordingly be reduced to Rs. 4,60,000—Rs. 1,94,000=2,66,000.

62. *Marine.*—The receipts during the first seven months of the current year amounted to Rs. 4,18,081 against Rs. 5,58,110 obtained in the corresponding period of last year, showing a decrease of Rs. 1,40,000. The fluctuations are chiefly under pilotage receipts. The aggregate receipts in 1891-92 amounted to Rs. 9,65,408, and the Lieutenant-Governor does not think that the estimate for the current year can be placed at a higher figure than Rs. 8,60,000 against Rs. 9,68,000 originally estimated.

63. *Education.*—The actual receipts amounted to Rs. 5,75,686 in 1890-91, and Rs. 5,95,122 in 1891-92. The latter amount, however, includes a special refund of Rs. 19,000 made by the District Board of Jessore on account of charges formerly erroneously debited to Provincial account. The receipts in the first seven months of the current year show a decrease of Rs. 30,000 as compared with those of the corresponding period of last year. Looking to all these circumstances, the Lieutenant-Governor would place the estimate at Rs. 5,75,000, equivalent to the actuals of 1890-91, against Rs. 6,10,000 originally estimated.

64. *Superannuations.*—The estimate of receipts under this head for 1892-93 amounts to Rs. 71,000 against Rs. 1,26,574, the approximate actuals of 1891-92. The actuals of last year included arrear contributions received on account of the employés of District Boards, whose services had been declared to be qualifying for pension. No such arrears are expected this year, and the collections in

the first seven months amounted to Rs. 42,226, against Rs. 84,562 in the corresponding period of last year. Under the orders of the Government of India, Home Department, No. 253, dated the 12th August 1892, no contributions for pensions are now payable by the Sub-Inspectors of Schools transferred to the District Boards. Looking to all the circumstances, the estimate will be reduced to Rs. 65,000.

65. *Railways.*—Under the terms of the new Provincial Contract with the Government of India, the net receipts of the entire Eastern Bengal State Railway System are to be equally divided between the Imperial and Provincial Governments. The other Railways have been made Imperial. The following statement compares the estimate of the Government of India for 1892-93 with the actuals of 1891-92 :—

	Actuals, 1891-92.	Estimate passed by the Government of India, 1892-93.
	Rs.	Rs.
Receipts	1,14,63,835	1,18,00,000
Expenditure	62,62,793	54,00,000
Net earnings ...	52,01,042	64,00,000

The approximate gross earnings of the Eastern Bengal State Railway System from 1st April to 26th November 1892 amounted to Rs. 79,36,000 against Rs. 80,27,000 obtained from 1st April to 28th November 1891, but the traffic is now improving, and a large quantity of jute is still waiting for despatch. Looking to all the circumstances, the Lieutenant-Governor does not think that it will be safe to place the estimate of net receipts at a higher figure than Rs. 62,00,000. Half of this, Rs. 31,00,000, is Provincial, and this amount has been entered in the estimate, against Rs. 32,00,000 originally passed by the Government of India.

66. *Irrigation Major Works.*—The latest returns from the Examiner of Accounts show that the receipts during the first six months of the current year were Rs. 2,73,000 in excess of those during the corresponding period of the past year. The actual collections in 1891-92 amounted to Rs. 16,02,710, and the estimate for the current year, which stands at Rs. 14,68,000, will be raised to Rs. 16,00,000.

67. *Irrigation Minor Works.*—The returns of the Examiner show that the receipts in the first six months of the current year from Minor Works in charge of the Public Works Department, amounted to Rs. 3,17,603 against Rs. 3,59,951 realised in the corresponding period of last year. The total receipts in 1891-92 amounted to Rs. 8,17,934: the actuals of the first six months show a decrease of Rs. 42,384. The estimate will be reduced from Rs. 8,43,000 to Rs. 8,00,000. On the other hand the estimate of receipts by Civil Officers will be raised from Rs. 1,03,000 to Rs. 1,17,000 on account of the recoveries to be made of the capitalized maintenance charges of the Dankuni drainage.

EXPENDITURE.

68. *Assignments and compensations.*—The actuals in 1891-92 amounted to Rs. 1,66,129 and included arrear payments. But looking to the actuals of the first six months of the current year, amounting to Rs. 1,00,319, the Lieutenant-Governor would raise the estimate for 1892-93 from Rs 1,60,000 to Rs. 1,80,000.

69. *Land Revenue.*—The estimate under this head, amounting to Rs. 33,63,000, will be raised by Rs. 2,000 to meet the cost of an accommodation boat for the Collector of Cuttack, and by Rs. 3,000 on account of additional establishment applied for for the South Lushai Hills District. The revised estimate submitted by the Commissioner for this district is under consideration, but, pending final orders, the provision will be allowed to stand. The amalgamation of all criminal and revenue process-serving establishments recently sanctioned may increase the number of naib-nazirs or bukshis in certain districts, but the centralisation of the amalgamated establishment under one controlling authority will lead to a reduction in the number of peons employed, and more than compensate for the additional cost of the nazir's assistant. No increased grant will be necessary on this account. The estimate will stand at Rs. 33,68,000.

70. *Salt.*—The estimate under this head, amounting to Rs. 52,000, will be raised by Rs. 75,000, the payment of which amount has been sanctioned by the Secretary of State to Mr. Kilby as honorarium for his patent scales for the weighment of salt. The grant will now stand at Rs. 1,27,000.

71. *Forests.*—As stated in paragraph 59 above, the Conservator of Forests has reduced the grant of the Forest Department by Rs. 27,000. The Provincial grant will stand at Rs. 2,27,000.

72. *General Administration.*—The grant under this head for the current year will be raised by a transfer of Rs. 4,124 to meet the cost of the additional establishment of the Marine Branch of the Public Works Secretariat, and by Rs. 15,000 for the temporary appointment of an additional Commissioner for the Patna Division. The estimate will now stand at Rs. 15,67,000.

73. *Jails.*—The estimate under this head will be reduced by Rs. 13,607, which has been made over to the Public Works Department for the construction of works for the supply of drinking water to the Arrah Jail. The grant will stand at Rs. 20,86,000.

74. *Police.*—The estimate under this head, amounting to Rs. 57,90,000, includes Rs. 3,73,000 for the South Lushai Hill Force. The revised estimate of the South Lushai District just received from the Commissioner of the Chittagong Division, provides for a total expenditure of Rs. 7,24,146 against Rs. 4,97,000 provided in the budget, thus:—

	Estimate passed by the Government of India.	Revised estimate now resubmitted by the Commissioner.
	Rs.	Rs.
Land Revenue, including postal runners	18,000	21,048
Police—		
Force and establishment	1,57,000	1,45,864
Permanent transport and rations ...	2,16,000	2,29,699
Temporary ditto ...		1,86,009
Proportionate cost of supplies to Military Department, Rs. 76,590, debitable to Police	.....	54,376
Medical	19,500	20,282
Political	7,500	7,500
Civil works	79,000	59,368
Total ...	4,97,000	7,24,146

The estimate provides Rs. 4,70,084 for transport and rations and Rs. 1,45,864 for salaries and allowances of the Police and Commissariat Departments. The estimate of transport and rations is no doubt susceptible of considerable reduction, and, pending final orders, a lump provision of 3 lakhs will be made in the budget on this account. The total grant for Police of the South Lushai Hills will then stand at Rs. 4,45,864 against Rs. 3,73,000 passed by the Government of India, making an increase of Rs. 72,864. The total grant of the Police Department will also be raised by Rs. 10,593 to meet the cost of constructing a new steam-launch at the Government Dockyard for the District Superintendent of Police, Backergunge, and by Rs. 5,280 on account of the scheme recently sanctioned, by which the Court Sub-Inspectors will be employed as prosecuting officers, with effect from January 1893. The annual cost of this scheme is estimated at Rs. 21,120. Against these increases the estimate will be reduced by Rs. 2,20,000 on account of the charges hitherto included under village Police. The total grant will stand at Rs. 56,58,737, or Rs. 56,59,000 in round numbers.

75. *Marine.*—The estimate under this head, amounting to Rs. 8,85,000, does not include any provision for the purchase of new vessels. A new vessel to replace the *Coleroon* is now under construction at the Bombay Dockyard at a rough estimated cost of two lakhs, but the Public Works Department has recently reported that a sum of Rs. 25,000 only will be required on this account in the current financial year. The estimates will therefore be raised by Rs. 25,000, and will be placed at Rs. 9,10,000.

76. *Scientific and other Minor Departments.*—The estimate under this head amounting to Rs. 3,25,000, includes a provision of Rs. 15,000 for the maintenance of a "Veterinary School and Hospital" for the construction of which a donation of Rs. 30,000 was received from Babu Shewbux Bagla. As the construction of the hospital has not yet commenced, a grant of Rs. 5,000 will probably be sufficient on this account. Against this saving a grant of Rs. 6,000 has been made to the Indian Museum for the repairs of the Black Pagoda (Kanarak) in the district of Puri, and a grant of Rs. 10,000 has been sanctioned as contribution towards the representation of Indian tea at the Chicago Exhibition. A grant of Rs. 5,000 has also been promised for the repairs of roads in the Royal Botanic Gardens, and a further grant of Rs. 2,000 has been sanctioned to the Asiatic Society for the addition of a third section to the journal dealing with anthropology and ethnography. The total grant will now stand at Rs. 3,38,000.

77. *Superannuations.*—The Provincial expenditure under this head has been as follows:—

		Rs.	Increase. Rs.
	1887-88 ...	12,80,000	
	1888-89 ...	13,70,000	90,000
	1889-90 ...	14,36,000	66,000
	1890-91 ...	15,13,000	77,000
	1891-92 ...	16,00,000	87,000
Estimate ...	1892-93 ...	16,20,000	20,000

The increase in the last four years amounted to Rs. 3,20,000, or an average of Rs. 80,000. The actuals of the first seven months of the current year show an increase of about Rs. 63,000 as compared with the corresponding period of last year. In view of these figures, it will not be safe to place the estimate for the current year at a lower figure than Rs. 16,80,000.

78. *Famine Relief.*—The charges shown in the Accountant-General's monthly account for the first five months of the current year amounted to Rs. 1,623 only, but the adjustments with the District Boards will not probably be made before the close of the year. A provision of Rs. 1,50,000 will be made under this head.

79. *Subsidized Company's Land.*—The estimate under this head has been raised from Rs. 8,000 to Rs. 24,000 to meet the cost of land for the Bengal Duars Railway.

80. *Irrigation Major Works.*—The estimate of the Government of India, amounting to Rs. 13,73,000, will be raised by Rs. 50,000 to enable the Public Works Department to meet urgent demands on account of heavy damages done by the floods in Orissa.

81. *Minor Works and Navigation by Public Works Department.*—The estimate under this head as passed by the Government of India amounts to Rs. 16,45,000 A sum of Rs. 637 has been placed at the disposal of the District Board of Malda for the maintenance and repairs of embankments in that district entrusted to the Board's agency for a period of four years. Further grants of Rs. 120 and Rs. 72 have been made to the District Road Account of the Sonthal Parganas and the District Board of Monhgyr to meet the pay of the gauge readers at Sahebgunge and Monghyr respectively. It also appears from the rate of progress of work in the canals that it is unlikely that the full grant will be utilized during the current year, and that it will be enough if the grant is placed at Rs. 15,65,000. But this will be raised by Rs. 52,000 to effect an adjustment of the value of stock stores of the Orissa and Sone canals, which will probably be transferred from Capital to Provincial Minor Works Account.

82. *Minor Works in charge of the Civil Department.*—The actual expenditure in the first five months of the current year has amounted to Rs. 3,035. The estimate for the year will be raised from Rs. 2,000 to Rs. 6,000.

83. *Civil Works by Public Works Department.*—The grant for Provincial Civil Works for the current year was originally fixed by the Local Government at Rs. 31,84,000, but the Government of India, while passing orders on the budgets

for 1892-93, reduced it to Rs. 29,71,000. This has further been reduced to Rs. 27,41,000 by the following additions and deductions:—

	Rs.	Rs.
As originally fixed		29,71,000
Add—		
Grant for the supply of drinking-water to the Arrah jail	13,607	
Cost of land for Veterinary School and Hospital ...	10,000	
Grant for the additions and alterations to the Russa and Maniktolla distillery ...	27,944	
Grant for the Hospital at Rajshahi	1,817	
Grant for the Sirajganj Sub-divisional House and Court	33,186	
		86,554
		30,57,554
Deduct—		
Amount transferred to General Administration for establishment of the Marine Branch ...	4,124	
Withdrawal for the new cemetery at Calcutta ...	60,000	
Amount transferred to District Boards, &c., for the construction and maintenance of Provincial Buildings	3,57,990	
Amount transferred to Chittagong Hill Tracts ...	6,071	
		4,28,185
		26,29,369
or in round numbers		26,29,000

A further grant of two lakhs is required to enable the Public Works Department to undertake several urgent works which can no longer be postponed. The total grant will now stand at Rs. 28,29,000.

84. *Civil Works by Civil Department.*—The estimate under this head was originally passed by the Local Government for Rs. 2,20,000, but the Government of India reduced it to Rs. 1,79,000, thus:—

	Local Government.	Government of India.
	Rs.	Rs.
Lushai charges	79,000	79,000
Ferries	13,663	14,000
Contributions	62,000	62,000
Refunds	24,337	24,000
Improvements at Hastings (Calcutta) ...	41,000	.....
Total ...	2,20,000	1,79,000

The revised estimate for the South Lushai Districts, now submitted by the Commissioner of Chittagong, provides Rs. 59,368 for works in that district. The estimate will accordingly be reduced by Rs. 20,000, but as there are several applications from municipalities for grants-in-aid, and the improvements at Hastings may be taken up this year, the grant will be placed at Rs. 2,10,000. This will be further raised by Rs. 37,906, in case it is finally decided to debit to this head the compensation paid during the current year for the acquisition of certain lands adjoining the Cantonment grounds on Lebong spur.

85. *Contributions.*—The grants made to the several District Boards to establish equilibrium between the receipts and charges transferred to their management amount to Rs. 4,44,735, and the grants for the maintenance of Provincial roads transferred to their charge for the current year amount to Rs. 2,39,720. The grants to the District Road Funds and District Road Accounts as passed in the Incorporated Local Funds budget for 1892-93 amount to

Rs. 7,500 and Rs. 50,000 respectively. The total comes up to Rs 7,50,955. The following further grants have since been sanctioned :—

	Rs.
Amount transferred to District Boards, &c., for the construction and maintenance of Provincial Civil Works	3,57,990
Amount transferred to District Boards, &c., for Imperial Civil Works	32,352
Amount transferred to Chittagong Hill Tracts ...	6,071
District Board, Malda, for the maintenance and repairs of embankments	637
District Board, Monghyr, for the pay of gauge reader ...	72
District Road Account, Sonthal Parganas, for gauge reader	120
District Road Fund, Hazáribágh, on account of Government share of the cost of revaluation	2,125
District Road Fund, Singhbhum, on account of Government share of the cost of revaluation	754
District Road Fund, Lohardaga, on account of Government share of the cost of revaluation	4,586
Total ...	4,04,707

These make a total of Rs. 11,55,662, and as some provision is necessary to meet payment of arrear grants, for which applications are constantly received, a lump provision of Rs. 11,80,000 will now be made.

86. *Closing balance.*—According to the estimates passed by the Government of India, it was expected that the year would close with a balance of Rs. 20,00,000. According to the estimates now adopted, the closing balance will be Rs. 21,54,000.

ORDER.—Ordered that a copy of this Resolution be submitted to the Government of India, Department of Finance and Commerce, for information.

Ordered also that a copy of the above Resolution be forwarded to the Board of Revenue; to all Commissioners of Divisions; to the Accountant-General; to the Inspectors-General of Civil Hospitals, Police, Jails, and Registration; to the Directors of Public Instruction and Land Records and Agriculture; to the Conservator of Forests; to the Port Officer, Calcutta; to the Superintendents of Royal Botanic Garden, Calcutta, and Government Printing, Bengal, and to all Departments of this Government, for information.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Secretary to the Govt. of Bengal.

INVESTIGATIONS INTO SHIPPING CASUALTIES.

No. 1 Marine.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

Dated Calcutta, the 3rd January 1893.

RESOLUTION.

READ—

Letter No. 732, dated 8th September 1892, from the Superintendent and Remembrancer of Legal Affairs, with its enclosure from the Deputy Legal Remembrancer, dated 6th September 1892.

Letter No. 891, dated the 8th October 1892, from the Solicitor to the Government of India, forwarding an opinion by the Officiating Advocate-General, dated the 27th September 1892.

1. The necessity of defining more particularly the procedure to be followed in the case of investigations into shipping casualties conducted under the provisions of Act V of 1883, as amended by Act VI of 1891, having lately been represented to the Lieutenant-Governor, the following instructions are issued for the guidance of those concerned.

2. The duties imposed by section 6 of Act V of 1883 upon a Magistrate or other officer appointed in that behalf by the Local Government shall, as regards the port of Calcutta, be performed by the Port Officer, to whom the reports required by sub-section 2 shall be made. When such a report is received, or when it comes to the Port Officer's knowledge that a casualty, as described in section 6 (1*c*) has occurred, it shall be the duty of the Port Officer to hold an informal enquiry, exercising the powers conferred on him by section 9 of Act VI of 1891, and to submit a report to Government in the Marine Department.

3. The greatest possible expedition should be used in making the enquiry and submitting the report. In conducting the enquiry, the following remarks by the Advocate-General should be borne in mind:—

"Under Act V of 1883, section 6, it becomes the duty of the officer appointed in that behalf, upon receiving credible information of the happening of any of the occurrences mentioned in that section, to hold the abovementioned preliminary investigation. Clause 4 of this section (Act VI of 1891, section 9,) furnishes him with ample powers of doing so without being in any way tramelled by the laws of evidence or the rules of procedure. Such an investigation ought, in my opinion, to be held in every case falling within the purview of section 6, and should be of such a searching character as to render the report to be thereon drawn up and submitted to the Local Government such a full and sufficient statement of the whole case as to enable that Government to determine whether it is requisite or expedient to direct the abovementioned formal investigation, and the Deputy Legal Remembrancer to conduct it if directed."

4. The following instructions given by the Board of Trade, which are in force in England, appear to be equally applicable, *mutatis mutandis*, to enquiries made in this country, and form directions which may usefully be taken note of by the Port Officer in the case of the enquiries which he is now directed to make:—

"He will observe that he may, if necessary, examine upon oath, but he will probably seldom find it necessary or desirable to do so.

"In all cases when there is any point which it is important to establish, or any question of fact in dispute or doubt, he will take the evidence in writing.

"In every case, when the enquiry is concluded, the officer will send a report to the Board of Trade containing the result of the enquiry, and such of the evidence as may be important.

"In all cases of casualties arising from avoidable causes, the report and the statement of the evidence bearing on the point should be full and complete."

5. The report will assume one of two forms—

(1) It will be to the effect that no blame attaches to any one and no further enquiry is needed; or

(2) It will state that a further formal enquiry is necessary, that blame *primâ facie* attaches to some one, either Pilot, Master, Mate, or Engineer of the ship, or Harbour Master of the Port; or that the circumstances attending the casualty point to some defect in the vessel.

In case (2) the Port Officer will order the detention of such witnesses as, in his opinion, are necessary for the proper elucidation of the facts.

6. If the Port Officer holds that *primâ facie* blame attaches to a Pilot, he shall appoint a Departmental Court of Enquiry composed of two Pilots and a Master of a mercantile ship.

7. If (I) the person implicated by the Port Officer's report, *vide* paragraph 5, clause 2 above, is a Master, Mate, or Engineer of a ship, or (II), in case of a Pilot, if Government, on the receipt of the report of the Departmental Committee under paragraph 6, consider an enquiry under Act V of 1883 to be desirable, or (III) if the casualty is stated to be due to some defect in the ship, the Local Government will appoint the Chief Presidency Magistrate and two Assessors to be a Special Court to hold a formal investigation under section 7 of Act V of 1883, and will direct the Court—

(1) if they find that a charge of incompetency or misconduct lies against a Pilot, to report at once to Government;

(2) if they find that such a charge lies against Master, Mate, or Engineer, to proceed as directed in sections 9, 11, 12, &c., of Act V of 1883.

8. If the report of the Special Court implicates a Pilot, the Lieutenant-Governor will decide whether to proceed against him departmentally, or whether he shall be tried under Act XII of 1859. In the latter case the Chief Presidency Magistrate will be the Judge of the Court, and the Assessors of the previous Court will sit with him, together with two merchants of Calcutta, to be selected from a list prepared and kept in the manner prescribed by the Act.

9. If the report of the Port Officer, parapraph 5, implicates a Harbour Master, the Port Commissioners will be requested to cause a Departmental enquiry to be made, and to report to Government the result of the enquiry and the action taken by them.

10. In all formal investigations carried out under Act V of 1883, or under Act XII of 1859, the Deputy Legal Remembrancer, or other suitable officer to be appointed by Government for the occasion, will appear before the Court on behalf of Government.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Port Officer, Chief Presidency Magistrate, and the Legal Remembrancer, for information and guidance, and to the Judicial Department of this Government for information.

Ordered also that a copy of this Resolution be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Joint-Secretary to the Govt. of Bengal.

LIBERALITY OF LALA BANGSHA GOPAL NANDEY.

No. 4Med., dated Calcutta, the 3rd January 1893.

From—H. H. RISLEY, Esq., C.I.E., Secy. to the Govt. of Bengal, Municipal Dept.,
To—LALA BANGSHA GOPAL NANDEY, Burdwan.

I AM directed to say that the Lieutenant-Governor has heard with pleasure of the donation of Rs. 5,000 made by you to the Committee of the Lady Dufferin's Fund for improvements to be carried out in the *pardanashin* wing of the Zenana Hospital in Calcutta, and to convey to you an expression of His Honour's thanks for your liberality and public spirit. This letter will be published in the *Calcutta Gazette.*

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 31st December, 1892.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
	BENGAL.		
	BURDWAN DIVN.		
1	Burdwan Dec. 31, '92	Nil	Weather—fine and fairly cool. *Aman* harvesting nearly finished. Prospect of *rabi* fair. Prices of common rice:—
	Kalna ...	Nil	
	Katwa ...	Nil	
	Raniganj ...	Nil	

	Srs.	
Burdwan	10 to 12	per rupee.
Kalna	11 to 14	
Katwa	13½	
Raniganj	13	

2	Bankura ,, 31, '92	Nil	Weather—seasonable. Harvesting of *aman* still continues in places in the Vishnupur subdivision. Other crops doing well. Fodder and water sufficient. Prices of common rice:—
	Vishnupur ...	Nil	

	Srs.	
Sadar	11½	per rupee.
Vishnupur	11½	

3	Birbhum ,, 31, '92	Nil	Weather—seasonable. There is nothing more to report about the crops as the rice harvest has been gathered. Prices of rice remain at 12 to 14 seers per rupee. The usual decrease in price at this season has not taken place because of the exceptional demand for rice for exportation from the district. Fodder and water plentiful.
	Rampur Hát ...	Nil	
4	Midnapore ,, 31, '92	Nil	Weather—fine and cold. *Aman* harvest almost over. *Rabi* and sugarcane doing well. Prices of common rice:—

	Srs.	
Sadar	11	per rupee.
Contai	10 to 14	
Tamluk	13 to 14	
Garhbeta	12½ to 13	

5	Hooghly ,, 31, '92	Nil	Ordinary cold weather, but slightly warmer at end of the week. No change in condition of crops. *Rabi* and sugarcane doing well. Prices becoming a little easier as harvest progresses. Prices of common rice:—
	Serampore ...	Nil	
	Jahanabad ...	Nil	

	Srs.	c.	
Sadar	9 to 10	0	per rupee.
Serampore	10	8	
Jahanabad	11	13	

6	Howrah ,, 31, '92	Nil	Weather—seasonable. About half the winter rice harvested. Sugarcane and spring crops doing well. Condition of cattle good. Fodder and water-supply sufficient, except in Howrah Municipality. Prices of rice 10 to 11½ seers per rupee.
	Ulubaria ...	Nil

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The *humidity* of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. rainfall the *normal* mean are the numerical means or *averages* of the rainfall in that district determined from the returns sent in by the subdivisional station district, *i.e.*, from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 31st of December 1892.

Variation from normal mean.	Mean 8 A.M., temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. OF WEEK. Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 3rd January* 1893.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 31st OF DECEMBER 1892.

THE meteorology of the week has again been of little importance, and fine settled weather of ordinary north-east monson character has prevailed throughout the period. On the 25th instant, or the first day of the week, pressure was rising slowly, and was above the normal by about 0·05″ to 0·07,″ while the general temperature of the province was nearly normal, slight defects being registered at the western stations, and slight excess temperatures in the east of the province. Winds were a little more strongly westerly than usual, and light westerly and north-westerly winds were generally reported. On the 26th the changes of pressure were unimportant, but temperature had fallen and had become below the normal by from 1° to 2° Similar changes were reported on the 27th, but on the 28th pressure and temperature commenced to rise moderately, while on the 29th temperature was still rising slowly, though pressure was falling; on the 30th and 31st instants pressure was practically steady, and a further increase had taken place in the case of temperature, which had become in excess of the normal at all except a few of the eastern stations, the excess ranging up to 4°, 5° and 6° at the western stations in Bihar. During the last two days of the week also humidity had increased very decidedly over the province, and this rather rapid increase in temperature and humidity was apparently connected with a barometric depression which had appeared over North-Western India and which had steadily advanced in an easterly direction towards Bengal, and, as usual in such cases, a rapid increase of temperature and humidity took place in front of the advancing depression. Beyond these changes and a slight increase in cloud proportion at some of the western stations, the depression up to the end of the week had not materially affected Bengal, and winds were still north-westerly and westerly, and rainfall was quite absent from the province up to the close of the week.

Pressure—Has been in excess of the normal throughout the week, and the general excess has equalled about 0·06″ The excess, however, has been smallest at the northern stations, where in many cases it has only equalled about 0·04.″

Temperature—Was in slight defect of the normal for the earlier part of the week, but on the last two days it became rather largely in excess. Hence the mean temperature for the province for the week has been quite normal, the variation being considerably less than a tenth of a degree. Owing, however, to the rapid increase of temperature in the western districts at the end of the week, Bihar and Chota Nagpur show a general excess of about a degree, while North, East and South-West Bengal and Orissa show defects of about half a degree.

The distribution of temperature for the week in the province generally, and its variation from the normal value, are clearly seen in the table below, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are compared with their normal values for the period. Again, it will be seen that the night or minimum temperatures continue very decidedly defective.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 31*st December* 1892.

	Normal mean maximum temperature for the week ending 31st December.	Actual mean maximum temperature for the week ending 31st December 1892.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 31st December.	Actual mean minimum temperature for the week ending 31st December 1892.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 31st December.	Actual mean daily temperature for the week ending 31st December 1892.	Variation of actual mean from the normal.

The total fall from 1st January to 31st December 1892		46·67
The average fall of the corresponding period for 24 years, S.-G.'s Office ...		65·24

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; ≡, fog.

C. LITTLE,

For Meteorological Reporter to the Govt. of Bengal.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 99L.R.

The 10th January 1893.—For the purpose of carrying out the survey of the land benefited by the Rajapur Drainage scheme in accordance with the orders contained in Notification No. 1561L.R., dated the 18th April 1892, under section 3 of Act V (B.C.) of 1875, the Lieutenant-Governor appoints the following officers, under section 4 of the said Act, to be Assistant Superintendents of Survey:—

(1) Babu Ashootosh Chatterjee, Sub-Deputy Collector, Hooghly.
(2) Babu Upendra Nath Ghose, Sub-Deputy Collector, Howrah.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 100L.R.

The 10th January 1893.—Babu Sasi Mohan Talukdar, Sub-Deputy Collector, is hereby appointed to be a Revenue Officer under the provisions of the Bengal Tenancy Act, and to be an Assistant Settlement Officer under Rule 1, Chapter VI of the Rules framed under the said Act. He is also vested with the powers of an Assistant Superintendent of Survey in the same district under section 4 of Act V (B.C.) of 1875.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION.—No. 132L.R.

The 10th January 1893.—Under the powers conferred upon him by section 101 (1) of the Bengal Tenancy Act VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the external boundaries of Tappa Sugaon in the district of Champaran.

The particulars to be recorded in the survey and record of rights shall be the following:—

The name of each proprietor with the character and extent of his interest.

The situation, quantity and boundaries of proprietor's private lands, as defined in Chapter XI of the Act.

The name of each tenant.

The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

The situation, quantity and boundaries of the land held by him.

The name of his landlord.

The rent payable.

The mode in which that rent has been fixed, whether by contract, by order of a court, or otherwise.

If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

DECLARATION.—No. 109L.R.

The 10th January 1893.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the post office at Gopalganj, in the village of Khotra, pargana Mokimpur, zilla Faridpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 bigha, 5 cottahs, 4 dhoors of standard measurement, bounded on the North by the Jote land of Sristidhar Roy, East by the Jote land of Madon Roy, South by the Jote land of Harmohon Roy, West by the Jote land of Kailas Roy and mission house, is required within the aforesaid village of Khotra.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 78.

The 10th January 1893.—Under clause 2 of section 14 of the Indian Emigration Act XXI of 1883, the Lieutenant-Governor is pleased to declare his approval of the appointment of Mons. Pierre Charriol to be Emigration Agent at Calcutta for the French Colonies, *vice* Mons. Emile Charriol.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 107S.R.

The 5th January 1893.—In exercise of the powers conferred by section 55 of the Indian Stamp Act (I of 1879), the Lieutenant-Governor is pleased to make the following amendment in the rules made under that section and published under notification, dated the 25th April 1881, at pages 462-63, Part I, of the *Calcutta Gazette*, dated the 27th idem:—

"In Rule 10, after the word 'write' in the first line, the words 'at the time of sale' shall be inserted."

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 109S.R.

The 5th January 1893.—In exercise of the powers conferred on him by section 27 of the Court-fees Act VII of 1870, and on the recommendation of the Board of Revenue, the Lieutenant-Governor is pleased to make the following amendment in the rules made under that section and published under notification, dated the 26th June 1883, at page 572, Part I, of the *Calcutta Gazette*, dated the 4th July 1883:—

"In Rule 11, after the word 'write' in the first line, the words 'at the time of sale' shall be inserted."

H. H. RISLEY,
Secy. to the Govt. of Bengal.

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH.

WITH reference to notification No. 5058F in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the prize for scientific research will be given this year to the author of the best original essay giving the results of original research or investigation in "Mathematics" composed during the year 1893.

Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize.

The essays of competitors must be sent in to the President, Asiatic Society, by the end of December this year. The prize will be adjudged to the best competitor and awarded publicly at the annual general meeting of the Asiatic Society in February 1894.

Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize to be awarded, but the amount to be retained, so that in any future year two or more prizes may be given, or the prize enhanced in the case of an exceptionally good essay.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

The 10th January 1893.—The following notification by the Government of India, in the Home Department, is republished for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

No. 2340, dated Calcutta, the 22nd December 1892.

NOTIFICATION—By the Government of India, Home Department.

IN accordance with the provisions of section 18, sub-section (1) of the Indian Explosives Act IV of 1884, and with the directions contained in Home Department Notification No. 1964, dated 2nd September 1887, the Governor-General in Council is pleased to publish, for general information, the following draft rule which he proposes to substitute for the rule as to the fee to be charged for licenses to possess explosives, which was published in Home Department Notification No. 1989, dated the 25th July 1888.

The draft will be taken into consideration on the expiry of two months from the date of this notification.

Draft Rule.

No fee shall be charged for licenses granted to contractors, cultivators or other persons to possess gunpowder, fuses or other explosives in reasonable quantities when the same are proved to the satisfaction of the officer granting the license to be required *bonâ fide* in the case of licenses granted to contractors for blasting purposes, and in the case of licenses granted to cultivators or other persons, for blasting purposes in connection with agricultural works or works of public utility.

NOTIFICATION.

The 10th January 1893.—Under the provisions of section 5 of the Indian Registration Act III of 1877, the Lieutenant-Governor sanctions the establishment of two new rural sub-registry offices in the district of Bogra, one at Sherpur, having jurisdiction over thana Sherpur and the independent outpost of Dhunat, and the other at Khanjanpur, with jurisdiction over thanas Khetlal, Panchbibi and Nawabganj and thana Adamdighi, with the exception of the outpost of Dupchachya which is subordinate to it. The registration subdistrict of Bogra will henceforth be restricted to thana Bogra including the outpost of Dupchachya which is subordinate to thana Adamdighi, and thanas Sariya Kandi and Shibganj. This notification will take effect on and from the 1st February 1893.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

COMMUNICATIONS.

Dated Calcutta, the 10th January 1893.

No. 7.—Notification—In accordance with the requirement of section 50 of Act X of 1870 of the Government of India, the following is published for information.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

MEMORANDUM OF AGREEMENT made and entered into this twenty-sixth day of April one thousand eight hundred and ninety-two between THE BENGAL PROVINCIAL RAILWAY COMPANY LIMITED (hereinafter called the Company) of the one part and the SECRETARY OF STATE FOR INDIA IN COUNCIL (hereinafter called the Secretary of State) of the other part. WHEREAS by order of the Government of Bengal acting in the premises for and on behalf of the Secretary of State published in the *Calcutta Gazette* of the twentieth day of January one thousand eight hundred and ninety-two and being notification No. 14 the Company have been empowered to make a tramway Tarkeswar and Mugra both in the district of Hooghly upon the gauge and in the manner described and in accordance with the provisions contained in the schedule thereto annexed and marked A and a copy of the agreement entered into between the Promoters and the Local Authority under the provisions of the Bengal Tramways Act 1883 is set out in the Schedule B annexed to the said order and WHEREAS the Company in pursuance of the provisions of Schedule A of the said order have applied to the Government of Bengal for the acquisition by the Government for the Company under the provisions of the Land Acquisition Act X of 1870 of such land as is required for the Tramway and the Government of Bengal in pursuance of section 49 of the said Act X of 1870 have accordingly called upon the Company to enter into such agreement with the Secretary of State as is hereinafter contained Now these present witness that it is hereby mutually covenanted between and by the said parties hereto for themselves their successors and assigns in manner following that is to say—

1. The Company shall pay to the Government of Bengal before the land is transferred to the Company the cost of the said land and all proper costs of the acquisition proceedings including the costs of any references and appeals to court the fees of assessors and the charges for the necessary establishment (an estimate of the charges of establishment which is only to be treated as an approximate estimate and not as limiting the powers of the Secretary of State his successors or assigns to employ a larger establishment if found necessary being hereto annexed by-way of schedule and marked A) and the Company shall by way of securing such payment and immediately upon the amount being made known to them deposit with the Government of Bengal the amount that may be estimated by the Collector or Officer to be appointed under Act X of 1870 to make the acquisition as the cost of the land and the costs of the said proceedings and the Government of Bengal shall use and apply the moneys so deposited in paying and satisfying the same costs and the Company shall from time to time deposit such further sum as may be required by the Collector to bring the amount in deposit up to the estimated costs of the land and of the acquisition proceedings.

2. On payment or satisfaction in full by application of the moneys deposited of the cost of such land and the proper costs of the acquisition proceedings and by payment of any balance remaining unsatisfied after such application the land shall at the cost of the Company be conveyed and transferred to the Company by the Secretary of State

3. The land shall be held by the Company subject to all the terms and provisions set out in Schedules A and B of the above recited order and the time within which and the conditions on which the work of constructing and making the said tramway are to be executed and maintained shall be the time and the conditions prescribed in the said order and the said Schedules A and B thereto and the terms on which the public shall be entitled to use the work shall be those set out in the said Schedule A the Company hereby agreeing with and to the Secretary of State that this agreement shall take effect in all respects as if the terms provisions and conditions referred to in this clause had been particularly set out at length in this agreement in place of being incorporated herein by reference to the said order and the schedules thereto respectively.

IN WITNESS WHEREOF the said parties to these presents have hereunto set their hands and seals the day and year first above written.

THE COMMON SEAL of the abovenamed Bengal Provincial Railway Company Limited was hereto affixed in the presence of—

By order,

HIGH COURT, *the* *December* 1892. H. W. C. CARNDUFF, *Registrar.*

NOTIFICATION.

The 5th January 1893.

THE following rule framed by the High Court of Judicature at Fort William in Bengal, under section 2 of the Destruction of Records Act (III of 1879), confirmed by the Lieutenant-Governor of Bengal and the Chief Commissioner of Assam, and sanctioned by the Governor-General in Council under section 5 of the same Act, is hereby published as required by the last-mentioned section.

By order of the High Court,
H. W. C. CARNDUFF, *Registrar.*

Rule.

The rules for the arrangement, classification, preservation and destruction of the records of Civil Proceedings, promulgated with Circular Order No. 7, dated the 2nd June 1890, were declared to take effect from the 1st January 1891, and are therefore generally inapplicable to the records of cases instituted before that date. They may, however, at the discretion of the High Court and subject to such modifications as may be necessary in particular instances, be made applicable, so far as may be deemed suitable, to the records of older cases.

Dates of Criminal Sessions for the year 1893.

Number of Sessions.	Day of the week.	Date.
First Sessions	Monday	February 20th.
Second ,, ...	Ditto	May 1st.
Third ,, ...	Ditto	July 10th.

Dates of the Fourth and Fifth Sessions will be notified hereafter.

By order,
J. G. APCAR, *Clerk of the Crown.*

HIGH COURT, CROWN OFFICE, *the 5th January* 1893.

Sheriff's Office, the 11th January 1893.

NOTICE is hereby given that the First Criminal Sessions of the year 1893 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the twentieth day of February next, at 11 o'clock in the forenoon, and so on from day to day, until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

R. D. MEHTA, *Sheriff.*

শরিফ আফিস, সন ১৮৯৩ সাল তারিখ ১১ ই জানুয়ারি।

সকলকে সমাচার দেওয়া যাইতেছে যে যুবে বাঙ্গালার কোর্ট উইলিয়ম দুর্গের অধীন শহর কলিকাতায় ও অন্যান্য স্থানের ফৌজদারী বিচার নিষ্পত্তি জন্য আগামী সন ১৮৯৩ সালের ২০শে ফেব্রুয়ারি সোমবার বেলা ১১ ঘটিকার সময় এবং যে পর্য্যন্ত সেশিয়ানের কার্য্য শেষ না হয় প্রতিদিন উক্ত সময়ে কলিকাতার হাই কোর্টের আপন আদালত ঘরে সন ১৮৯৩ সালের প্রথম ক্রিমিনেল সেশিয়ান বসিবেক এবং এতদ্দ্বারা প্রচার করা যাইতেছে যে, যে সকল ব্যক্তি কোন কয়েদির বিরুদ্ধে ফৌজদারী মিসিল করিবেক তাহারা উক্ত স্থানে উক্ত সময়ে হাজির থাকিয়া মোকদ্দমা করে ইতি।

H. A. BAMFORD,
Inspector of European Schools, Bengal.

Subordinate Educational Service.

The 5th January 1893.—Babu Govinda Hari Dhar, Second Clerk in the office of the Inspector of Schools, Eastern Circle, and now Officiating Departmental Sub-Inspector of Schools, Dacca, is appointed to act in class VI, *vice* Babu Prasanna Kumar Mozumdar on deputation, or until further orders.

The 6th January 1893.—Babu Isan Chandra Ghosh, M.A., Deputy Inspector of Schools, Calcutta (class V), is allowed leave of absence for three months, under Article 291 of the Civil Service Regulations, with effect from the 15th January 1893, or such subsequent date as he may avail himself of it.

Babu Braja Syam Mazumdar, Sixth Assistant, office of the Director of Public Instruction (class VI), is appointed to act as Deputy Inspector of Schools, Calcutta, and in class V, *vice* Babu Isan Chandra Ghosh, on leave.

The 7th January 1893.—Babu Mahendra Lal Ghosh, Head Clerk in the office of the Inspector of Schools, Presidency Circle (class V), is allowed leave of absence for three months, under Article 369 of the Civil Service Regulations, in extension of that granted to him under the orders of the 28th October last.

Babu Jogeswar Ghosh, Second Clerk in the office of the Inspector of Schools, Presidency Circle (class VI), is appointed to act as Head Clerk in the same office, and in class V, with effect from the 6th January 1893, *vice* Babu Mahendra Lal Ghosh on leave, or until further orders.

Babu Sri Nath Banerjea, Departmental Sub-Inspector of Schools, Jessore, is appointed to act as Second Clerk in the office of the Inspector of Schools, Presidency Circle, and in class VI, with effect from the 1st January 1893, *vice* Babu Jogeswar Ghosh, promoted, or until further orders.

C. A. MARTIN,
Offg. Director of Public Instruction.

Examination of Candidates for Pleadership and Mukhtearship in Mufassal Courts subordinate to the High Court.

THE next examination of candidates for Pleadership will be held on the 15th, 16th, and 17th February next in the Senate House of the Calcutta University.

The next examination of candidates for Mukhtearship will be held at Calcutta, Patna, Dacca, Cuttack, Gauhati, and Sylhet on the same days; the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

The Pleadership candidates will be examined *viva voce* only on the 15th February commencing at 10 A.M., and two papers will be set each day for them at 10 A.M. and 2 P.M., respectively, on the 16th and 17th February. Two papers will be set for the Mukhtearship candidates on the 15th February at 10 A.M. and 2 P.M., respectively, and they will be examined *viva voce* on the 16th and 17th February, commencing at 10 A.M. each day.

Under no circumstances will any candidate be admitted to the examination room after these hours.

The candidates will be required to produce at the examination extracts from the Register, which will be furnished to them by the District Judge, through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination room with any memoranda or loose papers of any description (with the exception of the extracts above mentioned).

All writing materials will be provided with the exception of pens, which the candidates must bring with them.

HENRY T. HYDE,
Secy. to the Board of Examiners for Pleadership and Mukhtearship.

2*nd*.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1892, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3*rd*.—The latest dates for deposit and clearance will be the 6th and 16th February 1893, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Monday, the 6th February 1893, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 16th February 1893.

4*th*.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale down to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so—

DECLARATION.

No. 132*M.*—*The 9th January* 1893.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for improving Middle Road Bye-lane, it is hereby declared that for the above purpose a piece of land No. 11, Middle Road Entally, in Dehi Punchannogram, district 24-Parganas, measuring, more or less, 7 chittacks and 5 square feet only, is required. The boundaries of the land are as follows:—On the North and West No. 11, Middle Road Entally; on the South No. 12, Middle Road Entally; and on the East Middle Road Bye-lane.

A plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

APPENDIX XXIV.

SEE CHAPTER II, PART 3, RULE 26.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th January 1893, corresponding with the 29th Pous 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavations on the lands nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Hooghly Collectorate, the 12th November 1892.

F. W. DUKE, Collector.

NOTICE is hereby given that the undermentioned plot of land no longer required by Government, situated along the Tirhut State Railway, in the district of Monghyr, will be put up to sale at 12 o'clock on Wednesday, the 18th January 1893, corresponding with the 16th Pous 1300 Fusli, at Begamsarai Station, Tirhut State Railway.

The purchaser of the plot of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4*th*.—The plot of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

24-Parganas Collectorate, the 25th November 1892. F. R. S. COLLIER, Collector.

Notice

IS hereby given that agreeably to the sanction conveyed by the Board of Revenue in their letter No. 173A., dated the 25th February 1892, the undermentioned properties will be sold at the Gaya Collectorate by public auction at 2 P.M. on the 9th February 1893, and following days, for the settlement of debts and liabilities against the estate of Babu Inder Deo Narayan Singh minor of Chundergadh under the Court of Wards. One-fourth of the purchase money must be deposited by the purchasers at auction at the time of sale, the remainder of the purchase money together with any arrears of rents due will be payable within 14 days of the sale being confirmed by the Commissioner. If the full purchase money is not paid on confirmation of sale, the money deposited will be forfeited. Purchasers will get credit in their purchase money for any peshgi due to the thicadars. For particulars apply to the Manager, Chundergadh Estate. The undersigned does not bind himself to accept any bid which is less than a reserved price fixed beforehand. Applications for purchase by private contract at reasonable prices of all or any of the properties will be received by the Manager up to the 31st of January 1893.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8 ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4 ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

FALAKATA FAIR.

Notice.

THE public are hereby informed that a "Fair" will be held at Falakata in the sub-division of Alipur, Western Duars, district Jalpaiguri. The Fair will commence on January 22nd, 1893 (A.D), corresponding with 10th Magh 1299 (B.S), and will continue up to February 5th, 1893. Tradesmen, dealers and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoceri horns, yak tails, musk, honey, wax, lac, ponies, and various other articles from Bhutan and Thibet; and also tea, paddy, rice, tobacco, jute, mustard-seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Falakata is situated on the river Moojanai, very conveniently for river traffic from East Bengal, viz., Dacca, Goalundo, Serajganj, Manikganj, etc., and within easy reach of Jalpaiguri and Kuch Bihar. A good cart and driving road exist all the way. Arrangements for good drinking water and for comfort of strangers, traders and shopkeepers, and special police arrangements for safety of property and goods, exist. Booths are also erected at Government expense for accommodating shops.

W. H. W. MACKENZIE, Sub-divisional Officer,
Alipore Duars.

Alipore Duars, the 7th December 1892.

Road Cess Notification.

AT a special meeting held on the 12th December 1892, the Pabna District Board have determined that road cess in that district for the cess year 1893-94 shall be levied at the maximum rate, viz., one-half anna on each rupee of the annual value of lands, &c., as enumerated in section 6 of the Cess Act.

G. K. DEN, Chairman.

Pabna, the 28th December 1892.

SURESH CHANDRA BASU, B.L., intends to apply for enrolment as Vakil of the High Court.

(860—4)

DASA RATHI SANYAL, B.L., intends to be enrolled as a vakeel of the High Court.

(903—4)

BHOGOBAN CHUNDER MOOKERJEA intends to apply for enrolment as a Vakeel of the High Court, Calcutta. (907—4)

The Central Cachar Tea Co., Ld.

NOTICE is hereby given that an Extraordinary General Meeting of the Central Cachar Tea Company, Limited, will be held at No. 3, Mangoe Lane, on Tuesday, the 28th February next, at noon:—

(1) For the purpose of considering and, if thought fit, approving the alterations in the Articles of Association of the Company noted below, which will be submitted to the Meeting, and of making any other alterations which may be thought desirable, and in the event of the approval of the said alterations, with or without modification, or in the event of any other alterations being adopted.

(2) For the purpose of considering and, if thought fit, passing a resolution to the effect that the regulations of the Company be altered accordingly, and that the existing regulations, as so altered, be adopted as the regulations of the Company.

Any such resolution which may be passed by the requisite majority shall be submitted for confirmation as a special resolution to a second Extraordinary General Meeting to be hereafter convened.

Proposed alterations in the Articles of Association.

(*a*) The following article shall be substituted for Article 19:—

The Ordinary General Meeting of the Company shall be held yearly, at the Registered Office of the Company, in the month of March, on such date as the Directors may determine.

(*b*) The following article shall be substituted for Article 22:—

Seven days' notice at the least, specifying the place and the time of meeting, and the purpose for which any General Meeting is to be held, shall be given by sending letters by post to the registered address of the shareholders' resident in Calcutta, and the constituted attorneys (who have registered their power-of-attorney with the Company) of the shareholders absent from Calcutta. The non-receipt of any such notice by any member shall not invalidate the proceedings at any General Meeting.

No shareholder who shall be described in the register as residing out of Calcutta, and shall have omitted to give to the Company an address for service in Calcutta, and no shareholder who shall have omitted to give his address for registration, shall be entitled to receive any notice from the Company, and no shareholder shall, by reason of his residing out of Calcutta, be entitled to any longer or other notice than shareholders resident in Calcutta.

(*c*) The following article shall be substituted for Article 23:—

Every shareholder shall have one vote for each share held by him.

(*d*) In Article 32 the word "March" shall be substituted for the word "February."

(*e*) In Articles 35, 36 and 37 the words "or Secretaries" shall follow the word "Secretary."

(*f*) Article 39 shall be cancelled, and No. 69, Table B, therein referred to, shall apply.

(*g*) Articles 40 and 41 shall be cancelled.

By order of the Directors,

WILLIAM MORAN & Co., Secretaries.

No. 3, Mangoe Lane, Calcutta, the 30th November 1892

Half ,,	,,	...	,, 18

Casual advertisements 4 annas per line.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month.

Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

[REGISTERED No. 29.]

No. 2 of 1893.

SUPPLEMENT TO

The Calcutta Gazette.

WEDNESDAY, JANUARY 11, 1893.

OFFICIAL PAPERS.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled for the purpose of making Laws and Regulations under the provisions of the Act of Parliament, 24 and 25 Vic., Cap. 67.

THE Council met at the Council Chamber on Saturday, the 7th January, 1893.

Present:

The HON'BLE SIR CHARLES ALFRED ELLIOTT, K.C.S.I., Lieutenant-Governor of Bengal, *presiding.*
The HON'BLE J. T. WOODROFFE, *Offg. Advocate-General.*
The HON'BLE T. T. ALLEN.
The HON'BLE H. J. S. COTTON, C.S.I.
The HON'BLE H. H. RISLEY, C.I.E.
The HON'BLE J. LAMBERT, C.I.E.
The HON'BLE H. LEE.
The HON'BLE DR. MAHENDRA LAL SIRCAR, C.I.E.
The HON'BLE A. H. WALLIS.
The HON'BLE MAHARAJAH SIR HARENDRA KISHORE SING BAHADUR, K.C.I.E.
The HON'BLE GONESH CHUNDER CHUNDER.
The HON'BLE P. PLAYFAIR.
The HON'BLE MAULVI SYED FAZL IMAM, KHAN BAHADUR.

NEW MEMBER.

The HON'BLE MAULVI SYED FAZL IMAM, KHAN BAHADUR, took his seat in Council.

STATEMENT OF THE COURSE OF BUSINESS.

THE HON'BLE THE PRESIDENT said:—"Gentlemen, I wish to make a brief statement regarding the prospects of legislative business during the present cold weather session. We have at present before us only two Bills—the Fire-Brigade Bill, and the Bill for amending the Municipal Act of 1884. You are all aware that, in consequence of the passing of the Indian Councils' Act, it is intended to introduce considerable changes into the Council of the Bengal Province, as well as those of the other provinces, and, possibly, the Supreme Legislative Council also; and, as soon as practicable, I understand that the Government of India intend to issue for our guidance the rules under which the business of the new and enlarged Councils will be carried on, and at the same time to instruct us to the extent to which this Council is to be enlarged, and the manner in which representatives are to be appointed to the Council. It seems to me, therefore, better on every ground that any legislation which affects the province at large, and is of great general importance, should be postponed until it can be dealt with by the enlarged and revised Council. But the Fire Brigade Bill is one of purely local interest, and the interests which are concerned in it are interests which, I understand, will be represented in much the same way in the revised Council as they are now. I believe, for instance, that it is intended that the Calcutta Municipality shall be represented in the enlarged Council; and for that reason I obtained sanction to the appointment to the Council of the Chairman of the Calcutta Corporation to represent the municipality, while the present Bill is under discussion, in order that the municipality may not be worse off, but may be as fully represented now as hereafter. I propose, therefore, that as soon as the Select Committee have disposed of

the business, and revised the Bill in the manner that seems best to them, we should proceed with the Bill as early as possible.

"But the Municipal Bill should not be carried further till the Council is revised and enlarged; and with regard to the Municipal Bill, I have to make a short statement as to the intentions of Government in dealing with it. A very large amount of official literature has come in, dealing with the proposed amendments, and these have been under the consideration of the Government; and it seems to me desirable, without in any way interfering with the authority of the Select Committee, that on any points on which the Government has come to a definite conclusion as to the manner in which the amendments proposed shall be dealt with, it would be desirable to facilitate the work of the Select Committee by announcing that decision, and so save them the trouble of discussing any points on which the Government has already decided. There has been a good deal of discontent and remonstrance against the Bill, as interfering with the principles of Local Self-Government, and as being a restrictive and reactionary step, putting the municipalities in a worse position than they were originally put when the present Act was passed in Lord Ripon's time. The sections which mainly come under these remonstrances, and which interfere, or seem to interfere, with the independence of municipalities, are six in number. Under section 4 Government reserves the power to alter the boundaries of a municipality, and to separate from a municipality any areas of land which seem to be unsuitable for municipal administration. At present that power rests only with Municipal Commissioners themselves, and, therefore, taking that power out of their hands, and placing it in the hands of the Government—or rather, not taking it out of their hands, but giving Government the power to act, in places where the municipalities are unwilling to do so—is distinctly an interference with municipal independence. Section 12, sub-clause 4, gives Government the power of placing any municipality in the 2nd Schedule, that is, of removing its power to elect its own Chairman, and to appoint an official Chairman instead. Section 25 gives Government the power to sanction the election of a Vice-Chairman, whereas at present no such sanction is required. These sections are those to which my attention has been specially called, as being the sections most seriously remonstrated against, and which have borne the brunt of a very large portion of the criticism to which this measure has been subjected. It was stated by the Hon'ble Mr. Risley, when introducing the Bill, and by myself, on more than one occasion, that no serious interference with the authority of Municipal Commissioners was intended; and that Government only intended to use these powers when absolutely obliged to do so, and that they were introduced as being a less serious interference with Municipal liberty than the course provided for such emergencies by the present law. Under sections 65 and 66 of the present law, the Government has larger powers than it would generally desire to use when dissatisfied with the way a municipality is conducted, and when it seems to be necessary to remove the Chairman and appoint an official Chairman. Under the old law the only way was to practically destroy the municipality and reconstruct it. We thought that it was desirable and would not be unpopular to provide a gentle mode of interference than this, but the result shows that we were mistaken, and on further consideration we think it is not necessary to persevere in the proposal. I think you will all agree that it is right and wise of the Government to take note of the objections of those principally concerned; for no Government would act prudently in insisting on reforms distasteful to the majority of those concerned, so long as it was satisfied that the administration could be satisfactorily maintained by taking any other course. We have, as I said, received communications from a great number of quarters, and some of these have particularly attracted any attention, as they are not the representations of the Municipal Commissioners themselves, who might be supposed to be too captious or too ready to discern a slight to their authority which was not intended. I refer to those bodies who represent the public, or certain sections of the public, at large. We have, for instance, received memorials from the Bengal National Chamber of Commerce, from the Bhagalpur Landowners' Association, from the Indian Association, and from the Barrackpore People's Association, all of which have considerable importance and authority. The unanimous tone adopted by all these Associations is that the election of their Chairman is a privilege which is prized above all others by the Municipal Commissioners and the people they represent in the administration of municipalities, and they have represented that no sort of opposition has been shown by the municipalities where the Government has laid its finger on any faults, but that the municipalities have always shown themselves ready and willing to correct these errors to the best of their ability. I am bound to say that this representation

is quite accurate. There were two difficult cases brought before the Government at the time these amendments were introduced—one a case of the choice of an unsuitable Chairman, and the other a case of the inefficiency of a Chairman. In both of these cases the Municipal Commissioners showed a reasonable spirit in accepting the remonstrances of the Government; in the one case an efficient non-official has since been elected, and in the other the appointment of an official Chairman has been asked for. Since this Bill was introduced there have been similar occurrences in Howrah, Arrah, Raniganj, Puri, and Jessore. In all of these it seems to me that the Municipal Commissioners have shown a spirit of tact and concession. In the first four places I have mentioned, the Commissioners agreed to the appointment of an official Chairman till such time as the malpractices or inefficiencies complained of were corrected; and in the Jessore case they at once dismissed the Chairman complained of, and have appointed a thoroughly efficient non-official gentleman in his place. It is the bounden duty of Government to take notice of facts like these, and therefore we came to the conclusion that these two sections of the amending Bill might be dropped, and that we might rely in future, as we have done before, on the stronger coercive sections 65 and 66, to which I have referred—sections which can be employed as a last resource, but which it is seldom necessary for the Government to make use of. I think it also right to inform you that, after we had come to this decision, a despatch was received from the Secretary of State to the Government of India bearing on the same subject. He took very much the same line as I have just mentioned, as representing the course of opinion in my own mind, and considered the sections undesirable, and desired that we should withdraw them. It is right you should know this, and that the public should know it. Our course is very much facilitated by this communication, and we feel strengthened by the knowledge that the Secretary of State has come to the same conclusion as the Government had done independently. There are three other sections which I wish to mention here, which tend in the same direction. Section 29 authorises the appointment of a special officer to put municipal accounts in order, in cases where the auditing officer complains of those accounts being in an unsatisfactory condition, and considers such an appointment absolutely necessary. Section 31 deals with the appointment of assessors; it takes the assessment of taxes upon persons or houses altogether out of the hands of the Commissioners, and places them in the hands of an independent assessor. I have given this matter great consideration, and you are possibly aware that, in addressing a municipality recently in Chota Nagpur, I threw out a suggestion as to amending the Act in such a way as to provide for the appointment of an assessor only when complaints were made by Magistrates and when the Commissioner of the Division agrees that such a course was necessary. This is not a point on which Government has come to any definite conclusion, but desires to be guided by the deliberations of the Select Committee and of the Council. In all matters concerning the independence of the municipalities, and which have given rise to complaints, to the effect that Government is interfering unnecessarily with the powers of municipalities, or is taking a reactionary step, not justified by absolute necessity, the Government desires to be guided by the views of the Select Committee, in the first place, and by this Council in the second; and I hope you will consider this matter in that light, understanding that the Government places itself in your hands, and does not desire to do anything in the restrictive line, which the united wisdom of this Council does not consider necessary for the purpose of good administration. I trust, as far as I can foresee, that in the course of next month, the Council will be reconstituted under rules issued for our guidance; and that we shall then proceed to the discussion of the Municipal Bill, treating it in the spirit I have described to you."

BENGAL MUNICIPAL ACT, 1884, AMENDMENT BILL.

THE HON'BLE MR. RISLEY moved that the Bill to amend the Bengal Municipal Act, 1884, be referred back to the Select Committee for consideration and report

The Motion was put and agreed to.

THE HON'BLE MR. RISLEY also moved that the Hon'ble Maulvi Syed Fazl Imam be added to the Select Committee on the above-mentioned Bill.

The Motion was put and agreed to.

The Council adjourned *sine die*.

C. H REILY,

Assistant Secretary to the Government of Bengal,
Legislative Department.

CALCUTTA;
The 10th January, 1893.

THE CANAL REVENUE REPORTS FOR 1891-92.

No. 25*I.A.*

GOVERNMENT OF BENGAL,—PUBLIC WORKS DEPARTMENT.

IRRIGATION.

Accounts.

Dated Calcutta, the 7th January 1893

RESOLUTION.

READ—

The Canal Revenue Reports for 1891-92, and the Chief Engineer's note on the same.

There are now in actual operation in Bengal 916 miles of canal, of which 495¼ miles are for irrigation and navigation, 242¾ miles are for irrigation only, and 178 miles are for navigation only. From the irrigation canals 2,381 miles of distributary channels are taken off. The total area commanded by the canals is 2,488,781 acres, the area irrigable in the present state of the works is 1,480,251 acres, and the area actually irrigated during the year was 742,346 acres, the crops grown on which were valued at Rs. 2,15,13,358. The number of boats plying in the canals during the year was 2,54,870, carrying goods of the aggregate value of Rs. 14,35,09,851.

2. The total outlay, direct and indirect, on canals in Bengal of which capital and revenue accounts are kept, has up to date been Rs. 7,36,27,728. Of this sum, Rs. 6,03,74,079* have been charged to loan funds, Rs. 1,04,00,175* have been provided from Provincial revenues, and Rs. 8,66,000 have been contributed by the Imperial Government from Famine Relief and Insurance Funds.

The outlay on each canal chargeable to capital account to date and during the last two years, is shown in the table below:—

Works.	During 1890-91.			During 1891-92.			To end of 1891-92.		
	Direct charges.	Indirect charges.	Total.	Direct charges.	Indirect charges.	Total.	Direct charges.	Indirect charges.	Total.

3. The completion of the Orissa Canals has, for various causes,—chiefly delay in preparing the requisite detailed plans and estimates,—been retarded. As stated in last year's Resolution, detailed estimates had then for the most part been sanctioned, and the progress during the year under review has been more satisfactory. During the visit of the Lieutenant-Governor to Orissa in February 1892, the extent to which distributary channels and subsidiary works are to be allowed was finally settled, and revised estimates were submitted to the Government of India immediately after His Honour's return to Calcutta, providing for the expenditure of Rs. 12,38,020 from the 1st April 1892. These estimates have lately been sanctioned by the Secretary of State. It is expected that the canals and subsidiary works will be practically completed by the 1st April 1895. The Taldanda Canal Extension was opened on the 16th of July 1891, and there are now two distinct lines of navigation from Cuttack to the seaboard. The principal works finished in 1891-92 were the Paradeep lock and the Barera weir. During the year 24¾ miles of canal and 125 miles of distributaries were opened, and the irrigable area increased by 75,993 acres.

The Midnapore Canal is complete, the only expenditure incurred during the year debitable to capital account being for dredging plant.

* Exclusive of indirect charges amounting to Rs. 19,87,474.

The extensive remodelling scheme sanctioned in 1888-89 for improving the Hidgellee Canal has, with the exception of two works, been carried out. The canal bed has been lowered, and two new supply sluices leading into long feeder channels, in which the silt will be deposited instead of in the canal itself, have been completed. The new pipe across the Russulpore river and the reconstruction of the Kalinagar lock yet remain to be taken in hand: these works have been postponed partly owing to the difficulty in providing funds, and partly owing to the deterioration of the Russulpore river, which appears to have now ceased in consequence of the construction of the Balliaghye outfall drain.

The Sone Canals are practically complete, the works still remaining to be executed being in connection with village channels and drainage. An estimate providing for the expenditure of Rs. 7,05,707 from the 1st of April 1891, was submitted to the Government of India on the 8th June 1892, and it is understood that it has lately been sanctioned by the Secretary of State This estimate provided for the surrender of Rs. 16,54,994 on the estimate for the complete scheme sanctioned in Government of India's letter No. 118*I.*, dated 17th March 1883, for Rs. 2,78,88,697.

4. The revenue accounts of the four canal schemes, classed as Major Irrigation Works, are shown in the table below:—

Particulars.		Year.				
		1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1		2	3	4	5	6
		Rs.	Rs.	Rs.	Rs.	Rs.
Receipts	Irrigation	7,48,292	10,01,937	11,32,602	9,09,962	11,61,967
	Navigation	2,93,888	3,39,138	3,34,893	3,27,026	3,71,339
	Miscellaneous	61,049	53,294	53,719	49,739	69,384
	Total receipts ...	11,03,229	13,94,369	15,21,274	13,46,727	16,02,710
	Deduct refunds of revenue ...	16,149	13,190	16,800	7,586	4,102
	Net receipts ...	10,87,080	13,81,179	15,04,474	13,39,141	15,98,608
Working Expenses	Works and repairs	8,04,069	7,34,079	6,58,131	6,30,614	6,13,104
	Engineering establishment ...	3,66,702	3,20,561	3,26,011	3,09,952	3,55,682
	Revenue and navigation establishment	2,38,539	2,67,981	2,71,162	2,61,833	2,71,935
	Tools and Plant	78,126	82,279	82,000	79,894	1,09,320
	Other items	84,734	82,395	84,464	89,843	87,894
	Total Working Expenses ...	15,72,170	14,87,295	14,22,368	14,32,136	14,37,935
	Net revenue ...	—4,85,090	—1,06,116	82,106	—92,995	1,60,673
	Charges for interest ...	23,13,446	23,39,849	23,65,030	23,87,119	24,16,363
	Deficit ...	27,98,536	24,46,965	22,82,924	24,80,114	22,55,690
	Rate per cent. on capital outlay ...	4·68	4·04	3·74	4·02	3·60

The result of the year's operation is a surplus above working expenses of Rs. 1,60,763, the interest charges amounting to Rs. 24,16,363.

The year's gross revenue is the highest yet earned, and the net revenue has only been exceeded in one year, 1885-86, when it amounted to Rs. 3,75,981. In that year, however, instead of, as at present, the actual cost of establishment employed on the works being charged thereto, 23 per cent. on the cost of the works themselves was debited, the balance being charged to buildings and roads. The statement below shows clearly how this item affects the accounts:—

Year.	Receipts less refunds.	Working Expenses.				
		Establishment.		Works and repairs.	Other items.	Total.
		Direction and executive.	Revenue.			
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs
1885-86	15,74,272	1,52,856	2,43,850	6,64,961	1,36,624	11 9[illegible]
1891-92	15,98,608	3,55,682	2,71,935	6,13,104	1,97,214	14,37,93[illegible]

Making allowance for the extra establishment charges which, under present rules, would have been debited to working expenses, the net revenue in 1885-86 would have been reduced to Rs. 1,83,258, against Rs. 1,60,673 in the year under review. The collections in 1885-86, it may be added, were largely swollen by the collection of arrears, as will be obvious from the following statement further comparing the results of the two years:—

Year.	Balance at commencement of year.	Assessments.	Total.	Remissions.	Collections	Balance.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1885-86 ...	8,94,121	10,32,826	19,26,947	1,82,105	12,03,714	5,41,128
1891-92 ...	4,72,113	11,42,334	16,14,447	48,341	11,61,986	4,04,120

The assessments represent the demands received by collecting officers during the financial year, and not the amount due on the area irrigated during the year, which the Lieutenant-Governor desires may be prominently brought forward in future. On the information available, the amount earned was Rs. 10,26,500 in 1885-86 and Rs. 13,73,844 in 1891-92.

5. There has been, more especially in the case of the Sone canals, great improvement made in the accuracy of the assessments, as well as in the promptitude with which recoveries have been made, as will be evident from the table below, which includes the three great irrigation projects, and extends over seven years:—

Year.	Balance at beginning of year.	Balance at end of year.	Remissions, including cancelled demand statements and extraordinary remissions.	Irrecoverable items.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
1885-86 ...	8,84,289	5,33,175	1,41,162	41,229
1886-87 ...	5,33,175	3,69,789	67,375	22,612
1887-88 ...	3,69,789	5,59,883	32,356	19,796
1888-89 ...	5,59,883	5,79,987	42,666	14,074
1889-90 ...	5,79,987	5,09,188	80,282	20,592
1890-91 ...	5,09,188	4,72,113	48,674	16,476
1891-92 ...	4,72,113	4,04,120	38,421	12,126

For the remissions other than extraordinary and cancelled demand statements the engineers are mainly responsible, except in Orissa, where, under a system which has now ceased, large areas were included in leases, and, if not irrigated, yearly remissions granted. In the case of the Sone Canals, the balance at the end of the year has fallen from Rs. 6,95,208 in 1885-86 to Rs. 1,11,444 at the end of 1891-92. The amounts remitted by the Engineers or written off by the Collector as irrecoverable have fallen from Rs. 1,27,830 in the former to Rs. 17,427 in the latter year. In the Patna district, the arrears in which for several years had been increasing, the balance at the close of the year was Rs. 29,153, against Rs. 93,744 at its commencement: for this reduction credit is mainly due to Babu Siva Sankar Singh, who was specially deputed from

Shahabad to take charge of the collections. He has since been promoted to be an Officiating Deputy Collector. Sir Charles Elliott desires that, in future reports, the dates on which demand statements are received, whether within the time fixed or not, may be stated, and a comparison made between the amounts assessed by due date, and those in which they are in arrears. Recurrent assessment on long leases will be included in the former figures, as the object is to ascertain the sums which could, with proper energy, be collected within the year.

6. A change of some importance was made in the administrative arrangements for collections in respect to the irrigation revenue derived from the Sone Canals. The establishments in the three districts of Shahabad, Patna and Gaya have been amalgamated and placed in charge of a Deputy Collector, instead of as formerly being dealt with by separate establishments under the control of the District Collectors. The Deputy Collector is placed in charge of what is known as the Revenue Division, exercising powers corresponding with those of an Executive Engineer; but as regards legal and some other matters, he remains under the supervision of the Collectors of the several districts. The principle followed has been to place the entire responsibility of assessments and collections on the Irrigation Department, and more especially on the Superintending Engineer, whilst retaining in the hands of Collectors the fullest powers to secure justice to individuals who may be aggrieved by these assessments. Since the close of the year under review, a revenue division, in charge of a Deputy Collector, has been established in Orissa, and arrangements approximating to those in force in Bihar introduced there.

7. The revenue derived from irrigation for the last five years has been shown in paragraph 4 of this Resolution. The following table shows the areas under irrigation:—

	Orissa Canals.				Midnapore Canal.				Sone Canals.				Total.			
	Kharif.	Rabi.	Perennial.	Total.	Kharif.	Rabi.	Perennial.	Total.	Kharif. including five-year leases.	Rabi and hot weather.	Perennial.	Total.	Kharif.	Rabi.	Perennial.	Total.

1891-92 ...	173,453	3,943	289	177,685	83,906	68	...	*83,973	246,819	210,907	14,997	474,723	553,577	181,319	1,485	736,381

* Exclusive of lands surreptitiously irrigated for which leases were granted in subsequent years.

The area irrigated during the year was 151,403 acres in excess of any year to date, mainly owing to the extensive rabi irrigation on the Sone Canals, consequent on there having been practically no rain since September. The assessments on rabi irrigation are not due until the 1st of April, so that the revenue of the year was only slightly affected thereby. The kharif irrigation also exhibited an advance on previous results.

8. The navigation revenue, which has always formed a satisfactory feature of the Bengal canals, continues to advance slowly, the tollage collection for the last five years and for 1885-86 being given below:—

Year	Orissa Canals.	Midnapore Canal.	Hidgellee Tidal Canal.	Sone Canals.	Total.	Miles open.	Tollage per mile.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1885-86 ...	64,093	1,39,013	52,143	41,711	2,90,960	490	593·7
1887-88 ...	66,628	1,26,574	40,406	50,984	2,84,592	490	580·7
1888-89 ...	69,830	1,40,760	53,910	52,162	3,22,662	496½	649·9
1889-90 ...	78,082	1,45,356	40,398	51,189	3,14,923	496½	634·3
1890-91 ...	1,06,961	1,10,830	27,145	56,593	3,01,529	496½	607·3
1891-92 ...	1,20,761	1,32,572	36,348	57,339	3,47,020	524½	662·2

9. The progress made towards the completion of the Orissa Canals has already been noticed. In other respects improvement has also been made. The gross income of these canals is the largest on record, and the working expenses show a satisfactory decrease on those incurred during any of the last five years. In the five years ending 1890-91, the working expenses have exceeded the receipts by an average of Rs. 2,11,594. In 1891-92 the deficit has been reduced to Rs. 52,164, and there will, despite heavy expenses for flood damages, be a further improvement in the year now current. The Lieutenant-Governor, on first visiting these canals in January 1891, took exception to the arrangements under which, even on long leases, the demand fluctuated, certain lowlands which ordinarily do not require water being included in the lease, and remissions, necessitating lengthy enquiries, being annually granted when water was not required or taken. Independently of the objection to these yearly investigations, the collections were retarded until the results of the enquiries had been recorded and revised demand statements prepared. The full evil of this system, which is characterized by the Superintending Engineer as pernicious, will be understood when it is stated that Rs. 12,646, out of Rs. 30,485 remitted in 1891-92, appertained to the irrigation of 1889-90, the enquiries regarding which were not completed until the year under review. In February 1892, Sir Charles Elliott again visited Orissa, and a system under which a fixed demand took the place of fluctuating assessment was elaborated, a lower rate being charged for lands not irrigated in ordinary years. The establishment, since the 1st April 1892, of a separate revenue division has already been adverted to, but other improvements were also effected, notably in the Certificate Department, the number of certificates pending having been reduced from 9,044 on the 1st April 1891 to 4,603 on the 1st of April 1892, of which 3,575 had been disposed of by the 1st of August 1892. The effect of the reforms instituted has been that the Collecting Department has been put on a satisfactory footing, whilst a good beginning, more especially in the Brahmini-Byturni Division, has been made towards establishing the assessments on a basis which will, for a term of years, relieve both the cultivators and the engineers from the labour and annoyance inseparable from what are *de facto* settlement operations.

10. The Midnapore Canal is complete, and expenditure debitable to capital, except for the construction of such small works as can be provided for from Provincial funds, has ceased. The area assessed was slightly in excess of that charged during the year previous, but no considerable improvement is practicable, the discharge of the river Cossye, from which water is supplied, falling to 300 cubic feet per second in October when water is much required. The duty in that month, calculated on the average gross supply, was 210 acres per cubic foot per second for the area commanded by the Midnapore weir, which is quite double that which can be obtained elsewhere. Improvements in the detailed arrangements are practicable, and measures have already been taken to introduce what is known as the block system, permits being refused where unleased lands would receive water. Revised water-rate rules are now under consideration, as also the expediency of constructing permanent outlets. Some slight improvement has been made in the percentage of the demand collected during the year, the balance unrealized being Rs. 58,972 at its close against Rs. 64,966 at its commencement. Some of the items, however, appertain to 1890-91 and previous years, showing avoidable delay in dealing with long standing arrears. Approximately half the gross revenue of the canal is derived from navigation dues, *i.e.*, tolls on boats, in the payment of which the regular lines of steamers enjoy considerable advantages. It is reported that the carrying trade is being diverted from the country boats, and that in consequence the number of boats is yearly lessening and the navigation revenue suffering. The expediency of granting concessions to lines of steamers running at fixed intervals, full or empty, is fully recognized, but the necessity of continuing the full deductions for engine space hitherto granted is under consideration. It must not be forgotten that the steamers cause extra expenditure estimated at Rs. 6,000 a year in repairs to the canal banks. The large amount spent on repairs to the Midnapore Canal during the year was due to the desire to avoid closing the canal more frequently than is absolutely necessary. The greater part of the expenditure was incurred on works that can only be carried out when the canal is dry, and there had been no closure since April 1888.

11. The remodelling scheme sanctioned for the Hidgellee Tidal Canal has already been noticed. The construction of the Balliaghye drain has resulted in some improvement of the crossing of the river Rasulpur, which, of late years, has been steadily deteriorating. This improvement is of considerable importance in connection with the Argawal circuit embankments, the demolition of which, involving heavy expenditure, is under consideration. The drain is also being utilized as a canal by boats up to 1,000 maunds burden. This work, besides answering the purpose for which it was designed, has thus been of service in other directions, and it is contemplated to maintain it as a canal, tolls being imposed.

12. The chief incident of the year in respect to the Sone Canals was the large area under irrigation during the year, amounting to 474,723 acres against 223,556 acres in the year previous, and 370,661 acres in 1884-85, which was the highest area attained to date. This large increase was mainly owing to the failure of the autumn rains, and the consequent demand for water for rabi sowings for which irrigation is not usually required. The area irrigated during the rabi season, including 13,325 acres hot-weather irrigation, was 210,907 acres, against 117,960 acres in 1883-84, the highest rabi irrigation to date. The steady increase in the area under long lease is satisfactory. The following tables show the areas irrigated under long and short leases during the last five years:—

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
Long leases ...	210,164	200,102	224,268	223,556	234,791
Short leases ...	105,216	155,807	81,014	57,458	239,932
Total ...	315,380	355,909	305,282	281,014	474,723

The sudden extension of irrigation caused a great strain on the establishment, which can only be kept up to meet an average demand. On this subject the followig remarks by the Superintending Engineer deserve attention:—

The demand of the year under review was greatest in the Buxar Division, and caused a considerable strain on the establishment, which was well met. Distributaries that had scarcely been used for years had to be run full, with consequent risk of breaches. An area much greater than usual had to be measured, while it is very difficult to enlarge the measuring staff to any considerable extent.

Although, as I have said, we are more accustomed to a great demand for water in the kharif season, it should not be forgotten that the large volume of water which was supplied in the autumn of 1891, could only be given and utilised by careful regulation and by constant supervision on the part of all concerned.

The demand was, on the whole, well met, and the Lieutenant-Governor agrees with the Superintending Engineer's remark that the Department may, in respect to the irrigation in this circle, fairly congratulate itself on the result of the year's work.

13. The Superintending Engineer's report does not clearly show the dates on which the assessment papers reached the Deputy Collector. It appears, however, that out of 474,723 acres irrigated, 354,541 acres were assessed during the year, and 120,182 acres after its close. In 1890-91 the area remaining to be assessed on the 31st March was 2,696 acres only. The increase in rabi irrigation on annual leases, 177,308 acres in 1891-92 against 20,632 acres in the previous year, sufficiently accounts for the difference. The Lieutenant-Governor attaches much importance to promptitude in preparing demand statements, and desires that in future the months in which the demand statements are due and submitted may be shown. It is not, however, desired that accuracy shall be sacrificed in order to attain the object desired, the steady decrease in the remissions, which are practically demands which cannot, when questioned, be upheld, from Rs. 11,284 in 1888-89 to Rs. 3,304 in 1891-92, being a specially satisfactory feature of the year's work. The reduction in the number of certificates instituted for the recovery of water-rates by process of law from 4,891, covering Rs. 46,974 in 1890-91, to 3,178, covering Rs. 31,176 in 1891-92, and of the balance, which, at the commencement of the year, was 1,586 certificates for Rs. 25,284, and at its close 234 certificates for Rs. 9,193, also speaks well for the canal administration, as does the advance made in the registration of village channels, and the increase on the acreage irrigated by each

outlet, which has risen from 59 acres in 1890-91 to 78 acres in the year under review. The increase in the number of complains was a natural result of the increased irrigation under annual leases. The Lieutenant-Governor, in November 1892, for the second time inspected a part of this canal system, and is satisfied that the utmost endeavours are made to utilise to the best advantage the full water-supply the canals are capable of carrying and also that the wants and grievances of the cultivators are carefully enquired into and met in a generous spirit.

14. The financial results of the year's working for the canals classed as minor works are shown in the table following :—

15. Of the canals classed as minor works, the Saran, Eden, and Madhuban Canals are not navigable.

The Saran Canals were intended chiefly to provide water for the manufacture of indigo, and secondarily to supply water for the irrigation of that crop. There was originally a guarantee, which expired on the 1st of April 1891, and since that date the canals have been managed by Mr. Reid of the Moniara Concern on payment of a sum which substantially covers working expenses. The agreement is yearly, and it is doubtful if it will be renewed.

The primary object of the Eden Canal was to supply the Hooghly and Burdwan districts with wholesome drinking water; but under the force of circumstances it has developed into an irrigation work. The area irrigated during the year was 14,185 acres, mostly on five-years' leases. The receipts were Rs. 6,635 in excess of the previous year, and the expenses, Rs. 9,132 less. Colonel A. D. McArthur, R.E., the Superintending Engineer, has shown a very marked improvement in the results obtained from this small work; it is satisfactory to be able to record that irrigation has yet further advanced in the year now current.

The Madhuban Canal is a small irrigation scheme on the borders of Champaran, the head works of which have always given trouble owing to the sudden floods in the hill stream over which they are constructed. These floods are caused by embankments in Nepal giving way, and it is a matter of both difficulty and expense, out of all proportion so far to results achieved, to keep the weir in working order. The area irrigated during the year was 3,586 acres.

16. The remaining canals classed as Minor Works are for navigation, viz., the Calcutta and Eastern Canals, the Orissa Coast Canal, and the Nadia rivers.

The Calcutta Canals, the capital expenditure on which has reached 53 lakhs of rupees, form in some respects the most important means of communication between Calcutta and the Eastern districts of Bengal. The revenue for some years has been almost stationary, whilst the working expenses have largely increased. Since the construction of the new locks at Dhappa and Chitpore, there has been a tendency to endeavour to improve the rest of the canals, and there is little doubt that, but for these measures, there would, owing to the railway competition, have been a serious decrease in the gross revenue The net revenue is now 3·4 per cent. only on the capital expenditure, and the Lieutenant-Governor, in response to petitions for alteration in the scale of tolls, has found it necessary to declare that no change involving a decrease in the net receipts is admissible. The whole matter was considered by a Committee, of which Colonel A. D. McArthur, R.E., was the President, and Mr. W. C. Boyce and Babu Sita Nath Roy, members; and in disposing of the report, the Lieutenant-Governor sanctioned a reduction in the rate of tolls on articles of general consumption, mainly firewood and lime, whilst tolls on boats returning from Calcutta, which have hitherto passed free, will be levied. It is expected that these measures will slightly add to the revenue derived from the canals, whilst the tolls imposed on boats returning are very slight. Recent enquiries show that the cost of carriage on these canals varies from 0·04 pies to 0·26 pies per maund per mile, of which from 0·012 pies to 0·017 pies represents toll.

The Orissa Coast Canal has so far not answered the expectations formed when it was sanctioned, the failure to do so being partly owing to the Hidgellee Canal, the remodelling of which is not yet quite complete, not having been kept in a condition suitable for the passage of large boats, but the low revenue is chiefly due to competition by the sea route. The feeder roads sanctioned are now approaching completion, and it is hoped that, with these and other measures which are under contemplation, a greater measure of success will be obtained in future years. This canal must be looked on rather as a famine protective than revenue earning work, but the receipts should at least cover the working expenses, which at present they are insufficient to meet. It is feared that owing to changes in the course of the river Subarnarekha it will be necessary to build a new lock some miles away from Jamcunda in place of that now in use. The changes in the river had not, however, at the close of the present flood season reached their full development, and no expenditure will be incurred until it is no longer possible to defer taking further action.

The receipts during the year from tolls imposed on boats using the Nadia rivers, amounted to Rs. 1,92,737 against Rs. 2,00,482 in 1890-91, whilst the expenditure aggregated Rs. 1,13,274 against Rs. 1,09,894. The falling off in the receipts and the increased expenditure are due to the same cause—the low level of the river Ganges—which led to the upper heads of the Nadia rivers being blocked with silt. The rivers were closed to large boats at an earlier date than usual, whilst increased expense was incurred in training works. Hitherto works in these rivers have been mostly confined to training works with the object of keeping the channels open as long as possible, but this year, to supply the want of marks to guide vessels during the flood season, a number of temporary beacons have been erected and are reported to have been useful..

17. The Lieutenant-Governor is not satisfied that the important duty of office inspection receives the attention it deserves. From the tables attached to the Chief Engineer's note, it appears that the divisional offices were not all inspected by Superintending Engineers during the year, whilst, outside the Sone Circle, but few sub-divisional offices were inspected. His Honour requires that in future Superintending Engineers shall inspect all divisional offices yearly, and all sub-divisional offices and toll offices once in two years at least. Executive Engineers must inspect all sub-divisional offices and toll

offices yearly. In the case of both Superintending and Executive Engineers, the report of the inspection must be submitted for examination by the Chief Engineer. The record of tours shows that, with scarcely an exception, canal officers have fully satisfied the requirements of Government as regards the time to be spent on tour, which His Honour considers should not be less than one-third of the year in the case of Superintending Engineers, and one-half to one-third in the case of Executive and Assistant Engineers. For Sub-divisional Officers who do not belong to the Engineer establishment, no specific rule can be laid down other than that, when holding charges analogous to those of Assistant Engineers, the same length of tours will be required, whilst, on the other hand, when posted to workshops they will be employed almost exclusively at head-quarters.

18. The qualifications of officers are dealt with in separate reports, but Sir Charles Elliott is satisfied that during the year under review the engineers and subordinates employed in the Irrigation Department have not been unmindful of the instructions contained in last year's Resolution, and that they have, sometimes under circumstances of great hardship, done everything in their power to make the most of the canals in a season when every drop of water was valuable. His Honour also notices with pleasure the advance made in the Sone Circle in promptly realizing water-rates, being convinced that the exaction of payment when due is not only beneficial from an administrative point of view, but, in the long run, to the advantage of the cultivator.

ORDER.—Ordered that a copy of this Resolution and of the Chief Engineer's note, and its accompaniments, be submitted to the Government of India, in the Public Works Department, and published in the *Calcutta Gazette*; also that it be circulated to other Governments and to all departments and officers of this Government as usual.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Joint-Secretary to the Govt. of Bengal.

Government of Bengal.

PUBLIC WORKS DEPARTMENT.

IRRIGATION BRANCH.

REVENUE REPORT.

Note by C. W. ODLING, ESQ., M.E., M. INST. C.E., *Chief Engineer, on the Canal Revenue Reports for the year* 1891-92.

THE Capital expenditure on Irrigation Works, for which Capital Accounts are kept, amounted during the year 1891-92 to Rs. 8,34,636 for direct and Rs. 20,078 for indirect charges:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Capital expenditure not charged against Revenue	8,42,225	20,141	8,62,366
Minor Works and Navigation ...	(—) 7,589	(—) 63	(—) 7,652
Total ...	8,34,636	20,078	8,54,714

2. The total Capital outlay at the end of the year 1891-92, including indirect charges, was as follows:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Major Irrigation Works—			
Productive Public Works ...	6,08,30,176	17,05,422	6,25,35,598
Minor Works and Navigation—			
Protective grants—Imperial ...	8,66,000	...	8,66,000
Ordinary revenue { Imperial and Provincial. }	99,44,078	2,82,052	1,02,26,130
Total ...	7,16,40,254	19,87,474	7,36,27,728

3. The above outlay is divided under the different projects in the following statement:—

Works.	During 1891-92.			To end of 1891-92.		
	Direct charges.	Indirect charges.	Total.	Direct charges.	Indirect charges.	Total.

* Exclusive of lands surreptitiously irrigated for which leases were granted in subsequent years.

The year's working and its financial results will now be dealt with separately for each of the canal systems of the province, as in previous years.

ORISSA CANALS.

The figures in all statements showing totals of receipts or expenditure are those of the Examiner of Accounts. In dealing with details the figures of the Commissioner or of the Superintending Engineer are used.

10. The Capital, Interest, and Revenue Accounts of these canals are given below:—

CAPITAL ACCOUNT.

I.—CAPITAL ACCOUNT.

Heads of Account.	Outlay during 1891-92.	Outlay to end of 1891-92.

Capitalization of abatement of land revenue	9	33,068
Leave and pension allowances	8,033	5,21,162
Total Indirect Charges ...	8,042	5,54,230

A full account of the works in progress and completed during the year has been given in the Progress and Administration Report of this province for the year under review. The more important works completed were the construction of a new weir at Barera on the Machgong Canal, the improvement of the river Gobri, and drainage cuts at Tampua and Bhimai Hâd, while the construction of the distributaries sanctioned by the Secretary of State in 1883 was so far advanced, that 125¾ miles were opened for irrigation during the year, in addition to many detached lengths nearly completed, but from which supply could not be given. The Taldundah Extension Canal was opened for traffic, being very nearly completed, and among the works with which progress was made may be mentioned the Sukendapat drainage scheme, other minor drainage cuts and channels, flood embankments on the right of the Byturni and left of Burra Kharsua, and refuge-mounds on the Sankarisahai Island.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

II.—Revenue management.					
Irrigation establishment	52,591	57,074			
Navigation ditto ..	16,119	16,506			
Total ...	68,710	73,580			
Total Direct Charges ...	4,39,383	3,96,016			
INDIRECT CHARGES.					
Capitalized abatement of land revenue.	...	...			
Leave and pension allowances.	28,220	27,070			
			Net total receipts	3,44,936	3,70,922
Total Indirect Charges	28,220	27,070	Deficit ...	1,22,667	52,164
Total Working Expenses	4,67,603	4,23,086	Total ...	4,67,603	4,23,086

The net result shows a marked improvement compared with last year, the deficit of 1890-91 having been reduced by over 57 per cent., that is, from Rs. 1,22,667 to Rs. 52,164. This has been caused by increases under all heads of the receipts, combined with economy in working expenses. The only marked increases occurred under revenue establishment caused by the payment of arrears of commission properly belonging to previous years, and tools and plant, mainly due to the provision of a new boiler for the *Garnet* having been found necessary. The economy in repairs is partly due to the small amount of damage done to the aprons of weirs and the banks of canals and distributaries owing to the absence of any high floods during the year. The expenditure under extensions and improvements was incurred on the construction of an escape at Ganpur and additions to the Deputy Revenue Superintendent's Office and an Overseer's bungalow at Jobra.

EARNINGS. 11. The net result, calculated on the earnings as opposed to collections, and actual outlay is shown below for the year under review and the preceding year:—

Earnings.	1890-91. Rs.	1891-92. Rs.
Irrigation	2,69,310	2,66 587
Navigation	1,21,498	1,35,902
Miscellaneous ...	13,708	17,843
Total ...	4,04,516	4,20,332
Deduct refunds ...	76	79
Net earnings ...	4,04,440	4,20,253
Outlay	4,67,603	4,23,086
Net deficit	63,163	2,833

The figures given as earnings include the actual realizations of navigation and miscellaneous revenue with the assessed revenue from irrigation, less refunds. The increase in the earnings is entirely under the heads navigation and miscellaneous, there having been a small decrease in assessed water rates which were Rs. 2,66,587 in 1891-92 against Rs. 2,69,310 in the year preceding. These figures are somewhat misleading owing to areas being included in which water rates are not chargeable, and remission is granted yearly after a special enquiry. This system is in course of alteration

FINANCIAL RESULTS. 12. Below are shown the revenue receipts and working expenses for the last ten years: —

Leave and pension allowances .	13,741	12,840	13,039	14,101	18,703	21,501	18,078	25,313	28,220	27,070
Total Indirect Charges	13,741	12,840	13,039	14,101	18,703	21,501	18,078	25,313	28,220	27,070
Total Working Expenses ..	3,54,896	3,05,889	3,29,285	3,56,672	5,20,543	5,02,450	4,05,019	4,56,910	4,67,603	4,23,086
Net revenue ...	(—)35,271	(—)68,089	(—)1,85,781	(—)1,49,328	(—)3,41,024	(—)2,79,771	(—)1,61,725	(—)1,52,786	(—)1,22,667	(—)52,164

The most noticeable feature of the results tabulated above is that since the year 1886-87 the receipts have shown a steady yearly increase, accompanied by a reduction of the total working expenses, the effect on the net revenue being a reduction of the deficit from Rs. 3,41,024 to Rs. 52,164. With the extension of irrigation consequent on the completion of the new distributaries, it is hoped that the yearly deficit will be replaced by a surplus.

LENGTHS OF CANALS AND DISTRIBUTARIES.

13. The lengths of the canals and distributaries in operation at the close of the year 1891-92, compared with 1890-91, are given in the following table:—

NAME OF CANAL.	1890-91.								1891-92.							
	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.

Twenty-seven and three-quarter miles of navigable canal and one hundred and twenty-five and three-quarter miles of distributaries have been completed during the year, resulting in an increase of the total area under command and that provided with distributaries by 60,028 and 55,993 acres, respectively, while 55,758 acres have been added to the area protected from flood owing to the completion of the left bank of the Taldundah Extension Canal, which forms a flood embankment up to the 49th mile.

RAINFALL.

14. The average rainfall at thirteen stations, situated within the canal irrigated area, for the kharif and rabi seasons of the last five years, is as follows:—

		AVERAGE OF THIRTEEN STATIONS.				
		1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1		2	3	4	5	6
		Inches.	Inches.	Inches.	Inches.	Inches.
Kharif season	July	11·67	8·91	13·10	12·59	10·34
	August	8·49	21·61	13·11	7·58	16·98
	September	6·12	8·36	5·50	14·40	19·45
	October	2·69	1·11	9·16	8·63	1·17
	Total	28·97	39·99	40·67	43·20	47·94
Rabi season	November	0·67	2·88	11·24	1·94	6·77
	December	.....	.....	0·15	0·05	.....
	January	1·70	0·06	0·06	.....	.....
	February	1·26	0·81	0·02	0·99	0·20
	Total	3·83	3·75	11·47	2·98	6·97
Whole year		47·79	49·07	67·95	63·17	61·03

The rainfall of the whole year was slightly less than that of last year, though 4·96 inches in excess of the average for the past 22 years. Both in the rabi and kharif seasons the fall was greater than in 1890-91, but it was unseasonably distributed. The fall was scanty up to the end of July, unusually abundant in August and September, and almost entirely failed in October, being succeeded by a cyclonic storm on the 5th November.

FLOODS.

15. The average rainfall of the year at ten stations in the Central Provinces which are drained by the Mahanadi was 56·14 inches, or 3·39 inches more than that of 1890-91.

There were heavy floods in all the rivers in the Orissa Circle during the year. The highest flood readings of the rivers Mahanadi, Brahmini-Byturni, Salindi, Katjuri, and Beropa during the year, as also those of the highest known floods, are given in the following statement:—

Name of River	Locality.	1891-92.		1890-91.		Highest recorded.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.

IRRIGATION.

16. The table below compares the areas of each crop irrigated during the last ten years with the yearly rainfall:—

Year.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Inches.
1882-83 ...	128,530	4,100	398	133,028	59·03
1883-84 ...	47,035	1,381	344	48,760	57·21
1884-85 ...	54,181	2,994	197	57,372	50·40
1885-86 ...	70,563	1,605	171	72,339	52·59
1886-87 ...	75,115	2,440	154	77,709	60·07
1887-88 ...	108,867	502	137	109,506	47·84
1888-89 ...	156,319	2,779	194	159,292	49·07
1889-90 ...	180,568	5,897	162	186,627	67·95
1890-91 ...	175,829	4,250	220	180,299	63·17
1891-92 ...	173,453	3,943	289	177,685	61·03

17. The whole of the area shown above as irrigated was assessed. The figures below show the nature of assessment compared with the figures of the two preceding years:—

Crop.	Rate per acre.	1889-90.		1890-91.		1891-92.	
		Area.	Amount.	Area.	Amount.	Area.	Amount.
1	2	3	4	5	6	7	8
	Rs. A. P.	Acres.	Rs.	Acres.	Rs.	Acres.	Rs.
Kharif ... ... Flow ...	1 8 0	(a) 172,104	2,57,935	(b) 168,227	2,52,173	(c) 168,655	2,56,314
Kharif ... ... Lift ...	1 0 0	(a) 5,065	5,065	(b) 5,596	5,596	(c) 4,787	4,790
Perennial crops .. Flow ...	6 0 0	67	397	121	712	141	843
Perennial crops .. Lift ...	4 0 0	95	381	88	351	148	594

Rabi ... ... Lift ...	0 5 0 to 1 8 0	994	764	615	474	632	513
Unauthorised irrigation Kharif	...	3,399	12,612	2,006	6,080	11	20
Unauthorised irrigation Rabi	...	...	...	12	36	52	78
Total ...	...	186,627	2,82,737	180,299	2,69,310	177,685	2,66,587

(a) All 5-year leases.
(b) 173,577 acres 5-year lease, and 246 acres annual lease.
(c) 170,816 acres 5-year lease, and 2,626 acres annual lease.

It is satisfactory to note that the area of unauthorised irrigation assessed was only 63 acres, against 2,018 and 3,399 in the two previous years. The reduction in the total area under lease is due to the exclusion from assessment, on re-measurement of old leases, of 5,605 acres, consisting mainly of unirrigated *Beali* lands and low-lying lands which derive no benefit from irrigation.

The Superintending Engineer gives the two statements reproduced below, showing the alterations which have taken place in the area of each crop upon the various canals, together with the percentages of the area provided with distributaries as well as that commanded, which had been leased in each case, at the close of the official year:—

Canal system.	1891-92.			1890-91.			Kharif.		Perennial.		Rabi.

Total ...	564,300	308,859	185,665	32·90	60·11

The Superintending Engineer further remarks:—

"The area provided with distributaries is also increased from 252,866 to 308,859 acres by the completion of 126 miles of new distributaries during the year, owing to which no fair comparison can be made between the percentages of the area leased during the two years. It may, however, be remarked that, as the new distributaries were completed up to certain lengths late in the year, only a small number of leases have been taken on some of them.

* * * *

"In the irrigation of the leased areas no difficulty was experienced in the Mahanadi Division in giving a full supply. In the Brahmini-Byturni Division, however, the floods at the end of July completely silted up the Jugatpur supply channel, and supply had to be partially shut off in consequence. The heavy rainfall of August made up for the limited supply, and the crops did not suffer. An estimate is now in hand for an alternative supplementary head sluice and channel for the Kendrapara Canal. Full supply was given throughout the season on the High Level Canal ranges, although some difficulty was experienced in the middle of July from the low pools in the Brahmini and Byturni rivers.

"The monsoon did not break until the end of June. There was considerable demand in July owing to the scanty rainfall. August and September were months of heavy rainfall, and there was little demand. In October there was an almost entire cessation of rainfall, and unirrigated crops suffered severely. The demand for canal water was keen, the canals running full supply, and there were but few and casual complaints of short supply. The raiyats on irrigable but unleased lands held out until late in October, when applications were received for new leases, more particularly on the Machgong Canal. On the Taldundah Canal the raiyats held off in the belief that irrigation could be effected by bunding the main drainage, being misled by designing people. On the Jajpur Canal a considerable area was irrigated, though only a small part of this was assessed, the assessment being made only on the areas declared by the villagers. The drought continued until the 4th November, when with the heavy rainfall accompanying a cyclonic storm irrigation ceased.

On the High Level Canal, Range III, the first section of the Kendrapara Canal, and on the first section, Taldundah Canal, the area leased has nearly reached its maximum. An

interesting table for Range III, High Level Canal, submitted by the Executive Engineer, Acquapada-Jajpur Division, is annexed:—"

Name of Canal.	Irrigable area under command.	Culturable area.					Homestead and waste lands.	Total of columns 7 and 8.	Difference of columns 2 and 9.

18. The figures below show the duty, stated in acres irrigated for each cubic foot per second of discharge, calculated from the gross discharge at canal heads for the last three years:— Duty of water.

Particulars.	Kendrapara Canal system.	Taldundah Canal system.	High Level Canal, Range I.	High Level Canal, Range II.	High Level Canal, Range III.	Jajpur Canal.
1	2	3	4	5	6	7
1891-92 Kharif ... Acres	70,686	41,570	22,394	2,451	36,189	452
1891-92 Duty on gross supply	80 05	103·99	84·75	24·95	117·69	...
1891-92 Rabi ... Acres	3,494	336	29	62	22	...
1891-92 Duty on gross supply	7·30	3·50	0·14	2·88	1·02	...
1890-91 Kharif ... Acres.	71,403	41,247	21,893	2,473	39,033	...
1890-91 Duty on gross supply	66·42	102·22	66·07	37·61	107·81	...
1890-91 Rabi ... Acres	3,567	559	91	30	3	...
1890-91 Duty on gross supply	9 46	13·31	1·79	2·11	0·43	...
1889-90 Kharif ... Acres	73,122	39,641	26,121	2,501	39,345	...
1889-90 Duty on gross supply	80·77	78·19	102·92	44·46	83·01	...
1889-90 Rabi .. Acres	4,752	605	478	62	...	...
1889-90 Duty on gross supply	15·92	3 71	3·95	2·38	...	...

The area under irrigation in the *rabi* season is so small that the duty in that season is of no importance. There is a satisfactory increase in the duty in the *kharif* season in the case of all the canals in which the area is considerable.

The following table gives the duty attained during the month of October only, when the greatest strain on the canals occurred :—

	Kendrapara Canal system.	Taldundah Canal system.	High Level Canal— Range I.	Range II.	Range III.	Jajpur Canal.	Total (omitting Jajpur Canal).
1	2	3	4	5	6	7	8
Area of kharif	70,686	41,570	22,394	2,451	36,189	452	173,290
Discharge at head	1,823	654	409	208	431	...	3,034
Duty on gross supply	53·52	63·56	54·75	12·16	83·97	...	57·34

On the Kendrapara Canal system the average discharge from the 6th October to the 4th November inclusive was 1,450 cubic foot per second, which gives a duty of 48·75 acres per cubic foot per second on the average maximum sustained discharge. The maximum average discharge for seven consecutive days occurred from 28th October to 3rd November inclusive, and amounted to 1,695 cubic feet per second. Calculated on this figure, the duty for the maximum discharge was only 41·70 acres. Regarding the Taldundah Canal system, the Superintending Engineer writes:—

"A considerably higher duty was obtained on the Taldundah Canal system during October, regarding which Mr. Butler makes the following observations:—

'The greatest demand for irrigation was during the last ten days of October, and during that time the average discharge of both Taldundah and Machgong Canal was 638 cubic feet per second, the area irrigated being 43,559 acres. The duty was 68 acres per cubic foot per second. Taking the Taldundah and Machgong Canals separately, the discharges were 188 and 450 cubic feet per second, and the areas irrigated 10,264 and 3,295 acres, and the duty 57 and 74 acres per cubic foot per second. There being no rain and hot sun all during October, the distributaries were put to as severe a test as may ever be expected. The duty obtained, viz., 68 acres per cubic foot per second, is low, but with the outlets properly sized and regulated, a duty of 80 acres per cubic foot per second could easily be obtained, and I should think with very careful regulation we might obtain a duty of 90 as on the Machgong Canal. With the outlets very imperfectly sized and regulated, and with an area of 2,500 acres irrigated from the new distributaries, which being perfectly dry absorbed a large quantity of water, a duty of 74 acres per cubic foot per second was obtained. I can account for the low duty obtained on the Taldundah Canal only by the fact that the length of the distributaries compared with the area irrigated is very long, and the outlets are too large and numerous.

'There was great demand for water between the 5th October and 5th November, and more particularly during the last week of October, until the rain came. Practically no water was escaping, and, assuming that the whole area received two waterings during the month, the gross duty of the whole canal system is fifty acres per cubic foot. If we take the water supplied from the 5th October to 5th November, and assume that it all reached the fields, it would have been sufficient to cover the area irrigated to a depth of 15¾ inches.'

"There can be little doubt that up to now there has been considerable, if not a great, waste of water, and this can only be remedied by a more economical use and retention of supply by the raiyats, and by a more carefully regulated supply from the canal based on a more exact knowledge of the irrigable lands, and on a more careful selection of the areas that should be leased. The change of procedure under the new rules will ensure this."

CROP EXPERIMENT.

19. The outturn of crops was tested during the year by 261 experiments, of which 162 were on land irrigated by canal water and 99 on unirrigated land. The results are tabulated below:—

NAME OF DIVISION.	Number of experiments.	OUTTURN PER ACRE FROM IRRIGATED LAND.		Number of experiments.	OUTTURN PER ACRE FROM UNIRRIGATED LAND.		VALUE OF OUTTURN FROM IRRIGATED LAND.		VALUE OF OUTTURN FROM UNIRRIGATED LAND.

	1888-89	16·23	20·13	...	11·03	14·02	16·23	2·34	11·03	1·56
	1887-88	12·31	16·84	...	9·35	12·10	12·35	1·87	9·31	1·19
	1886-87	15·66	23·37	...	13·25	19·29	15·61	2·49	13·21	1·94

20. The following figures show the balances outstanding at the commencement of the year under review:— ASSESSMENTS, COLLECTION AND BALANCES.

	Rs.
Water-rates	1,98,364
Miscellaneous Revenue	267
Total ...	1,98,631

as against the balances outstanding on 1st April 1892, which were—

	Rs.
Water-rates	2,33,704
Miscellaneous Revenue	267
Total ...	2,33,971

20. The balances, assessments, and recoveries of water-rates for the last five years are given in the table below:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realizations.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1887-88 ,...	87,458	1,50,297	2,37,755	1,37,869	7,777	92,109
1888-89 ...	92,109	1,96,765	2,88,874	1,51,365	22,912	1,14,597
1889-90 ...	1,14,597	2,87,277	4,01,874	1,99,844	25,268	1,76,762
1890-91 ...	1,76,762	2,69,650	4,46,412	2,09,806	38,242	1,98,364
1891-92 ...	1,98,364	2,82,880	4,81,244	2,17,256	30,284	2,33,704

During the last five years the outstanding balance has steadily risen from Rs. 87,458 at the beginning of 1887-88 to Rs. 2,33,704 at the close of the year under review. This unsatisfactory state of affairs is in some measure attributable to the failure of the ijáradári system of collection, but this is not in itself sufficient to account for the high figure to which the unrealised balance has been allowed to rise. The Commissioner, in a marginal remark on the Special Deputy Collector's Report for the year under review, attributes the bad percentage of collections to a want of energy and bad management on the part of the officer responsible, who has been transferred to other duty. The Special Deputy Collector, who assumed charge of the collections after the close of the year under review, has since been making strenuous efforts to reduce arrears, and in the first seven months of the year now current Rs. 204,048 have been collected. The balance on the 1st of November stood at Rs. 97,820, and it is expected that the figures at the end of the year will show a marked improvement on the results of the last three years' administration.

CERTIFICATES

21. The following table shows the progress of the year in realizing arrears and current demand:—

Year in which irrigation occurred.	Demands.			Collected or remitted.	Balance on 31st March 1892.
	Arrears on 31st March 1891.	Demands for 1891-92.	Total.		
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
1888-89 and previous years.	31,897	9,074	40,971	32,621	8,350
1889-90 ...	58,043	8,339	66,382	46,000	20,391
1890-91 ...	1,06,424	87,053	1,95,477	1,13,537	81,940
1891-92 ...	...	1,78,414	1,78,414	55,382	1,23,033
Total ...	1,96,364	2,82,880	4,81,244	2,47,540	2,33,704

On 31st March 1891 the oldest arrears were Rs. 1,022, which fell due in the year 1886-87, out of which Rs. 544 were collected during the year. On this subject the Commissioner remarks:—

"The older an arrear is the greater is the difficulty of realising it and the more heart-burnings it causes to the detriment of the department."

The Special Deputy Collector adds:—

"Every endeavour is being made to work off these arrears."

ARREARS.

22. The amount realised by the Collectors on water-rates and miscellaneous revenue was Rs. 2,28,451, out of which Rs. 34,336 were recovered on certificates issued under the Public Demands Recovery Act. The amount so collected in 1890-91 was Rs. 24,964. The following statement gives details of the amounts recovered by certificate:—

By whom collected.	Water-rates.	Miscellaneous.	Total water-rates and miscellaneous.	Value of court-fee stamps affixed on the certificates realised by the Certificate Officer during 1891-92.

1	2	3	4	5	6	7	8	9	10	11	12	13
Cases for disposal—		Rs.		Rs.		Rs.		Rs.		Rs.		Rs.
1. Cases pending at the close of the preceding year ...	7,560	23,599	6,227	16,106	1,484	3,900	211	803	9,044	27,499	6,438	16,906
2. Cases instituted during the year	7,694	24,049	11,236	29,853	949	4,470	2,368	5,711	8,643	28,519	13,594	35,564
Total ...	15,254	47,648	17,463	45,959	2,433	8,370	2,579	6,516	17,687	56,018	20,032	52,470
Cases disposed of—												
1. By being struck off owing to the demand having been remitted	1,290	2,464	372	58	76	142	8	52	1,375	2,607	380	110
2. By being wholly satisfied ...	9,573	25,094	5,381	22,297	2,136	7,198	1,087	2,564	11,709	32,292	10,468	24,861
Total ...	10,872	27,558	9,693	22,355	2,212	7,341	1,095	2,616	13,084	34,899	10,988	24,971
Balance outstanding at the close of the year	4,382	20,090	7,580	23,604	221	1,029	1,484	3,900	4,603	21,119	9,044	27,499

Although good progress has been made during the year in disposing of certificate cases, the number pending at the close of the year was still large. It is satisfactory to be able to note that, out of the 4,603 cases pending, 3,575 had been disposed of by August 1892. The Special Deputy Collector remarks:—

"The number of cases struck off in the Cuttack district was unduly large. It is to be hoped that these cases will be reduced in future by the exercise of proper discretion in filing them. Instructions have been issued to zilladars to the effect that in pursuance of the provision of the Public Demands Recovery Act they should, as a rule, apply for such dues as may not afterwards be found irrecoverable."

Complaints.

23. The number of objections against assessment filed and disposed of during the year are shown in detail below :—

Division.	(I)—Ordinary Remissions.				(II to IV)—Other Complaints.				Total complaints received during the year excluding those pending from previous year.	Pending.	Remarks.
	Received during the year and pending from previous year.	Disposed of. Remission allowed.	Disposed of. Remission refused.	Pending.	Received during the year and pending from last year.	Disposed of. Allowed.	Disposed of. Rejected.	Pending.

Total, 1891-92 ...	2,597	1,863	370	364	2,604	1,949	189	466	3,780	830	
Total, 1890-91 ...	4,560	3,268	297	935	1,795	1,273	36	466	3,185	1,421	

The Special Deputy Collector writes:—

"The number of objections filed was greater than that in the previous year, but the disposal of cases was more satisfactory. The number pending at the end of the previous year was 1,421, whereas at the end of the year 1891-92 it was only 830.

"The timely issue of purchas and prompt collection are the best means of reducing the number of objections."

REMISSIONS.

24. Sums aggregating Rs. 30,485 were remitted and written off as irrecoverable during the year, against Rs. 38,688 in the year previous. The following is the Deputy Revenue Superintendent's classification of the reasons for remission:—

Revision of Assessment.

	Rs.	A.	P.
(*a*) Unirrigated crops	16,360	3	5
(*b*) Damaged ,, ...	8,034	4	11
(*c*) Chowkidar's jageer	2,087	0	6
Total ...	26,481	8	10

Remissions.

(*a*) Waste land	926	4	1
(*b*) Land occupied by canals	44	6	7
(*c*) Twice assessed	491	6	4
(*d*) Barred by limitation	105	15	1
(*e*) Excessive realizations	562	4	9
(*f*) Change of rates	195	11	6
(*g*) Erroneous assessments	591	8	6
(*h*) On account of death of defaulter ...	101	14	6
(*i*) Absconding of defaulter	322	11	9
(*j*) Lease cancelled	138	1	1
Total ...	3,480	4	2

Written off.

Irrecoverable demand	523	9	5
Total ...	30,485	6	5

The Superintending Engineer remarks:—

"The remissions granted under *a*, &c., amounting to four-fifths of the whole, are to a large extent fictitious, as noted in last year's report, and are the result of a pernicious system of including in the lease and demand high lands that cannot be irrigated and low lands that do not require irrigation. Under the rules recently introduced this will be done away with, and the area leased will truly show the area to which irrigation is to be given, and for which the Engineers will be responsible for giving a full supply that will ensure a full crop. In this connection I beg to refer to the correspondence ending with Bengal Government's No. 2741 of 4th March 1892.

"The undernoted table shows against what year's dues the remission of Rs. 29,760 have been granted; that they should only last year have been granted for dues since 1886-87 shows a lamentable want of energy and system in the Collecting Department:—

Year.	Amount. Rs.	A.	P.
1886-87	61	3	1
1887-88	331	4	0
1888-89	2,085	3	0
1889-90	10,169	6	7
1890-91	16,820	12	11
1891-92	292	5	6
Total ...	29,760	3	1

"

25. The statement below compares the cost of the revenue establishment for the last five years:— REVENUE ESTABLISHMENT.

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1	2	3	4	5	6
Establishment under Collector.	Rs.	Rs.	Rs.	Rs.	Rs.
Permanent establishment, including travelling allowance	20,255	21,448	22,116	21,848	22,014
Temporary establishment	8,494	9,941	19,112	17,451	17,504
Contingencies	2,218	2,889	4,482	2,928	3,458
Headmen's fees	2,208	1,680	2,244	2,803	6,591
Establishment under Executive Engineer.					
Permanent and temporary establishment ...	2,964	3,052	3,398	3,417	3,447
Water-regulation establishment	4,161	4,151	4,150	4,144	4,127
Total ...	40,300	43,161	55,502	52,591	57,141
Collections of water-rates and miscellaneous revenue by the Canal Revenue Department	1,46,039	1,60,328	2,09,823	2,19,692	2,28,451
Percentage ...	27·6	26·9	26·4	23·9	25·0

There has been an increase in the cost of establishment to the extent of Rs. 4,550, which is mainly due to arrears of headmen's fees amounting to Rs. 3,788, due for previous years, having been paid in this year.

26. The receipts from navigation include the earnings of the transport service maintained by Government on the High Level Canal between Cuttack and Bhuddruck and Acquapada and Jajpur, a distance of 80½ miles each way, in addition to tolls on boats and rafts. The management of the canals is, in this respect, entirely in the hands of the engineering staff. NAVIGATION.

An increase of 24¾ miles has taken place in the total length of the canals owing to the opening of the Taldundah Extension Canal and of three miles of feeder channel on the Gobri Extension Canal.

27. The tollage receipts of each of the canal systems for the last five years are shown below:— TOLLAGE.

Year.	Taldundah Canal System.		Kendrapara Canal System.		High Level Canal, Range I.		High Level Canal, Range II.		High Level Canal, Range III.		Jajpur Canal.		Total.	
	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.
1887-88	31	6,267	75	46,659	33	8,306	12½	4,065	19	1,311	...	...	170½	66,628
1888-89	31	4,310	75	53,786	33	6,642	12½	3,392	19	1,601	6½	99	177	69,830
1889-90	31	4,426	75	60,245	33	8,390	12½	3,433	19	1,386	6½	163	177	73,039
1890-91	31	2,148	75	86,907	33	12,229	12½	3,185	19	2,174	6½	318	177	1,06,961
1891-92	55½	4,357	78	98,462	33	12,854	12½	3,027	19	1,775	6½	286	204½	1,20,761

The total Rs. 1,20,761 includes private traffic to the amount of Rs. 1,15,881, the balance, Rs. 4,880, being the actual toll charges on Government boats. The increase in tollage from private traffic, compared with 1890-91, is Rs. 16,638. This is due in some measure to the canals having been closed for shorter periods this year, but the principal cause is the expansion of local traffic, mainly in rice, which occurred on the Taldundah Canal and Ranges I and II of the High Level Canal. On the Kendrapara Canal there was a falling-off of 5,974 tons in the grain traffic.

The Superintending Engineer writes:—

"It is known that during the freshets in the Mahanadi last rains, the rice merchants sent their cargoes by the Taldundah Canal, owing to the Kendrapara Canal head lock being

partly silted up, and this accounts for part of the increase, The Executive Engineer reports that a part of the increase on the Taldundah Canal is undoubtedly due to an increase in local traffic, which was unfortunately checked by breaches in the Taldundah Extension Canal, caused by the cyclonic storm of November last. The local traffic chiefly consists of rice, which is carried by boats from Rahama in the 38th mile to Bhutmundi in the 50th mile, where it is stored for despatch to False Point along the Mahanadi river. Rice is also sent from near Tirtole to Cuttack by canal, and a gradual expansion of this local traffic is anticipated.

"The increases on the High Level Canal, Ranges I, II, and III, are explained by the Executive Engineer as due to a large quantity of rice having been imported into Cuttack. Less rice was exported from Jajpur than last year."

The increase in the navigation revenue, especially in the Kendrapara Canal, the tollage on which averages Rs. 1,262 per mile, is encouraging; over the whole system the tollage amounts to Rs. 584 a mile.

TRAFFIC.

28. Details regarding the traffic (excluding the transport service) of all the canals in Orissa for the last ten years are given in the following table:—

	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.

TRANSPORT SERVICE.

29. The cost of working the transport service between Bhuddruck and Cuttack and between Acquapada and Jajpur was Rs. 16,636, and the actual receipts Rs. 14,967. The loss incurred on this service is therefore Rs. 1,669, against a loss of Rs. 3,851 in the previous year.

The working charges for 1891-92 include Rs. 4,880 as tollage, while the earnings include Rs. 690, hire of boats; allowing for which the expenditure was Rs. 11,756 and the earnings Rs. 14,277, or a net profit of Rs. 2,521 against Rs. 1,626 in the previous year.

MISCELLANEOUS RECEIPTS.

30. The miscellaneous receipts for the last five years are shown in the following statement:—

DETAILS.		1887-88.	1888-89.	1889-90.	1890-91.	1891-92.

31. The Superintending Engineer gives the charge for maintenance and repairs during the year as Rs. 1,75,467, distributed as below :— MAINTENANCE AND REPAIRS.

	1889-90.	1890-91.	1891-92.
1	2	3	4
	Rs.	Rs.	Rs.
Extensions and improvements	...	11,081	8,679
Head-works	75,300	74,407	48,154
Main canals	1,09,839	90,592	82,741
Distributaries	23,988	21,992	15,324
Drainage and protective works	15,508	12,676	10,389
Cost of working transport service	5,829	11,478	10,180
Total ...	2,30,464	2,22,226	1,75,467

32. The maintenance of the weirs accounts for Rs. 38,681 out of the total Rs. 48,154 spent on head-works. Details are given below :— HEAD-WORKS.

Name of Weir.	Length.	Expenditure.			Rate per running foot.		
		1889-90.	1890-91.	1891-92.	1889-90.	1890-91.	1891-92.
1	2	3	4	5	6	7	8
	Feet.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Naraje	3,833	10,275	4,728	3,194	2·68	1·23	2·68
Mahanadi ...	6,349	30,331	33,340	19,484	4·78	5·25	4·78
Beropa	1,980	4,709	7,616	8,433	2·38	3·85	2·38
Brahmini... ...	4,000	2,170	4,302	2,721	0·54	1·08	0·54
Pattia	783	2,203	4,194	2,538	2·81	5·36	2·81
Byturni	1,026	6,295	3,792	1,244	6·14	3·70	6·14
Burrah	526	5,470	4,450	1,067	10·40	8·46	10·40
Total of all weirs ..	18,497	61,453	62,422	38,681	3·32	3·37	3·32

The reduction of expenditure on repairs to weirs is due to the absence of heavy floods. At the Beropa weir the rubble packing was worn out, and had to be replaced.

MAIN AND BRANCH CANALS.

33. The expenditure on each canal for the last three years is shown below:—

CANALS.	1889-90.			1890-91.			1891-92.		
	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.

Ditto, do. III ...	19	8,690	457	19	5,589	294	19	4,907	258
Jajpur Canal	6½	721	111	6½	1,033	158	6½	1,275	196
Total ...	259	1,09,830	440	252	99,746	395	279½	83,741	298

The maintenance charges of main canals fell from Rs. 99,756 to Rs. 82,741. The expenditure by subheads in each canal is commented on by the Superintending Engineer with explanations of increases and decreases. The Kendrapara Canal shows a reduction of expenditure at the rate of Rs. 1,607 per mile, or Rs. 6,267 in all, in spite of increased charges for silt clearing, owing to the supply lock and channel having silted up during floods, and of damages to buildings by the cyclone. There is a small increase on the Kendrapara Extension Canal. A large amount of jaffry work for bank protection was carried out on the Gobri Canal, and silting was heavy, while the damage done to buildings by the cyclone also caused excess, the result being a raising of the mileage rate by Rs. 122·5. There were material reductions on the Gobri Extension Canal and on the Pattamundi Canal, the expenditure on the latter being Rs. 4,367 against Rs. 9,972 last year, owing to economy in repairs to banks and masonry works. Expenses have risen on the Taldundah Canal, the causes being increased silt-clearing and dredging, cyclone damages, and the cost of repairs to ferry boats which is now charged to repairs instead of to tools and plant as heretofore. The two last-mentioned causes also operated to raise the charges on the Machgong Canal, and, combined with increased cost of repairing the canal banks, brought the mileage rate up to Rs. 208·5 against Rs. 171·8 in 1890-91. On the High Level Canal there was, on the whole, a reduction, mainly on Range I, under all heads except repairs to banks, and on the Jajpur Canal a small excess of Rs. 243, due to bank repairs.

DISTRIBUTARIES.

34. The average mileage rate for the maintenance of distributaries was Rs. 20·94 as compared with Rs. 30·06 in the previous year:—

	1889-90.			1890-91.			1891-92.

Ditto, do. III	.....	.....	.....	49½	2,019	4·80	49½	2,168	43·80
Total ...	658½	23,988	30·41	731½	21,992	30·06	731½	15,324	20·94

The lengths of distributaries in the above are those which have been brought on the revenue account, and consequently differ from the lengths given in paragraph 13 which include all so far advanced as to be fit for use, whether the capital account is still open or not.

The Superintending Engineer remarks: —

"The expenditure on distributaries is Rs. 6,668 less than that of the previous year; the mileage rate being only Rs. 20 94, against 30·06 for a length of 731½ miles. This rate is abnormally low, and a considerably increased expenditure will be required for the next two years to place the distributaries in good working condition. Levels are now being taken of all distributaries and recorded, and *datum* blocks are being fixed throughout their length. When this has been completed, bed clearance will be effected in a more systematic and economical way than has hitherto been found possible, and the branch distributaries more particularly will be made fully effective."

DRAINAGE AND PROTECTIVE WORKS.

35. The total expenditure on drainage and protective works was Rs. 10,389 against Rs. 12,696 in 1890-91. The most important items under this head are the protective embankments on the High Level and Taldundah Canals, and the drainage channels connected with the Kendrapara, Taldundah, and Machgong Canals.

DREDGING AND SILT-CLEARING.

36. The cost of silt-clearing and dredging during the year 1891-92 is given in the following table:—

	Silt-clearing.			Dredging.		
	Quantity.	Cost.	Rate per 1,000 c. ft.	Quantity.	Cost.	Rate per 1,000 c. feet.
1	2	3	4	5	6	7
	C. feet.	Rs.	Rs.	C. feet.	Rs.	Rs.
Kendrapara Canal	696,541*	2,989	4·29	1,151,704	7,797	6·77
„ Extension ..	...	...	...	18 710	128	6·84

Gobri Canal	687,620	1,547	2·25	...	57	...
„ Extension	352,889	883	2·50	...	1,415	...
High Level Canal, Range I ...	316,800	948	3 00	...	...	...
Taldundah Canal	295,055	1,685	5·71	79,380	529	6·66
Machgong Canal	20,956	52	2·48	..	...	...
High Level Canal, Range II ...	456,221	1,113	2·44	61,166	207	3·38
Jajpur Canal	24,387	78	3 20	..	...	...
High Level Canal, Range III ...	392,310	924	2·36	...	...	...
Total	3 307,980	10,380	3·14	1,310,960	10,133	7·73

* 446,011 cubic feet of silt hand dredged are included in this item; hence the high rate.

The cost of raising and delivery of the silt has amounted to Rs. 4 34, and that of haulage and discharge to Rs 2 43 per thousand cubic feet on the Kendrapara Canal. The rates for the Kendrapara Extension Canal are Rs. 4·59 and Rs. 2·25, respectively.

PLANTATIONS.

37. The following table shows the state of the plantations for the last two years :—

Year.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1890-91 ...	69,741	26,806	50,061	146,609
1891-92 ...	66,307	34,469	23,244	124,020

MIDNAPORE CANAL.

APITAL ACCOUNT.

38. The Capital, Interest, and Revenue Accounts of this Canal are given below :—

1.—CAPITAL ACCOUNT.

Heads of Account.	Outlay during 1891-92.	Outlay to the end of 1891-92.
1	2	3
Direct charges.	Rs.	Rs.
I.—Works	...	53,53,307
II.—Establishment	...	19,25,180
III.—Tools and plant	14,469	9,16,982
IV.—Suspense accounts	...	.....
Loss by exchange	...	94,800
Total ...	14,469	82,90,269
V.—*Less*—Receipts on Capital Account	...	31,558
Total direct charges ...	14,469	82,58,711
Indirect charges.		-
Capitalization of abatement of land revenue	...	168
Leave and pension allowances ...	...	1,83,965
Total indirect charges ...	...	1,84,133

All capital expenditure on this canal is now, agreeably to the orders of the Government of India, charged to the head 43—Minor Works and Navigation, and provided from Provincial Funds, the canal being no longer classed as a productive work. The expenditure of the year, amounting to Rs. 14,469, was incurred on the construction of a steam-tug.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

	Rs.
Interest charges to end of 1890-91	60,79,140
Ditto for 1891-92	3,30,059

EARNINGS. 39. The receipts under "water rates," Rs. 1,32,981, shown above, are the actual cash collections during the year, and include a sum of Rs. 70,959 on account of irrigation which occurred in years previous to 1891-92. The "earnings" of the last four years, including all sums due for irrigation which occurred during each year respectively, whether leases for the irrigation were executed during or subsequent to the year in which the irrigation occurred, are given in the table below. For the year under review the earnings cannot be given exactly, as the amounts which will fall due in subsequent years are for irrigation on unleased areas, where the justice of the demand is disputed by the cultivators, and the assessment is consequently delayed. The total of such sums for 1891-92 is estimated at Rs. 3,329. For 1890-91 a further amount may have to be added next year.

Year in which the irrigation occurred.	Year in which leases were executed.	Earnings of 1888-89.	Earnings of 1889-90.	Earnings of 1890-91.	Earnings of 1891-92.
1	2	3	4	5	6
		Rs.	Rs.	Rs.	Rs.
1888-89	1888-89	1,18,243	...	...	...
	1889-90	13,200	...	...	...
	1890-91	366	...	...	...
	1891-92	Nil.	...	...	...
1889-90	1889-90	...	1,03,404	...	...
	1890-91	...	7,050	...	...
	1891-92	...	102	...	...
1890-91	1890-91	...	...	1,23,043	...
	1891-92	...	...	3,600	...
1891-92	1891-92	...	...	...	1,25,916
	Subsequent years ...	...	Estimated at	...	3,329
	Total ...	1,31,809	1,10,556	1,26,643	1,29,245
Deduct refunds	... ...	285	181	205	3
	Net Total ...	1,31,524	1,10,375	1,26,638	1,29,242

The net financial results calculated on the earnings for the last four years are, therefore, as shown in the following statement, the figures in which should be substituted for those given in the revenue reports of the corresponding years. The figures for "navigation" and "miscellaneous" are the actual realizations during the year:—

Year.	1888-89.	1889-90.	1890-91.	1891-92.

41. The length of canal open for navigation during 1891-92 remained the same as that for the previous year, viz., 72 miles, and no additions were made during the year to the areas protected or commanded. The table below shows the capabilities of the canal and distributaries, and the areas protected, commanded, irrigable, and assessed:— LENGTHS OF CANALS AND DISTRIBUTARIES.

NAME OF CANAL.	1890-91.								1891-92.							
	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from floods.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from floods.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.

RAINFALL.

43. The following statement shows the rainfall for the year 1891-92 and the four previous years at four registering stations which lie within the area irrigated by the Midnapore Canal:—

STATIONS.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	Average of former years.	
						No. of years.	Average rainfall.
1	2	3	4	5	6	7	8
	Inches.	Inches.	Inches.	Inches.	Inches.		Inches.
Midnapore ...	55·38	68·00	48·71	57·64	55·08	23	56·26
Panchkurah ...	56·21	59·47	51·78	55·84	41·60	23	56·19
Luchmapore ...	47·00	60·93	45·61	59·30	57·48	6	58·50
Mowah ...	49·76	60·14	31·80	49·93	53·07	6	54·77
Average ...	52·09	62·13	44·48	55·68	51·81	.....	56·43

The total rainfall was somewhat below the average of former years, especially at the Panchkurah observing station. It was unevenly distributed, being fairly abundant in the early part of the season, and beginning to fail in September, while October and all succeeding months to the end of the year were marked by an almost complete absence of rain. The distribution over the months of the kharif season is shown below:—

	Midnapore.	Panchkurah.	Luchmapore.	Mowah.	Average, 1891-92.	Average, 1890-91.

FLOODS.

44. There were no heavy floods during the year. The highest gauge-readings of the river Cossye at Midnapore and Panchkurah above and below weir,

and those of the river Rupnarain at Dainan and Kantapukhur are shown in the statement below, the readings being the height in feet above mean sea level :—

River.	Locality.	1891-92.		1890-91.		Highest recorded.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.
1	2	3	4	5	6	7	8
Cossye	Midnapore above weir	14th August 1891 ...	57·80	30th July 1890 ...	36·50	1868 ...	92 30
	Ditto below weir	Ditto ..	50·00	Ditto ..	31·00	Do. ...	91 55
	Panchkurah above weir	Ditto ...	33 50	25th June 1890 ...	29·40	10th October 1876 .	35·00
	Ditto below weir	Ditto ...	31·80	Ditto ...	29 00	Ditto	34·30
Rupnarain	Dainan	19th August 1891 ..	14 20	31st July 1890 ...	14·20	26th August 1885 .	17 35
	Kantapukhur	Ditto ...	13·80	28th September 1890	14 40	Ditto ...	16 80

The discharge of the river Cossye reached its maximum, 58,453 cubic feet per second, on the 14th August 1891, and from that date diminished rapidly, the average discharge during September being 7,290, and during October 1,658 cubic feet per second, and falling to 401 cubic feet per second in November.

45. The area of each crop irrigated during 1891-92 and the nine previous years exclusive of unleased areas compared with the yearly rainfall is shown below :— IRRIGATION.

Year.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.	
1	2	3	4	5	6	
	Acres.	Acres.		Acres.	Inches	
1882-83 ...	101,939	...	...	101,939	58·81	*

1890-91 ...	82,002	...	...	82,002	55·68	
1891-92 ...	83,905	68	...	83,973	51·81	

* Mean of observations of two stations—Midnapore and Panchkurah.
† Average of four stations throughout the irrigated areas under the Midnapore and Panchkurah weirs.

The Superintending Engineer writes—

"Owing to want of rain from September 1891, it was found impossible to irrigate the full area leased, which was slightly in excess of the area actually irrigated. When water was most wanted, the discharge of the Cossye ran as low as 200 to 300 cubic feet per second, so that in the months of October and November the river pools were drained in order to meet the demands for water. As it turned out, the irrigation operations of the year may be considered very successful, considering the water available. Of the total area under irrigation during the year, quite 90 per cent. was under the Midnapore weir, and the rest under the Panchkurah weir and in the tidal reaches."

46. In the following table information is given as to the areas under lease of each kind at the beginning of the year, the progress of leasing during the year, and the leases which remained in force after its close. The figures do not include assessments for illicit irrigation for which leases were executed after 31st March 1892:—

Particulars.	Kharif.			Sugarcane and other perennial irrigation.	Rabi.	Total.
	Long leases.	Annual leases.	Surreptitious irrigation.			
1	2	3	4	5	6	7
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.

DUTY OF WATER.

47. The duty obtained from the gross discharge during the past three years is detailed in the following statement:—

PARTICULARS.				Under Midnapore weir.	Under Panchkurah weir.
1				2	3
1889-90	Kharif ...	Acres		63,598	4,314
		Duty on gross supply ...		**134**	**77**
1890-91	Kharif ...	Acres ...		76,645	4,981
		Duty on gross supply ...		**160**	**89**
1891-92	Kharif ...	Acres		77,631	5,898
		Duty on gross supply ...		**172**	**64**

The duty calculated from the average gross supply during October 1891 is under the Midnapore weir 210, and under the Panchkurah weir 24 acres per cubic foot per second. The very high duty attained tends to throw doubt on the contention that the area actually irrigated is much in excess of that assessed with water rates. Probably at some periods during the year other than leased lands benefit by canal water, but it is improbable that any considerably increased area could be regularly supplied with water.

The areas irrigated in the Tidal Reaches, Ranges I and II, are not taken account of in the above statement. That area in the year under review was 376 acres, being the same as last year.

CROP EXPERIMENTS.

48. No experiments on outturn of crops were carried out during the year.

ASSESSMENTS, COLLECTIONS, AND BALANCES.

49. The following comparative statement shows the balances, assessments, and recoveries of water-rates on the Midnapore Canal during the last five years:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1887-88 ...	50,749	1,02,532	1,53,281	90,837	5,951	56,493
1888-89 ...	56,493	1,23,337	1,79,830	91,016	4,041	84,773
1889-90 ...	84,773	1,17,202	2,01,975	1,16,424	34,907	50,644
1890-91 ...	50,644	1,30,595	1,81,239	1,15,438	834	64,967
1891-92 ...	64,967	1,29,822	1,94,789	1,32,981	2,836	58,972

The figures in the above statement have been furnished by the Deputy Superintendent of Canal Revenue, and agree with those given in the Examiner's memorandum.

In the arrear balance of Rs. 64,967 with which the year opened, there were no demands of older standing than 1887-88. Rupees 58,960 were for dues incurred in 1890-91, and Rs. 6,007 for those of the three preceding years.

The current demand, amounting to Rs. 1,29,822, was composed of Rs. 1,25,916 earned within the year, and Rs. 3,906 earned in the four preceding years, but not recoverable till 1891-92.

ARREARS.

50. The whole amount for recovery, including arrears, was Rs. 13,550 more than that in 1890-91, while the collections were Rs. 17,543 more, the final result being a decrease of Rs. 5,995 in the balance outstanding at the end of the year. In the following table, arrear and current dues are distinguished, the sums composing the demand are distributed by the years in which they

were earned, and the proportions of each year's earnings, recovered or remitted, are separately shown:—

Year.	Amount previously due and unrealized.	Amount falling due within the year.	Total amount due to end of the year.	Adjustment of the year.				Balance unrealized at end of the month of March 1891.	Percentage adjusted.
				Cash recoveries.	Remission authorized.	Written off as being irrecoverable.	Total.		
1	2	3	4	5	6	7	8	9	10
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Per cent.
1887-88 ...	44 6 6	4 6 9	48 13 3	18 5 6	...	30 7 9	48 13 3	...	100·0
1888-89 ...	1,451 0 9	0 1 6	1,361 2 3	411 8 3	224 4 9	...	635 13 0	625 5 3	50·4
	—170 0 0								
1889-90 ...	4,531 7 3	102 1 0	4,803 8 3	3,660 4 0	1,080 12 6	62 0 0	4,803 0 6	0 7 9	100·0
	+170 0 0								
1890-91 ...	58,959 12 6	3,790 13 6	62,759 10 0	57,938 3 0	385 9 3	...	58,317 12 3	4,441 13 9	92·9
1891-92 ...	...	1,25,916 7 9	1,25,916 7 9	70,958 13 6	1,052 15 6	...	72,011 13 0	53,904 10 9	57·2
Total ...	64,966 11 0	1,29,822 14 6	1,94,789 9 6	1,32,981 2 3	2,743 10 0	92 7 9	1,35,817 4 0	58,972 5 6	69·8

The percentage of the total amount due for water-rates which have been collected or otherwise adjusted during the year is 69·8 against 64·1 last year, and this improvement, so far as it goes, is satisfactory. But about 30 per cent. of the demand was still unadjusted at the close of the year, and the outstanding balance, though slightly diminished, is still unduly high.

51. The following classification of the remissions granted is given by the Deputy Revenue Superintendent:— Remissions.

	Rs. A. P.
By Collector, under rule 27 ...	2,491 8 3
Remissions granted by officers disposing of certificate objection cases ...	350 7 6
Total ...	2,841 15 9

Of this sum, Rs. 5-14 are for miscellaneous revenue. Deducting this amount from the total remissions, there remains a balance of Rs. 2,836-1-9, which is the figure shown in the foregoing statements.

52. Information regarding the number of certificates issued and disposed of during the year is given below:— Certificates.

Particulars.	Midnapore.			
	1890-91.		1891-92.	
	No.	Amount.	No.	Amount.
1	2	3	4	5
Cases for disposal.		Rs.		Rs.
1. Cases pending at the close of the preceding year ...	3,444	16,195	1,958	6,085
2. Cases instituted during the year	7,664	32,944	3,428	17,765
Total ...	11,108	49,139	5,386	23,850
Cases disposed of.				
1. By being struck off, owing to the demand having been remitted.	3,839	26,396	1,422	6,239
2. By being wholly satisfied	5,311	16,658	3,515	14,039
Total ...	9,150	43,054	4,937	20,278
Balance outstanding at the close of the year ...	1,958	6,085	449	3,572

The decreases which occurred in the number of cases instituted and the balance outstanding at the end of the year are satisfactory.

The decrease in the number issued is attributable mainly to the raising of the process fees to 12 annas, which took effect from April 1891, and, to some extent, to greater discrimination being exercised in issuing them. Of the 5,386 certificates for disposal, 1,474 were for surreptitious irrigation, and 3,912 for the satisfaction of demands under kabuliyats.

COMPLAINTS. 53. The following table shows the number of complaints filed during the last two years, and how they have been disposed of :—

YEAR.	Class of complaints.	RECEIVED.			DISPOSED OF.			BALANCE PENDING AT END OF THE YEAR.		
		Balance pending from previous year.	Received during the year.	Total.	Allowed.	Refused.	Total.	Received during previous years.	Received during the year.	Total.
1	2	3	4	5	6	7	8	9	10	11
1890-91 ...	Ordinary remission	93	991	1,084	228	743	981	...	...	103
	Other complaints	55	259	314	59	188	247	...	...	67
	Total ...	148	1,250	1,398	287	931	1,228	...	..	170
1891-92 ...	Ordinary remission	103	474	577	112	407	519	...	...	58
	Other complaints	67	152	219	26	156	182	...	...	37
	Total ...	170	626	796	138	563	701	...	...	95

On the 1st April 1891, 170 complaints were pending, 626 were received during the year as compared with 1,250 in the previous year, making a total of 796, of which 701 were disposed of during the year, 19·7 per cent. being established, and 80·3 per cent. being rejected.

REVENUE ESTABLISHMENT. 54. The following statement compares the cost of the revenue establishment during the last four years :—

ESTABLISHMENT UNDER THE COLLECTOR.	1888-89.	1889-90.	1890-91	1891-92.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Permanent establishment, including travelling allowances ...	20,474	18,984	19,757	17,947
Temporary establishment ...	660	604	649	682
Contingencies	1,459	1,253	1,260	1,154
Headmen's fees	2,135	49	60	335
Total ...	24,728	20,890	21,726	20,118

The sums mentioned below were paid by the Executive Engineer for water-regulation in addition to the amounts specified in the foregoing table :—

	Water-regulation.	
	Permanent.	Temporary.
	Rs.	Rs.
1887-88	572	625
1888-89	546	653
1889-90	480	533
1890-91	488	595
1891-92	473	682

The cost of collection was 15·1 per cent. on the amount realized against 17·9 per cent. in 1890-91.

NAVIGATION. 55. The total navigation receipts of the year were Rs. 1,32,572, against Rs. 1,10,830 in 1890-91. This marked increase is almost entirely due to the

steamer traffic, the tolls realized from the Calcutta Steam Navigation Company having risen from Rs. 21,274 to Rs. 41,180 owing to their underbidding the native boats. The tonnage of native boats plying on the canal has, on the contrary, decreased, though there is an increase of Rs. 1,836 in the toll collections. The Superintending Engineer writes:—

"The increase in the total receipts may be attributed to the great activity in the Calcutta rice market. Large quantities of this grain were steadily exported from the Midnapore district since September 1891. The Calcutta Steam Navigation Company's vessels were largely employed in this trade, which helped to increase the toll receipts of the year."

The exports of rice from September 1891 to January 1892 were 18,776 tons, valued at Rs. 12,28,229, against 12,700 tons, valued at Rs. 8,50,012 during the corresponding period of 1890-91.

The usual particulars regarding the traffic carried in vessels, including those of the Calcutta Steam Navigation Company, for the last ten years are given below:—

Description.		1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.

(a) Inclusive of tolls, Rs. 41,180 paid by the Calcutta Steam Navigation Company.
(b), (c), (d), (e), (f), and (g) Inclusive of passengers 96,443, 86,783, 85,319, 96,397, 105,360, and 82,358 carried by the Calcutta Steam Navigation Company's steamers.

The following figures compare the value of cargo carried by steamers and flats with that carried by country boats for the last two years.—

		1890-91.	1891-92.
		Rs.	Rs.
Steamers and flats	...	64,22,317	73,39,767
Country boats	...	84,11,074	53,25,957
Total	...	1,48,33,391	1,26,65,724

56. The table below shows the miscellaneous receipts for the last five years:— MISCELLANEOUS RECEIPTS.

Details.		1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1		2	3	4	5	6
		Rs.	Rs.	Rs.	Rs.	Rs.
Sale of water ...	...	...	...	...	...	...
Plantations ...	...	44	...	35	52	40
Other canal produce	...	154	4	299	37	5
Water-power ...	...	...	...	...	...	...
Rent of buildings	...	534	727	738	721	711
Fines ...	..	...	...	...	...	...
Miscellaneous	Rent of lands	8,268	7,182	7,984	6,079	8,758
	" of fisheries	1,440	1,084	812	736	4,447
	Cost of process	3,023	1,113	2,400	1,009	2,516
	Other items ...	3,504	1,189	748	370	2,670
Total	...	16,967	11,299	13,016	9,004	19,147

The increase in all items of miscellaneous receipts is attributable to the more systematic management of leasing, which was this year undertaken by the Canal Officers.

MAINTENANCE AND REPAIRS.

57. The following figures show the actual cost of maintenance and repairs during the last three years distributed by subheads:—

	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.
Head works, including buildings ...	10,541	11,610	8,373
Main canal and branches ...	77,488	77,323	1,18,241
Distributaries	19,769	11,851	10,365
Drainage and protective works ...	2,262	1,151	1,239
Working steamers	3,447	3,103	3,044
Total ...	1,13,507	1,05,038	1,41,262

HEAD WORKS AND WEIRS.

58. The expenditure on the Midnapore and Panchkurah head works during the year was Rs. 4,582 and Rs. 3,790, respectively, against Rs. 7,120 and Rs. 4,490 in last year. On weirs the expenditure was at the rate of Rs. 0·30 per foot run at Midnapore, and Rs. 1·84 at Panchkura, against Rs. 0·86 and Rs. 0·79 respectively last year.

MAIN CANAL.

59. The outlay on repairs to the main canal, including that on head works, on working steamers, and on drainage works, was Rs. 1,30,897 against Rs. 93,187 in the previous year. The heavy cost of maintenance of the main canal and its branches, exceeding that of 1890-91 by Rs. 40,918, was caused by the extensive silt clearing operations which were carried out in the tidal reaches after a lapse of many years. The subheads affected were "earthwork" and "navigation works" (repairs to locks), the expenditure under which was Rs. 26,649 and Rs. 16,928, respectively, in excess of that incurred in the previous year. The repairs to the lock gates also involved an extraordinary expenditure of Rs. 14,513 under the head "tools and plant" on special iron caissons and pumping machinery, and Rs. 37,296 under the same head was spent on repairing dredgers, opportunity having been taken of the closure to have them thoroughly overhauled and repaired. The total expenditure on tools and plant was Rs. 51,761 against Rs. 23,929 in 1890-91.

DISTRIBUTARIES.

60. On distributaries the expenditure on repairs was Rs. 10,365, or Rs. 36 per mile, against Rs. 11,851, or Rs. 41 per mile, in the previous year. The saving was effected mainly under masonry works and was in a great measure due to the non-occurrence of floods.

61. In the following table, mileage rates for the last ten years, both for main canals and distributaries, are shown:—

Year.	Main Canal and Head Works, &c.			Distributaries.		
	Length of canal open.	Total cost of work.	Rate per mile.	Length of distributary channels.	Total cost of work.	Rate per mile.
1	2	3	4	5	6	7
	Miles.	Rs.	Rs.	Miles.	Rs.	Rs.
1882-83 ...	48	1,01,821	2,121	277	20,407	73
1883-84 ...	48	1,06,425	2,216	277	21,195	76
1884-85 ...	48	1,15,171	2,399	277	18,865	68
1885-86 ...	48	1,10,350	2,299	277	14,424	52
1886-87 ...	48	1,20,135	2,503	283	17,617	63
1887-88 ...	48	1,10,494	2,301	283	20,857	74
1888-89 ...	48	83,675	1,743	283	22,464	79
1889-90 ...	48	93,738	1,953	283	19,769	69
1890-91 ...	48	93,187	1,941	283	11,851	41
1891-92 ...	48	1,30,897	2,727	283	10,365	36

DREDGING AND SILT CLEARING.

62. The quantity of silt dredged during the year was 4,030,769 cubic feet, at an average rate of Rs. 4·76 per 1,000 cubic feet, whereas the quantity during the previous year was 5,159,375 cubic feet, and the rate Rs. 5·43. The smaller outturn of work was due to the closure of the canal, during which the work could not be carried on.

The work done by the steam-dredgers during the year under review and the cost of working them is shown below:—

Name of dredger.	Quantity of earth dredged.	Actual cost of lifting.	Cost of removing		Total.	Lifting rate per 1,000 cubic feet.	Removing rate per 1,000 cubic feet.	Total rate per 1,000 cubic feet.
			Steam hopper-barges.	Ordinary hopper-barges.				
1	2	3	4	5	6	7	8	9
	C. ft.	Rs.	Rs.	Rs.	Rs.			
Hector dredger ...	373,830	1,637	835	...	2,472	4·37	2·23	6 61
Ajax ditto	886,395	3,102	1,579	...	4,681	3·49	1·78	5·28
Atlas ditto	1,964,800	5,622	2,862	...	8,484	2·86	1·45	4·31
Combination ditto	289,024	1,253	...	...	1,253	4·30	...	4·30
Marchanta ditto	...	52	...	...	52	...	...	...
Cadmus steam excavator ...	516,660	2,277	.	...	2,277	4·40	...	4·40
Total for 1891-92	4,030,769	13,943	5,276	...	19,219	3·45	1·30	4·76
Total for 1890-91	5,159,875	20,400	7,582	34	28,016	3·95	1·47	5·43

63. The state of the plantations for the last two years is shown in the following statement:— PLANTATIONS.

Year.	Trees upwards of 12 feet high.	Saplings between 4 and 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1890-91 ...	9,706	10,705	3,141	23,552
1891-92 ...	10,082	10,351	2,452	22,885

64. From a financial point of view, the results of the year were disappointing. The receipts under all items were greater than last year, but the increase was more than swallowed up by the heavy expenditure incurred in repairs, the net profit being only Rs. 18,371 against Rs. 28,131 in 1890-91. The failure of the rainfall in September and October caused a heavy demand for canal water for kharif irrigation, which was met with great difficulty, owing to the small supply in the river. The increase in the rice traffic, owing to the scarcity in other parts of the country, is noticeable, and in this connection it may be remarked that a yearly increasing proportion of the carrying trade is being diverted from country boats to the Steamer Companies. GENERAL RESULTS.

HIDGELLEE TIDAL CANAL.

65. The Capital, Interest, and Revenue Accounts of this Canal are given below:— CAPITAL ACCOUNT.

1.—CAPITAL ACCOUNT.

Heads of account.	Outlay during 1891-92.	Outlay to end of 1891-92.

Total indirect charges ...	6,908	56,508

An extensive remodelling scheme has, for rather more than a year, been in progress on the Hidgellee Tidal Canal, having for its object the facilitation of navigation by increasing the depth of the canal and the exclusion of silt, the removal of which entailed very heavy annual expenditure and long closures of the canal. The scheme involves the lowering of the canal bed in Ranges I and II; the provision of two new supply sluices, by means of which the silty water will be led to the canal through long feeder channels, in which the silt will be deposited instead of in the canal itself; a cast-iron supply pipe laid on the bed of the Russulpore river, through which the supply for Range II will be drawn from Range III of the Orissa Coast canal, instead of being taken from the silt-laden water of the Russulpore; the construction of a new lock at Kalinagar to replace the old one, which is too small and in a badly chosen situation; and other works of a minor character, designed to assist in scouring and clearing silt from the lock entrances and navigation channels. The construction of the new lock at Kalinagar and of the iron supply pipe across the Russulpore has been postponed, pending the settlement of the difficulties regarding the deterioration of the Russulpore river, which has of late years been rapidly silting up. The deterioration now appears to have ceased, and during the year under review the depth of the river has even slightly increased, owing to the scour caused by the daily flow of the tide into and out of the lately constructed drainage cut at Balliaghye, which is also used as a navigation canal. The other works comprised in the remodelling scheme have been completed, the time occupied in carrying them out having been, on Range I, 12 months and 21 days, and on Range II, 6 months and 18 days.

The cost of maintenance, though slightly less than last year, still exceeds the average cost, which for the last eleven years amounts to Rs. 46,189, by Rs. 4,494. This is due to extensive repairs which had to be carried out on the lock gates, and to some alterations in the lock valves consequent on the remodelling scheme above alluded to. The Superintending Engineer writes:—

"The very high maintenance rate on this canal is due to the heavy influx of silt owing to the primitive feeding arrangements originally adopted, and to the mistake of having iron gates for the locks, which in the salt water have given trouble from the first and give increasing trouble as they get older."

It is hoped that, on the completion of the remodelling scheme, the working expenses will begin to decrease, but until the pipe across the Russulpore river is fixed, or some other equally effective method of supplying a comparatively pure supply. heavy expenditure on silt clearing on Range II will from time to time be necessary.

67. The rainfall at Contai station was 49·97 inches against 75·32 inches in 1890-91. RAINFALL.

68. During the year there were no floods of any consequence in any of the rivers crossed by the Hidgellee Tidal Canal. The highest gauge readings of the rivers Hooghly, Haldi, and Russulpore are shown in the following statement:— FLOODS.

NAME OF RIVER.	Locality.	1890-91.		1891-92.		Highest recorded reading.		REMARKS.

(a) Inclusive of tolls, Rs. 1,603, Rs. 1,512, Rs. 4,590, Rs. 5,523, Rs. 3,340, Rs. 3,634, paid by the Calcutta Steam Navigation Company.
(b) Inclusive of passengers, 23,343, 17,554, and 21,209, carried by the Company's steamers.

The toll collections, which in 1890-91 were low owing to a seven months' closure of the canal, have recovered somewhat during the year under review, when the closure only lasted for four months. It may be remarked that the tollage receipts on this canal have not increased in proportion with those on the Orissa Coast canal This may be due to the frequent closures of the last few years, but it is also largely owing to the use of a very superior class of decked boat which has lately been introduced, and which can take the route *vid* the Russulpore and Hooghly Rivers in calm weather.

Miscellaneous Receipts.

70. The miscellaneous receipts for the last five years are shown in the following statement:—

Details.	1887-88.	1888-89.	1889-90	1890-91.	1891-92.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Sales of water	...	...	...	...	...
Plantations	70	64	62	68	27
Other canal produce	1,085	...	...	5	...
Water-power	...	...	...	...	...
Rent of buildings	245	226	181	244	266
Fines	...	...	...	...	...
Miscellaneous — Rent of lands ...	...	...	18	56	39
Miscellaneous — ,, of fisheries	52	955	1,198	5 14	202
Miscellaneous — Cost of process ...	...	...	...	..	...
Miscellaneous — Sales of old materials ...	...	4	144	4	5
Miscellaneous — Other items ...	...	...	11	8	28
Total ..	1,452	1,249	1,614	899	567

The receipts during the year show a decline of Rs. 332, mainly in item fisheries, which is due to the closures of the canal during the last two years.

Dredging.

71. There was no dredging work, as the silt was removed by hand-labour during the closure of the canal.

Plantations.

72. The state of the plantations for the last two years is shown in the following statement:—

Year.	Trees over 12 feet in height	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1890-91	1,883	2,845	1,776	6,504
1891-92	2,000	3,116	1,041	6,157

The falling off in the number of trees during the last two years has been caused by the silt clearing operations during the closures, necessitating the deposition of earth on the banks and encampments of coolies. The expenditure during the year was Rs. 273 against Rs. 383, and the revenue was Rs. 27 against Rs. 68.

SONE CANALS.

CAPITAL ACCOUNT.

The figures in all statements showing totals of receipts or expenditure are those of the Examiner of Accounts. In dealing with details the figures of the Commissioner or of the Superintending Engineer are used.

73. The Capital Interest, and Revenue Accounts of these canals are given below:—

1.—CAPITAL ACCOUNT.

Heads of Account.	Outlay during 1891-92.	Outlay to end of 1891-92.
1	2	3
Direct Charges.	Rs.	Rs.
I.—Works	1,70,412	1,85,88,237
II.—Establishment	37,083	51,67,039

Loss by exchange	.....	52,240
Total ...	2,04,428	2,61,04,380
V.—*Less*—Receipts on capital account	330	3,72,286
Net total direct charges	2,04,098	2,57,32,094
Indirect Charges.		
Capitalization of abatement of land revenue	.....	37,911
Leave and pension allowances	5,191	8,72,640
Total indirect charges	5,191	9,10,551

The Sone Canals are practically complete and in full work, and the outlay on capital is now only on subsidiary works, such as outlets and culverts for village channels where they cross district roads. A report on the canals as constructed, compared with the estimate the currency of which has expired, has been sent to the Government of India, and the capital account will shortly be closed, the expenditure being meanwhile confined to the completion of works sanctioned before 31st March 1891. The outlay charged to the capital account of the Sone canals during the year 1891-92, compared with that of the previous year, is shown in detail in the following statement:—

	1891-92.	1890-91.
I.—Works—		
(1) Head-works	2,035	5,249
(2) Main canal and branches ...	31,337	23,475

(4) Drainage and protective works ...	57,728	65,028
Total works ...	1,70,412	1,32,699
II.—Establishment	37,083	19,850
III.—Tools and plant	(—) 1,352	6,411
IV.—Suspense accounts	(—) 1,715	14,716
Grand Total ...	2,04,428	1,73,676
V.—*Less*—Receipts on capital account ...	330	2,315
Net total	2,04,098	1,71,361

The work done during the year under review is as follows:—

Head works.—The plantations established on the spare lands belonging to Government at Dehri were proceeded with, and will probably be completed during 1892-93.

Eastern Main Canal.—The escape for the Manora distributary was completed. The protective embankment to save Kharati village from the flood of

the Poonpoon was proceeded with, as were permanent outlets and road crossings for village channels on the Manora distributary.

Patna Canal.—The addition to the second weir on this canal was completed before the rains. Three drainage culverts and one hundred and thirty-three permanent outlets were completed during the year, and a rest-house, on the Khojhassa distributary and the Bharatpur distributary escape, were proceeded with.

Main western canal series.—Permanent outlets, cattle bridges, crossings for village channels, and syphon culverts for drainage and drainage cuts were under construction in most of the canals, branch canals, and distributaries under the main western canal series. On the Arrah Canal eight small regulators in distributaries, and on the Buxar Canal some inlets for drainage were built. The alteration of three bridges on the Behea branch canal, and quay walls at Nokha and Buxar were in progress. Escapes from the Rajpur and Nagpur distributaries were in progress, as also were a rest-house on the Sianwank distributary, a toll office at Nokha, and zilladar's quarters at Sikraol. The Kujee drainage cut, which is an important work, the estimated cost being Rs. 37,947, was proceeded with, and was nearly completed at the end of the year. The extension of the Basudhar distributary was nearly completed, as were some additional lengths of parallel channels.

74. The net result, calculated on the earnings as opposed to collections, and actual outlay is shown below :— EARNINGS.

	1890-91.		1891-92.
	Rs.		Rs.
Earnings—			
Irrigation ...	5,92,847		9,82,032
Navigation ...	65,629		66,517
Miscellaneous ...	26,128		31,827
Total ...	6,84,604		10,80,376
Deduct refunds of revenue	7,305		4,020
Net earnings	6,77,299		10,76,356
Outlay	7,02,099		6,97,840
Loss ...	24,800	Profit ...	3,78,516

The figures given as net earnings include the actual realizations of navigation and miscellaneous revenue with the assessed revenue on the area actually irrigated during the year, less refunds.

The irrigation earnings are given in greater detail in the following table, which includes the assessments on the area irrigated during the year, whether forwarded for collection before or after the 31st March. The figures therefore differ from the assessments of the year which are referred to further on :—

Year in which the irrigation occurred.	Year in which the assessments were received by Deputy Collector.	Year in which the amount fell due.	Total demand for 1891-92.	Current demand for 1891-92.	Total assessments submitted during 1891-92.	Total earnings of 1891-92, less refunds of revenue.

		GRAND TOTAL ...	7,29,631	6,93,685	7,81,252	9,78,012

The earnings less refunds during 1890-91 were Rs. 5,85,542. They have not until the current year materially differed from the assessments.

75. The receipts for the last two years have been increased by the collection of outstanding arrears. The balance of such has now been much reduced. FINANCIAL RESULTS.

The receipts on revenue account and working expenses of the canals for the year 1891-92 and the nine preceding years are shown in the statement below :—

	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.

* NOTE.—The method of charging the cost of establishment was altered from 1887-88.

Compared with 1890-91 the receipts (less refunds) have increased from Rs. 7,29,170 to Rs. 9,06,074, that is, by Rs. 1,76,904. The working expenses (direct charges) have been reduced from Rs. 6,53,286 to Rs. 6,48,060, or by Rs. 5,226. Including indirect charges, the net revenue has increased from Rs. 27,071 to Rs. 2,08,234.

This favourable result was due mainly to extensive recoveries of arrears in the Patna district, and in a lesser degree to the abnormal area of rabi irrigated in the Buxar Division, the collections on account of which will mostly be made in 1892-93. A reduction of Rs. 16,203 on the charges for maintenance and repairs was effected in the Arrah Division.

The principal works carried out were a drainage sluice in the Kao river embankment at Dumraon, the alteration of the bridges on the Gurra Chowbey branch canal from wooden tops to arches, and the construction of a few small culverts. The eastern main series of canals were closed for repairs from 6th April to 29th May 1891, and from 28th March 1892 to the end of the year. There was no closure of the western main series in 1891-92. These canals were closed in March 1891, and not again till May 1892

76. The lengths of canals and distributaries in operation, and the areas commanded, provided with distributaries, and irrigated at the close of the last two years are shown below:— LENGTHS OF CANALS AND DISTRIBUTARIES.

Name of Canal.	1891-92.								1890-91.							
	Navigable canals.	Canals for irrigation only.	Distributaries.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries.	Area protected from flood.	Area under command. The figures in column 4 include 1,192½ miles of distributaries and 14½ miles of Government village channels in the Buxar Division.

77. The length of village channels and the number of outlets constructed are given in the following table:— VILLAGE CHANNELS AND OUTLETS.

Division.	Total length of village channels completed.	Total number of temporary and permanent outlets.	Number of permanent outlets.
1	2	3	4
	Miles.	No.	No.
Eastern Sone	361½	1,878	468
Arrah	823½	2,114	1,188
Buxar	802½	1,951	700
Total, 1891-92 .	1,987	5,943	2,356
Total, 1890-91 ...	1,623½	4,580	1,728

During the year 1¼ miles in the Arrah and 3 miles in the Buxar Division were added, while 7¾ miles were abandoned in the Eastern Sone Division, the net result being a decrease of 3½ miles.

One thousand three hundred and sixty-three outlets, of which 628 are permanent, and 363¾ miles of village channel have been added during the year. The Superintending Engineer remarks:—

"There is a satisfactory increase in the number of the permanent outlets, and the greater part of the kharif irrigation is now effected through such outlets, the size of which have been made to suit the areas to be irrigated. The increase in the number of temporary outlets is due to the large rabi irrigation. Many of these will be removed, as it is not likely that they will be required again for some time."

Many of the channels also were only temporarily constructed for rabi irrigation, and will probably disappear again.

RAINFALL. 78. The table following shows the rainfall during the last five years over 22 rainfall stations on, or in the neighbourhood of, the Sone Canals:—

		Average of 22 Stations.				
		1887-88	1888-89.	1889-90.	1890-91.	1891-92.
1		2	3	4	5	6
		Inches.	Inches.	Inches.	Inches.	Inches.
Kharif season	August ...	9·48	18·49	12·01	14·47	9·11
	September ..	5·21	7·35	5·90	6·58	4·09
	October ...	4·18	0·18	0·79	0·99	1·17
	Total ...	18·90	26·02	18·70	22·04	14·37
Rabi season	November ..	.....	0·46	0·48	.....	.....
	December ...	.....	.....	.....	0·01	.....
	January ...	1·09	1·22	.....	1·69	0·13
	February ..	.....	1·30	0·01	0·39	1·03
	Total ...	1·09	2·98	0·49	2·09	1·16
	Whole year ...	40·31	47·34	39·27	52·86	29·12

The average rainfall for twenty years is 40·47 inches.

The rainfall of the year was very scanty, being much below the normal and scarcely more than half that of the previous year.

FLOODS. 79. There were no floods in the rivers Sone and Ganges during the year. The figures below show the highest gauge readings compared with the highest

recorded flood levels. The reduced level of the crest of the Sone Weir is 334 00:—

RIVER SONE.

Locality.	1891-92—9th August 1891.		1890-91—16th August 1890.		Highest known, 1876-77—7th July 1876.	
	Above weir.	Below weir.	Above weir	Below weir.	Above weir.	Below weir.
1	2	3	4	5	6	7

1887-88 ...	220,428	69,945	25,007	315,380	40·18
1888-89 ...	238,895	100,142	16,872	355,909	45 43
1889-90 ..	230,741	55,613	18,928	305,282	49·65
1890-91 ..	211,726	51,318	17,970	281,014	52·23
1891-92 ...	248,819	210,907	14,997	474,723	26 82

The rainfall in the autumn of 1891 was very scanty, and this led to a great demand for water both for kharif and rabi. As regards the latter, the increased demand is most noticeable in the Buxar Division, where the area irrigated under this head has risen from 17,034 acres in 1890 91 to 127,390 acres in 1891-92. The largest area of rabi irrigated in any previous year was in the whole Circle 124,812 acres in 1877-78. In no other year has the area risen above 90,304, of which 48,961 acres were in the Buxar Division. This occurred in 1883-84.

The Superintending Engineer remarks on the irrigation of the year as follows:—

"Compared with the previous year, there is an increase of 193,709 acres, and the total is greater by more than 100,000 acres than that of any year since these canals have been at work. The main increase was in the rabi irrigation, and chiefly in the Buxar Division, where there are large areas of land cultivated with rabi crops, but which very seldom require irrigation. There is a satisfactory increase in the area under long leases of 11,351 acres, and it is probable that there will be a further increase in this class. We cannot expect to have a rabi irrigation like that of 1891-92 often, and it will probably be many years before the total of this year is exceeded."

During the year under review water was for the first time sold by volume during the kharif season in cases where leases had not been taken before the 1st September. The area thus irrigated was approximately 3,622 acres. This area, as well as 3,369 acres irrigated without permit, is, in the table in the following paragraph, included in the figures for "annual leases."

81. The statement below gives details of the areas of each crop irrigated during the last four years, distinguishing between annual and five-year leases.

Crop.		1888-89.	1889-90.	1890-91.	1891-92.
1		2	3	4	5
		Acres.	Acres.	Acres.	Acres.
Kharif ...	Five-year leases...	154,825	174,780	189,227	200,716
	Annual leases ...	69,628	41,917	22,499	48,103
Total ...		224,453	216,697	211,726	248,819
Rabi ...	Five-year leases ..	27,408	31,128	20,761	20,274
	Annual leases ...	69,817	20,336	20,632	177,308
Total ...		97,225	51,464	41,393	197,582
Sugarcane	Five-year leases...	17,869	18,360	13,568	13,801
	Annual leases ...	4,600	5,004	4,402	1,196
Total ...		22,469	23,364	17,970	14,997
Hot-weather		11,762	13,757	9,925	13,325
Grand Total ...		355,909	305,282	281,014	474,723
Total five-year leases ...		200,102	224,268	223,556	234,791
,, annual leases ..		155,807	81,014	57,458	239,932

The proportionate areas of the various crops in the areas under long lease in 1891-92 are based on actual measurements of the crops cultivated when the leases were executed. In some subdivisions this information is wanting for years before 1890-91, and the percentages obtained for that and the succeeding year have been adopted for previous years.

The proportionate areas thus determined are given below:—

Division.	Rice.	Sugarcane.	Rabi.	Total.
1	2	3	4	5
Arrah	85·2	7·2	7·6	100·0
Buxar	79·7	5·9	14·4	100·0
Eastern Sone ...	93·7	2·9	3·4	100·0

Using the percentages obtained above for the area under five-year leases in the year 1891-92, the area of each crop included in those leases compared with that of the two previous years was as under:—

1891-92.			1890-91.			1889-90.		
Kharif.	Rabi.	Sugarcane.	Kharif.	Rabi.	Sugarcane.	Kharif.	Rabi.	Sugarcane.
1	2	3	4	5	6	7	8	9
200,716	20,274	13,801	189,227	20,761	13,568	188 824	21,520	13,924

82. The areas irrigated in each division during the last five years are shown by crops below:—

Year.	Eastern Sone Division.				Arrah Division.				Buxar Division.				Total for all Divisions			
	Annual leases.		Five-year leases.	Total.	Annual leases.		Five-year leases.	Total.	Annual leases.		Five-year leases.	Total.	Annual leases.		Five-year leases.	Total.
	Kharif and rabi.	Sugarcane and hot-weather.			Kharif and rabi.	Sugarcane and hot-weather.			Kharif and rabi.	Sugarcane and hot-weather.			Kharif and rabi.	Sugarcane and hot-weather.		
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
1887-88	20,339	679	40,123	61,201	25,982	13,0[illegible]9	102,423	141,484	35,715	6,362	67,618	112,695	85,096	20,120	210,164	315,380
1888-89	29,470	408	37,117	66,995	52,269	11,39[illegible]	101,489	165,349	57,706	4,363	61,496	123,565	139,445	16,362	200,102	355,909
1889-90	18,829	295	40,917	60,041	24,265	13,416	108,057	145,738	19,159	5,050	75,294	99,503	62,253	18,[illegible]61	224 268	305,282
1890-91	14,682	504	46,116	61,302	20,423	10,385	108,99[illegible]	139,807	8,026	3,438	68,441	79,905	43,131	14,327	223,556	281,014
1891-92	40,622	205	53,263	94,090	60,692	11,227	109,204	181,123	124,097	3,089	72,324	199,510	225,411	14,521	234,791	474,723

The area measured during 1891-92 was 112·08 per cent. of the area for which permits were issued. For kharif and long leases the figure sare practically identical, but the applications for leases in the rabi season show only the approximate area to be irrigated, the assessment being based on the area irrigated, as found by measurement when the irrigation season is over. The proportion of flow to lift irrigation was 93·6 to 6·4.

83. The following statement shows the duty obtained in the year under review and in the years 1890-91 and 1889-90:— Duty of water.

Particulars.			Eastern Main Canal Series.	Arrah Canal System.	Buxar Canal System.	Western Main Canal Series.	Total Sone Canals.
1			2	3	4	5	6
1889-90 ...	Kharif ...	Acres	54,875	115,888	78,906	194,794	249,669
		Duty on gross supply ...	48·34	79·81	86·04	81·94	71·09
	Rabi ...	Acres	6,801	30,867	23,116	53,983	60,784

1891-92 ...	Kharif ...	Acres	75,037	119,304	69,465	188,779	263,816
		Duty on gross supply ...	57·59	61 25	55·13	57·94	57·84
	Rabi ...	Acres	20,851	60·115	131,613	191,728	212,579
		Duty on discharge utilized	48 60	70·39	130·82	103·02	92·83

The duties shown in the foregoing table are calculated from the average discharges for the whole kharif and rabi seasons respectively. During the kharif season, however, the supply varies greatly, scarcely any water being, at times, used, so that these results afford no reliable indication as to the area

which can be irrigated from the canals when there is a pressure of irrigation. More reliable results are obtained by using as a basis of calculation the average discharge during the time of greatest demand only, which in the kharif season of the year under review was for about 12 days in October 1891. The results are, for the Eastern Main Series, an average discharge of 1,556 c. feet per second from 11th to 23rd October, giving a duty of 48·2 acres per c. foot per second, and for the Western Main Series an average discharge of 3,750 c. feet per second from 8th to 20th October, with a duty of 50·3 acres per c. foot per second.

The Superintending Engineer remarks:—

"The duty obtained from the Eastern Main Series is considerably better than in previous years: that of the Western Main Series is much the same, and it may be taken as established that we cannot expect a much higher duty than 50 acres per cubic foot per second on the maximum discharge we can maintain at the head of the canals."

"The result of most importance is the duty on the Buxar Canal system during the rabi season, which was 130 acres per cubic foot per second utilised. This is the first year in which there has been a demand for rabi irrigation from which any useful information as to the duty which could be realised was obtainable."

CROP EXPERIMENTS.

84. The results of experiments made during the year to determine the yield of rice crops irrigated from the canals were, for crops of average outturn, a yield of 23 maunds 10 seers of grain and 56 maunds 24 seers of straw on the mean of 71 experiments, and for specially selected crops a yield of 36 maunds 14 seers of grain and 87 maunds 15 seers of straw on the mean of 161 experiments.

The results, classified according to the soils on which the crops were grown, are remarkably uniform, even for the more barren classes of land. The Superintending Engineer remarks:—

"With thorough irrigation, and in the absence of too much rain at times, when it is not wanted, a good crop of rice can be grown on almost any soil."

The results of a number of experiments made in the rabi season on the yield of canal-irrigated wheat are tabulated below:—

Division.	Staple.	IRRIGATED WITH CANAL WATER.				
		Number of experiments.	Average yield per acre.			
			Grain.		Straw.	
			Maunds.	Seers.	Maunds.	Seers.
1	2	3	4	5	6	7
Eastern Sone ..	Wheat ...	24	23	21	37	13
Arrah	,, ...	41	17	20	28	21
Buxar	,, ..	41	19	12	33	19
Sone Circle average ...	,, ..	106	19	22	32	17
Eastern Sone ...	Gram ...	8	10	33	13	17

DEMANDS, COLLECTIONS, AND BALANCES.

85. The demands, collections, and balances of water-rates for the last five years are shown below:—

Year.	Amount outstanding at commencement of year.	Amount falling due for recovery during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs
1887-88 ...	2,31,682	7,25,810	9,57,392	5,19,586	26,525	4,11,281
1888-89 ...	4,11,281	7,53,217	11,64,498	7,59,556	24,329	3,80,613
1889-90 ...	3,80,613	7,52,788	11,33,401	8,16,394	35,225	2,81,782
1890-91 ...	2,81,782	5,93,178	9,10,960	6,44,718	21,460	2,08,782
1891-92 ...	2,08,782	7,29,631	9,38 413	8,11,750	15,220	1,11,443

The balance outstanding at the end of the year 1890-91 was shown in the revenue report for that year as Rs. 2,44,728. It now appears, however, that this figure included a moiety of Rs. 35,946 on account of rabi irrigated during 1890-91, which, as noted by Superintending Engineer in paragraph 7 of his report for 1890-91, was made due on 1st April instead of 31st March.

Details of the figures are given in the table in paragraph 74 above.

The amounts included in the current demand for the last three years as assessments for the unauthorised use of water or for wastage of water are reported by the Superintending Engineer to be—

	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.
For unauthorized use of water ...	913	4,240	11,168
For wastage of water ...	224	256	234

86. In the following statement the Deputy Collector shows the extent to which the arrears as well as current demand have been worked off:— ARREARS.

	Demand of 1891-92 consisting of	Collected or remitted in 1891-92.	Percentage of demand adjusted.	Unadjusted balance at close of year.
1	2	3	4	5
	Rs.	Rs.		Rs.
Arrears previous to 1889-90	27,827	19,190	68·9	8,637
Arrears of 1889-90	30,838	27,850	90·3	2,988
„ „ 1890-91	1,50,116	1,45,635	97·0	4,481
Total arrears outstanding on 1st April 1891 ...	2,08,781	1,92,675	92·5	16,106
Current demand for 1891-92	7,24,438	6,29,101	86·8	95,337
Total ...	9,33,219	8,21,776	88·0	1,11,443

There is on the whole a reduction on the outstanding balance of Rs. 1,33,285, but the rabi assessments which formerly became due on the 31st March, and are now due on the 1st April, no longer form a part of the balance.

The following statement gives the collections in each district:—

District.	Demand.			Adjustments.				Balance on 31st March 1892.	Percentage of column 6 on column 4.
	Arrears on 31st March 1891.	Current demand for 1891-92.	Total.	Collection.	Remission made by canal officers.	Written off as irrecoverable.	Total.		
1	2	3	4	5	6	7	8	9	10
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Shahabad	83,076	5,47,965	6,31,041	5,26,707	1,913	6,743	5,74,363	56,678	91·0
Patna	93,744	93,441	1,90,185	1,51,651	1,104	4,277	1,57,032	29,153	84·2
Gaya	31,961	84,032	1,15,993	29,197	693	491	30,381	85,612	77·9
Total ...	2,08,781	7,24,438	9,33,219	8,06,555	3,710	11,511	8,21,776	1,11,443	88·0

As regards the progress made in the Patna district the Commissioner remarks:—

"The total demand for the year 1891-92 up to the end of February last amounted to Rs. 1,62,521, against Rs. 1,49,690 and Rs. 1,54,680 respectively in the corresponding period of the two preceding years. The total collections for the same period amounted to Rs. 1,31,187 against Rs. 48,782 and Rs. 53,759. The percentage of collection on demand was therefore 80·7 against 32·5 and 34·7 respectively. The balance outstanding at the close of February last was Rs. 26,119, which includes a sum of about Rs. 10,500 embezzled by the tahsildars against whom proceedings have been taken. So the actual balance on that date, excluding the amount embezzled, was only approximately Rs. 15,619 against Rs. 95,565 and Rs. 96,341 of the previous two years. This outturn of work is very satisfactory, and reflects credit on the Deputy Collector, Babu Shiva Sankar Singh, who was temporarily deputed to the work."

87. The percentage of the total demand collected in each district is given in the table below :—

District.	Arrears due for irrigation effected in previous years.				Demands for irrigation effected in 1891-92.			
	Percentage of total demand.				Percentage of total demand.			
	Demand.	Collections.	Remissions.	Outstanding at end of year.	Demand.	Collections.	Remissions.	Outstanding at end of year.
1	2	3	4	5	6	7	8	9
Shahabad—								
1890-91 ...	100·0	79·8	8·8	11·2	100·0	85·1	0·2	14·5

1891-92 ...	100·0	91·7	1·6	6·7	100·0	71·2	0·8	28·0
Average—								
1890-91 ...	100·0	72·3	6·8	20·8	100·0	74·0	0·3	25·6
1891-92 ...	100·0	85·7	6·6	7·7	100·0	86·7	0·2	13·1

Besides the collections shown above, a further sum of Rs. 9,336 was credited to water-rate accounts as follows:—

Particulars.	Shahabad.	Patna.	Gaya.	Total.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Process fees in certificate cases ...	2,462	1,303	4	3,769
Surplus and excess recoveries ...	3,922	226	1,074*	5,222
Miscellaneous	326	137	—118	345
Total ...	6,710	1,666	960	9,336

Remissions.

88. In the return submitted by the Examiner of Accounts the sums remitted during the year under review and the preceding year are shown as below :—

	1890-91.	1891-92.
	Rs.	Rs.
By canal officers ...	5,324	2,555
By civil „ ...	16,136	12,665
	21,460	15,220

According to the figures supplied by the Superintending Engineer the remissions are—

	Rs.
Written off by civil officers as irrecoverable ...	11,510
Remissions granted by Executive Engineers	3,304
Extraordinary remissions by Superintending Engineer ...	1,248
Remitted on revised and cancelled khatianies	1,365
	17,427

As regards the remissions by Executive Engineers, the difference between Rs. 3,304 shown by the Superintending Engineer, and Rs. 2,555 shown by the Examiner, viz. Rs. 749, was paid as a refund.

The ordinary remissions by the Executive Engineer are classified in the following table:—

Class.	Causes.	Eastern Sone Division.	Arrah Division.	Buxar Division.	Total, 1891-92.	Total, 1890-91.
1	2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	Rs.
a	Charged by mistake for land cultivated by others	...	...	23	23	...
b	Excess measurement or errors in calculation	130	269	18	417	...
c	Lift charged as flow	39	14	8	61	...
d	Irrigation not denied, but remitted as not chargeable under the Act ...	563	4	140	707	...
e	Land not having been irrigated at all	488	146	57	691	...
f	Injury to crop due to insufficient supply	472	103	119	694	...
g	Land thrown temporarily out of cultivation	...	...	...	...	...
h	(Applicable to long leases only) Failure of crop originally sown, rule 82	...	279	27	306	...
i	Land appropriated for other purposes than cultivation	...	38	4	42	...
j	Double assessment, as when land assessed or a season lease is subsequently included in a long lease in the same year	...	271	92	363	..
	Total ...	1,692	1,124	488	3,304	6,555

Extraordinary remissions to the amount of Rs. 1,248 were granted by the Superintending Engineer for damage done to crops by unseasonable weather, and the sum of Rs. 1,365 remitted on revised and cancelled demand statements was in reality a modification of the demand, and cannot properly be classed as a remission.

The remissions implying errors in assessments, excluding revised and cancelled demand statements, for the last seven years were as follows:—

1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
67,554	21,055	13,036	11,284	9,886	6,579	3,304

There has been a steady improvement in the accuracy of the assessments, which is satisfactory.

The Superintending Engineer writes:—

"The most serious items are those classed as *d*, *e*, and *f*. The Eastern Sone Division shows the worst record, especially when the small area assessed in that Division is considered."

The amount written off by civil officers as irrecoverable (Rs. 11,510) compares favourably with Rs. 16,128 in 1890-91 and Rs. 17,324 in 1889-90, though it is still rather high. The large sum written off in the Patna district was due to the arrears which had been allowed to accumulate there, and which were taken in hand and recovered in the year under review.

The following table compiled from the detailed statement given by the Deputy Collector shows the amounts written off in each district from the assessments of the several years :—

Written off from assessments of	Patna district.	Gaya district.	Shahabad district.	Total.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
1883-84 ...	1,748	5	...	1,753
1884-85 ...	950	16	...	966
1885-86 ...	522	88	...	610
1886-87 ...	491	93	...	584
1887-88 ...	407	151	...	558
1888-89 ...	131	68	661	860
1889-90 ...	27	45	4,310	4,382
1890-91 ...	...	25	1,555	1,580
1891-92 ...	...	...	217	217
Total ...	4,276	491	6,743	11,510

The percentage on the gross demand of remissions by canal officers is as follows :—

	Percentage of remissions to gross demand.	
	1890-91.	1891-92.
Eastern Sone Division ...	0·88	0·63
Arrah „ ...	0·43	0·31
Buxar „ ...	0·99	0·22

REVENUE ESTABLISHMENT.

89. The expenditure on the revenue establishments employed during the year under review and the four previous years is shown below :—

PARTICULARS.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1	2	3	4	5	6
Establishment under Collector.	Rs.	Rs.	Rs.	Rs.	Rs.
1. Permanent establishment, including travelling allowances.	25,448	29,427	30,589	31,253	40,997
2. Temporary establishment ...	2,573	1,011	710	687	4,752
3. Contingencies	2,445	2,878	2,522	2,398	2,784
4. Fees to tahsildars or establishment employed in lieu thereof.	27,629	28,362	28,603	24,499	16,868
Fees to patwaris. Rule 40	3,279	4,128	3,763	3,988	2,205
Establishment under Executive Engineer.					
Permanent and temporary establishment, including travelling allowances.	48,253	48,717	51,635	48,105	50,228
Contingencies	2,667	3,338	3,695	3,500	5,443
Water-regulation establishment ...	2,334	2,270	2,299	2,235	2,286
Headmen's fees	20,615	38,118	29,007	28,861	26,550
Total ...	1,35,243	1,58,249	1,52,823	1,45,528	1,52,113
Collections of water-rates and miscellaneous revenue by the Canal Revenue Department.	5,22,79	7,63,876	8,19,702	6,47,839	8,15,858
Percentage	25·8	20·7	18·6	22·3	18·66

During the year the three revenue circles of Shahabad, Patna, and Gaya were amalgamated and formed from the 1st of March 1892 into the Sone Canals Revenue Division, in charge of the Special Deputy Collector, who had previously supervised the collections in the Shahabad district only. The new Division is under the administrative control of the Superintending Engineer, Sone Circle.

An alteration has also been made in the establishment. Until the 1st of October the field establishment was charged to an allowance of half an anna in the rupee allowed under rule 53 for tahsildars or establishment employed in lieu thereof. From the date mentioned a salaried collecting establishment, partly permanent and partly temporary, on a scale sanctioned by Government, was employed. The system was further developed from the 1st of March, when the establishment was revised. The item "tahsildar's fees" will disappear from the accounts of future years, but a part of the headmen's fees now entirely disbursed by the Executive Engineers will be paid by the Deputy Collector for assistance rendered in collections.

COST OF MEASUREMENT &C., PER ACRE.

90. In the table below the approximate cost of measuring lands brought under assessment during the year under review and of preparing demand statements are shown:—

NAME OF DIVISION.	Areas measured.	COST OF MEASURING CROPS.		Areas assessed.	COST OF PREPARING DEMAND STATEMENTS.	
		Total.	Per acre.		Total.	Per acre.
1	2	3	4	5	6	7
	Acres.	Rs.	Pies.	Acres.	Rs.	Pies.
Eastern Sone	60,410	1,474	4·68	57,749	1,697	5·64
Arrah	101,156	3,852	7·31	94,253	2,114	4·30
Buxar	116,414	4,162	6 86	93,618	2,666	5 46
Total, 1891-92 ..	277,980*	9,488	6 55	245,620†	6,477	5 06
Total, 1890-91 ...	91,698	4,790	10·03	91,698	3,301	6·91
Total, 1889-90 ...	150,315	6,581	8·49	150,315	5,184	6·62

* These figures are the areas actually measured to end of March 1892 as shown in irrigation notes.
† These figures are the areas assessed by 31st March 1892 as nearly as can be estimated

91. The cost per acre of assessments, including permanent and temporary establishments and headmen's fees, is given in the statement below:—

DIVISION.	Area assessed during the year.	CHARGE PER ACRE.			TOTAL.	
		Permanent establishment.	Temporary establishment.	Headmen's fees, liabilities on account of 1891-92.	1891-92.	1890-91.
1	2	3	4	5	6	7
	Acres.	Rs. A. P.	Rs. A. P	Rs. A. P.	Rs. A. P.	Rs. A. P.
Eastern Sone ...	57,749	0 2 5	0 0 9	0 2 0	0 5 2	0 11 5

Total, 1890-01 ...	91,638	0 6 2	0 1 6	0 4 9	...	...

COMPLAINTS.

92. Below is a statement showing the progress made in disposing of "complaints" properly so defined, *i.e.*, objections to assessments actually made or petitions alleging that damage has been sustained through the canals:—

DIVISION.	(I)—ORDINARY REMISSION.				(II TO V)—OTHER COMPLAINTS.			Total complaints received during year, excluding those pending from previous year.	Pending.
	Received during the year and pending from previous year.	Disposed of.		Pending.	Received during the year and pending from last year.	Disposed of.	Pending.		
		Remission allowed.	Remission refused.						
1	2	3	4	5	6	7	8	9	10
	No.	No.	No.	No.	No.	No.	No.	No.	No.
Eastern Sone ...	1,794	552	1,089	153	21	20	1	1,785	154
Arrah	2,265	479	1,592	194	149	105	44	2,353	238
Buxar	666	243	293	130	73	66	7	737	137
Total, 1891-92 ...	4,725	1,274	2,974	477	243	191	52	4,855	529
Total, 1890-91 ...	3,703	1,593	1,990	109	194	190	4	3,151	113

The Superintending Engineer writes:—

"The number of complaints has increased considerably in all three divisions over the previous year. This is due to the largely extended irrigation, and does not indicate any falling off in the administration of the canals. The largest number of complaints had reference to alleged excess measurement, non-irrigation, deficient supply of water, and mistakes in entering the name of the person liable for the rate.

The complaint was admitted in the cases dealt with as under:—

Excess measurement	...	37	per cent. admitted.
Non-irrigation	...	14	" " "
Deficient supply of water	...	17	" " "
Mistake in name	...	43	" " "

Taking all the complaints asking for remission, 30 per cent. were admitted and 70 per cent. rejected.

Of the 2,974 complaints which were rejected, it is probable that a very considerable number were of such a frivolous nature that they need not have been entertained at all. It is no doubt safer to continue the existing practice, by which all petitions are accepted and registered, whatever their nature may be, but it is necessary to bear this in mind as explaining to some extent the large numbers of complaints shown in the returns."

Details by divisions are given below of the "applications"—in which term are included petitions for leases and outlets, for change of names in five-year leases, or for the post of headman—received during the year in addition to the complaints noted above, of which 1,867 were granted and 2,412 refused out of 5,025 received, the number pending at the close of the year being 746:—

DIVISION.	Received during the year and pending from last year.	Granted.	Refused.	Pending at the close of the year.
1	2	3	4	5
	No.	No.	No.	No.
Eastern Sone ...	1,511	730	405	286
Arrah ...	2,625	648	1,592	385
Buxar ...	889	489	325	75
Total ...	5,025	1,867	2,412	746
Total, 1890-91	4,335	2,312	1,557	466

The following remarks on the subject are quoted from the Superintending Engineer's report :—

"Four thousand two hundred and seventy-nine cases were disposed of in the year as compared with 3,869 in 1890-91. The balance pending on 31st March was large, but has been considerably reduced since. The most important cases which are dealt with are those relating to the ownership and rights of use of village channels. Altogether 1,052 cases in this class were disposed of during the year."

APPEALS.

93. Thirty-two appeals were preferred to Collectors against the orders passed by canal officers on complaints, of which 18 were dismissed, and 2 were allowed and 12 were still pending at the close of the year.

Ten cases were decided by engineers vested with magisterial powers under the Bengal Irrigation Act. Twenty-one persons accused of offences under the Act were convicted, and two discharged. The amount of fines imposed was Rs. 235.

CERTIFICATE PROCEDURE.

94. The certificates required in realising water-rates continue to be dealt with by the Special Deputy Collector in charge of the collections, as was the case last year.

The amount of certificate work done in each district during the year under review, as compared with that of the previous year, is shown in the following statement:—

	Shahabad.				Patna.				Gaya.				Total.

Cases disposed of—																
1. By being struck off owing to the demand having been remitted ...	428	4,503	208	2,400	748	5,012	55	9,925	40	6,614	17	3,467	1,216	16,129	280	15,882
2. By being wholly satisfied ...	3,236	30,576	3,033	29,337	673	1,706	1,198	1,644	186	2,354	19	184	4,095	34,636	4,250	31,345
Total ...	3,664	35,079	3,241	32,037	1,421	6,718	1,253	11,569	226	8,968	36	3,651	5,311	50,765	4,530	47,267
Balance outstanding at the close of the year.	245	6,202	156	2,018	1,312	16,325	67	6,898	29	2,757	11	277	1,586	25,284	234	9,193

The number for disposal was 4,764, inclusive of the outstanding balance from last year, covering a sum of Rs. 56,460 as compared with Rs. 6,897 and Rs. 76,049 in the previous year. The demand adjusted was Rs. 47,267 as against Rs. 50,765, the remissions being Rs. 15,882 compared with Rs. 16,129.

The Commissioner remarks that the decrease in the number of certificates filed during the year, which is specially noticeably in the districts of Gaya and Patna, is satisfactory as proving that the collecting establishment is now more mindful of its duties, instead of throwing a large share of the work upon the Certificate Department, as was formerly the practice. He adds:—

"On the whole the Deputy Collector in charge of the Sone Canal and his staff have worked creditably in reducing the arrears and in making good collections with the least possible recourse to the certificate procedure."

95. The sum for which demand statements were submitted during the year, including five-year leases, unauthorised irrigation, and wastage of water was Rs. 7,76,059. The degree of punctuality observed in submission is shown in the following statement, the figures in which include Rs. 4,484 on account of irrigation which occurred in 1890-91, and exclude the sum of Rs. 2,01,244 for

which assessments were not submitted until after 31st March 1892, and which did not fall due during 1891-92:—

97. Messrs. Hodges and Radford, whose contract was renewed for a further period of two years from 1st December 1892, continue the working of the transport service. The charges, Rs. 600 per month for steamer hire, and Rs. 500 for compounded tolls, are the same as in past years, the ordinary repairs of the steamers being executed by the lessees. TRANSPORT SERVICE.

The extent of the traffic in connection with the steamers is shown below:—

PARTICULARS.		Arrah Canal.	Buxar Canal.	Patna Canal.	Total.
1		2	3	4	5
Passengers carried	Up ... No.	13,129	8,123	3,366	24,618

Cargo carried	Up ... Tons.	613	311	839	1,763
	Down ... ,,	264	864	740	2,107

On the Arrah and Buxar Canals the steamers make two trips each way in every week. On the Patna Canal the steamer makes only one trip each way in a week.

There are in addition to the steamers four cargo boats, the property of Government, for the hire of which Rs. 1,442 was received during the year, besides which Rs. 535 was recovered by way of fees for the use of the accommodation boat.

98. The following table shows the details of the miscellaneous receipts for the last five years:— MISCELLANEOUS RECEIPTS.

PARTICULARS.		1887-88.	1888-89.	1889-90.	1890-91.	1891-92.

99. The expenditure on works and maintenance will now be briefly reviewed. MAINTENANCE CHARGES.

The principal works executed under "extensions and improvements," on which Rs. 3,812 were spent, were the substitution of brick arches for wooden tops on bridges on the Gurrah Chowbey branch canal, in addition to which the road along the Koelwar distributary was improved, and other minor works carried out. EXTENSIONS AND IMPROVEMENTS.

100. The expenditure on repairs, which was last year reduced by Rs. 20,161, shows a still further reduction of Rs. 13,027, due to economies REPAIRS.

effected in the Arrah Division on silt clearing and repairs to masonry works. The distribution by subheads is as follows:—

Particulars.	1889-90.	1890-91.	1891-92.
1	2	3	4
	Rs.	Rs.	Rs.
Head works ...	32,787	20,353	20,922

Total ...	1,25,430	1,20,465	1,07,603	56,509	57,324	52,258	74,371	72,893	78,918	2,56,310	2,50,682	2,38,779

The charge for maintaining the Telegraph line from Arrah to Dehri, which has been included in paragraph 100 under head "Main Canal with Branches," is excluded from the figures given above.

A reduction of Rs. 11,903 has been effected in the total expenditure during the year, as compared with 1890-91.

The charges for silt clearing are higher than last year in the Eastern Sone Division and lower in the Arrah and Buxar Divisions, while on the Main Western Canal the cost of this item remained the same as in 1890-91, and cannot be expected to fall much below Rs. 50,000 in any year. The total charges under the head "Earthwork" in the first five miles of the Western Main Canal rose from Rs. 43,130 last year to Rs. 46,179 in 1891-92, out of which Rs. 42,026 was for silt clearing, against Rs. 40,012 in 1890-91. It may be remarked that this year all the silt clearing in this reach was done by dredging, the sum of Rs. 921 shown as expenditure on silt clearing by hand representing payments made in April 1891 for work done during March.

103. The following table shows the quantity of silt dredged from the Eastern and Western Main and Buxar Canals, and the rate at which the work was done during the last three years:— SILT-CLEARING AND DREDGING.

Canals.	1889-90.			1890-91.			1891-92.		
	Quantity dredged.	Cost including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.
1	2	3		5	6	7	8	9	10
	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs.	Rs. A. P.
Eastern Main and Patna ...	2,369,143	13,867	5 13 7	2,235,724	11,747	5 4 0	1,706,541	10,905	6 6 2
Western Main	6,410,767	40,033	6 3 10	7,833,182	45,498	5 12 11	6,749,057	43,040	6 6 0
Buxar Canal	...	...	...	720,117	2,970	4 1 11	187,000	1,128	6 0 0
River Sone	1,563,222	3,285	2 1 7	1,502,555	2,148	1 6 10	1,921,530	3,990	2 1 2
Head Lock	35,620	210	5 14 3	66,224	281	4 3 10	64,124	313	4 14 1

The rates shown in the above table include the cost of lifting the silt into barges and of carrying it either over the spoil banks or into the river. The rates necessarily vary much under the latter head owing to different heights of spoil bank and of different lengths of lead to the river.

The cost of lifting the silt on to the barges or dredging proper was as shown below:—

	1889-90.			1890-91.			1891-92.		
	Quantity dredged.	Cost of dredging.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost of dredging.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost of dredging.	Rate per 1,000 cubic feet.
1	2	3	4	5	6	7	8	9	10
	C. ft.	Rs.	Rs. A. P.	C. ft.	Rs	Rs. A. P.	C. ft.	Rs	Rs. A. P.
Eastern Main and Patna ...	2,369,143	3,750	1 9 3	2,235,724	3,674	1 10 3	1,706,541	3,186	1 13 10
Western Main	6,410,767	12,707	1 15 8	7,833,182	15,270	1 15 2	6,749,057	12,734	1 14 2
Buxar	...	...	...	720 117	1,385	1 14 9	187,000	374	2 0 0
River Sone	1,563,222	2,835	1 13 0	1,502 555	1 928	1 4 6	1,921.530	3,571	1 13 7
Head Lock	35,620	135	3 12 7	66 224	208	3 2 8	64,124	177	2 12 1
Total ...	10,378,752	19,427	1 13 11	12,357,802	22,471	1 13 1	10,628,252	20,042	1 14 8

The rate in the Eastern Sone Division, which in 1889-90 was reduced from Rs. 2-2-4 to Rs. 1-9-3, has risen to Rs 1-13-10, due mainly to the economy in rope and belting, which was effected in 1889-90, not having been maintained.

The rate per 1,000 cubic feet in the river Sone has risen to the figure at which it stood in 1889-90.

104. The statement below compares the expenditure on repairs to dredgers during the year under review with that of the two previous years:—

	1889-90.	1890-91.	1891-92.
1	2	3	4
	Rs.	Rs.	Rs.
12 Fouracres' dredgers	6,675	6,857	7,004
2 Bruce's ditto	374	436	750
2 English ditto	3,439	3,552	3,170
Mud punts ...	3,178	4,790	3,009
Total ...	13,666	15,635	13,933

105. The cost of lifting the silt on to barges, for each class of dredger used, including interest on capital cost and expenditure on repairs, is compared by the Superintending Engineer as follows:—

	Average cost in 1891-92 of lifting per 1,000 cubic feet.	Interest on capital cost per 1,000 cubic feet lifted.	Cost of repairs per 1,000 cubic feet lifted.	Total.
1	2	3	4	5
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs A. P.
Fouracres' dredgers ...	1 14 1	0 8 0	0 14 3	3 4 4
Bruce's dredger ...	1 11 8	0 13 6	0 7 8	3 0 10
English ladder dredgers	2 0 10	3 1 0	2 0 0	7 1 10

The charges for interest and repairs of mud punts amounting to Re. 1-1-9 for each class of dredger, are not included in the above figures. The results show that the Bruce's dredgers are the most economical.

106. The table below shows the quantity of silt cleared by hand from main canals in the Eastern Sone Division and the cost, compared with the figures for the two previous years:—

	1889-90.			1890-91.			1891-92.		
	Quantity cleared by hand.	Cost.	Rate.	Quantity cleared by hand.	Cost.	Rate.	Quantity cleared by hand.	Cost.	Rate.
1	2	3	4	5	6	7	8	9	10
	C. feet.	Rs.	Rs. A. P.	C. feet.	Rs.	Rs. A. P.	C. feet.	Rs.	Rs. A. P.
Eastern Main and Patna Canals...	2,491,847	13,067	5 3 10	4,282,127	19,021	4 7 0	6,583,091	24,798	3 15 1

The Western Main Canal was not closed during the year, and there was therefore no silt clearance by hand.

WEED CLEARING.

107. The following figures give the cost of weed-clearing for the last five years:—

Division.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Eastern Sone ...	558	217	9	396	277
Arrah	2,691	1,053	715	1,299	2,470
Dehri Workshops ...	782	899	911	1,350	1,060
Buxar	884	869	726	1,505	2,206
Total ...	4,915	3,038	2,361	4,550	6,013

The Superintending Engineer remarks:—

"There has again been an increase in the cost of this item in the Arrah and Buxar Divisions. In Arrah Canal the worst place is the reach between Lock V (Danwar) and Lock VI (Hurpur), where owing to the reduction in velocity there is a considerable deposit of silt which encourages the growth of weeds. This reach has been cleared of silt in the past hot weather, which should cause temporary relief. On the Buxar Canal it was necessary to clear weeds to a greater extent than usual on account of the large supply of water required for rabi irrigation in November, December, and January, when the weeds are at their worst."

MILEAGE RATES OF REPAIRS OF CANALS AND DISTRIBUTARIES.

108. The cost per mile of repairs to main canals and distributaries are shown below:—

CANAL.	Division.	1889-90.		1890-91.		1891-93.

	Eastern Sone	358	39	358	45	350½	47

109. The charge for establishment not specially shown under the head "Revenue establishment" was Rs. 1,89,196 in 1891-92, against Rs. 1,88,895 in 1890-91. The Superintending Engineer gives the following explanation showing the total expenditure on construction establishment in the canal divisions and the manner in which it is debited. The difference between the sum debited to the canals and the amount, Rs 1,89,196, mentioned above is the charge for direction and accounts.

"There is a slight increase in the charges for establishment (Construction, Direction, and Accounts). As the charges for construction establishment will become a heavier item in the working expenses when expenditure on the capital account ceases, I think it is of some interest to see what the the total charges are and how they are distributed.

The following table compiled from figures by the Executive Engineer will show this:—"

	Rs.
Total charge for Construction establishment	2,09,312
Charged to capital Outlay, Sone Canals	37,083
Charged to Civil Buildings—	
Imperial	3,252
Provincial	26,205
Charged to Agricultural Work	680
Charged to Takavi	110
Charged to Contribution (village channels)	167
Total ...	67,897
Balance charged to Working Expenses, Sone Canal ...	1,41,415

PLANTATIONS.

110. Below is a statement showing the number of trees, classified according to size, in the plantations in each division:—

DIVISION.	1891-92.				1890-91.				Increase.	Decrease
	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.		
1	2	3	4	5	6	7	8	9	10	11

The profits in the working of the canals were Rs. 1,81,820, or 3·4 per cent. on the capital outlay. Results for ten years are given below:—

YEAR.	CAPITAL OUTLAY (DIRECT AND INDIRECT)—		RECEIPTS AND WORKING EXPENSES.			Percentage of net revenue to capital outlay to end of year.
	During the year.	To end of the year.	Gross revenue.	Charges (direct or indirect).	Net revenue.	
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	
1882-83	3,21,351	50,96,000	5,64,194	3,26,897	2,37,297	4·6
1883-84	1,55,534	52,51,534	5,64,101	2,32,031	3,32,070	6·3
1884-85	9,013	52,60,547	(*a*) 5,69,726	2,91,214	2,78,512	5·2
1885-86	(—)42,566	52,17,981	(*b*) 4,79,484	1,96,209	2,83,275	5·4
1886-87	5,293	52,23,274	4,83,654	1,92,264	2,91,390	5·5
1887-88	15,842	52,39,116	5,79,934	2,24,656	3,55,278	6·7
1888-89	49,369	52,88,485	5,75,125	2,93,801	2,81,324	5·3
1889-90	(—)281	52,88,204	4,95,543	2,79,133	2,16,410	4·1
1890-91	5,093	52,93,897	5,25,085	3,23,957	2,01,128	3·8
1891-92	(—)10,327	52,83,570	5,25,219	3,43,399	1,81,820	3·4

(*a*) Is Rs. 35,185 larger than it should be by reason of error of account.
(*b*) Is Rs. 35,185 smaller than ditto ditto ditto.

These figures show that the percentage of net revenue to capital outlay, which in the year 1887-88 was 6·7 per cent., has since then decreased steadily to 3·4 per cent. in the year under review.

The receipts from navigation during the ten years previous to 1891-92 have averaged Rs. 5,23,059. The yearly fluctuations are considerable, but the falling off since 1889-90 is marked, and is due mainly to the competition of the Central Bengal Railway from Khulna to Calcutta, and of the Steam Navigation Companies. The Superintending Engineer writes:—

"The aggregate collections of the year from boats, steamers, and rafts, including demurrage, was Rs. 5,09,182, against Rs. 5,14,745 of the previous year, thus showing a decrease of

Rs. 5,618 for the year under review. Taking into consideration railway traffic from Khulna, and that the greater portion of the jute from Sirajganj is now brought by rail and flats, instead of by country-boats as before, the above result is satisfactory. The closure of the Dhappa locks for one month and six days, from 15th April 1891, also partially accounts for the short collections. The jute crop was bad, especially at Madáripur, consequently the traffic under this head fell off considerably. The loss by the traffic in jute was made up to a considerable extent by that in rice, which in the previous year was very short. The increase under this head for 1891-92 amounted to 17,89,678 maunds and Rs. 35 076 in collections. A portion of the rice traffic from Magura has been diverted to the railway. There was an increase in other items, such as spices, salt, kerosine oil, and empty boats, while there was a decrease (besides jute) in firewood, passenger boats, fish, lime and coal. The Supervisor of the Calcutta Canals reports—'Our canal traffic will, I think, suffer considerably at Chitpur, as the Oriental Gas Company have connected their works at Sealdah with the Eastern Bengal State Railway, which will enable them to bring in all their coal direct by train; previously it was all brought by boats, averaging about five or six a day. The kerosine oil traffic is also being diverted to the new railway from Budge-Budge.'

"There was an increase in the item salt, although a very large quantity was, and is being, sent by train from Chitpur ghát. The India General Steam Navigation Company and River Steam Navigation Company carry large quantities of cargo which formerly was carried by country boats. The number of steamers and flats is increasing every year One thousand and ninety-one steamers and flats paid tolls during the year, as compared with 1,058 steamers and flats, from which Rs. 5,425 was realized during the previous year. When it is considered what an immense quantity of cargo these flats carry, and that railways have extended and tap the canal traffic at many places, the results appear very satisfactory."

But the principal cause of the diminution of the net revenue is to be found in the working expenses and maintenance of the Canals, which were higher in 1891-92 than in any of the ten preceding years. The reason for this is the yearly increasing cost of silt clearance, and it will be found that in years such as 1889-90, when the working expenses were abnormally low, the expenditure on this item was considerably below the average. The fact is that the canals independently of, and possibly partly in consequence of, the construction of the locks at Chitpur and Dhappa, are now maintained in a far more efficient state than they were formerly. The construction of these locks, enabling what was the worst part of the journey to be performed with ease and rapidity, has rendered it necessary to keep up the remainder of the canals to a higher level of efficiency. The items of expenditure are dealt with in paragraph 120 below.

NAVIGATION.

113. The amounts received during the last two years by the Collector of the canals and by the Executive Engineer are shown in the following statement:—

CANALS.	Number of boats and rafts.	COLLECTIONS BY COLLECTOR AND SUPERVISOR.						COLLECTIONS BY EXECUTIVE ENGINEER.	GRAND TOTAL, GROSS REVENUE.
		Tolls from boats and rafts.	Demurrage.	Ferry tolls.	Tolls from steamers and flats.	Rents of buildings, lands, and other miscellaneous receipts.	Total.	Rents of buildings, lands, and other miscellaneous receipts.	
1	2	3	4	5	6	7	8	9	10
	No.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Calcutta and Eastern ...	83,813	3,85,657	5,540	3,870	5,455	7,747	4,08,278	3,085	5,25,343
Tolly's Nala	65,935	1,11,323	1,198	1,220	...	239	1,13,980		
Total 1891-92 ...	149,748	4,96,980	6,747	5,090	5,455	7,986	5,22,258	3,085	5,25,343
Total 1890-91 ...	157,575	5,02,628	6,092	4,220	5,425	3,909	5,22,274	2,172	5,25,146

The tolls collected from boats and rafts, which are the chief source of revenue, amounted to Rs. 4,96,980 compared with Rs. 5,02,628 in the previous year, showing a decrease of Rs. 5,648.

In Resolution No. 10271., Public Works Department, dated 23rd August 1892, certain modifications, to have effect from 1st April 1893, were introduced into the system of measurement and rates of tolls in force. With the object

of causing the tonnage on which toll is levied to approximate more nearly to the weight of cargo actually carried, the maundage of the boat, as calculated by the rules now in force, will be reduced by one-half, all the rates of toll being at the same time doubled, to avoid loss of revenue; reductions of toll will be made on rice, lime, and firewood, which will be compensated for by the imposition of tolls on boats making return trips. It is not expected that these orders will materially affect the financial position of the canals.

Boats.

114. The particulars regarding the boats which used the canals during the last two years are given below:—

Canal.	Year.	Number and Class of Boats.					
		Up to 100 maunds.	Between 100 and 1,000 maunds.	Between 1,000 and 2,500 maunds.	Between 2,500 and 5,000 maunds.	Over 5,000 maunds.	Total.
1	2	3	4	5	6	7	8
Calcutta and Eastern Canals.	1890-91	36,753	24,642	18,102	2,375	166	84,038
Tolly's Nala	1890-91	17,076	21,109	6,481	70	...	44,736
Total ...	1890-91	53,829	45,751	24,583	2,445	166	128,774
Calcutta and Eastern Canals.	1891-92	36,117	24,553	20,178	2,502	96	83,747
Tolly's Nala	1891-92	17 331	19,100	6,104	73	...	42,608
Total ...	1891-92	53,448	43,653	26,282	2,575	96	126,355

The falling off in the number of boats below 1,000 maunds was due to a decrease in the jute traffic, and the greater number of boats from 1,000 to 5,000 maunds to the increased traffic in rice.

Besides the boats enumerated above, a number of small boats and *dinghies* enter Tolly's Nala from the Kourapukhur khal, paying toll at Russa. These boats are not classified. Their number was 23,244 against 28,680 in 1890-91.

Traffic.

115. The figures showing the tonnage of the boats by canal measurement and the estimated weight and value of the cargoes are shown below separately for the Calcutta Canals and Tolly's Nala, and compared with the returns of the preceding year:—

	Number of boats.	Tonnage of boats by canal measurement.	Weight of cargo carried.	Value of cargo carried.	Tollage including demurrage.	Percentage of toll on value of cargo.
1	2	3	4	5	6	7
	No.	Tons.	Tons.	Rs.	Rs.	
1890-91 ... Calcutta Canals	84,038	1,818,350	635,796	4,57,67,347	3,94 474	
1890-91 ... Tolly's Nala ...	73,416	792,550	258,639	1,61,59,157	1,20,271	
Total ...	157,454	2,610,900	894,435	6,19,26,504	5,14,745	0·83
1891-92 ... Calcutta Canals	83,717	1,872,508	639,822	5,57,69,888	3,96,613	
1891-92 ... Tolly's Nala ...	65,852	692,744	212,011	1,56,91,127	1,12,240	
Total ...	149,599	2,565,252	851,833	7,14,61,015	5,08,853	0·71

It may be remarked that although the total weight of cargo carried is less by 42,602 tons than during 1890-91, the higher rates prevailing, especially in rice and jute, have swelled the total value by Rs. 95,34,511. The average value per ton was Rs. 83, against Rs. 69 in the previous year.

Missing Tickets.

116. The improvement in the toll system, shown by the reduction of the number of missing tickets, was maintained during the year under review. The following are the figures for the last ten years:—

Year.	No.	Year.	No.
1882-83	5,459	1887-88	677
1883-84	3,086	1888-89	329
1884-85	1,404	1889-90	238
1885-86	653	1890-91	212
1886-87	542	1891-92	210

REVENUE ESTABLISHMENT.

117. The cost of the revenue establishment employed on toll collections for the last five years is shown below:—

PARTICULARS.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Salary and commission of Supervisor ...	12,651	12,972	11,053	11,475	11,863
Salary of Canal Inspector	5,435	4,034	3,900	5,172	5,016
Supervisor's office establishment ...	5,414	5,183	5,142	5,155	5,424
Canal police	2,022	2,060	2,050	2,061	2,049
Supervisor's steam-launch establishment ...	942	944	735	98	...
Inspector's and chálán boat establishment ...	1,123	1,113	1,188	1,049	1,036
Dhappa water establishment	180	180	173	168	168
Dafadar	40*	...	...	271	480
Travelling allowance	65	11	39	22	71
Contingencies	1,338	1,401	1,627	1,261	3,125
Toll-station establishment	9,710†	9,787†	10,424†	11,478†	12,127†
Total cost of establishment ...	38,920	37,684	36,281	38,210	41,359

* Canal dues.
† Includes salary of daroghas, clerks, cashiers, kootnavises, koyals, toll peons, and dinghies with crew.

The cost of the establishment exceeded that of 1890-91 by Rs. 3,149. The greatest increase was under contingencies, owing to the payment of law charges in the Balliaghatta godown case, and smaller increases occurred in office and toll station establishments on account of increments of salary falling due within the year, and in dafadars, owing to these men having been employed for the whole year, instead of only half, as in 1890-91.

MISCELLANEOUS RECEIPTS.

118. The following is a detailed statement of miscellaneous receipts realized by the Executive Engineer and the Supervisor of the Calcutta Canals during the year as compared with those of the previous year:—

	1890-91.	1891-92.
	Rs.	Rs.
Plantations	35	...
Other canal produce	202	155
Rents of buildings	1,597	5,618
,, of land	711	843
Miscellaneous other receipts* ...	3,338	3,602
Total ...	5,883	10,218

* Includes fishery rent and sale proceeds of canal silt.

The increase of Rs. 4,335 was due to arrears of rent having been realized from Mr. Cohen for the Balliaghatta godowns.

EXTENSIONS AND IMPROVEMENTS.

119. Under extensions and improvements Rs. 35,386 was spent on the erection of the new iron girder bridge over Tolly's Nala, which was completed during the year under review. As stated in last year's report, the total estimated cost of this work was Rs. 85,560, of which Rs. 30,000 has been contributed by the Corporation of Calcutta.

MAINTENANCE AND REPAIRS.

120. The cost of maintenance of the canal by sub-heads as compared with that of the previous year is given below:—

CANALS.	Locks.	Masonry bridge.	Roads.	Buildings	Plantations.	Dredging.	Channel and banks.	Towpath.	Rustic bridges.	Steam-launches.	Miscellaneous.	Drainage.	Total.

The expenditure exceeded that of the previous year by Rs. 22,585, which is accounted for by the increased cost of dredging incurred in the Calcutta Canal and the Eastern Canal, and of repairs to "Channel and banks" due to the removal of a char at Russa on Tolly's Nala, and to the clearing of silt from the Assasuni khal and levelling the spoil bank of the Bhangor khal on the Eastern Canal. A more detailed explanation is given below:—

Calcutta Canals.—Extraordinary expenditure was incurred under "locks" on the work, begun last year, of dewatering, examining, and repairing the lock gates at Chitpur and Dhappa and clearing the lock basins of silt. More work was done on "roads" than in the previous year, and the large increase on "buildings" was caused by the raising of municipal taxes, owing to the amalgamation of the Suburbs with the Calcutta Municipality.

The increased cost of dredging was caused by working the dredgers for a longer period than in the preceding year. Under "miscellaneous" and "drainage" expenditure was augmented by the construction of a latrine for use of the floating population of the canals, and special repairs to the inlet sluice at Chitpur.

Tolly's Nala.—Petty repairs to bridges, over and above those customary, and the removal of a char at Russa, account for the increased expenditure on this portion of the canals.

Eastern Canal.—The expenditure on plantations was, in 1890-91, abnormal, owing to the institution of a new plantation, whereas this year only maintenance charges were incurred. The work done in dredging the Eastern Canal route was this year shown separately in the accounts, instead of, as heretofore, being charged against the Calcutta Canals. The increase under this head is, therefore, so far as the Eastern Canal is concerned, only apparent. Clearing silt from the Assasuni khal and levelling the spoil bank on the Bhangor khal raised the charges under "channel and banks." The Superintending Engineer remarks:—

"The necessity for the removal of the silt taken from the bed in the Eastern channels and deposited on the banks is a yearly increasing charge which cannot be avoided, on account of the large accumulation, and will be further increased by the cost of land which it will be necessary to acquire for its deposit."

DREDGING AND SILT CLEARANCE.

121. The following statement shows the quantity of silt dredged, and the expenditure incurred, and the rate per 1,000 cubic feet during the year, including the cost of delivering the mud:—

	Quantity dredged.	Cost.	Rate per 1,000 cubic feet.
1	2	3	4
	C. feet.	Rs.	Rs. A. P.
Steam dredger *Victoria* ...	1,514,700	13,659	9 0 3
Fouracres' dredger ...	269,900	2,691	9 15 6
Marchant's dredger ...	330,600	3,235	9 12 6
Hydraulic dredger *Clinker* ...	588,000	2,854	4 13 7

Omitting the cost of delivering the mud, the rates of dredging proper, exclusive of the cost of repairs and of interest on original cost, were per 1,000 cubic feet—

	Rs. A. P.
Steam dredger *Victoria*	3 9 6
Fouracres' dredger	4 6 5
Marchant's dredger	0 9 9
Hydraulic dredger *Clinker*	1 15 2

The rates of working were in every case lower than last year.

The Superintending Engineer remarks:—

"The necessity for dredging operations is more marked every year, and constant clearance of bars is required as well as silt clearance by hand of such channels as the Bhangor khal."

PLANTATIONS.

122. The state of the plantations for the last two years is shown below:—

YEAR.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1890-91	2,208	1,382	1,314	4,904
1891-92 ...	2,307	1,381	1,308	4,996

The cost incurred during the year was Rs. 1,249 against Rs. 5,058 in 1889-90.

FLOODS.

123. *Floods.*—There were no floods during the year in any of the rivers crossed by the Calcutta and Eastern Canals. The highest gauge readings of the river Hooghly at Chitpur, Salt-Water Lake at Dhappa, and river Echamutty at Teetulia are shown in the following statement:—

River.	Locality.	1891-92.		1890-91.		HIGHEST RECORDED.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.

Capitalized abatement of land revenue	...	784
Leave and pension allowances	(—)65	1,02,169
Total indirect charges ...	(—)65	1,02,953

The following extract is taken from the Administration Report for the current year:—

"The canal was opened throughout its entire length of 97½ miles. The tank ghâts at the locks were finished, and Mr. Bond's house at Balasore, which was purchased last year for the Executive Engineer's office and residence, was thoroughly repaired. Additional accommodation has also been provided in a detached building, which, together with the cost of land and special repairs and alterations sanctioned in Bengal Government No. 534I., dated 26th March 1891, amounts to Rs. 9,426. The project for a new lock at Jamcunda, necessitated by changes in the Subarnarekha river, is under consideration."

2.—REVENUE ACCOUNT—(Actuals). REVENUE ACCOUNT.

PARTICULARS.	EXPENDITURE— During 1890-91.	EXPENDITURE— During 1891-92.	PARTICULARS.	RECEIPTS— During 1890-91.	RECEIPTS— During 1891-92.

Total ...	65,586	62,057	Net total receipts	65,586	62,057

The receipts from this canal were injuriously affected by the long closure of the Hidgellee Tidal Canal and also by the opening of the Balliaghye drainage cut, which is in fact a navigable canal leading to the Russulpur river, enabling boats to pass into the river Hooghly without using the canal. The revenue was also possibly unfavourably affected by the grant of free return passes on ranges IVA, IVB, and V of the canal, which was adopted as an experimental measure to popularise the canal route.

FINANCIAL RESULTS.

125. The receipts on Revenue account and working expenses of the canal for the last six years are shown in the following statement :—

	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

II.—Revenue Management							
Navigation establishment	609	2,183	4,559	6,123	6,044	6,208	6,134
Total direct charges ...	29,881	59,704	80,868	74,568	68,011	73,760	75,296
INDIRECT CHARGES.							
Capitalized abatement of land revenue ...	.....	.....	.....	.....	.....	.....	.....
Leave and pension allowances ...	831	1,722	2,639	2,450	975	3,032	3,294
Total indirect charges ..	831	1,722	2,639	2,450	975	3,032	3,294
Total working expenses	30,712	61,426	83,507	77,018	68,986	76,798	78,590
Net revenue ...	(—) 16,994	(—) 31,938	(—) 29,670	(—) 10,844	(—) 3,653	(—) 11,212	(—)16,4

The total direct charges were Rs. 1,536 higher than last year, and Rs. 7,285 in excess of those for 1889-90. The charges in 1889-90 were, however, abnormally low, owing to a very large share of the cost of establishment having been charged to the capital account of remodelling the Hidgellee Tidal Canal.

The cost of repairs is Rs. 6,286 higher than in 1890-91.

The Superintending Engineer writes :—

"The expenditure on works includes the employment of a dredger constantly at Bhaitghur and a gang of coolies working daily between tides at Jamounda buoying the channel, and in order to keep open a channel to the lock, &c."

126. The traffic on this canal has been prejudicially affected by the frequent closures that have lately occurred on the Hidgellee Tidal Canal, with which it is continuous, and no material increase can be expected until uninterrupted communication is afforded. NAVIGATION.

The receipts on each range of the canal are compared with those of the three previous years below:—

Ranges.	Miles of canal open.	Tollage receipts.			
		1888-89.	1889-90.	1890-91.	1891-92.
1	2	3	4	5	6
		Rs.	Rs.	Rs.	Rs.
Range III	36	45,575	37,743	37,731	38,231
Do. IVA	17	4,110	3,654	4,121	3,067
Do. IVB	6½	5,729	8,468	7,748	7,441
Do. V	38	9,596	13,859	14,620	11,312
Total ...	97½	65,010	63,724	64,220	60,051

The decrease in receipts has been explained in paragraph 124 above.

127. The traffic on the canal during the year 1891-92, compared with that of the previous year, is shown in the following statement:— TRAFFIC.

	Number of boats.		Tonnage of boats.		Value of cargo.		Tolls.	
	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.
1	2	3	4	5	6	7	8	9
	No.	No.	Tons.	Tons.	Rs.	Rs.	Rs.	Rs.
Orissa Coast Canal	13,615		120,527	110,687	27,05,654	22,27,281	64,320	60,051

The construction of feeder roads by the District Boards is in progress, and on their completion an increased amount of traffic will, it is expected, be brought to the southern portions of the canal.

MISCELLANEOUS RECEIPTS.

128. The miscellaneous receipts during the last three years are shown below :—

	1889-90.	1890-91.	1891-92.
	Rs.	Rs.	Rs.
Plantations	...	8	...
Rents of buildings	161	285	337
Rents of land	220	340	175
Miscellaneous	1,182	777	1,560
Total ...	1,563	1,410	2,072

Under "miscellaneous" Rs. 520 was realised from hire of the steam launch *Falcon*, while sales of fisheries and grass show an increase of Rs. 449 from last year.

DREDGING AND SILT CLEARANCE

129. Only one dredger, the *Comus*, was employed during the year under review, the work done being, as in 1890-91, the removal of silt accumulated above the Bhaitghar Lock. The quantity dredged, and the cost and rate per 1,000 cubic feet, compared with the year 1890-91, are shown in the following table :—

Year.	Names of dredgers.	Quantity dredged.	Cost of—			Rate.		
			Lifting by dredger.	Removing by mud-punts.	Total.	Lifting.	Removing.	Total.
1	2	3	4	5	6	7	8	9
1890-91 ...	*Clinker* and *Comus*.	295,399	2,346	746	3,072	7·87	2·52	10·39
1891-92 ..	*Comus* ...	395,950	2,138	1,406	3,544	5·4	3·5	8 9

Owing to the long distances which dredgers have to be taken for even petty repairs, and to the impossibility of taking them to Calcutta for two-thirds of the year, breakdowns and stoppages are of frequent occurrence, and the work goes on expensively and slowly.

PLANTATIONS.

130. The state of the plantations for the last two years is shown in the following statement :—

Year.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1890-91 ...	326	905	2,255	3,486
1891-92 ...	495	1,110	2,357	3,962

131. There were no heavy floods in any of the rivers crossed by the Orissa Coast Canal and no appreciable damage done. The highest gauge-readings of the rivers are shown in the following statement:— FLOODS.

NAME OF RIVER.	Locality.	1890-91.		1891-92.		HIGHEST RECORDED HEADING.		REMARKS.
		Date.	Reading.	Date.	Reading.	Date.	Reading.

II.—Gandaki s. ...		1·57								1·57						
III.—Dhanai		1·00								1·00						
IV.—Gangri		6·57								6·57						
In addition to the above, the following are maintained:—																
I.—Thakraha Sota ...		1·50	...	...	...	...	...	...	...	1·50	...	...	...	...	...	...
II.—Roopan Chap Sota		27·00	...	...	...	...	...	...	...	27·00	...	...	...	...	...	...

The lengths are the same as last year. There are no distributaries or village channels maintained by Government, but an aggregate length of about 33 miles of cuts and channels have been constructed and maintained by the Manager of the Moniára estate.

Fifteen permanent dams and regulators exist in the branch canals, and seven bunds were constructed during the year to regulate the supply of water to the several canals.

RAINFALL.

135. The average rainfall on the area under command is shown by seasons in the table below for the last three years:—

	1889-90.	1890-91.	1891-92.
	Inches.	Inches.	Inches.
Kharif season*	19·47	24·60	11·52
Rabi	1·20	1·43	0·61
Year	45·09	58·63	35 05

* August, September, and October.

The Superintending Engineer writes:—

"In the early portion of the year the rainfall was excessive, but towards the latter end of the rains was very scanty. There was consequently a large demand for water for irrigation all over the district."

FLOODS

136. There were no high floods in the river Gandak during the year under review, but the river remained from June to August at a higher level than usual.

137. The areas irrigated, as obtained from the Canal Manager's reports during the past ten years, together with the rainfall, are given in the table below:—

YEAR.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Inches.
1881-82 ...	Not known		...	666	43·50

1888-89 ...	3,897	3,316	...	7,213	42 39
1889-90 ...	2,684	1,531	...	4,215	45·09
1890-91 ...	990	1,236	...	2,226	58·63
1891-92 ...	3,425	2,540	...	5,965	35·05

DUTY OF WATER.

138. The duty of water cannot be calculated, as there is no regular irrigation, and the canals are drainage as well as irrigation channels.

These canals were originally constructed for the purpose of supplying water for indigo manufacture on a guarantee given by the indigo concerns interested of a revenue amounting to Rs. 21,500 per annum. The guarantee was for ten years, and expired on the 1st of April 1891. The working expenses materially exceeding the revenue, and the proprietors interested being unable to come to an agreement to increase the guarantee, it was proposed as the only practical alternative to close the canals. The proprietors of the Moniára and Suddowa concerns, who had expended large amounts on village channels and other works, represented the hardship this course would cause to them, and offered to maintain the inner channels themselves and to pay the cost of maintaining the head works up to a limit of Rs. 11,000 year, Government as their share of keeping up the canals, which would be of use in case of famine, paying establishment charges. The offer was accepted as a year-to-year agreement, and it is on this basis the canals are now being worked.

ASSESSMENTS, COLLECTIONS AND BALANCES.

139. The following comparative statement shows the balances, assessments, and recoveries of water-rates for the last ten years:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1881-82	330 6 9	22,000 0 0	22,330 6 9	5,874 13 0	...	16,794 13 3
1882-83	16,794 13 3	21,750 0 0	38,544 13 3	16,500 0 0	...	22,038 13 3
1883-84	22,038 13 0	21,750 0 0	43,788 13 0	23,499 10 3	...	20,289 2 9
1884-85	20,289 2 9	21,750 0 0	42,039 2 9	8,976 11 3	...	33,062 7 3
1885-86	33,062 7 3	21,750 0 0	55,362 7 3	39,718 9 3	2,770 13 4	12,863 0 8
1886-87	12,863 0 8	21,750 0 0	34,613 0 8	11,072 10 5	...	23,540 6 3
1887-88	23,540 6 3	21,850 0 0	45,390 6 3	21,069 9 0	...	24,320 13 3
1888-89	24,320 13 3	21,850 0 0	46,170 13 3	20,415 0 0	..	25,755 13 3
1889-90	25,755 13 3	21,850 0 0	47,605 13 3	22,990 0 3	1,250 0 0	23,365 13 0
1890-91	23,365 13 0	21,850 0 0	45,215 13 0	37,036 2 9	..	8,179 10 3
1891-92	8,179 10 3	11,000 0 0	19,179 10 3	15,785 8 4	231 4 6	3,162 13 5
Total .	...	2,39,900 0 0	4,50,580 5 8	2,32,485 0 9	4,252 1 10	3,162 13 5

The outstanding balance has considerably decreased, and there now only remains a sum of Rs. 3,163 to be recovered.

MAINTENANCE AND REPAIRS.

140. The following table shows the expenditure on maintenance during the past three years:—

	Miles.	1889-90.	1890-91.	1891-92.
1	2	3	4	5
		Rs.	Rs.	Rs.
Repairs to head cut and river protective works	6·34	10,026	7,445	4,304
Repairs to Daha feeder ...	3·34	909	1,290	357
„ to Gandaki feeder ...	1·57	1,118	1,735	221
„ to Dhanái feeder ...	1·00	722	592	65
„ to Gangri feeder ...	6·57	768	2,777	129
„ to dams and channels for irrigation purposes	...	11,357	12,615	3,945
Total ...	...	24,900	26,454	9,021
Establishment	...	12,422	10,560	3,710
Tools and plant (actual) ...	...	991	389	(—)193
GRAND TOTAL ...	...	38,313	37,403	12,538

The marked reduction in the cost of maintenance is mainly due to the fact that under the new agreement with Mr. Reid of the Moniára concern, Government only maintains the head cut and Daha feeder and that portion of the Rupan Chap Sota above Siswa. Economies were also effected by not repairing many spurs not now required, by reducing the width of bunds, and by reducing excessive rates for work.

DREDGING AND SILT CLEARANCE.

141. There are no dredgers on the canals, and the silt is removed by hand only.

The following statement shows the total quantity of silt removed from the canals and the cost during the year as compared with those in the two previous years:—

	1889-90.		1890-91.		1891-92.	
1	2	3	4	5	6	7
	C. ft.	Rs.	C. ft.	Rs.	C. ft.	Rs.
Head cut or main canal...	102,121	612	342,745	1,740	44,465	244
Feeders or branch canals	448,006	1,650	1,339,675	4,080	24,755	95
Thakaraha Sota mouth ...	525,474	2,149	549,781	2,077	594,957	1,785
Total ...	1,075,601	4,411	2,232,201	7,897	664,177	2,124

142. The state of the plantations for the last two years is shown below:— PLANTATIONS.

YEAR.	Trees over 12 feet.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1890-91 ...	5,475	2,837	3,695	12,007
1891-92 ...	2,642	2,979	3,993	9,614

NADIA RIVERS.

143. The approximate length of the channels comprising the Nadia rivers' system is 477 miles. No capital account of expenditure is kept. The revenue account for the last two years is given below:— REVENUE ACCOUNT.

PARTICULARS.	EXPENDITURE.		PARTICULARS.	RECEIPTS.

The decrease in receipts amounting to Rs. 7,745 was a consequence mainly of the low level of the river Ganges, which caused the heads of the rivers to silt up. The Bhagirathi was impassable in the upper reaches, steamers were unable to ply on the Matabhanga, and the other rivers were also affected. Not only were the receipts thus affected, but the expenditure incurred on training works was increased, the net result for the year being a decrease of Rs. 11,125 in the net profit. The traffic was also, to some extent, prejudicially affected by the general dulness of trade and bad harvests.

The expenditure on the Nadia Rivers is mainly on training works, to keep open the navigation channels and entrances of the rivers, so that the cost of maintenance depends to a large extent on the condition of the channels. For instance, the expenditure was abnormally low in 1889-90, because it was found impracticable to keep open the lower intake of the Bhagirathi, and hence no training works were constructed in the upper portions of that river.

RAINFALL AND FLOODS.

145. No rainfall register is kept up for these rivers. There were no floods during the year, and the river Ganges was exceptionally low even in the flood season. The gauge readings at Gheria and Berhampore for the last three years are given below:—

	GHERIA.	BERHAMPORE.
1889 ...	34′00″	... 30′4½″
1890 ...	34′70″	... 30′11¾″
1891 ...	29′30″	... 26′7″

A statement showing the highest gauge readings of the Nadia rivers is given below as compared with those of the previous year:—

River.	Locality.	1891-92.		1890-91.		Highest known.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.
1	2	3	4	5	6	7	8
Bhagirathi ...	Berhampore	29th Aug. 1891	60·33	15th Aug. 1890	64·73	15th Aug. 1890	64·73

147. The following statement shows the number of boats, tonnage, weight, and value of cargo and toll collections:— TRAFFIC.

NADIA RIVERS.	Number of boats, inclusive of steamers, flats and rafts.	Tonnage of boats.	Weight of cargo.	Value of cargo.	Toll collection.	Percentage of toll on value of cargo.
1	2	3	4	5	6	7
	No.	Tons.	Tons.	Rs.	Rs.	
Bhagirathi	12,269	193,471	93,087	65,67,755	38,983	...
Ditto and Bhyrub-Jellinghee	35,140	491,472	209,941	2,67,68,405	1,23,910	...
Matabhanga	12,758	119,680	49,716	42,69,061	29,825	...
Total, 1891-92 ...	60,167	804,623	352,744	3,76,05,221	1,92,718	0·53
Total, 1890-91 ...	64,893	899,210	380,033	3,99,33,210	2,00,508	0·50

148. The cost of the revenue establishment for the last five years is shown below:— REVENUE ESTABLISHMENT.

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Salary and commission of Collectors	12,217	12,671	11,943	13,224	13,210
Accounts and office establishment	9,030	9,397	8,986	9,223	8,942
Travelling allowance ...	479	463	390	711	530
Contingencies	450	475	441	472	452
Total ...	22,176	23,006	21,760	23,630	23,134

The slight decrease compared with the previous year results from the smaller commission earned by toll-collectors, owing to diminished revenue.

MAINTENANCE AND REPAIRS.

149. The charges for maintenance and repairs for the last two years are detailed below:—

PARTICULARS.	1890-91.	1891-92.
1	2	3
	Rs.	Rs.
Re-opening lower entrance channel, Bhagirathi river	1,422	1,290
Inspection shed, upper entrance... ...	...	496
Training works in river Bhagirathi ...	31,438	40,413
" " Bhyrub ...	2,313	2,593
" " Jellinghee ...	1,695	1,960
" " Matabhanga ...	1,641	1,415
Sounding Nadia Rivers	5,921	6,015
Maintaining and working divisional boats ...	2,862	3,102
Petty and other charges	5,190	5,420
Total ...	52,482	62,704

The total expenditure during the year shows an increase of Rs. 10,222 caused by extra expenditure on training works to keep open the river entrances and channels, as explained in paragraph 144 above.

MISCELLANEOUS RECEIPTS.

150. The miscellaneous receipts during the year amounted to Rs. 247, against Rs. 136 in the previous year.

DREDGING AND SILT CLEARANCE.

151. There was no expenditure under this head during the year.

PLANTATIONS.

152. There are no plantations on the banks of the rivers. Bamboos were planted on the berm of the Bhagirathi embankment in 1890-91, but the result was not very successful. Another trial will be made in 1892-93. The number of trees existing during the year was 17,004.

EDEN CANAL.

REVENUE ACCOUNT.

153. The purpose for which this canal was originally constructed was, as stated in the last year's report, mainly to supply drinking-water. The receipts and expenditure for the last two years are given below:—

RECEIPTS.	1890-91.	1891-92.	EXPENDITURE.	1890-91.	1891-92.
1	2	3	4	5	6
	Rs.	Rs.		Rs.	Rs.

Total ...	3,597	10,158	Tools and plant .	684	495
Less—Refunds of revenue	...	39	Total expenditure ...	34,795	25,663
Net total receipts ...	3,597	10,119	Balance, deficit ...	31,198	15,544

The receipts from water-rates were Rs. 6,635 greater than last year, and Rs. 927 in excess of those of 1889-90, owing to the extensive irrigation resulting from the failure of the rainfall in October, while the expenditure was Rs. 9,132 less than that of the previous year, the decrease taking place in all items. The net result of the year was a reduction in the deficit balance from Rs. 31,198 to Rs. 15,544.

The works carried out consisted of the construction of a sand dam across the Damodar at Júgúti, to keep up the cold weather supply of the canal, and the excavation of silt from the various channels connected with the canal.

The supply of water to the Burdwan water-works was efficiently maintained.

IRRIGATION.

154. The canal was not originally intended for irrigation purposes, but it has through the force of circumstances been used to supply water to save crops, and, the benefits received being appreciated, water is now regularly supplied. Under the system in force payment is made in advance at the rate of four annas a bigha for the approximate area of rice in a village. At the end of the season the area actually irrigated is measured, and any excess payment returned to the villagers or left to their credit for the next year. For areas irrigated in excess of payments, demand notices are issued. The area irrigated during the past three years has been as follows:—

Nature of leases.	1889-90.	1890-91.	1891-92.
1	2	3	4
	Acres.	Acres.	Acres.
Annual	9,693	1,330	1,478
Five-year ...	...	...	12,707
Total ...	9,693	1,330	14,185

This increase in five-year leases will be noticed with satisfaction.

The Superintending Engineer writes:—

"The bulk of the irrigation was carried out from October to the middle of November 1891, when there was no rainfall. Had the cultivators come forward a little earlier, the result of the year's operations would have been much more satisfactory and the irrigated area larger. A large number of applications for water had to be refused for want of sufficient supply in the canal."

The Superintending Engineer reports that the total demand for water-rates in the year under review was Rs. 10,738, of which Rs. 9,256 were actually realized during the year.

The outturn of crops on the irrigated area was exceedingly good, whereas the crops on the unirrigated lands failed.

REVENUE ESTABLISHMENT.

155. The cost of establishment employed on irrigation was Rs. 967, against Rs. 147 in 1890-91, the increase being due to the larger area under irrigation.

MADHUBAN CANAL.

EXPENDITURE.

156. The expenditure on works and maintenance of this canal during the last three years is given below:—

PARTICULARS.	1889-90.	1890-91.	1891-92.
1	2	3	4
	Rs.	Rs.	Rs.
Works	2,957	6,236	...
Maintenance ...	3,257	2,011	7,300
Establishment ...	3,100	3,293	3,003
Tools and plant ...	23	287	203
Total ...	9,337	11,827	10,506

The floods of 1891 caused fresh damage to the apron of the Teur weir, necessitating another large estimate for its repair. This work has been a source of trouble ever since it was constructed, the floor being incapable of withstanding the sudden floods which are occasioned by the bursting of the irrigation embankments across the river in Nepal. The extra cost of repairs was due to repairs to the floor of the Teur weir.

157. No revenue is derived at present from irrigation in this canal, the raiyats being allowed to irrigate their lands free of cost.

The miscellaneous receipts during the year were Rs. 92, against Rs. 42 in 1891-92.

IRRIGATION. 158. At the latter end of the rains there were many demands for water for rice irrigation, and 2,539 acres of rice land were irrigated. The area irrigated for the last three years is shown by crops below :—

Nature of crop.	1889-90.	1890-91.	1891-92.
1	2	3	4
	Acres.	Acres.	Acres.
Bhadoi	640	...	...
Kharif	5,308	...	2,539
Rabi	240	2	495
Poppy	1,946	852	552
Total ...	9,134	854	3,586

GENERAL RESULTS.

NET REVENU 159. The net results of the year 1891-92, compared with those of the previous year, are shown below. The figures are exclusive of refunds of revenue :—

PARTICULARS.	Receipts from all sources (less refunds).	Working expenses (direct and indirect).	Profit or loss.
1	2	3	4
MAJOR IRRIGATION WORKS.	Rs.	Rs.	Rs.
1890-91	13,39,141	14,32,136	−92,995
1891-92	15,98,608	14,37,935	+1,60,673
MINOR WORKS AND NAVIGATION.			
For which Capital and Revenue accounts are kept.			
1890-91	6,27,654	4,39,636	+1,88,018
1891-92	6,03,107	4,35,005	+1,68,102
For which only Revenue accounts are kept.			
1890-91	2,00,482	1,09,894	+90,588
1891-92	1,92,737	1,13,274	+79,463
For which neither Capital nor Revenue accounts are kept.			
1890-91	3,639	46,622	−42,983
1891-92	10,211	36,169	−25,958
Total 1890-91 ...	21,70,916	20,28,288	+1,42,628
Total 1891-92 ...	24,04,663	20,22,383	+3,82,280

Compared with the figures accepted in the revised Budget Estimates, the actual receipts were more by Rs. 1,36,663 and the expenses less by Rs. 59,778.

160. The net result of the Major Irrigation Works reckoned on earnings, that is on the revenue calculated on the water rates due on the area actually irrigated during the year instead of on actual receipts, was, compared with 1890-91:— EARNINGS.

	Earnings.	Working expenses.	Profit or loss.
	Rs.	Rs.	Rs.
1890-91 ...	13,54,379	14,32,136	− 77,757
1891-92 ...	18,14,485	14,37,935	+ 3,76,550

The expenditure was normal.

The revenue from Minor Works and Navigation is derived mainly from tollage receipts.

161. The progress in the recovery of water-rates during the year is summarised below:— ARREARS.

CANALS	Outstanding on 1st April 1891.	Demand of 1891-92.	Collected or adjusted.	Outstanding on 1st April 1892.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Orissa Canals ...	1,98,364	2,82,880	2,47,540	2,33,704
Midnapore Canal	64,967	1,29,822	1,35,817	58,972
Sone Canals	2,08,782	7,29,631	8,26,969	1,11,444
Total ..	4,72,113	11,42,333	12,10,326	4,04,120

162. The approximate value of crops irrigated by Major Irrigation Works during the last two years is shown in the following table:— VALUE OF CROPS.

CANALS.	1890-91.		1891-92.	
	Area irrigated.	Value of crops.	Area irrigated.	Value of crops.
1	2	3	4	5
	Acres.	Rs.	Acres.	Rs.
Orissa Canals	180,299	39,10,595	177,685	47,87,546
Midnapore Canal	82,002	18,86,046	83,973	20,99,325
Sone Canals	281,014	1,08,08,203	474,723	1,44,85,957
Total ...	543,315	1,66,04,844	736,381	2,13,72,828

The average value per acre of the various crops irrigated has decreased from Rs. 30·5 to Rs. 29·0.

Two tables are attached as appendices to this note, (I)—showing the number of days spent on tour by each officer of the Irrigation Department, (II) the dates of inspections of the divisional and subdivisional offices by each Superintending Engineer during he year 1891-92.

163. The date fixed for the submission of revenue reports to the office of the Chief Engineer is the 15th September. The dates when the different reports were received are shown below:—

		In 1891.	In 1892.
Orissa Circle	Commissioner's report ...	3rd September	27th September.
	Superintending Engineer's report	5th October ..	23rd ditto.
South-Western Circle	Commissioner's report ...	24th September	24th ditto.
	Superintending Engineer's report	17th ditto	17th ditto.
Sone Circle	Commissioner's report ...	7th October ...	26th ditto.
	Superintending Engineer's report	14th September	15th ditto.

The report from the Superintending Engineer, Sone Circle, was received on the date fixed, and the other reports were practically punctual. The finance and administrative accounts of the year 1891-92, due in the Chief Engineer's office on the 1st August, were received from the Examiner, Public Works Accounts, Bengal, on the 6th and 14th September 1892, respectively, and this is to a large extent the cause of delay in the preparation and submission of the report to the Government of India within the prescribed time, 15th November.

164. The results of the year's working of the canals in Bengal may, I think, be considered satisfactory. Taking major and minor works together there has been a profit of Rs. 3,82,280, against Rs. 1,42,628 in 1890-91, caused entirely by extra receipts, the expenditure continuing stationary, the canals having been kept up in a thoroughly efficient state. If the major works alone are considered and earnings be taken in place of actual receipts, by which the effect of arrear balances is eliminated, the profit for the year is Rs. 3,76,550, against a loss of Rs. 77,757 in that previous. The outstanding balance has been reduced by Rs. 67,993. The improvements indicated by these figures are the more gratifying from the fact that the accounts of the year now current promise even better results. The province has benefitted by crops covering 736,381 acres, the value of which is estimated at 213¾ lakhs of rupees, having in a year of scant rainfall been brought to maturity, when in the absence of the canals they would, for the most part, have failed or not have been sown.

165. The circumstances of the year entailed great pressure on the staff, which the facts and figures contained in this note show to have been adequately met. Allusion has been made to specially satisfactory features in the work carried out by Colonel A. D McArthur, R.E., Superintending Engineer, in the South-Western Circle, by Mr. D. B. Horn, Executive Engineer, in the Brahmini-Baitarni Division, and by Mr. K. H. Stephen, Executive Engineer, in the Buxar Division, as also to the collections made by Babu Siva Sunker Singh in the Patna district, but the work of the Divisional and Subdivisional Canal Officers throughout Bengal and the collecting establishment in the Sone Circle was of a character to merit the commendation of Government.

C. W. ODLING,

The 31st December 1892. *Chief Engineer.*

APPENDIX I.

Statement showing the number of days spent on duty and on tour by Superintending, Executive and Assistant Engineers and Upper Subordinates of the Irrigation Branch during the year 1891-92.

NAME.	Circle or Division.	NUMBER OF DAYS—		REMARKS.
		On duty.	On tour.	
Superintending Engineers.				
Mr. C. W. Odling ...	Sone ...	206	100*	*Does not include 6 days spent in proceeding to Calcutta on duty and back. Officiated as Chief Engineer and Joint-Secretary for one month in April 1891 On deputation for May and June 1891. On special duty from 6th to 29th February 1892. Appointed Chief Engineer and Joint Secretary from 5th March 1892.
Lieut.-Col. A. D. McArthur, R.E.	South-Western ...	366	116	
„ W. A. Inglis ...	Arrah ...	160	73	Officiated as Superintending Engineer for 29 days in addition to his own duties, and tour of this period is shown under that head. On privilege leave from 6th August to 19th October 1891, after which joined Public Works Department Secretariat as Under-Secretary from 21st October 1892 to 29th January 1892. Rejoined Sone Circle on 1st February 1892.
	Do. ...	56	13	
„ W. Connan ...	Orissa ...	341	147	In charge from 24th April 1891.
Executive Engineers.				
Mr. J. P. Scotland ...	Cossye ...	366	160	
„ T. M. L. Thompson ...	Northern Drainage and Embankment	366	172	
„ C. E. Livesay ...	Nadia Rivers ...	305	182	Was on privilege leave for 61 days.
„ T. H. Clowes ...	Buxar ...	6	...	In charge of subdivision. Privilege leave for 3 months from 7th April 1891.
	Nadia Rivers ...	73	45	Joined the Division on 25th July 1891.
	Balasore ...	177	92	Joined the Division on 20th October 1891.
„ G. J. R. Leeson ...	Circular and Eastern Canals.	366	212	
„ A. Hayes	Balasore ...	96	38	Was on furlough for 280 days.
„ A. Monies	Ditto ...	287	123	On leave for 9 days. On special duty from 13th January to 25th February 1892. Transferred to Madras.
„ M. J. J. P. Norman ...	Buxar ...	52	28	Returned from furlough and joined Division in December 1891. In charge of subdivision.
	Do. ...	51	26	In charge from 10th February 1892.
„ O. C. Lees	Gandak ...	366	159	
„ K. H. Stephen ...	Buxar ...	315	128	On privilege leave from 10th February 1892. Joined the Public Works Department Secretariat from 29th February 1892.
„ A. S. Thomson ...	Eastern Sone ...	366	178	
„ L. R. Fraser ..	Dehri Workshop ...	366	71	The greater part of the work of this division is at head-quarters.
„ M. H. Arnott ...	Buxar ...	13	10	Proceeded on 7 months' furlough on 14th April 1891.
	Brahmin-Byturni ...	119	84	Joined Division, 4th December 1891.
„ D. B Horn ...	Ditto ...	366	162	
„ J. R. Swinden ...	Puri ...	366	144	
„ T Butler ...	Mahanuddy ...	366	142	
„ J. P. Coy ...	Acquapadda-Jajpur.	339	173	Died, 5th March 1892.
„ C. A. White ...	Brahmini-Byturni ...	366	276	In charge of subdivision.
Assistant Engineers.				
Mr. W. S. Bremner ...	South-Western ..	115	2	Attached to Superintending Engineer's office from 1st to 13th April and from 7th August to 30th November 1891.
	Cossye ..	116	46	Joined the Division on 7th December 1891, and employed at head-quarters till 6th January 1892.
	Nadia Rivers ...	111	24	
„ C. H. DeMello ...	Cossye ...	282	135	
	South-Western ...	13	10	Includes time spent during joining from Panchpara to Calcutta.
	Buxar ...	62	35	Joined subdivision on 30th January 1892.
Rai Bama Churn Paramanic Bahadur.	Northern Drainage and Embankment.	366	230	
Mr. J. W. Fox	Circular and Eastern Canals.	359	237	On leave for 7 days.

APPENDIX I.

NAME.	Circle or Division.	NUMBER OF DAYS— On duty.	On tour.	REMARKS.
Rai Kirth Chunder Chowdry Sahib.	Balasore ...	132	67	Transferred from Balasore Division, and left on the afternoon of 10th August 1891. Joined 1st Calcutta Division, 8th February 1892.
Mr. H. E. Pellereau ...	Ditto ...	241	117	Transferred to the Punjab, and left on the afternoon of the 27th November 1891.
„ J. S. L. Long ...	Gandak ...	366	199‡	‡ Including 16 days on which he attended the Divisional office.
„ J. C. Hewitt ...	Buxar ...	328	202	On privilege leave for 23 days in April 1891.
„ P. G. Jacobs ...	Eastern Sone ...	275	205	On leave for 91 days.
„ A. H. C. MacCarthy ...	Arrah ..	366	207	
Rai Sahib Bani Madhub Mitra.	Buxar ...	365	249	Was in charge of subdivision from 1st April 1891 to 20th March 1892. Transferred to Arrah Division.
Mr. H. Barlow ...	Mahanuddy ...	366	296	In charge of subdivision.
Rai Sahib Cally Podo Sen ...	Acquapadda-Jajpur.	366	161	In charge of subdivision, and in charge of division from 6th March 1892.
„ Annoda Prosad Sircar.	Brahmini-Byturni and Acquapadda-Jajpur Division.	366	185	In charge of subdivision.
„ Nogendro Nath Mookerjee.	Brahmini-Byturni and Mahanuddy	366	282	On survey duty.
Mr. G. L. Searight ...	Mahanuddy ...	112	81	Went on leave on private affairs from 12th July 1891.
„ H. L. Gearing ...	Ditto ...	356	24	On leave for 10 days. All works except those at Naraje are within 5 miles of head-quarters, on the inspection of which Mr. Gearing spent 204 days during the year.
Sub-Engineers.				
Babu Jodu Nath Bose ...	Cossye ..	366	123	
Rai Sahib Gopal Chunder Daw	Northern Drainage and Embankment.	366	241	
Mr. J. Bradshaw ...	Balasore ...	366	166	
„ I. J. Atkinson ...	Ditto ...	356	34	Principal works lie at head-quarters. On leave for 10 days, being in charge of workshop.
„ S. Street ...	Arrah ...	366	235	Subdivisional Canal Officer.
Rai Sahib Satcoury Chatterjee.	Eastern Sone ...	366	54	Principal works lie at head-quarters.
Condr. C. J. Clarke ...	Puri ...	275	127	In charge of subdivision. On furlough.
Rai Sahib Jodoonath Sen ..	Brahmini-Byturni ...	133	88	Retired from 12th August 1891.
„ Prosonno Coomar Paul.	Acquapadda-Jajpur.	356	111	In charge of subdivisional works near head-quarters.
Mr. J. C. Coxe ...	Puri ...	366	290	In charge of subdivision.
Supervisors.				
Rai Sahib Rakhal Das Chatterjee.	Nadia Rivers ..	304	107	Was on 61 days' privilege leave.
Babu Loke Nath Mitter ...	Ditto ...	352	158	Was on 13 days' privilege leave.
„ Nobin Chunder Roy ...	Circular and Eastern Canals.	366	230	
„ Dukhina Runjun Mookerjee.	Ditto ...	328	168	Was on 37 days' privilege leave. Transferred to Madras.
„ Ashootosh Mitter ...	Ditto ...	366	273	
Mr W. W. H. Leslie ...	Gandak ...	366	155	Including 48 days on which he attended the Divisional office.
„ H. E. Williamson ...	Dehri Workshop ...	366	38	Principal works lie at head-quarters.
Babu Chunder Bhusan Dutt...	Eastern Sone ...	93	22	In charge of subdivision.
	Dehri Workshop ...	270	202	Ditto
Babu Gopal Chunder Ghose...	Ditto ...	366	67	In charge of subdivision. Principal works lie at head-quarters.
„ Troylukho Nath Sircar	Gandak ...	366	47	Principal works lie at head-quarters.
„ Rudro Prosonno Singh...	Ditto ...	305	131	On 61 days' privilege leave. Attended the Divisional office for 17 days and attended the Civil Court at Contai for 11 days.
„ Gopal Chunder Mukerji	Eastern Sone ...	366	88	Principal works lie at head-quarters.
„ Kanti Chunder Banerjee	Ditto ...	366	283	Subdivisional Canal Officer.
„ Doorga Churn Chuckerbutty	Arrah	355	150	Subdivisional Canal Officer. On 11 days' leave.
„ Mohendro Nath Sircar	Eastern Sone ...	94	67	Subdivisional Canal Officer.
„ Mohendro Nath Sircar	Buxar	18	11	Ditto ditto.
„ Bhuggobutty Churn Mookerjee ...	Puri	155	...	Works at head-quarters. Furlough from 2nd September 1891.
„ Pran Kissen Sen ..	Brahmini-Byturni and Mahanuddy.	366	186	Eighty-one days in addition spent on inspection of work within 5 miles radius of head-quarters.

APPENDIX I.

NAME.	Circle or Division.	NUMBER OF DAYS— On duty.	On tour.	REMARKS.
Overseers.				
Mr. P. Madge	Cossye	349	88	Transferred to Madras for famine relief works.
Babu Romanath Sircar ...	Ditto	366	228	
,, Kirtybas Maity ...	Ditto	366	39	Most of his work lies at head-quarters.
,, Jogendro Lall Chatterjee	Northern Drainage and Embankment	335	219	Transferred to Madras for famine works.
,, Akhoy Krishna Bose ...	Nadia Rivers ...	343	233	Ditto ditto.
,, Rajendra Nath Mookerjee ...	Ditto	366	129	
Mr. C. A. Marchant ...	Calcutta Canals ...	273	254	Transferred to Dehri Workshops from 30th December 1891.
,, A. E. James ...	Toll Inspector, Dhappa, Calcutta Canals ...	93	93	Joined from Dehri Workshop Division on 30th December 1891.
Babu Suresh Chunder Ganguli	Balasore ...	366	174	
Mr. A. E. Hefferman ...	Ditto	366	209	
Babu Kenaram Bose ...	Arrah	248	6	Was on privilege leave for 62 days. In charge of Civil Buildings subdivision at head-quarters
	Eastern Sone ...	46	20	Was in charge of subdivision.
,, Rajendra Lall Sircar ...	Buxar	257	200	Was in charge of Sikroul subdivision from 7th April to 19th December 1891.
,, Surendro Nath Barat ...	Do.	37	20	In charge of Jamrour subdivision.
	Eastern Sone ...	153	32	In charge of subdivision from 3rd July to 2nd December 1891. Principal works at head-quarters.
	Arrah	118	5	In charge of civil buildings subdivision. Principal works at head-quarters.
,, Krishna Dhone Banerjee	Brahmini-Byturni and Acquapadda Jajpur ...	366	202	Sectional charge.
,, Chintomoney Mohanty	Brahmini-Byturni	62	55	On survey duty. Went on furlough from 2nd June 1891.
,, Bunkim Behary Mookerjee	Brahmini-Byturni and Puri ...	301	224	Sectional and subdivisional charge. Joined Irrigation Branch, 16th December 1891.
,, Suttya Churn Banerjee	Brahmini-Byturni ...	91	72	In charge of a section.
,, Bunkim Kristo Ghose	Ditto ...	74	59	Ditto.
,, Hari Churn Mookerjee	Mahanuddy ...	366	267	Ditto.
Mr. P. A. Wight ..	Ditto ...	327	5	Employed as Foreman of the Cuttack Workshop from 11th May 1891.
Babu Korally Churn Dey ...	Puri	366	32	Employed at head-quarters in preparing drawings of the surveys, &c., of the Gurjat roads, and in charge of the head-quarters subdivision.
,, Hira Lall Sen ...	Darjeeling and Mahanuddy ...	366	84	In addition 232 days spent on inspection of works within 5 miles radius of head-quarters.
CALCUTTA CANALS.				
Supervisor.				
Mr. W. R Cooksey ...	Calcutta Canals ...	366	298	Daily inspections of few hours only.
Inspector.				
Babu J. N. Gupta ...	Ditto ...	273	263	On privilege leave for 3 months. Daily inspections of few hours only.
SONE CANALS.				
Deputy and Sub-Deputy Collectors.				
Babu Saroda Prosad Chatterjee	Sone Canals ...	366	104	
,, Jagdam Sahai ...	Ditto	366	224	
,, Siva Sankar Singh ...	Ditto	366	240	
,, Jogesh Chunder Ghose	Ditto	310	187	Joined on 27th April 1891, and was relieved on 1st March 1892

* The area (5,000 acres) commanded by the Sasaram distributary has been added.

(*a*) The currency of the estimates for the Orissa and Sone projects has expired, and the present outlay on these projects is held as irregular pending orders of the Government of India.
(*b*) and (*c*) The estimates for the Midnapore and Hidgelee Tidal canals, respectively, having been withdrawn and closed, the figures shown are the totals of the old and fresh sanctions.
(*d*) There is no general sanctioned estimate for this project.
(*e*) Includes Rs. 8,65,000 expended from famine relief funds.
(*f*) Includes 3 miles of the Gobri extension canal which form the feeder channel from Alba to Pattamundi fall and 24½ miles of Taldanda extension canal.
(*g*) Includes 20 miles of Kasyapukhur Khal.
(*h*) Includes village channels.
(*i*) The decrease of 7½ miles is due to the Futtehpur distributary having been abandoned beyond the 12th mile.
(*j*) The increase of 4½ miles is due to the Baroon distributary having been added. It includes 14¼ miles of Government village channels.
(*k*) Includes 4½ miles of river crossings.

IIE.

PUBLIC WORKS DEPARTMENT, BENGAL.

STATEMENT SHOWING INCIDENCE OF WORKING EXPENSES AND ASSESSED WATER-RATES ON CANALS IN BENGAL DURING 1891-92.

Name of Canal.	Average discharge of the year at canal head in cubic feet per second.	Water-rates assessed in 1891-92.					Gross assessed revenue from all sources.	Working expenses, direct and indirect.	Area irrigated during the year 1891-92.	Working expenses.			Occupier's rates (water-rates).		Total water-rates, direct and indirect.	
		Occupier's (water-rate).	Owner's.	Total direct.	Indirect.	Total of direct and indirect.				Per cent. on gross revenue.	Per acre irrigated.	Per cubic foot per second of discharge at canal head.	Per acre irrigated.	Per cubic foot per second of discharge at canal head.	Per acre irrigated.	Per cubic foot per second of discharge at canal head.

* Cannot be filled in, as the payment is partly for water supplied for the manufacture of indigo.

Note A.—In this table the water-rates shown as assessed during the year are the amounts for which occupiers have rendered themselves liable in return for canal water supplied during the year, and include some demands which were not legally recoverable, and others of which the assessment papers were not completed till after the close of the year.

Note B.—Refunds of revenue have been deducted from "Gross assessed revenue from all sources."

Supervisor, Calcutta Canals	Mr. W. R. Cooksey ...	Ditto ditto.

THE MONSOON OF 1892.

THE following report is published for general information

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

The 9th January 1893. *Secretary to the Govt. of Bengal.*

METEOROLOGICAL SUMMARY FOR THE MONSOON PERIOD OF 1892.

THE following statement is intended to give a brief history of the more important features which have characterized the south-west monsoon period and the preceding months of 1892.

The most noticeable feature of the weather in January was the almost entire absence of rainfall in all districts, for the whole rainfall of the month consisted of a few local showers in some of the districts of South Bihar and North Bengal. This was caused by the unusual absence of anything like influential barometric depressions existing in or travelling from North-Western India, but the province was nevertheless affected by two feeble barometric depressions. Up to the morning of the 8th of January ordinary cold weather conditions obtained, but on the 9th a disturbance existing in North-Western India began to affect the pressure and temperature in Bengal. The depression moved in an easterly direction and reached Bengal about the 11th, the centre apparently passing near Berhampore. The depression continued to influence Bengal up to the 15th, when it filled up, and ordinary cold weather conditions again set in. On the 20th another depression appeared in North-Western India, and advanced towards Bengal, filling up in its advance, and it thus did not actually reach the province, though on the 23rd and 24th it influenced Bihar, giving clouded skies and light rainfall. Weather continued slightly disturbed up to the 27th, and then normal cold weather conditions set in up to the close of the month. In January barometric pressure was generally in excess by about a hundredth of an inch, the excess being largest in East Bengal, while temperature was also in excess of the normal in different districts by from 1° to 3°, the excess being largest in South Bihar and Chota Nagpur. Owing to the comparative absence of disturbed weather, cloud proportion was in defect in all districts except Bihar, but on the other hand humidity was in slight excess of the normal.

In February only one important barometric depression affected Bengal. This depression appeared over the Western Desert on the 10th, and advanced slowly in an east, south-easterly direction, and on the 13th its centre was near Agra and Delhi, and it was still a considerable storm. On the 14th it was near Cawnpur and Sutna, but on the 15th and subsequent days it filled up and disappeared. It gave disturbed weather and fairly general rain to Bengal, the greatest disturbance being from the 11th to the 16th instant. Several other but much more feeble barometric depressions appeared in North-Western India during this month, and advanced south-eastwards, but they caused little disturbance to the weather in Bengal, beyond giving high temperature and humidity, with low pressure and a few local rain showers. On the whole, therefore, the month of February was more free from disturbance than usual. The rainfall in this month varied from a little more than a quarter of an inch in Orissa, South-West and North Bengal, to about three-quarters of an inch in North Bihar, East Bengal, and South Bihar, while Chota Nagpur received 1·30 inches. The falls were in excess of the normal in Bihar and Chota Nagpur, and in defect elsewhere. In February pressure was in defect of the normal by about a twentieth of an inch, the defect being largest in South-West and North Bengal, where it equalled 0·07", and the variations from day to day were also decidedly large. Temperature on the other hand was in excess by from two to four degrees, the largest excess temperature being reported in North Bengal and South Bihar, while the variations of cloud proportion and humidity from the normal were small.

In March the weather was again decidedly more free from disturbance than usual. A very shallow barometric depression passed over the province in the early part of the month, reaching North Bengal on the 4th, and passing away

in an easterly direction, and giving light rain in East Bengal and also a few showers in Orissa. Fine settled weather, with steadily and rather rapidly increasing temperature, then set in up till the 25th, when a shallow low pressure area formed in Bihar and West Bengal, which gave rise to disturbed conditions, and then travelled in an easterly direction, so that local storms, with rain, occurred in East and North Bengal and North Bihar for two or three days and particularly on the 28th, after which again fine settled weather set in. A fall of an inch and a half of rain occurred in North Bengal, and an inch in East Bengal, while only a fifth of an inch was reported in North Bihar, and in all other districts rainfall was practically absent. Hence the rainfall of March was in defect of the normal in all districts except North Bengal, the defect equalling from an inch and a half to two inches in South-West and East Bengal, and being about an inch in Orissa and Chota Nagpur, while the defects were unimportant in Bihar.

In March, again, pressure was rather largely in defect of the normal, the defect averaging more than 0·08″ and equalling nearly a tenth of an inch in South Bihar. The temperature was low in the early part of March, but it increased more rapidly than usual, and for the last three weeks was generally in excess of the normal, the mean temperature of the month showing 1° in excess. Also owing to the absence of disturbed weather cloud proportion was only about half the usual amount, and humidity was about 10 per cent. in defect of the normal.

At the commencement of April ordinary hot season conditions obtained, but the pressure distribution was a little anomalous, as there was a considerable excess of pressure in the north-east of the province, while the pressure decreased rapidly in amount towards the west. Hence winds were more easterly than usual. This distribution of pressure, however, rapidly changed, and from about the middle of the month two or three feeble low pressure areas formed in succession over the western part of the province, which afterwards extended to North Bengal and North Bihar, where at one time pressure was a quarter of an inch in defect. With this distribution of pressure, the southerly winds blowing from the Bay over Bengal became exceptionally strong, and these southerly winds brought up large amounts of moisture to the province, and gave rise to very numerous local storms, or nor'westers, with rain, which occurred during the second half of the month in East and North Bengal, and to a certain extent in South-West Bengal, Bihar, and Chota Nagpur. An average amount of from six to seven inches of rain fell in East Bengal, more than five inches in North Bengal, and about an inch in North Bihar, and in these three divisions the falls were in distinct excess of the normal. The fall in South-West Bengal averaged two inches and was slightly less than the normal, but in all other districts rainfall was very small in amount and largely below the normal.

Again, in April, the mean pressure for the month was in decided defect, the defect ranging from about a twentieth of an inch in South Bihar and Chota Nagpur to 0·02″ in East and North Bengal. The mean temperature for the greater part of the month was in decided excess, and was 1·8° higher than the normal for April. Owing to the rather numerous local storms, cloud proportion was rather considerably in excess, but humidity was lower than usual in South-West and East Bengal, and above it in some other districts. On the whole, perhaps also, winds were rather more easterly than is usual in April.

In May after a week of ordinary hot weather conditions a feeble low pressure area formed over the western parts of the province, which filled up about the 14th, while again from the 20th to the 24th a second feeble low pressure area developed over part of Chota Nagpur and West Bengal. During these periods, and specially during and after the second one, conditions were very disturbed in Bengal, and very numerous nor'westers, with rain, occurred, particularly in South-West, East, and North Bengal. These local storms brought up about twelve inches of rain to both East and North Bengal, or amounts very considerably larger than the normal, while in South-West Bengal the fall averaged nearly five inches, or almost a normal amount. The fall in North Bihar was about two inches, or nearly an inch in defect, and Orissa also received nearly two inches, or about two inches less than usual. South Bihar and Chota Nagpur during May received only small amounts of rain.

In the south of the Bay winds began to strengthen at the Ceylon stations, owing to the advance of the south-west monsoon, from about the 10th of May,

and they blew fairly steadily and rather strongly almost to the close of the month. By about the 24th these winds had apparently reached well into the middle of the Bay, and two feeble barometric depressions were formed in front of this advance, one of which passed into the Gulf of Martaban and over Burma, where it gave heavy rain, while the second low pressure area which formed off the South Orissa and Ganjam coasts filled up without passing inland. At the close of May the monsoon current had advanced well into the north of the Bay, and there was every prospect of the early break of the monsoon in Bengal.

In May, again, the mean pressure was moderately in defect of the normal, the usual variation equalling about 0·03″ to 0·05″, and being fairly uniform over the whole province. Temperature in Bengal at the commencement of May was about 4·2° in excess of the normal, and it continued rather largely in excess in the second week, when Chota Nagpur registered the very large excess temperature of 9·2°. Towards the close of the month, however, temperature fell considerably, and became even below the normal, so that the mean temperature for the month was only about 2° in excess of the normal. It was also noticeable in May that both cloud proportion and humidity were higher than usual, and also that the easterly component in the wind direction was very strongly developed, while the southerly winds blowing from the Bay over Bengal were also exceptionally strong.

During the first five months of the year therefore, or in what may be called the pre-monsoon months, it will be seen that rainfall over the whole province was generally in defect of the normal, except perhaps in the eastern and northern districts, where in April and May rather heavy falls were received. Rainfall was thus practically entirely absent from the province in January, and only a few unimportant showers fell in February. In March light rain fell in East and North Bengal, and practically none in any other division, and in April and May moderate to large amounts of rain fell in East, North, and South-west Bengal, and very little elsewhere. Thus, in Orissa, for the whole of the pre-monsoon months rainfall was in large defect; in South-west Bengal there was also moderate to large defect for every month; in East Bengal rainfall was in defect in January, February, and March, and in considerable excess in April and May; in North Bengal there was excess in March, April, and May, and defect in January and February; and in Bihar and Chota Nagpur there was slight excess rainfall in February and defect for the remainder of the pre-monsoon period. This lightness of the rainfall over the province generally was brought about by the comparatively absence of disturbed or stormy weather in Bengal, and from the comparative absence and general lightness of the cold weather storms forming in North Western India. For practically the whole of the pre-monsoon period pressure was in defect of the normal, the general defect equalling nearly a twentieth of an inch, and this defect continued almost up to the close of May. The mean temperature was also in excess of the normal in each of these five months, the usual excess averaging nearly two degrees, while, on the other hand, humidity and cloud proportion were generally smaller than usual during the five months, January to May.

As stated previously, the meteorlogical conditions in Bengal at the end of May pointed to the early commencement of the south-west monsoon rains, as the current had reached well into the north of the Bay, and pressure in Bengal was below the normal, and hence favourable for its further advance over the land. Early in June, however, pressure increased moderately in Bengal, and became in excess of the normal. and hence conditions were less favourable for the further advance of the monsoon current over Bengal, though the monsoon winds continued to blow strongly in the centre and south of the Bay. At this time, that is about the 6th or 7th of June, a very severe cyclone commenced to form in the north-west angle of the Bay, which, after remaining nearly stationary, and intensifying rapidly for two or three days, began to move in a northerly or north-north-westerly direction, until it struck the coast near the mouth of the Hooghly at about 6-30 A.M. of the 10th of June, the centre passing about 30 or 40 miles to the west of Saugor Island. After striking the coast it recurved, and moved in a west-north-westerly direction, and finally filled up near Sutna on the 14th instant. The storm was an exceedingly violent one, and is described as one of the most severe of recent years, but it was exceedingly small, and the area of hurricane winds was

probably not more than 70 or 80 miles across. It did, however, comparatively little damage either at sea or on land, though it gave a small storm-wave over part of the Balasore district, and in passing over the land it very rapidly decreased in force and became of little importance. A small inrush of monsoon winds accompanied the advance of the storm, and rainfall become general over the province from the 8th to the 12th instant, but it then fell off in amount, and when the storm filled up and disappeared, there was a rapid rebound of pressure in Bengal, and it became in excess of the normal, and conditions become so unfavourable for the further general advance of the monsoon current over Bengal, that from the 18th to the 25th there was practically no rain in the province, except in the eastern and northern districts. From the latter date, however, which may be taken practically as the date of the commencement of the true monsoon season, rain became fairly general, though light, in all districts of the province. This date of the commencement of the rains is about ten to twelve days later than usual.

Rainfall during June was hence generally below the normal amount, except in the western districts, which were directly influenced by the cyclone, and in parts of the northern districts. The falls varied from about thirteen and fourteen inches in East and North Bengal, and eleven inches in Orissa, to only about five inches in South Bihar. For the whole province the falls may be said to have equalled about 95 per cent. of the normal. The falls, indeed, in North Bihar, Chota Nagpur, and Orissa were from ten to thirty per cent. in excess of the usual amounts, while North and East Bengal, South Bihar, and South-West Bengal showed defects varying from twenty-five to sixteen per cent. In certain smaller districts, indeed, the falls were less than two-thirds of the normal amount, and this was the case in Hooghly, Khulna, Chittagong, Dacca, Malda, Dinajpur, Jalpaiguri, Bhagalpur, and the Sonthal Parganas.

Notwithstanding the very low pressures which were recorded during the cyclone in the early part of the month, the mean pressure for June was in slight excess of the normal. Temperature for the whole province was about three-tenths of a degree in defect, though there were slight excess temperatures recorded in North and East Bengal, and South Bihar. The humidity recorded was generally above the normal by moderate amounts, but cloud proportion was practically normal.

In July the conditions in Bengal were for the greater part of the month very favourable for good and heavy rainfall. One very pronounced barometric depression, which indeed might be classed as a feeble cyclonic storm, formed in the Bay in the early part of the month, and crossed the coast near Balasore on the 10th, after which it moved in a westerly direction, and in its rear a heavy wave of monsoon winds swept over the province. Two feeble land-formed depressions passed through the province in the middle of the month, and also gave very heavy rain, while another very feeble depression was formed in the last week of the month in the north-west angle of the Bay, which passed across Orissa, but brought up little rain in its rear. A fairly steady and strong monsoon was blowing in the Bay for practically the whole month, and the monsoon current was also rather strong in Bengal. Hence, the general rainfall of the province was about four per cent. in excess of the normal. The heaviest rainfall was, however, deflected towards the north and north-east of the province, and North Bengal received the exceptionally heavy fall of 23·61 inches, which is nearly ten inches more than usual, or 68 per cent. in excess of the normal fall. The falls in Bihar and Chota Nagpur averaged about twelve inches and were practically normal, the fall in East Bengal equalled about fourteen inches, or two inches less than usual, and was 14 per cent. in defect, while in Orissa and South-west Bengal about ten inches of rain fell, and the amounts were about 10 to 17 per cent. in defect. Again, in some of the smaller districts the falls were much more deficient than indicated in the above general figures, and thus the defects in Howrah, Bankura, Chittagong, and Saran equalled nearly 30 per cent. of the normal, while in Balasore, Midnapore, and Dacca the defects equalled about 40 per cent.

In July the variations of barometric pressure in different parts of the month were unusually large, but the mean for the month was in defect by from 0·02″ to 0·04″, the defect being largest in South Bihar, Chota Nagpur, and Orissa, through which the depressions of the month generally passed, and being smallest in East and North Bengal. Temperature variations during the month were

unimportant, and the mean for the month was practically normal, but in the case of humidity and cloud proportion excess amounts were registered.

In August the monsoon current blowing in the Bay and over Bengal appears to have been about its normal strength, and it gave good general rain, and taking the rainfall of all the divisions, of the province into consideration, the amounts registered equalled 99 per cent. of the fall in normal years. The tendency of the heavy rainfall to localize itself in the north and north-east of the province, which was well marked in June and July, was still more strongly pronounced in August, and thus, while Bihar and North Bengal received falls of about 50 per cent. more than usual, the falls over the southern half of the province were from 30 to 40 per cent. in defect. At the commencement of August a fairly strong monsoon current was blowing from the Bay over Bengal, the inrush being caused by the indraught towards a depression which had passed inland over Orissa at the end of July. This indraught ceased with the filling up of the depression, and from about the 7th of August a slight and partial break in the rains set in over Orissa, South-West Bengal, and Chota Nagpur, and also over parts of East Bengal and South Bihar, which lasted up till about the 20th, but it was only from the 23rd or 24th that fairly general and heavy rain again set in. During this period there were no barometric depressions or storms forming either over the Bay or inland, and hence conditions were not very favourable for heavy rainfall, but from the 28th a depression began to form off the Gangam and Circars coasts, which developed slowly up till the 30th, when it had also advanced in a north-westerly direction and the centre was probably near Puri. During the evening of the 30th the feeble depression passed inland over Orissa, and on the 31st its centre was near Sambalpur. During the formation of this depression the rainfall-bearing current was again deflected towards it, and hence not allowed to sweep over Bengal, and thus towards the close of the month there was another slight and partial break in the rains, but after the depression had passed inland the monsoon current again began to sweep over Bengal, and heavy general rain recommenced, particularly in the south-western districts and Orissa. Thus, during August the number of barometric depressions formed either over the Bay or over the land area was remarkably small, and the month was on the whole a very quiet one, and, as indicated before, conditions were not very favourable for rainfall in the western, south-western, southern, and central districts of Bengal, though in the north of the province exceptionally heavy falls were received. Thus an average amount of more than twenty inches was recorded in North Bengal, or between six or seven inches more than usual. North Bihar also received nearly twenty inches, or more than eight inches in excess. South Bihar received fourteen inches, or two and a half inches more than usual, but all other districts were in defect. East Bengal only received ten inches, or five inches less than usual, while South-West Bengal, Orissa, and Chota Nagpur received from seven to nine inches, or from three to five inches in defect. In some of the smaller districts the defects were exceedingly large. Thus, defects of more than 60 per cent. of the normal rainfall were recorded in Howrah, Hooghly, Burdwan, Bankura, Singhbhum, and Manbhum, and of more than 50 per cent. in Midnapore, Chittagong, and Tippera, while falls of less than two-thirds of the normal were reported in Balasore, 24-Parganas, Birbhum, Nadia, Jessore, Faridpur, Dacca, and Hazaribagh. On the other hand, Purnea received a fall 113 per cent. in excess of the normal, Rangpur and Saran 96 per cent. in excess, and several other northern districts more than 50 or 60 per cent. in excess.

The pressure conditions in August were for the greater part of the time unfavourable for the free advance of the monsoon current over Bengal, for the general pressure of the province for the month was more than a twentieth of an inch in excess of the normal, and this excess was very strongly marked in such districts as Orissa, South-West Bengal, and East Bengal, where the rainfall was very deficient almost throughout the month. The variations of temperature for the month were again of little importance, and the mean temperature almost agreed with the normal. The humidity registered was also almost normal, while cloud proportion was distinctly below it.

The meteorology of September was characterized by the occurrence of three very distinct barometric depressions, or cyclonic storms, in the Bay, and by the formation of a very feeble low pressure area over South east Bengal

at the close of the month. This is perhaps quite as large a number of depressions as is usual, and three of them were also of moderate intensity. These small storms, however, brought up, on the whole, less rainfall than usual in such cases. The monsoon current blowing in the Bay of Bengal was also somewhat weak, and showed very unmistakable signs of weakness towards the close of the month, when it commenced to withdraw from the province at a decidedly earlier date than the normal, for the monsoon rains had practically closed in Bihar and Chota Nagpur on the 28th of September. Again, a very distinct break in the rains, which was fairly well established in all divisions of the province, commenced on the 13th instant, and lasted up to the 22nd. Hence the general rainfall of the province was very considerably in defect of the normal, and it only equalled about 73 per cent of the usual amount.

The principal condition determining the distribution of the rainfall in the province in September was the line of advance of the depressions from the Bay. The first formed on September 1st in the north-west angle of the Bay, and passed inland near Balasore on the evening of the 2nd. The second formed in the north of the Bay on the 7th, and passed inland on the 9th between False Point and Puri. The third depression formed near the centre of the Bay on the 18th, and crossed the coast on the evening of the 21st between Coconada and Masulipatam. These depressions, all of which were fairly influential, it will be seen, mainly affected the western and south western parts of the province, or the districts of Orissa, South-West Bengal, and Chota Nagpur, and they gave moderate to heavy rain over this area. The fourth depression was a feeble one, which existed in South-East Bengal at the close of the month, but it, nevertheless, gave heavy rain to the whole of East Bengal.

The heaviest rainfalls in September occurred in Orissa and East Bengal, which received between nine and ten inches, and while the fall in Orissa was practically normal, that in East Bengal was nearly three inches below it. Chota Nagpur received rather more than eight inches, which was also almost the normal fall. South-West and North Bengal received about seven inches, or falls rather largely in defect, while in Bihar only about five inches fell, which was also largely in defect.

In the following districts the rainfall was practically 50 per cent. and upwards in defect of the normal:—Pabna, Rajshahi, Malda, Dinajpur, Rangpur, Kuch Bihar, Purnea, Bhagalpur, Darbhanga, Shahabad, Monghyr, and Lohardaga, while the falls were less than two-thirds of the normal in the following districts:—Howrah, Jessore, Dacca, Muzaffarpur, Champaran, and Saran.

The general barometric pressure for September was slightly in defect of the normal, the defect ranging from about 0·03″ in the west and south-west of the province to 0·015″ in East and North Bengal. The general temperature for the month was nearly normal in all districts, except Bihar and North Bengal, where excess temperatures of a degree to a degree and-a-half were registered. Cloud proportion and humidity were also practically normal in amount during the month.

At the beginning of October an area of low pressure existed over South-East Bengal. This feeble depression apparently marked the retreat of the south-west monsoon current southwards, and when on the 2nd of October the depression filled up, or passed away in an easterly direction, the south-west monsoon current rapidly retreated from the province altogether, and from the 4th of October it had ceased to affect Bengal, and the true monsoom rains may be said to have ceased from this date. During the slow retreat of the south-west monsoon current down the Bay the weather was rather disturbed, and no less than three barometric depressions and one cyclonic storm formed in the Bay, and moved across it in a westerly direction. These depressions, as usual, rather largely affected the weather in Bengal, but the rainfall brought up to the province by them was rather smaller than usual.

After the withdrawal of the monsoon current from Bengal on about the 4th of October a period of fine settled weather set in, which lasted for about a week, when a feeble depression formed to the east of the centre of the Bay, and moving in a westerly direction crossed the Madras coast on the 12th, but it was not well-defined, and was decidedly feeble. A second more influential depression also formed to the east of the Bay a few days after this,

and moved towards the Madras coast, crossing it near Nellore on the 17th. A small but severe cyclone then formed in the rear of the second depression, and, following in nearly the same path, crossed the Madras coast a little to the south of Coconada on the 20th. This was a very influential storm, and caused a wave of moisture-laden winds to advance northwards up the Bay and over Bengal, and this wave gave fairly general rain from about the 21st to the 27th, but about this latter date the moist wind current was again driven back to the Bay. The fourth depression also originated to the east of the centre of the Bay on the 27th, and advanced towards the west coast, and on the 29th an influential barometric depression crossed the coast between Nellore and Masulipatam. This depression in breaking up again caused a wave of moisture-laden winds to advance northwards up the Bay and over Bengal, but the moist winds did not penetrate as far as in the previous case, and it gave general rain to only the southern half of Bengal. This advance of humid winds spread over the southern districts on the 30th and 31st, when good general rain was again received on those days.

By these actions heavy rain was received in East Bengal, Orissa, Chota Nagpur, and South-West Bengal, and moderate rain in North Bengal and South Bihar, but practically little or no rain fell in North Bihar. The actual falls varied from between six and seven inches in Orissa and East Bengal, and from three to four inches in South-West Bengal and Chota Nagpur, to an inch in South Bihar and North Bengal, and a quarter of an inch in North Bihar. The falls in East Bengal, Chota Nagpur, and Orissa were in decided excess of the normal, but elsewhere they were in defect, the deficiency being large in North Bengal and Bihar. In the districts of Darbhanga, Muzaffarpur, Champaran, Saran, Shahabad, and Patna practically no rain at all fell, while in the following the falls only equalled a third or less than a third of the normal amounts:—Pabna, Bogra, Rajshahi, Dinajpur, Kuch Bihar, Jalpaiguri, Darjeeling, Purnea, Bhagalpur, Gaya, and Palamau Falls of less than two-thirds the normal amount were also registered in Midnapore, Howrah, Nadia, Murshidabad, Mymensingh, Malda, Rangpur, Monghyr, and Sonthal Parganas.

In October the variations of pressure from the normal were very small, and did not average as much as a hundredth of an inch below the normal for the whole province; indeed the defect was only a few thousandths of an inch in all divisions except South Bihar and Chota Nagpur, where it slightly exceeded a hundredth of an inch. The changes of temperature during the month were unusually large, but the variations in different parts of the month to a great extent neutralized each other, and hence the mean temperature for the month for the whole province was only in excess of the normal by three-tenths of a degree. Cloud proportion in October, owing to the early withdrawal of the monsoon current, was much lower than usual, but humidity was about the ordinary amount.

In most years the meteorological summary of the monsoon season ends with the review of October's weather, but as the meteorology of the early part of November was decidedly important, the tables appended to this summary have been made up to include the first half of November. As stated previously, quite at the close of October a wave of humid winds, forced up by the action of a barometric depression which had formed in the Bay and had crossed towards the Madras coast, had advanced over the southern half of the province, and was giving heavy rain over this area. In connection with this advance of moist winds and disturbed weather, pressure fell so rapidly over Bengal, that at the beginning of November a feeble low pressure area existed over the south-western districts of the province, with a centre near Chaibassa and Balasore, on the 1st of the month, but which on the 2nd was near Calcutta and Jessore, and round which an irregular cyclonic circulation of winds existed. From the 3rd, however, the depression began to fill up, and by the 5th it had practically disappeared, and the pressure distribution rapidly became that which characterizes the beginning of the cold weather or north-east monsoon season in Bengal. During the existence of this depression exceedingly heavy rain fell in the southern districts of the province, and for the first four or five days of November an average rainfall of three and a half inches was reported in East Bengal, a fall of two and a half inches in South-West Bengal, a fall of about an inch in Orissa, and half an inch in Chota Nagpur, while North Bengal and Bihar were almost absolutely rainless. These figures, of course, in the case of South-West and East Bengal

represent many times the normal rainfall for the period. From the 5th of November, however, the moist current from the Bay finally withdrew from Bengal. and ordinary cold weather conditions were established from that date.

The principal features of the monsoon season of 1892 and of the previous months of the year have therefore been as follows:—

1. Except in January, when there was slight excess, the pressure of the pre-monsoon months up to and including May was rather considerably in defect of the normal, the usual defect equalling from 0·04″ to 0·08″.

2. Temperature was in distinct excess in each of the first five months of the year, the usual excess equalling from 1° to 3°.

3. The number of cold weather storms which occurred in the early part of the year was decidedly small, and those which did occur were of comparatively little importance.

4. The hot weather storms of the type called nor'westers were also not numerous in March or April, but fairly numerous in May.

5. Rainfall in the pre-monsoon period was very decidedly in defect of the normal in all divisions except East and North Bengal, in which districts rather heavy rain fell in April and May.

6. The first small, or preliminary burst, of the monsoon rains in Bengal was brought up by the action of a severe, but small, cyclone, which formed in the early part of June in the north-west angle of the Bay, and passed inland between Saugor Island and Balasore, but the effect of this inrush rapidly died away.

7. The monsoon current did not permanently establish itself in Bengal until the the 24th or 25th of June, or about 10 or 12 days later than usual.

8. The strength of the monsoon current from the date of its establishment up to its withdrawal appeared to be fairly normal. The rainfall brought up by this current, however, was mainly deflected towards the north and north-east of the province.

9. The number of barometric depressions and feeble cyclonic storms formed during the south-west monsoon season was rather smaller than usual, and they, in the majority of cases, passed from the north-west angle of the Bay over Orissa and through Chota Nagpur, but the rainfall brought up by them was decidedly lighter than usual.

10. Hence, during the monsoon season, though the rainfall of the province taken as a whole was nearly normal, North Bengal and North Bihar received falls very largely in excess of the usual quantities, while all other divisions received defective falls, the defects being very large in some parts of South-West Bengal, Orissa, and Chota Nagpur. Parts of East Bengal also showed very deficient rainfall.

11. The monsoon current commenced to retreat from Bengal about a week earlier than usual, as general rainfall practically ceased in Bihar from the 27th or 28th of September, and in lower Bengal from about the 4th of October, and all rainfall in the province after this date practically was brought up by the action of cyclonic storms or barometric depressions in the Bay, which formed in front of the retreating south-west monsoon current, and which depressions afterwards advanced towards the west coast of the Bay.

12. As the monsoon current finally established itself in Bengal about ten days later than usual, and withdrew about a week before the normal period, the south-west monsoon season was a decidedly short one.

13. During October more barometric depressions and small cyclonic storms were formed in the Bay than usually occur, but the majority of them were of little importance. Only one fierce, but small storm formed, which crossed the west coast of the Bay near Coconada. Two of these disturbances, one in the middle of October, and one quite at the close of that month, caused a wave of humid winds to advance northward, and hence gave moderate to heavy rain in Bengal, and the rainfall in the second half of October and early in November was very important.

14. The rainfall brought up in this way was particularly heavy in Orissa, Chota Nagpur, South-West and East Bengal; smaller amounts extended to South Bihar and North Bengal, but North Bihar was practically rainless.

15. The following tables give briefly the amount and variation of the rainfall in each of the seven meteorological divisions, month by month, for the period from the 1st of May to 15th November inclusive.

Actual Rainfall in inches.

Meteorological Divisions.	May.	June.	July.	August.	September.	October.	1st—15th November.	Monsoon Season, 1892.
Orissa ...	1·93	11·64	10·40	7·98	9·88	6·26	0 98	49·07
South-West Bengal ...	4·82	8·51	10·62	7·33	7·00	3 93	2·44	44·65
North Bengal ...	12·72	13·24	23·61	20·29	6·78	1·22	0·03	77·89
East Bengal ...	11·16	14·32	14·35	10·53	9·29	6·43	3·44	69·52
North Bihar ...	2·13	8·95	12·93	19·70	4·44	0·25	Nil	48 40
South Bihar ...	0·86	5·43	11·96	13·88	5·22	1·00	0·05	38·40
Chota Nagpur ...	1·40	8 83	12·58	9·01	8·32	3·60	0·49	44·23

Variation of actual Rainfall from the average in inches.

Orissa ...	— 1·94	+ 2·85	— 2·10	— 3·43	— 0·37	+ 0 10	+ 0·07	— 4·82
South-West Bengal ...	— 0·58	— 1·63	— 1·38	— 5·38	— 2·04	— 0·40	+ 2 16	— 9·25
North Bengal ...	+ 4·20	— 4·33	+ 9·53	+ 6·42	— 6·64	— 3·16	— 0·11	+ 5·91

North Bihar ...	— 1·00	+ 0·34	+ 0·75	+ 8·20	— 5·20	— 3·27	— 0 03	— 0·21
South Bihar ...	— 1·51	— 1·23	— 0·18	+ 2·43	— 2·76	— 2·30	— 0 07	— 5·62
Chota Nagpur ...	— 1·25	+ 0·85	— 0·58	— 4·55	— 0·39	+ 0·63	+ 0·28	— 5·01

Variation expressed in a percentage of the normal fall.

Orissa ...	— 50	+ 32	— 17	— 30	— 4	+ 2	+ 8	— 9
South-West Bengal ...	— 11	— 16	— 12	— 42	— 23	— 9	+ 771	— 17
East Bengal ...	+ 49	— 25	+ 68	+ 46	— 49	— 72	— 79	+ 8
North Bengal ...	+ 21	— 21	— 14	— 34	— 23	+ 18	+ 347	— 11
North Bihar ...	— 32	+ 4	+ 6	+ 71	— 54	— 93	— 100	— 1
South Bihar ...	— 64	— 18	— 1	+ 21	— 35	— 70	— 58	— 13
Chota Nagpur ...	— 48	+ 11	— 4	— 34	— 4	+ 21	+ 133	— 10

16. Finally, the rainfall of the whole province from May to the middle of November inclusive has averaged 53·17 inches, while the normal fall for the period is 57·13 inches. So that the actual fall has shown a defect of 3·96 inches. Expressed as a percentage, the actual rainfall of Bengal for the monsoon season of 1892 has equalled 93 per cent. of the normal amount.

Meteorological Office, Bengal,
The 10th December 1892.

A. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

TABLE I.

Actual Monthly Rainfall of districts in Bengal for the months of May to 15th November 1892.

[*N. B.*—The figures in this table are the arithmetical averages of the corresponding figures in the returns for the subdivisional stations.]

Meteorological Division.	District.	May.	June.	July.	August.	September.	October.	1st—15th November.	Total.
Orissa	Puri ...	1·06	12·97	10·04	8·32	10·96	5·76	1·71	50·82

			Dum-Dum ... . 11 0 }
8	Nadia ,, 7, '93	Nil	Weather—cloudy; getting warm. *Rabi* crops on the ground doing well. Price of rice remains unchanged.
	Kushtia ...	Nil	
	Meherpur ...	Nil	
	Chuadanga ...	Nil	
	Ramghat ...	Nil	
9	Khulna ,, 7, '93	Nil	Weather—seasonable. Harvesting of *aman* continues. Outturn good except in Paikgachha. Common rice selling at from 12 to 16 seers per rupee. Prices continue to be high in Satkhira. Prospects of *rabi* crops good. Fodder and water sufficient.
	Bagerhat ...	Nil	
	Satkhira ...	Nil	
10	Jessore ,, 7, '93	Nil	Weather—seasonable. Harvesting of *aman* nearly over; outturn good. Prospects of winter crops fair. Fodder and drinking water sufficient. No cattle-disease. Prices of rice stationary.
	Jhenida ...	Nil	
	Magura ..	Nil	
	Narail	Nil	
	Bangaon ...	Nil	
11	Murshidabad ,, 7, '93	0·09	Weather—cloudy during the latter part of the week. Harvesting of *aman* nearly finished. *Kalai* being still harvested. State of *rabi* crops appear to be favourable except that of wheat in Jangipur. There is sufficient supply of fodder for cattle. Common rice selling at 13 seers per rupee.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and State and prospects of the crops.
BENGAL—*concld.*			
CHITTAGONG DIVN. 12	Chittagong Jan. 7, '98	Nil	Weather—seasonable. Prospect of crops good. *Rabi* cultivation in progress. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
13	Noakhali „ 7, '98	Nil	Weather—seasonable. Harvesting of *aman* already completed. *Rabi* crops are still being sown. Cow-pox and *damka* prevalent amongst cattle in Sundip. Fodder and water available everywhere. Common rice from 13 to 14 seers per rupee.
14	Tippera „ 7, '98	Nil	Weather—seasonable. *Aman* crop has nearly been harvested. State of standing crops good. Price of rice stationary.
15	Chittagong Hill Tracts. „ 6, '98	Nil	Weather—seasonable. Harvesting of winter paddy almost over. Vegetables being sold in the bazar. Cutting and pressing of sugarcane commenced. No cattle-disease reported. Prices of common rice:— Rangamati ... ... 10 Srs. Randerban ... ... 11 per rupee. Manicksury 16
DACCA DIVN. 16	Dacca „ 7, '98	Nil	Weather—seasonably cold and fine. Harvesting of *aman* paddy nearly completed. *Rabi* crops doing well. *Kalai* being gathered. Fodder available. No cattle-disease. Common rice selling at from 12 to 13½ seers per rupee.
17	Faridpur „ 7, '98	Nil	Weather—seasonable. Cloudy on the 7th. Harvesting of *aman* not yet completed everywhere. *Mug* and *kalai* continue to be harvested. Cultivation and sowing of *jati* paddy in progress in the char lands. Common rice sells at 13 seers per rupee at Sadar and Goalundo and 14 seers at Madaripur. Condition of cattle good. Fodder and water available.
18	Backergunge „ 7, '98	Nil	Seasonably cold weather. Reaping of winter rice is far advanced. Coarse rice sells at from 10 to 15 seers per rupee. Fodder and water enough.
19	Mymensingh „ 7, '98	Nil	Weather—seasonable. Prospects of standing crops good. Rice is selling at from 12 to 14 seers per rupee. No cattle-disease. Fodder and water sufficient.
RAJSHAHI DIVN. 20	Dinajpur „ 7 '98	0·22	Weather—cool and cloudy. The rain is beneficial to *rabi* crops, specially to wheat, barley, and tobacco. Prospects of standing crops continue good. Harvesting of winter rice nearly finished. Sugarcane being pressed. Lands being prepared for *bhadoi* and jute. The rain will facilitate the cultivation for these crops. Prices of rice stationary. Condition of cattle good. Supply of fodder and drinking water plentiful.
	Thakurgaon ...	Nil	
21	Rajshahi „ 7, '98	Nil	Weather—cloudy and cool. Harvesting of *aman* coming to a close. Prospects of *rabi* crops good. A few cases of small-pox among cattle reported from thana Singra; otherwise the condition of cattle good. Fodder and water sufficient. Price of common rice ranges from 12 to 18 seers per rupee.
	Nator ...	Nil	
	Naugaon ...	Nil	
22	Rangpur „ 7, '98	0·37	Weather—seasonable. Prospects of *rabi* crops good. Lands are being ploughed for *bhadoi*. Price of rice unchanged.
	Kurigaon ...	Nil	
	Gaibanda ...	Nil	
	Nilphamari ...	Nil	
	Ulipur ...	Nil	
23	Bogra „ 7, '98	Nil	Weather—seasonably cold. Harvesting of *aman* still going on. *Rabi* crops look favourable. Rice selling at 15 seers per rupee. No cattle-disease except in one village in thana Nawabganj. Supply of fodder and water sufficient.
24	Pabna „ 7, '98	Nil	Weather—cool; cloudy during the last two days. *Aman* is still being harvested in parts of the Sadar subdivision. Prospects of *rabi* crops continue good. Price of common rice at Sirajganj is Rs. 2-14 to Rs. 3-12 per maund and at Pabna 13½ seers per rupee. Condition of cattle good. Fodder and water sufficient.
25	Darjeeling „ 7, '98	0·09	Weather—mornings clear; hills overclouded by the afternoon; nights chilly. Rain on Friday night at Darjeeling. *In the hills*:—Wheat, barley and potatoes progressing favourably. *Tori, phaphar* and *marua* being harvested. *In the terai*:—Paddy nearly all harvested, while potato harvesting still going on. Tobacco and mustard doing well. Prices of coarse rice:—
	Siliguri ...	Nil	
			Srs. Hills ... ... 10 per rupee. Terai 12
26	Jalpaiguri „ 7, '98	0·04	Weather—very cold and cloudy. Harvesting of *kaimanti* paddy still continues. Prospects of tobacco and potatoes good. Common rice sells at 13 seers per rupee. Water and fodder sufficient. No cattle-disease.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHAR.			
BHAGALPUR DIVN. 27	Monghyr Jan. 7, '93	Nil	Weather—cold and cloudy towards the latter end of the week. Harvesting of rice has been completed. Prospects of indigo are favourable. Condition of cattle good. Prices of common rice:— Srs. Sadar ... ... 13 to 16 Begusarai ... ... 16 Jamui ... ... 14½ per rupee.
	Begusarai ...	Nil	
	Jamui ...	Nil	
28	Bhagalpur ,, 7, '93	0·04	Weather—cloudy. Rice harvest still in progress. Harvesting of mustard has commenced, and in Supaul and Banka it is expected to yield from 12 to 16 annas outturn. Rain wanted for the *rabi* crops.
	Banka ...	Nil	
	Madhipura ...	Nil	
	Supaul ..	Nil	
29	Purnea ,, 7, '93	Nil	Weather—seasonable. Harvesting and threshing of *aghani* going on briskly. *Rabi* doing well. Fodder and water plentiful. No cattle-disease. Price of rice continues the same.
	Kishanganj ...	Nil	
	Araria ...	Nil	
30	Malda ,, 7, '93	0·01	Weather—latter part of the week cloudy with a drizzling rain last night (6th). Harvesting and threshing of winter rice approaching completion. Prospects of wheat, barley and other winter crops continue satisfactory. Common rice sells at from 12 to 17 seers per rupee. Supply of fodder and drinking water sufficient.
31	Santhal Parganas ,, 7, 93	0·8	Weather—cool; occasionally somewhat cloudy. Harvesting and threshing of paddy nearly completed; outturn fair. Prospects of *rabi* crops good. Fodder and water sufficient.
	Deoghur ...	Nil	
	Godda ...	Nil	
	Jamtara ...	Nil	
	Pakur ...	Nil	
	Rajmahal ...	Nil	
PATNA DIVISION. 32	Patna ,, 7, '93	0·22	Weather—cool and occasionally cloudy. There has been a slight shower of rain last night (6th) which will be beneficial to the *rabi* crops. Harvesting and threshing of paddy nearly finished. *Rabi* crops generally in ear. Poppy doing well. Prices of common rice:— Srs. Sadar ... ... 17 Bihar ... ... 17 Dinapore ... ... 13 to 14 Barh .. .. 13 per rupee.
33	Gaya ,, 7, 93	0·02	Weather—cold and clear in the first part of the week and cloudy towards its close. Harvesting of paddy crop approaching completion, and threshing is in progress. *Rabi* crops are in flower. Prospects of poppy good. Pressing of sugarcane is still going on. Common rice sells at 14 seers per rupee at Gaya. Fodder and water for cattle sufficient.
	Aurangabad ...	0 01	
	Nawada ...	Nil	
	Jahanabad ...	0·04	
34	Shahabad ,, 7, '93	0 26	Weather—close and cloudy. Harvesting of rice nearly over Sugarcane pressing in progress. Rain wanted in Bhabuah. Prospect of *rabi* has changed for better on account of slight rain in Sasaram and Sadar. Fodder and water sufficient. Prices stationary.
	Buxar ...	0·18	
	Sasarám ...	0·20	
	Bhabhua ...	0·10	
35	Darbhanga .. 7, '93	0 67	Weather—cloudy with east winds. Harvesting of winter rice completed. *Rabi* crops will be greatly benefited by the rain which fell last night (6th). Poppy doing well. Common rice selling at 15 seers per rupee. Supply of fodder and water sufficient.
36	Muzaffarpur ,, 7, '93	0·94	Weather—occasionally cloudy. Harvesting still continues. *Rabi* doing well. The recent rain will much improve it, but more rain will do good. Fodder and water sufficient.
	Hajipur ..	Nil	
	Sitamarhi ...	0·03	
37	Saran ,, 7, '93	0·23	Weather—cloudy and unseasonably warm. *Rabi* prospects still good. Rain would be of much benefit to them. Even the slight drizzle which has fallen in the last day or two reported to have been beneficial. Condition of poppy excellent. Prices of common rice:— Srs. c. Chapra ... ... 13 8 Siwan ... ... 13 2 Gopalganj ... ... 14 15 per rupee.
	Siwan ...	0·14	
	Gopalganj ...	0·10	
38	Champaran ,, 7, '93	0·15	Weather—very cool and cloudy. Harvesting of rice crop is over, but threshing still continues. There has been a slight rainfall twice during the week, which will do good. Poppy plants doing well, and second weeding in progress. The crop is in good condition. Fodder and water for cattle sufficient. Prices slightly rising.
	Bettia ...	0 04	
ORISSA.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF DECEMBER 1892.

THE most important features in the meteorology of December have been—

1. There has been an almost complete absence of cold-weather storms of any importance originating in or coming from North-West India, which in most years pass through Bengal in December, particularly in the second half of the month Only one feeble disturbance indeed began to approach Bengal from North-Western India at the close of December. Fine weather with lightly clouded or almost cloudless skies has therefore prevailed over the greater part of Bengal practically throughout the month.

2. The retreat of the south-west monsoon current in the south of the Bay in December has also been unattended with the formation of any cyclonic storms, such as frequently occur, and only one or two small barometric depressions of comparatively little importance have formed in the south of the Bay and have drifted in a westerly direction towards the Madras coast. One of these depressions had formed at the end of November, and on the 1st and 2nd of December it was approaching the Madras coast. but it filled up before passing over the land, and only gave squally weather and in some cases a gale of wind with moderate rain to parts of that coast. A second feeble depression or area of disturbance probably formed on the 14th or 15th, in the centre of the south of the Bay, and drifting in a westerly direction affected the South Madras coast on the 17th. Another period of disturbance commenced in the extreme south of the Bay on the 20th, but scarcely affected the Madras coast at all, and the disturbed conditions probably passed away in a westerly direction over Ceylon. These disturbances were, however, of so feeble a nature and so far south in the Bay, that they had absolutely no effect on the weather conditions in Bengal.

3. Owing, therefore to the almost entire absence of disturbed weather during December, the rainfall occurring in Bengal has been confined to a few showers in the districts in and near the Darjeeling Hills. Indeed, rainfall has been absent from the entire province except for falls averaging about half an inch in the Darjeeling and Jalpaiguri districts. Rainfall has thus been in defect of the normal in all Divisions

4. The mean pressure for the month has been unusually high, and there has been a general excess of from 0·03″ to 0·05″. This excess on the whole has been largest at the eastern and southern stations ; and in such cases as Cuttack, Barisal, Faridpur, Bogra, and Dinajpur, the excess has been larger than a twentieth of an inch.

5. Temperature, on the other hand, has been in defect of the normal at almost all stations, the defect being very small in the west and north of the province, and comparatively large in the southern districts, where defects of from 2° to 2·5° have occurred at Calcutta, Jessore, and Krishnagar. This defect has, however, been almost entirely confined to the night or minimum temperatures, which in several cases have ranged from 3° to 4° below the normal. Indeed, over the western half of the province the mean day or maximum temperature for the month has been in distinct excess of the normal.

6. Owing to the absence of disturbed weather, the mean cloud proportion for the month has been in rather large defect of the normal, while, on the other hand, humidity has been fully equal to, and in a good many cases in distinct excess of, the normal.

The meteorological changes for the month of December do not call for any detailed account. Throughout the last twenty-five days of November fine settled weather had obtained in Bengal, and the cold weather conditions were indeed throughout this time unusually strongly developed, and these conditions again obtained at the beginning of December, when temperature was generally from 1° to 2° in defect, pressure was in excess of the normal, and a very steady north-westerly wind current prevailed over the province. Early in December, however, there was very squally weather in the centre and south-west of the Bay, due to the passage of a feeble barometric depression in a westerly direction from the centre of the Bay to the Madras coast, but this did not in any way affect the weather in Bengal. This fine, settled and unusually cool weather continued over the whole province up to the 6th, when slightly unsettled weather commenced in the Darjeeling Hills, which gave a few showers of rain in this and the Jalpaiguri districts. From the 9th, however, again a period of absolutely fine and very cool weather set in over Bengal, which lasted up till the 23rd, when two or three showers fell in the Darjeeling and Jalpaiguri districts, but from the 25th again weather became fine. Throughout almost the whole of the month indeed, and up till about the 29th or 30th, except for the two slight disturbances in the hills, weather in Bengal was absolutely settled. Conditions, however, began to change slightly from the 25th, for on the morning of the 30th a very distinct and rather influential barometric depression had appeared over Rajputana and North-Western India generally, which was travelling so rapidly in an easterly direction that on the 30th it had reached the neighbourhood of Bahraich in the North-West Provinces, but it was also rapidly filling up, and on the 1st of January it had practically entirely disappeared. In front of the advancing depression, however, as is usual in such cases, temperature and humidity rose very rapidly, and thus at the close of the month at some of the western stations of Bihar, the mean temperature had

become no less than from 4° to 6° in excess of the normal. The conditions at the close of the month in this respect were thus in rather marked contrast to those of the greater part of December.

Pressure—At the beginning of the month was in distinct excess of the normal. For the week ending the 10th instant, the excess equalled about two-hundredths of an inch. In the following week the excess had increased to about a twentieth of an inch, but in the week ending the 24th instant it had fallen to about 0 03." For the last week, notwithstanding the advancing depression from the North-West Provinces, the excess had again increased and equalled about 0·06." For the whole month, therefore, pressure has been in excess of the normal, the excess averaging about 0·04", and ranging generally from 0·03" to 0·05." The smallest excess pressures have been shown in the west and north of the province and in Assam. Excess pressures of only about 0 02" have been recorded at Hazaribagh, Patna, Darbhanga, Jalpaiguri, and Dhubri, and at Sibsagar an almost normal pressure has been registered. On the other hand, the excess has been larger than 0·05" at Dinajpur, Bogra, Faridpur, Barisal, Cuttack, Arrah, and Chapra.

Temperature.—The mean temperature of the province was 1·7° in defect of the normal at the beginning of the month. In the week ending the 10th, the defect equalled about a degree, but at the end of this period some unusually low night temperatures were recorded, and defects of 7° to 9° were reported on the 9th and 10th at such stations as Barisal, Jessore, Krishnagar, Calcutta, Bankura, Chittagong, and Dehri. In the following week the defect had increased to 2·3°. In the week ending the 24th the defects had become small except in East and South-West Bengal, but even in these districts they were only about a degree; and finally, in the last week of the month the temperature had risen to the normal value. The mean temperature for the whole month has been in defect of the normal, the defects ranging from a few tenths of a degree at the western stations of Bihar to about 2° to 2·5° in South-West Bengal at such stations as Calcutta, Jessore, and Krishnagar. The average day temperatures of the month have been in excess over the western half of the province by about a degree, and in defect over the eastern half by a few tenths of a degree. The minimum temperatures, on the other hand, have been in defect in all districts, the defects averaging from 1° to nearly 4°. In Assam the mean temperature has been in defect by 0 7°.

The general variation of temperature from the normal of the month is best shown by the following table, which gives the variation of the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province, week by week, throughout the month :—

Stations	Week ending 3rd December 1892.			Week ending 10th December 1892.			Week ending 17th December 1892.			Week ending 24th December 1892.			Week ending 31st December 1892.

Rainfall.—Except for a fall of 0 72 inch in the Darjeeling district and one of 0 36 inch in the Jalpaiguri district, the whole province of Bengal has been rainless throughout the month. In Assam the only rainfall reported has been 1·07 inches at Sibsagar.

The following table gives in a condensed form the summary of the rainfall information in Bengal for the whole year. It gives a comparison between the actual monthly and total rainfall of the year with the normal values in each of the seven meteorological divisions of Bengal, the actual falls being expressed as percentages of the normal amounts. From these figures it will be seen that all the districts, except North Bihar and North Bengal, have

received largely defective falls during the year, and that in South-West Bengal the defects exceed 20 per cent :—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Actual rainfall of the year 1892 expressed as a percentage of the normal fall for the period.

Meteorological Office, Bengal ;
The 10th January 1893.

A. Pedler,
Meteorological Reporter to the Govt. of Bengal.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of December 1892.

	Inches.	Date.	Hour.
The mean pressure of the month	30 049		
The average pressure of December from 24 years' registers ...	30·027		
The highest pressure in the month	30 189	28th	10
The lowest pressure in the month	29 901	5th	16
The range of pressure	0·288		
	Hours.		
The total number of hours of bright sunshine during the month	273·7		
The maximum possible number of hours of sunshine ...	332·8		
	⊖		
The mean temperature of the month	63·2		
The average temperature of December from 24 years' registers	68·0		
The highest temperature in the month	79·5	31st.	
The lowest temperature in the month	49·0	10th & 26th.	
The range of temperature during the month	30·5		
The mean daily range of temperature	23·4		
The greatest range of temperature in one day	26·5	29th.	
	Per cent.		
The mean humidity of the month	71		
The average humidity of December from 24 years' registers ...	71		
	Inches.		
The mean vapour tension of the month	0·400		
The average vapour tension of December from 9 years' registers	0·173		
The mean cloud proportion of the month	0·54		
The average cloud proportion of December from 15 years' registers	1·57		
The total rainfall of the month	Nil.		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	Nil.		
The average fall of December from 48 years' registers ...	0·23		
The greatest fall in 24 hours	Nil.		
	Days.		
The number of rainy days in the month	Nil.		
The average number of rainy days in December from 24 years' registers	1		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	128·7		
The mean difference of sun and air temperatures	52·8		
The greatest sun temperature	134·5	22nd.	
The greatest excess of sun over air temperature	57 3	22nd.	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	43·6		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	9·1		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	11·2	12th.	
	Miles.		
The mean movement of the wind per day	43·8		
The greatest movement of the wind in one day	76·0	1st.	
The greatest movement of the wind in one hour	10·0	7th, 1 to 2 P.M.	

The number of hours with winds from each of the 8 points—

N. 284, N.E. 19, E. 2, S.E. 1, S. 0, S.W. 5, W. 76, N.W. 162, Calm 195.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 2·3° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

C. LITTLE,

For Meteorological Reporter to the Govt. of India.

* Mean of 4 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The *humidity* of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The rainfall and the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations in the district, *i.e.*, from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 7th of January 1893.

Variation from normal mean.	Mean 9 A.M., temperature.	Average humidity at 9 A.M.	Average cloud amount at 9 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 10th January* 1893.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 7TH OF JANUARY 1893.

At the close of the previous week a very considerable barometric depression had crossed the Indus Valley and had moved eastward over Rajputana, where it existed on the 30th instant. The depression had continued to travel eastward very rapidly, and on the morning of the 31st, or the last day of the previous week, it had reached the neighbourhood of Bahraich in the North-West Provinces, but in its advance it had filled up so rapidly that on the 31st it was of comparatively little importance. In front of this depression, however, the usual very rapid increase of temperature and humidity took place, and thus at the close of the previous week temperature and humidity were unusually high in Bengal. On the 1st of January the feebly unsettled conditions left after the depression had filled up continued to give high temperature and rather high humidity with lightly to moderately clouded skies to Bengal, but the only rainfall reported was 0·02 inch at Gnatong, and pressure also continued to fall very slowly over the province on this day. On the 2nd, pressure began to rise moderately over the greater part of the province, the effects of the depression to a great extent disappeared, and temperature and humidity generally fell. The sky began to clear, and again the only rainfall reported was a slight amount at Gnatong. On the 3rd pressure had risen in and near the hills, but it was steady elsewhere, and a further decrease of temperature, humidity and cloud proportions took place, while the whole province on this day was rainless. On the 4th pressure increased at the majority of stations, and became in excess of the normal by about 0·04″ to 0·07″. Temperature, however, began to rise rapidly at the Bihar stations on this day. This was again in connection with the advance of a considerable barometric depression which had appeared over Rajputana on the 3rd, and which advanced in an easterly direction, so that on the 4th it was near Saugor, but it had also rapidly filled up and had almost disappeared. Nevertheless, it gave rather heavily clouded skies at some of the western stations, and two or three light showers were reported in South Bihar. On the 5th the depression had practically ceased to exist, though pressure was falling moderately to rather rapidly over the whole of the province. A further rather rapid increase of temperature had also occurred, while humidity had become exceedingly high, and both were in large excess of the normal. The sky also clouded over rather heavily over a large part of the province, and rainfall was again reported in parts of Bihar. A further rapid fall of pressure, amounting at many stations to nearly a tenth of an inch, took place on the 6th instant, and pressure became rather largely below the normal, while, on the other hand, temperature continued high, the excess equalling from 2° to 4°. Rainfall on this day was, however, absent. On the 7th the pressure changes were generally small but exceedingly irregular, and the distribution of pressure became decidedly abnormal, as the highest pressures were recorded in North-East Bengal, comparatively low readings being reported in the west of the province. Accompanying these disturbed conditions, the mean temperature had become about 4° in excess of the normal, humidity was very high, the sky had clouded over rapidly, and fairly general rain was reported in Bihar and North Bengal, while showers also occurred in parts of South-West Bengal and Chota Nagpur.

Pressure.—The variations of pressure from the normal have been very large during the week, but the mean pressure has averaged about 0·01″ to 0·02″ in excess of the normal. In a few cases, however, slight defects have been registered, and this is the case at Gaya, Dehri, Jalpaiguri, and Rangpur.

Temperature.—The mean temperature of the province for the week has been 2·1° in excess of the normal. This excess has, however, been largest in Bihar and Chota Nagpur, where it has averaged about 3°.

The distribution of temperature for the week in the province generally and its variations from the normal value are clearly seen in the table below, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are compared with their normal values for the period. In this week the excess has been generally most largely developed in the night or minimum temperatures, which at such stations as Gaya and Patna have been from 4° to 6° above the normal:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 7th January 1893.

	Normal mean maximum temperature for the week ending 7th January.	Actual mean maximum temperature for the week ending 7th January 1893.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 7th January.	Actual mean minimum temperature for the week ending 7th January 1893.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 7th January.	Actual mean daily temperature for the week ending 7th January.	Variation of actual mean from the normal

Rainfall.—The average fall in the Darbhanga district has equalled 0·51 inch; the falls in Bhagalpur, Muzaffarpur, Saran, and Shahabad have been about a third of an inch; those in Rangpur, Dinajpur, Purnea, and Patna from a sixth to a quarter of an inch; and those in Rajshahi, Champaran, and Sonthal Parganas about a tenth of an inch. In other cases the falls have been less than a tenth of an inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 7th of January 1893:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1892.

The total fall from 1st to 7th January 1893	Nil
The average fall of the corresponding period for 24 years, S.-G.'s Office ...	0·04

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌓, dew; ≡, fog.

* Includes 523 tons and 583 tons of coal during 1892 and 1891 respectively carried for Revenue, for which no "Up" and "Down" register maintained.

† Railway plant and rolling-stock 51 tons and 79 tons for the years 1892 and 1891, respectively, for which no "Up" and "Down register maintained.

Statement of principal commodities carried on the Bengal Central Railway during the month of September 1892.

Decreases.

Betel-nuts ... ... 417 tons.

The decrease was principally in despatches from Khulna and the Flotilla stations, other modes of carriage being availed of The increases and decreases in all other commodities are due to ordinary fluctuations of traffic and call for no special remarks.

James Shaw,

Joint Auditor and Examiner of Accounts.

Calcutta, *the 22nd December* 1892.

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH.

WITH reference to notification No. 5058F in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the prize for scientific research will be given this year to the author of the best original essay giving the results of original research or investigation in "Mathematics" composed during the year 1893.

Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize.

The essays of competitors must be sent in to the President, Asiatic Society, by the end of December this year. The prize will be adjudged to the best competitor and awarded publicly at the annual general meeting of the Asiatic Society in February 1894.

Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize to be awarded, but the amount to be retained, so that in any future year two or more prizes may be given, or the prize enhanced in the case of an exceptionally good essay.

C. A. ELLIOTT
J. Q. PIGOT } *Trustees.*

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 17th January 1893.—Under the provisions of section 5 of the Indian Registration Act III of 1877, the Lieutenant-Governor sanctions the establishment of a new Rural Sub-Registry Office with head-quarters at Bagaha, having jurisdiction over thana Bagaha, including the subordinate outpost of Madhubani, in the sub-division of Bettiah, in the district of Champaran. The Registration sub-district of Bettiah will henceforth be restricted to thanas Bettiah and Hardi only. This notification will take effect on and from the 1st February 1893.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 16th January 1893.

No. 9.—Mr. E. R. Gardiner, Assistant Engineer, has been granted by Her Majesty's Secretary of State for India furlough for one week in extension of that previously granted.

RAILWAY.

The 17th January 1893.

No. 13.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Noakhali-Tippera Section of the Assam-Bengal Railway, commencing from the river Big Feuny in the Noakhali district to Lakshum in the Tippera district, it is hereby declared that for the above purpose a strip of a land about 35 miles in length, varying in width from

one hundred to three hundred and fifty feet, measuring, more or less, one thousand four hundred and forty acres, and passing through the undermentioned villages in the districts of Noakhali and Tippera, is required.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

Mauzas Nizkuzra, Daulatpur, Rajnagar, Fazilpur, Chalna, Tanjirpara, Kalidhar, Lakhipur, Maijbaria Moheshpur, Chemaria, Tulabaraja, Shahadebpur, Barahipur Barishat, Shibpur Paschim, Majlishpur, Rajnagar or Motbaria, Motbaria, Fattpur, Rampur, Rashtirkhil, Gazariakandi, Khanabati Dakhin, Khanabati Uttar, Rashpore, Aukora, Baukrain, Bochatooice, Rigurra, Koctra, Gunabatty, Naranpur, Dashbalia, Barachirjula, Pijir, Jamral, Mokimpore kist, Tamurain, Tamurol, Sijecara, Sengar, Mogra, Hasanpur, Bhabalanga, Modda kist, Majhikbara, Bisra, Gotrusal, Nangalkot, Haripur, Betagaon, Baunagar Bhatra, Hatanea, Tua, Askamta, Nowodi, Patali, Kortbodda, Lala, Nowagaon, Ghatar, Dhani.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

IRRIGATION.

The 17th January 1893.

No. 10.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for additional land in the 19th and 20th miles of the Kendrapara Canal, it is hereby declared that for the above purpose two plots of land measuring in the aggregate 2 acres and 26 poles, more or less, of standard measurement are required in the district of Cuttack, viz, first plot in the 19th mile, commencing from mauza Kusunpur, pargana Soohang, passing through mauza Jamunapur, terminating at mauza Bara Thakun, 576 feet long and averaging in width 60 feet, measuring 2 roods and 38 poles, more or less; second plot in the 20th mile, commencing from mauza Khadagpur, pargana Soohang, and terminating at mauza Baliapoola, pargana Assureswar, 2 furlongs and 10 feet long, and averaging in width 50 feet, measuring 1 acre 1 rood and 28 poles, more or less.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 11.—*Notification.*—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of section XI of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force in the Calcutta Canals and Tolly's Nala from 1st April 1893:—

I.—Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; and in case of any reasonable doubt arising, the Canal Officers at any toll-station shall have authority to measure a vessel notwithstanding that it was measured on entering the canal.

II.—The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 (B L.C.) and of these rules, be determined by the following measurements:—

A.—The product of quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the waterline to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot in net depth.

C.—In calculating the amount of toll to be levied, any portion of 100 maunds less than 10 maunds is to be omitted.

D.—Provided that in the case of vessels which entered the canals at Chitpore, Kidderpore, and Chotla empty for the purpose of loading therein, the depth shall be measured from the line of usual immersion as visible on the outside of the vessel to the bottom of the vessel, and not from the line of actual immersion at the time of measurement.

E.—In the case of steamers the tonnage, as determined by clauses A, B, C, and D, shall be reduced by one-third as an allowance for engine space.

III.—Every vessel entering the canals shall be furnished with a ticket on payment of the prescribed toll. The manjee's name, the date and hour of entry, the maundage of the vessel, the cargo it contains, and amount of toll charged, shall be entered in this ticket to identify the vessel on which toll has been paid.

IV.—Every person in charge of a boat, raft, or float, who shall pass in the canal without tendering the toll due, or who shall pass out of the canal without delivering to the toll-keeper the ticket of entrance and paying the rent that be due, shall be liable to be detained and punished according to section 10 of Act V of 1864.

V.—This ticket may be demanded and inspected by any Canal Officer, and must be kept on board and at hand for that purpose.

VI.—Every person in charge of boats entering the Calcutta Canals from the eastward must tender his toll ticket to the officer at Dhappa and Panspotta pass-stations to have it examined, stamped, and signed; and for those entering from the westward, must deliver up the toll tickets at the above pass-stations and receive in lieu a pass, which pass

must be delivered to the toll-keeper at entrance of canals. Every such person must also pay all dues, or be liable to be detained and dealt with according to section 10 of Act V of 1864.

VII.—Every person in charge of a boat found in the canals (westward of the pass station) with toll tickets unstamped or unsigned by a pass-station-keeper will be detained and treated as having no toll ticket under section 10 of Act V of 1864.

VIII.—The manjee or owner of every vessel not having a ticket on board and producible on demand shall be liable to the provisions of section 10 of the Canals Act.

IX.—Duplicates of lost tickets, of which the numbers and date of entry can be satisfactorily established, will be granted by the Collector on further payment of a sum equal to the original amount of toll.

X.—During the detention of any vessel under section 9 of these rules, or under any other provision of the Act, the duty of Canal Officers will be to see that the vessel or its cargo are not clandestinely removed; but they are in no way responsible for its safety, for which the manjee, owner, or agent must make their own arrangements.

XI.—The purchaser of a vessel sold under these rules, and under the Act, will have the option of taking it out of the canal on the day of purchase, or of taking out a fresh toll ticket at the rate fixed by the Schedule of Tolls in force for the time being.

XII.—No boat engaged by any officer of Government, whether civil or military, shall be exempt from toll, on the ground that the officer is travelling on public duty. The only exception of this rule shall be in the case of vessels specially engaged in the conveyance of troops on military duty.

XIII.—All vessels the *bonâ fide* property of Government, or employed on works connected with the maintenance or improvement of the canals, and duly certified as such, shall be exempted from these tolls and charges. No other vessels whatever shall be exempted.

XIV.—Every vessel, raft, or float, which has paid toll, shall be allowed three days for passing through Circular Canals, and two days for Tolly's Nala between Gurreah and Kidderpore, and three days for Soorahs outside Dhappa Lock, the days of entering and of leaving being both included. In addition to these three days, they may, without further payment, remain in the canals for the further undermentioned periods, that is to say—

Circular Canal boats.—One day for every hundred maunds up to three hundred maunds of measurement, and one day for every two hundred maunds above three hundred maunds.

Tolly's Nala boats.—Two days for first hundred maunds, and one day for every hundred maunds above first hundred maunds.

Soorahs outside Dhappa Lock.—Same as for Tolly's Nala.

Floats in either channels.—Two days for any number of timbers not exceeding fifty, and one day for every additional fifty.

Rafts in either channels.—Two days for any number of bamboos not exceeding five hundred, and one day for every additional five hundred.

XV.—Every vessel, raft, or float remaining in any part of the aforesaid canals longer than the period allowed under the foregoing rules shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll; and every vessel remaining more than thirty days in either of the canals shall, for each day in excess of thirty days, be charged demurrage equal to the full rate of toll, provided that in no case the demurrage charged shall exceed Rs. 5 per diem.

XVI.—Any vessel remaining in the canal more than two months without authority from the Supervisor shall be summarily removed.

XVII.—Boats requiring repairs shall be allowed to enter Dhappa Docks and remain there for a maximum period of thirty days, during which they will be charged at the rate of one-sixth part of the demurrage chargeable under Rule XV. Any boat remaining in the docks longer than thirty days without the special permission of the Supervisor shall pay demurrage at the full rate for such excess period.

XVIII.—No vessel shall be docked for repairs on the bank of the Calcutta Canal or of Tolly's Nala.

XIX.—Wherever mooring posts may have been put up by the Supervisor, vessels shall be made fast by the head and stern along the banks to such posts, and shall not be moored in any other manner.

XX.—The Supervisor may by notification prohibit the dropping of anchors or the putting up of bamboos or luggees in any part of the canals or on the banks; and in such parts no anchors shall be dropped, or luggees put up, under a penalty of fifty rupees, and of a fine not exceeding four rupees a day for continued disobedience of an order for removal issued by the Supervisor.

XXI.—Boats whilst loading or unloading in the canals will be allowed to use ladders; but the ladders must be gradually taken in as the water rises.

XXII.—As the water falls, the head and stern ropes must be loosened, and boats gradually pushed towards the centre of the canal: when the flood comes in, these two ropes must be gradually pulled in, and the boat kept as close to the bank as possible.

XXIII.—Only one boat shall be allowed to make fast along and in line with the canal banks, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety of other boats or obstruct the passage of other boats.

XXIV.—Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

XXV.—Hackeries, carts, bullocks, &c., using the canal roads shall, when stationary, be ranged on the side of the road farthest from the canal bank.

XXVI.—In portions of the canals where only one towing-path exists, vessels shall moor on the off side, and the towing-path side shall always be kept clear.

XXVII.—No persons shall place obstructions on the canal banks, roads, drains, or bridges (when such are on canal land), so as to impede a free passage along them or cause injury to them, or shall commit a nuisance, or deposit filth of any sort on the banks or in the canals.

XXVIII.—Any vessel, vehicle, or any other thing that may cause an obstruction to navigation, or to the banks, roads, drains, and bridges, or injury to the same, will be liable to be immediately removed and detained till all expenses incurred on account of removal, demands, and fines are paid. If a charge be not paid within ten days from date of detention, the said vessel, vehicle, or other thing will be sold to defray expenses.

XXIX.—"*Whoever personally or by his or her servant infringes the provisions of any of the paragraphs* 18, 19, *and* 20 *to* 27, *both inclusive, of the foregoing rules, shall be liable, under section II, Act V of* 1864 (*B.C.*), *to a fine not exceeding Rs.* 50 *for any one such infringement, or to a fine not exceeding Rs.* 5 *a day for a continued infringement.*"

Vide Notification No. 82, dated 16th January 1882, published in the *Calcutta Gazette* of 18th January 1882, page 60.

XXX.—At the instance of the Collector of Tolls, any Magistrate who imposes a fine under section 11 or 16 of the Act may award any portion of such fine to the informer.

XXXI.—Any person who wilfully or negligently allows a vessel to sink in the canals shall be liable to a fine not exceeding Rs. 50.

XXXII.—In every case of wreck caused by negligence or otherwise, the Supervisor and his subordinates will give every assistance in removing the same.

XXXIII.—A notice shall be affixed on such wreck when recovered, calling on those concerned to pay to the Collector all toll which may be due, or fine which may have been adjudged, as well as the expenses incurred in the recovery or removal of the wreck; and intimating that, if the sum be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, the proceeds of the sale being dealt with as directed in section 9 of the Act.

XXXIV.—Every Canal Officer is authorized to remove any vessel, anchor, pole, or other thing which he may find in a position which is in contravention of these rules, and to deal with it in such a manner as may be necessary to give effect to the rules.

XXXV.—Whenever any laden vessel is seized by a Canal Officer, it shall be the duty of the Supervisor to give immediate notice of the same to the owner or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the same.

XXXVI.—If the Supervisor be unable to ascertain the name and place of business or of abode of the owner of the cargo of any vessel or boat seized under the Canals Act, he shall notify the seizure by advertisement in his office, and in one or more of the Calcutta newspapers or advertisement papers. Such notice shall call upon the owner to cause the immediate removal of the cargo, and to pay any necessary expenses incurred in providing for its proper custody and storage.

XXXVII.—The Supervisor may incur whatever expense he may think necessary for the proper custody and storage of the cargo of any vessel seized under the Canals Act; and if the cargo be not removed within ten days from the date of seizure, he may sell the same at public auction to the highest bidder, after giving ten days' notice of the same by advertisement in one or more Calcutta newspapers or advertisement papers and affixed in his office.

XXXVIII.—The money, realized at such a sale shall be applied first to defray any expenditure that may have been incurred by the Supervisor on account of the cargo sold, and the balance, if any, shall be held in deposit to be paid to the owner of the said cargo on his applying for the same.

No. 12.—*Notification.*—In supersession of the rates of tolls fixed by Notification No. 286, dated 2nd August 1886, published at page 906, Part I of the *Calcutta Gazette* of the 4th August 1886, the Lieutenant-Governor of Bengal proposes, under section VI of Act V (B.C.) of 1864, to fix the following revised rates of tolls to be levied, on and after the 1st April 1893, on the undermentioned canals and channels:—

I.—The Circular Canal, comprising the whole of the still-water canal between the Dhappa and Chitpore Locks, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Calcutta Canal at the Dhappa Lock to its junction with the Biddiadharee river at Bamunghatta.

III.—The Nowbhanga Khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock, and extending to the fish market situated adjacent to, and to the west of the Dhappa Inspector's residence.

V.—Tolly's Nala, extending from a line drawn across the nala 25 feet west of the Hastings bridge at Kidderpore to the Biddiadharee river at Samookpotta.

No.	DESCRIPTION OF VESSELS.	ENTERING THE CALCUTTA CANALS AT CHITPORE OR TOLLY'S NALA AT KIDDERPORE OR CHETLA.		Entering the Calcutta Canals or Tolly's Nala from the eastward.	Saltees entering Tolly's Nala at Russa or Chetla.	At Dhappa, Russa, and Gurreah, going east if not cleared by the toll paid at Chitpore or Kidderpore.
		If not proceeding further eastward than Dhappa or Russa or to river Hooghly.	If proceeding further eastward than Dhappa or Russa.			
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1	On all boats, steamers, or other vessels, except those laden with rice, lime, or firewood per 100 maunds tonnage by canal measurement	0 14 0	1 12 0	1 12 0	1 12 0	...
2	On all boats, steamers, or other vessels laden with rice, per 100 maunds tonnage	0 12 0	1 8 0	1 8 0	.....	.... .
3	On all boats, steamers, or other vessels laden with lime or firewood, per 100 maunds canal measurement	0 8 0	1 0 0	1 0 0	1 0 0	.....
4	On floats of roughly squared timbers, each timber	0 3 0	0 6 0	0 6 0	.....	.....
5	On floats of unwrought timber, each timber ..	0 1 6	0 3 0	0 3 0	.....	.....
6	On rafts of bamboos for each hundred or portion of each hundred	0 1 6	0 3 0	0 3 0	.....	.....
7	On saltees under 25 maunds by measurement entering by Russa toll station	.....	.....	... .	0 8 0	.. ..
8	On saltees of 25 maunds and less than 50 maunds by measurement entering by Russa toll station	.....	.....	.....	1 0 0	.....
	Larger saltees will be charged at the rate given in No. 1 above.					
9	Minimum toll on all boats, floats, or rafts . .	0 4 0	0 4 0	0 4 0	0 4 0	0 4 0
10	Toll on all boats, steamers, or vessels laden or empty which have already paid toll and are returning eastwards per 100 maunds tonnage .	.....	.....	.....	.. ..	0 12 0
11	Monthly tickets at six times the ordinary toll as calculated by the above rates are, at the option of the payers, issued to boats carrying perishable articles going to Orphangunge Bazar or to the fish Soorah at Dhappa.					
12	*Excess tolls.*—Vessels which are passing through the canals, and which enter either empty or partially loaded, are liable to pay excess tolls at the above rates, if their tonnage by canal measurement is greater when they are leaving the canals than it was when they entered them. Vessels entering at Chitpore, Kidderpore, and Chetla for the purpose of loading in the canals pay at the time of entry with reference to their line of usual immersion according to canal rules.					
	Demurrage.—Every vessel, raft, or float, which has paid toll, shall be allowed three days for passing through Circular Canals, and two days for Tolly's Nala between Gurreah and Kidderpore, and three days for Soorahs outside Dhappa Lock, the days of entering and leaving being both included. In addition to these three days, they may, without further payment, remain in the canals for the further undermentioned periods, that is to say—					
	Circular Canal boats.—One day for every hundred maunds up to three hundred maunds of measurement, and one day for every two hundred maunds above three hundred maunds.					
	Tolly's Nala boats.—Two days for first hundred maunds and one day for every hundred maunds above first hundred maunds.					
	Soorahs outside Dhappa Lock.—Same as for Tolly's Nala.					
	Floats in either channels.—Two days for any number of timbers not exceeding fifty, and one day for every additional fifty.					
	Rafts in either channels.—Two days for any number of bamboos not exceeding five hundred, and one day for every additional five hundred.					
	Every vessel, raft, or float remaining in any part of the aforesaid canals longer than the period allowed under the foregoing rules shall, for each day in excess of such period, be charged demurrage equal to one half of the toll; and every vessel remaining more than thirty days, in either of the canals, shall, for each day in excess of thirty days, be charged demurrage equal to the full rate of toll, provided that in no case the demurrage charged shall exceed Rs. 5 per diem.					
	NOTE.—Open dinghees accompanying large boats are entitled to the same demurrage allowance of time as the parent boats.					
	Steamers or flats passing through the lower Sunderbans channels pay tolls at the rate of Rs. 5 (five) each before leaving and on return to Calcutta.					

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

The 14th January 1893.

No. 1 Marine.—In exercise of the powers conferred upon him by section 22 of Act VI of 1884 (The Inland Steam-Vessels Act), the Lieutenant-Governor is pleased to appoint the gentlemen named below for the purpose of examining the qualifications of persons desirous of obtaining certificates of competency as first and second class Masters and Serangs of inland steam-vessels at the examination which will be held this day:—

Examiners of candidates for certificates of competency as first class Masters.

The Port Officer ... ... *President.*
Mr. F. F. Collingwood, Branch Pilot ... ...
Mr. F. T. Rayner, Branch Pilot ... ... } *Members.*
Captain W. M. Reaks, certificated Master under the Inland Steam-Vessels Act ... ...

Examiners of candidates for certificates of competency as 2nd class Masters and Serangs.

The Port Officer ... ... *President.*
Mr. F. F. Collingwood, Branch Pilot ... ...
Captain W. M. Reaks, certificated Master under the Inland Steam-Vessels Act... ... ... } *Members.*

The 17th January 1893.

No. 2Marine.—Whereas it appears that the actual income of the Commissioners for the Port of Calcutta under Act III of 1890 up to the 31st October 1892, and the estimated income of the residue of the year ending the 31st March 1893, after deducting therefrom the actual expenditure for the above period and the estimated expenditure of the remaining portion of the year, will be insufficient for the payment of the sums which, under the provisions of the said Act, are payable during the year to the Secretary of State for India in Council, and to the holders of debentures under the said Act, it is hereby notified that from the 1st of January 1893 the Port Commissioners shall charge upon all goods landed from or shipped into any sea-going vessel lying or being within the limits of the port, whether such goods shall or shall not be so landed or shipped at any dock, wharf, quay, stage or jetty belonging to the Commissioners, in addition to, or other than those prescribed by, any scale of tolls, dues, rates and charges now in force, a toll which shall approximate four annas per ton, except for export coal, the charge on which shall be two anans per ton and on bunker coal which shall be free. Goods transhipped within the port are exempt, also ballast with the exception of dressed stone. For the purpose of levying such toll on miscellaneous general cargo landed or shipped at the Kidderpore Docks or at the Jetties, the Commissioners will follow the schedules of charges prescribed for the Docks and the Jetties and charge one-fifth of the rates therein specified; but where the landing or shipping charge is in these schedules levied on the ton by weight, then the special charge under this notification shall be four annas per ton. For the purpose of levying such toll on goods landed or shipped over the Inland Vessels Wharves, the ton shall be reckoned at the respective weights and measurements given in the schedule in force for those wharves, and this schedule shall apply to all goods which are shipped without either passing through the Docks or over the Jetties or Inland Wharves.

This Department's Notification No. 112Marine, dated 29th November 1892, is hereby cancelled.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

JAIL DEPARTMENT.

No. 349, *dated the* 14*th January* 1893.—Assistant Surgeon Dina Nath Sanyal held charge of the Jessore Jail from the forenoon of the 26th October 1892 to the forenoon of the 5th November 1892.

ERRATUM.—*The 17th January* 1893.—In the orders of the 7th January 1893, published at page 33, Part I of the *Calcutta Gazette* of the 11th idem, appointing Babu Sri Nath Banerjea, Departmental Sub-Inspector of Schools, Jessore, to act as second clerk in the office of the Inspector of Schools, Presidency Circle, and in class VI, with effect from the 1st January 1893, *vice* Babu Jogeswar Ghosh, promoted, or until further orders, *read* "6th" *for* "1st."

C. A. MARTIN,
Offg. Director of Public Instruction.

Examination of Candidates for Pleadership and Mukhtearship in Mufassal Courts subordinate to the High Court.

THE next examination of candidates for Pleadership will be held on the 15th, 16th, and 17th February next in the Senate House of the Calcutta University.

The next examination of candidates for Mukhtearship will be held at Calcutta, Patna, Dacca, Cuttack, Gauhati, and Sylhet on the same days; the examination of those candidates who have applied to be examined in Calcutta taking place in the Senate House of the Calcutta University.

The Pleadership candidates will be examined *viva voce* only on the 15th February commencing at 10 A.M., and two papers will be set each day for them at 10 A.M. and 2 P.M., respectively, on the 16th and 17th February. Two papers will be set for the Mukhtearship candidates on the 15th February at 10 A.M. and 2 P.M., respectively, and they will be examined *viva voce* on the 16th and 17th February, commencing at 10 A.M. each day.

Under no circumstances will any candidate be admitted to the examination room after these hours.

The candidates will be required to produce at the examination extracts from the Register, which will be furnished to them by the District Judge, through whom their applications have been sent to the Board of Examiners.

No candidate will be allowed to enter the examination room with any memoranda or loose papers of any description (with the exception of the extracts above mentioned).

All writing materials will be provided with the exception of pens, which the candidates must bring with them.

Cuttack, the 10th January 1893.

F. S. HAMILTON, Covdt. Deputy Collector in charge.

NOTICE is hereby given that the undermentioned plot of land no longer required by Government, situated along the Tirhut State Railway, in the district of Monghyr, will be put up to sale at 12 o'clock on Wednesday, the 18th January 1893, corresponding with the 16th Pous 1300 Fusli, at Begamsarai Station, Tirhut State Railway.

The purchaser of the plot of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4*th*.—The plot of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Consecutive number.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of lot.

FALAKATA FAIR.

Notice.

THE public are hereby informed that a "Fair" will be held at Falakata in the sub-division of Alipur, Western Duars, district Jalpaiguri. The Fair will commence on January 22nd, 1893 (A.D), corresponding with 10th Magh 1299 (B.S), and will continue up to February 5th, 1893. Tradesmen, dealers and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoceri horns, yak tails, musk, honey, wax, lac, ponies, and various other articles from Bhutan and Thibet; and also tea, paddy, rice, tobacco, jute, mustard-seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Falakata is situated on the river Moojanai, very conveniently for river traffic from East Bengal, viz., Dacca, Goalundo, Serajganj, Manikganj, etc., and within easy reach of Jalpaiguri and Kuch Bihar. A good cart and driving road exist all the way. Arrangements for good drinking water and for comfort of strangers, traders and shopkeepers, and special police arrangements for safety of property and goods, exist. Booths are also erected at Government expense for accommodating shops.

W. H. W. MACKENZIE, Sub-divisional Officer, Alipore Duars.

Alipore Duars, the 7th December 1892.

Uncovenanted Service Family Pension Fund.

NOTICE.

THE Fifty-fifth Annual General Meeting of Subscribers of the above Institution will be held in the Town Hall on Saturday, the 28th January 1893, at 3 P.M., to receive the Report of the Directors and to consider such matters as may then be submitted.

By order of the Directors,

W. H. RYLAND, Secretary.

Calcutta, the 2nd January 1893. (914—3)

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8 ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4 ,, ,, ,, ,, 1-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

DASA RATHI SANYAL, B.L., intends to be enrolled as a vakeel of the High Court. (903—4)

341	On all goods exceeding 10 tons, per cwt.	0 8 0	0 4 0	0 8 0

Removal charge on heavy *lift.*

1. On all packages exceeding four tons in weight, the removal charge will, under all circumstances, have to be paid if consignees do not take delivery at the quay.

Delivery into boats.

2. The rate for unloading into boats will be one-third of the landing charges. No cargo will be allowed to be put into boats if it is to be landed on the Calcutta bank of the river between the northern boundary of the Port and Kidderpore Dockyard. For rails and iron sleepers, the charge will be *one-fifth* of the landing charges.

Wharf rent when incurred.

3. No charge for wharf-rent will be made until the third day after landing, *e.g.*, goods landed on Monday will not be liable to wharf-rent if removed before Wednesday evening, and no charge for wharf-rent will be made for holidays, when, owing to the Custom-house being shut, consignees are unable, without any fault on their part, to clear their goods.

Wharf-rent on damaged goods.

4. Damaged goods, for which a claim is brought against the ship, will not be charged wharf-rent until the fourth day after landing: provided notice of survey is given to the Dock Superintendent within 48 hours after the goods have been received from the ship.

5. Goods will be delivered, if desired by consignees, by cart outside their godowns in Calcutta, at a charge equal to 70 per cent. of the landing charge, with a guarantee against loss or damage during transit.

Scales of Charges for use of 30-ton Floating Crane or 100 ton sheers.

Charges for use of floating cranes.

	Per cwt. Rs. A. P.
For each lift not exceeding 2 tons ...	0 1 6

(1) Goods will be allowed 14 days' shed accommodation rent-free, counting from midnight of the date of arrival in sheds until shipped. After the 14 days they will be liable to shed rent.

(2) The following goods will not be received in the sheds in course of shipment, except under special arrangement, *viz.*, assafœtida, cutch, safflower, camphor, turmeric, aniseed, hog's lard, glue, all oils, India-rubber, molasses, myrabollams, treacle, which must be sent direct on board the vessel.

SCHEDULE F.

Dock dues.

1. All vessels entering the Kidderpore Docks will be charged a due of four annas per nett registered ton. This charge will be made irrespective of the time that the vessel may remain in the docks.

2. At any time a vessel may, subject to 36 hours' notice, be removed from a berth alongside the quay-wall to an outer berth.

3. After a vessel has been in the docks for 14 days, she may, subject to 36 hours' notice, be removed to moorings in the river.

The Local Government hereby signifies its approval of the above schedules.

GOVERNMENT OF BENGAL;
MARINE DEPARTMENT,

MOHAMED WAZEE, Vice-Chairman,
Joint-Committe, Barisal.

Barisal, the 13th January 1893. (946—1)

Original Suit No. 436 of 1879.

APPEAL No. 5 OF 1891.

NOTIFICATION.

TO be peremptorily sold by the Registrar of the High Court of Judicature at Fort William in Bengal, Ordinary Original Civil Jurisdiction, at his Sale-room in the Court-house on Saturday, the 21st January 1893, at 12 o'clock noon, pursuant to a decree and order made in Suit No. 436 of 1879 (Benayek Misser *versus* Toolsey Persaud Bhuckt and others), and dated, respectively, the 10th March 1891 and 17th June 1892, the following property:—

Lot No. 1.—No. 23 [formerly Nos. 18, 29 and 31], Kalakur Street, in the town of Calcutta, brick-built upper-roomed godowns and a dwelling-house with the land appertaining thereto, containing by estimation one bigha one cottah and three chitaks, be the same a little more or less, being Holding No 67, Block No. XVIII, in the North Division, Calcutta, in respect of which the annual revenue payable to Government is Rs. 3-15-7. This property was formerly bounded on the north partly by the premises No. 22, Kalakur Street, being the dwelling-house and tenanted-house of Lokenath Misser Thakur, and partly by the dwelling-house of Ramnarain Bysack; on the west partly by a public drain, partly by the dwelling-house of Preonath Sett, and partly by the dwelling of Gourdass Bysack; on the east by Kalakur Street; and on the south partly by the premises No. 56, Banstollah Lane, being the house and property of Bungshedhur Dutt, and partly by a lane and partly by the Nobobutkhanah, No. 57, Banstollah Lane, belonging to the said Preonath Sett and Radha Kissen Sett. The boundaries as given in the Indenture of Mortgage, dated the 11th day of May 1885, and executed by the defendant Toolsey Persaud Bhuckt in favour of the plaintiff, are as follows:—On the north by the dwelling-house of one Beer Chunder Bundopadhya; on the west partly by the dwelling-house of Romanath Sett and partly by the dwelling-house which was of the late Preonath Sett, and partly by the dwelling house of Gourdas Bysack; on the south by the tenanted-house of Honuman Dass; and on the east by Kalakur Street.

The conditions of sale and the abstract of title may be seen at the office of the said Registrar and at the office of Messieurs Swinhoe and Chunder, Attorneys for the plaintiff, Benayek Misser, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

Swinhoe and Chunder, Attorneys for the plaintiff Benayek Misser.

Calcutta High Court, Original Jurisdiction, the 7th December 1892.

(873—1)

Notification.

ZAMINDARI DAK CESS OF THE KHULNA DISTRICT.

IN modification of the Notification published in the *Calcutta Gazette* of the 28th December 1892, Part II, page 1155, it is hereby notified for information of the public that the Zamindari Dak Cess in the district of Khulna for the year 1893 has been fixed at the rate of Re. 1 (one rupee) per cent. per annum on the sadar jama of estates paying revenue amounting to Rs. 50 (fifty) and above. This reduced rate will be in force for five years from January 1893.

2. The amount due for each estate is payable in two instalments, the first being due on the 28th March 1893, and the second on the 28th September 1893. But the dates of payment now fixed are open to revision.

B. DE, Collector.

Khulna Collector's Office, the 10th January 1893.

Statutory Notice to Creditors.

IN pursuance of section 42, Act XXVIII of 1866, notice is hereby given that all persons having claims against the estate of Henry Eric Sutherland Hannay, late of Ribsden Cottage, Windlesham, in the County of Surrey in England, who died on the 24th day of October 1891, should send in their claims to the undersigned on or before the 12th day of April next, after which date no claims will be admitted and the assets of the estate will be distributed.

W. E. S. JEFFERSON, Administrator in Calcutta
to the Estate of the deceased.

Calcutta, the 12th January 1893. (945—3)

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except for Government offices or offices under the control of Government Officers are strictly cash and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month. Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

List of Books for sale at the Library of the Asiatic Society of Bengal, No. 57, Park Street, Calcutta, and obtainable from the Society's London Agents, Messrs. Trubner and Company, 57 and 59, Ludgate Hill, London, E. C.

The Calcutta Gazette.

WEDNESDAY, JANUARY 18, 1893.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 1.

[Second Publication.]

MAURITIUS—Port Louis.

The light-ship in the roadstead has been repaired and re-moored.

The following Notice to Mariners, issued by Her Majesty's Government of Mauritius, is republished :—

The light-ship having been repaired is now re-moored in her former position in the roadstead of Port Louis. She is painted white, and shows a white flashing light from sunset to sunrise, visible about nine miles in every direction from seaward from the poop of a large vessel.

Eaton W. Petley,
Port Officer of Calcutta.

Published for general information.

[Second Publication.]

INDIA, WEST COAST—Gulf of Cutch.

Alteration in Beit harbour (Samiani island) light.

The following Notice to Mariners, issued by the Government of Bombay, is republished :—

Information has been received through the Agent to the Governor-General at Baroda that an additional new red sector has been placed in the Beit harbour (Samiani Island) light, extending over the Pága sandbank lying to the south-east of Chiuri reef, visible through an arc of 30°, and lying between the bearings of S. 80° 30′ W. and N. 69° 30′ W (magnetic.)

[Second Publication.]

BENGAL—HOOGHLY RIVER.

Universal system of buoyage—Port of Calcutta.

IN continuation of Notice to Mariners, No. 107, dated the 20th June 1892, paragraph 5, the Calcutta Port Commissioners give further notice that the mountings of the buoys will now be as follows:—

Starboard hand buoys, coming in from sea, will be surmounted with a black staff and triangle.

Port hand buoys, coming in from sea, will be surmounted by a black staff and cylinder.

[Second Publication.]

BAY OF BENGAL—BURMA COAST.

Universal system of buoyage—Bassein river.

THE Port Officer, Bassein, through the Director of the Royal Indian Marine, has given notice, that the buoys in the Bassein river have now all been painted in accordance with the Universal System of Buoyage, viz:—

On the Starboard hand *red*: and on the Port hand *black*, coming up the river; and the Fairway buoy with *black and white* horizontal bands.

There are no Middle ground buoys in the Bassein river.

[Second Publication.]

JAPAN—INLAND SEA.

AKASHI NO SETO.

Perch with light on Hira iso reef.

THE British Admiralty has given notice (No. 558 of 1892) that on 10th October 1892, an iron perch, from which is shown a red flag during the day and a *fixed red* light at night

(about 6 feet above the sea), would be erected on Hira iso reef, north side of east entrance of Akashi no Seto (Akashi strait), pending the construction of a beacon on the reef.

Approximate position: lat. 34° 37′ 45″ N., long. 135° 3′ 45″ E.

NOTE—Mariners are warned that this light may be extinguished during heavy weather.

EATON W. PETLEY,
Port Officer of Calcutta.

[Second Publication.]

CHINA SEA—GASPAR STRAIT.

Bank reported in northern approach.

THE British Admiralty has given notice (No. 566 of 1892) of the existence of a sand-bank lying in the fairway of approach to Gaspar strait from the northward. This bank, about 7 cables in extent in a north-west and south-east direction, with probably about 2 fathoms water on it in the centre, was passed within half a mile at 11h. A.M., and observations at noon gave an approximate position of lat. 1° 50′ S., long. 107° 30′ 45″ E.

EATON W. PETLEY,
Port Officer of Calcutta.

[Second Publication.]

SOUTH PACIFIC OCEAN—SOLOMON ISLANDS—GUADALCANAR ISLAND.

Lengo channel—Shoals in south-east approach.

THE British Admiralty has given notice (No. 567 of 1892) of the existence of two small shoals lying near the "Track recommended" when approaching Lengo channel from the south-east in approximately lat. 9° 27′ S., long. 160° 28′ E. It is stated that these shoals are known locally, and that there is about 2 fathoms water on them.

Consequent on the above, the "Track recommended" has been broken in the vicinity of these shoals on Admiralty chart No. 214.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

[Third Publication.]

BAY OF BENGAL—BURMA COAST.

Krishna shoal light—Date of alteration postponed.

WITH reference to Notice to Mariners No. 181, dated 11th October 1892, issued by this office, intimating that the character of the Krishna shoal light will be altered from 1st January 1893, the Port Officer, Rangoon, through the Director of the Royal Indian Marine, has given further notice, that owing to the non-arrival of an important part of the new apparatus, the alteration of the light is postponed one month.

The light should be exhibited therefore on the 1st February 1893.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 243.

[Third Publication.]

BAY OF BENGAL—CHITTAGONG COAST.

Intended alteration in the Kutubdea light.

WITH reference to Notice to Mariners No. 202, dated the 17th November 1891, issued by this office, a further telegraphic communication has been received from the Port Officer, Chittagong, stating that the new Kutubdea light has an interval of one minute between the revolutions or flashes; the duration of each flash being six seconds, and its greatest intensity two seconds.

As notified in No. 77 of the 14th April 1892, the new light will be exhibited on the 1st January 1893.

EATON W. PETLEY,
Port Officer of Calcutta.

K. H. STEPHEN,
Under-Secretary, Marine Department.

CALCUTTA, *the 29th December* 1892.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS.—No. 244.

[Third Publication]

AUSTRALIA—KEPPEL BAY.

Main channel across Wide Bay Bar; and Lightship at Keppel bay.

THE Port Master, Brisbane, has given notice (No. 19 of 1892) that it has been reported that the main or north channel across Wide Bay Bar lies more to the northward than for-

merly, and, consequently, that the leading beacons, which have hitherto been kept open once their own width to northward, must be kept still more open. Until the bar has been examined, and the beacons altered to meet changes, vessels must approach and use this channel with caution.

The lightship at Keppel bay will be retained in her present position until further notice.

EATON W. PETLEY,
Port Officer of Calcutta.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 245.

[Third Publication.]

AUSTRALIA—WIDE BAY BAR.

Channel across the Bar—Beacons altered.

THE Port Master, Brisbane, has given notice (No. 20 of 1892) that the beacons which lead across Wide Bay Bar through the North Channel have been altered, and are now to be kept in line, bearing N. 74° W. (W. by N. ¾ N.), magnetic.

The least depth on this lead is at present 18 feet at low-water springs.

The beacons which lead through the South Channel have also been altered, and now lead N. 50° W. (N. W. ½ W.), magnetic.

On this lead the least depth is now 13 feet at low-water springs.

RESOLUTION.

READ—

Letter from the Accountant-General, Bengal, No. 771L.F., dated 31st December 1892, submitting an abstract of receipts and expenditure of the several District Road Committees in Bengal for the quarter ending 30th September 1892.

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the several District Road Committees in Bengal for the second quarter of the year 1892-93 be published in the *Calcutta Gazette* and circulated to the officers concerned.

ORDER.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the Supplement to the *Calcutta Gazette.*

Ordered also that a copy of this Resolution and of the abstract referred to be forwarded to the Commissioners of the Rajshahi, Bhagalpur, Chittagong, and Chota Nagpur Divisions; to the Superintending Engineers of the Northern and Western Circles; to the Inspector of Works, Eastern Circle; and to the Financial Department of this Government, for information.

By order of the Lieutenant-Governor of Bengal,

F. J. JOHNSTONE,

Secretary to the Government of Bengal.

O. T. BARROW,

Accountant-General, Bengal.

MALPRACTICES IN CONNECTION WITH EXAMINATIONS.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 17th January 1893.

RESOLUTION No. 149.

As it has come to the notice of Government that forged certificates have sometimes been used for the purpose of gaining admission to an examination, or of being admitted as a student at a Government place of education, the Lieutenant-Governor deems it expedient, for the purpose of preventing this and other serious malpractices, to lay down the following rule, which will come into force from the date of its publication:—

Persons detected in the use of forged certificates or in other serious malpractices at examinations held under the authority of Government or of a Municipal or local body, or in order to obtain admission to an Educational Institution, or to gain any improper advantage in the examination, will be considered disqualified for entering the service of Government or of any Municipal or local body.

ORDER.—Ordered that the Resolution be pulished in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

LIBERALITY OF CERTAIN ZAMINDARS IN THE GIRIDIH SUB-DIVISION.

No. 194Med., dated Calcutta, the 16th January 1893.

From—H. H. RISLEY, Esq., Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Chota Nagpur Division.

I AM directed to acknowledge the receipt of your letter No. 147T.J., dated the 5th January 1893, in which you report the liberality of Babu Sarada Narain Singh of Serampur, Babu Toral Narain Singh of Gawan, and Babu Poresh Nath Singh of Palganj, in contributing Rs. 2,000, Rs. 1,500, and Rs. 500, respectively, towards the cost of establishing the dispensary at Giridih, which was opened by His Honour the Lieutenant-Governor on the occasion of his visit to that place on the 2nd November 1892. You also report that Babu Sarada Narain Singh has liberally undertaken to bear the cost of maintenance of the dispensary until such time as some public body may come forward to take over the charge of its maintenance.

2. In reply, I am directed to say that the Lieutenant-Governor has much pleasure in acknowledging the liberality of the donors, especially of Babu Sarada Narain Singh, and to request that an expression of His Honour's thanks may be conveyed to them for their generosity and public spirit. Sir Charles Elliott is also pleased to note your commendations of Mr. W. Rattray, the Sub-divisional Officer by whose exertions the institution was founded.

3. This letter will be published in the *Calcutta Gazette*.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 14th January, 1893.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
Burdwan Div. 1	Burdwan Jan. 14, '93	Nil	Weather—cool and clear. State and prospects of crops good, except in the Sadar subdivision. Prices of common rice:—
	Kalna ...	Nil	
	Katwa ...	Nil	
	Raniganj ...	Nil	

	Srs.
Burdwan	10 to 13
Kalna	11 to 13
Katwa	13½ per rupee.
Raniganj	13

2	Bankura „ 14, '93	0·02	Weather—seasonable. Threshing of *aman* paddy going on. *Rabi* crops doing
	Vishnupur ...	Nil	well. Fodder and water sufficient. Prices of common rice:—

	Srs.
Sadar	12½ per rupee.
Vishnupur	11½

3	Birbhum „ 14, '93	0·04	Weather—seasonable. Prices of rice still 12 to 14 seers per rupee. Fodder and
	Rampur Hát ...	0·03	water plentiful.
4	Midnapore „ 14, '93	Nil	Weather—cool and dry. Rice harvest finished some time ago. Prices of common rice:—

	Srs.
Sadar	11
Contai	10 to 14 per rupee.
Tamluk	13
Garhbeta	12 to 13

5	Hooghly „ 14, '93	Nil	Weather—very cold. *Aman* harvest in progress; outturn in Sadar and north
	Serampore ...	Nil	of the Tarakeswar Railway in Serampore not much over 8 annas; south of
	Jahanabad ...	Nil	the Tarakeswar Railway it is about 12 annas. *Rabi* doing pretty well, but in the Sadar subdivision, although extensively planted, it is, except the *biri kalai*, a light crop. Difficulty of obtaining drinking water increasing in Pandua and Dwarbasini. Prices of common rice:—

	Srs.
Sadar	9 to 10
Serampore	10½ per rupee.
Jahanabad	11

6	Howrah „ 14, '93	Nil	Weather—seasonable. Harvesting of *aman* crop nearly completed. Spring crops
	Ulubaria ...	Nil	doing well. Condition of cattle good. Fodder and water-supply sufficient, except that tanks are drying up too quickly in Howrah Municipality. Price of rice 10 to 11 seers per rupee.
Presidency Div. 7	24-Parganas „ 14, '93	Nil	Weather—seasonable. Foggy mornings; somewhat warmer. Harvesting of *aman* completed in nearly all parts of the district. Prospects of *rabi* continue favourable. Cattle-disease reported from Barasat subdivision. There is no present lack of fodder and water.
8	Nadia „ 14, '93	Nil	Weather—cold and seasonable. Prospects of *rabi* crops good. Some of them
	Kushtia ...	Nil	are being harvested. Common rice selling at 13 seers per rupee. Health
	Meherpur ...	Nil	of cattle good, and fodder and water-supply sufficient.
	Chuadanga ...	Nil	
	Ranaghat ...	Nil	
9	Khulna „ 14, '93	Nil	Weather—seasonable. Harvesting of *ókhotas* paddy over, that of *boras* paddy
	Bagerhat ...	Nil	continues; outturn good except in Paickgacha. Common rice selling at
	Satkhira ...	Nil	from 12 to 14 seers per rupee. Prospects of *rabi* fair. Fodder and water sufficient.
10	Jessore „ 14, '93	Nil	Weather—cool. Harvesting of *aman* not yet finished. Mustard being reaped.
	Jhenida ...	Nil	Prospects of *rabi* crops fair. No cattle-disease. Fodder and drinking-
	Magura ...	Nil	water sufficient. Prices of rice stationary.
	Narail ...	Nil	
	Bangaon ...	Nil	
11	Murshidabad „ 14, '93	Nil	Weather—seasonable. Harvesting of *aman* and *kalai* finished. Prospect of *rabi* crops appears to be favourable. No cattle-disease reported, and fodder sufficient. Coarse rice selling at 14 seers per rupee.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and State and prospects of the crops.
BENGAL—*concld.*			
Chittagong Divn. 12	Chittagong ...	...	Report not received.
Chittagong Divn. 13	Noakhali Jan. 14, '93	Nil	Weather—seasonable. *Aman* paddy almost harvested with an outturn of 16 annas. Sowing of *rabi* crops continues. No cattle-disease except in Companiganj and Sundip. Price of rice 14 seers per rupee.
Chittagong Divn. 14	Tippera „ 14, '93	Nil	Weather—seasonable. Harvesting of *aman* almost completed. Mustard and chillies thriving. Prices of grain high chiefly on account of exportation. Large profits being realized for jute by cultivators.
Chittagong Divn. 15	Chittagong Hill Tracts. „ 13, '93	Nil	Weather—seasonable. Vegetables doing well. Sugarcane being pressed. Mustard in flower. No cattle-disease reported. Common rice selling at 10 seers per rupee.
Dacca Divn. 16	Dacca „ 14, '93	Nil	Weather—very cold. *Rabi* crops thriving, but in Nawabganj the state of these crops is reported to be bad. *Kalai* being gathered. Fodder available. No cattle-disease. Common rice selling at from 11 to 14 seers per rupee.
Dacca Divn. 17	Faridpur „ 14 '93	Nil	Weather—seasonable. *Rabi* crops fair. *Boro* paddy being sown. Common rice sells at 13 seers per rupee at Sadar, Goalundo, and Madaripur. Cattle in good condition and get fodder.
Dacca Divn. 18	Backergunge „ 14, '93	Nil	Weather—seasonable. Prospects of crops good. Common rice sells at from 10 to 15 seers per rupee. Fodder and water sufficient in all places except thanas Backergunge and Mendiganj, where fodder is reported not sufficient.
Dacca Divn. 19	Mymensingh „ 14, '93	Nil	Weather—seasonable. Prospects of standing crops good. Harvesting of *aman* paddy nearly completed. Rice selling at from 12 to 14 seers per rupee. There is no cattle-disease. Fodder and water sufficient.
Rajshahi Divn. 20	Dinajpur „ 14, '93	0·21	Weather—cool. Standing crops doing very well. Harvesting of winter rice still going on in places. Outturn of mustard is estimated to be 14 annas and that of *kaimanti* rice 16 annas. Pressing of sugarcane continues. Land being prepared for *bhadoi* and jute. Price of rice unchanged. Condition of cattle good. Supply of fodder and drinking water sufficient.
	Thakurgaon ...	0·21	
Rajshahi Divn. 21	Rajshahi „ 14, '93	Nil	Weather—seasonable. On an average, a full 12 annas *aman* rice crop has been reaped in the district. Cold-weather crops also are giving a very fair outturn, or are coming up nicely. There is no cattle-disease. Fodder and water plentiful except in the Barind. Price of common rice ranges from 12 to 17 seers per rupee.
	Nator ...	Nil	
	Naogaon ...	0·23	
Rajshahi Divn. 22	Rangpur „ 14, '93	0·43	Weather—seasonable. Prospect of *rabi* crops good. Mustard is ripe in some places. Price of common rice unchanged.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; ≡, fog.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. For rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station districts, *i.e.*, from total rainfall at the subdivisional stations in the districts sending in returns divided by the number of stations. A rainy day is one on

for the week ending Saturday, the 14th of January 1893.

Variation from normal mean.	Mean 9 A.M., temperature.	Average humidity at 9 A.M.	Average cloud amount at 9 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. OF WEEK. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	RAINFALL. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 16th October 1892. Mean for district.	Normal mean.	Variation.	Districts.

for the last ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The numbers denoting cloud amount represent the part of the sky covered the whole sky being denoted by 10. Under the head District observations of for the period in question during the past ten years. The means of the districts are the numerical average of the rainfall returned received in the which at least a tenth of an inch fell.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 14th of January 1893.

Meteorological Division.	District.	Station.	Rainfall. Sunday, 8th.	Monday, 9th.	Tuesday, 10th.	Wednesday, 11th.	Thursday, 12th.	Friday, 13th.	Saturday, 14th.	Total number of rainy days.	Rainfall of week.	Average rainfall of week.	Total rainfall since 1st of month.	Average total rainfall from 1st of month.	Total rainfall since 16th October 1892.	Average rainfall from 16th October to date.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 17th January* 1893.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 14TH OF JANUARY 1893.

At the close of the previous week the weather conditions in Bengal had become slightly disturbed, and on the 7th the distribution of barometric pressure over Bengal was distinctly abnormal, the sky had clouded over rather rapidly in the north and west of the province, and fairly general rain was reported in Bihar and North Bengal, while showers had also occurred in parts of South-West Bengal and Chota Nagur. On the 8th, or the first day of the present week, pressure rose at almost all stations, the increase being rapid in the western districts and small in East and North Bengal, and though pressure was still below the normal, the distribution was much less irregular than it had been on the previous day. Skies also began to clear, and the only general rainfall reported was in and near the hills of North Bengal, while also a few isolated showers of little or no importance fell in other districts. Temperature over the greater part of the province, however, except at the north-eastern stations, continued rather largely in excess of the normal. Winds also generally on this day had become of the normal north-westerly character. On the 9th the barometric changes were small, and pressure had become in slight excess in South Bengal, while it was in moderate excess over the north and centre of the province. A wave of low temperature following after the disappearance of the low pressure area, however, commenced to make itself felt on the 9th in the west of the province, where at some stations the mean temperature became from 3° to 5° below the normal, though over the remainder of the province the defects were small. On the 10th the pressure changes were unimportant, but the wave of low temperature had spread over the whole province, and the general temperature became about 4° to 6° below the normal of the day. The general changes on the 11th were rather unimportant, but on the 12th a rapid fall of pressure occurred which ranged from a twentieth to nearly a tenth of an inch, and pressure became in defect of the normal by nearly 0·01″ over a large part of the province. With the falling pressure temperature commenced to rise, and the defect from the normal on the 12th only equalled from 2° to 4°. On the 13th a further fall of pressure and slow increase in temperature occurred, and on this day pressure was about 0·013″ below the normal, and temperature was still 2° to 3° in defect. On the 14th, or the last day of the week, a further slight decrease of pressure had occurred, and temperature had again risen and was only 1° to 2° in defect of the normal.

It will therefore be seen that the strongly pronounced cold weather conditions, which established themselves after the disappearance of the barometric depression and the consequent disturbed weather which had existed at the close of the previous week, have been slowly but steadily changing. Temperature rose steadily during the second half of the week, and pressure fell moderately to rapidly, and with the unusually low pressure which existed at the close of the week, conditions were again becoming abnormal and pointed to the probable commencement of slightly disturbed weather, while the unusually low temperature had also to a great extent disappeared, and conditions were favourable for increasing temperature.

Pressure.—The mean pressure for the week has been in very considerable defect of the normal. This defect has generally equalled from 0·05″ to 0·07″, and has been tolerably equally distributed except at some of the northern stations such as Rangpur, Jalpaiguri, and Darjeeling, where defects exceeding 0·08″ have been recorded.

Temperature.—The general features of the temperature changes have been already described, and the mean temperature of the province for the week has been in defect of the normal by 2·2°. This defect has been spread very evenly over the province, and in all divisions the defect has slightly exceeded 2° except in East Bengal, where it has only equalled 1·4°.

The distribution of temperature for the week in the province generally and its variation from the normal value are clearly seen in the table below, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are compared with their normal values for the period. Both day and night temperatures, it will be seen, have been very decidedly in defect of the normal:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 14th January 1893.

	Normal mean maximum temperature for the week ending 14th January.	Actual mean maximum temperature for the week ending 14th January 1893.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 14th January.	Actual mean minimum temperature for the week ending 14th January 1893.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 14th January.	Actual mean daily temperature for the week ending 14th January 1893.	Variation of actual mean from the normal.

Darjeeling	46·3	40·8	—5·5	36·1	32·4	—3·7	41·2	36·6	—4·6

Rainfall.—The amounts of rain which have fallen during the week have been exceedingly small, and in no division does the fall average as much as a tenth of an inch. The largest fall indeed has only averaged 0·08 inch in North Bengal, and the falls in Chota Nagpur, Orissa, and South-West Bengal have only equalled one or two-hundredths of an inch. In the case of the smaller districts a few have received as much as a tenth of an inch and upwards, and this has been the case in Bankura, Dinajpur, Rangpur, Kuch Bihar, and Darjeeling.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 14th of January 1893:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1892.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

* Includes 3,646 tons and 7,164 tons of coal during 1892 and 1891, respectively, carried for Revenue, for which no "Up" and "Down" register maintained.

† Railway plant and rolling-stock, 7,239 tons and 7,389 tons for the years 1892 and 1891, respectively, for which no "Up" and "Down" register maintained.

Comparative Statement of principal commodities carried on the Eastern Bengal State Railway during the month of October 1892.

Increases.

	Tons.		Tons.
Rice	2,072	Jute, unscrewed	7,644
The traffic in 1891 was abnormally low.		The principal increase is in despatches from Pangsa, Kushtia, Atrai, Raninagore, Darwani, and Domar, due to good crop and favourable market.	
Jute, screwed	5,968	Kerosine oil	3,154
Forbesganj, Saidpur, Nilphamari, Haldibari, Kaonaid, Postgollah and Shaunagar show increases under this head.		Due to the prohibition of carriage by boat within certain limits of the port of Calcutta.	

Decreases.

	Tons.		Tons.
Coal	1,492	Salt	1,755
Ordinary fluctuation.		The decrease was in upward despatche from Chitpur, said to be due to less demand at up-country stations and to Calcutta prices having been high.	

JAMES SHAW,
Examiner of Accounts.

CALCUTTA, *the 22nd December* 1892.

Weekly Return of Traffic Receipts on Indian Railways.

EAST INDIAN RAILWAY.

Approximate Return of Traffic for week ended 7th January 1893, *on* 1,610½ *miles open.*

	Coaching Traffic.		Merchandise and Mineral Traffic.		Other earnings (estimated).	Total earnings.	Traffic Train-miles run.		
	Number of passengers.	Receipts.	Weight carried.	Receipts.			Coaching.	Merchandise.	Total
		Rs. A. P.	Mds. S.	Rs. A. P.	Rs. A. P.	Rs. A. P.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 20th January 1893.—It is hereby notified for general information that the Lieutenant-Governor intends, unless good reasons are shown to the contrary within two months from the date of publication of this Notification, to extend the provisions of Act VI (B.C.) of 1870 (the Village Chaukidari Act), as amended by Act I (B.C.) of 1871, Act I (B.C.) of 1886, and Act 1 (B.C.) of 1892, to the district of Darjeeling, and to prescribe by Notification in the *Calcutta Gazette*, under section 3 of Act I (B.C.) of 1892, that within the local areas of tea gardens in the district of Darjeeling, and of the estate known as the Western Duars of Jalpaiguri, the number of persons to be appointed to discharge the duties of a panchayat may be reduced to one.

Any representations on this subject that it may be desired to make should be forwarded to the Deputy Commissioners of Darjeeling and Jalpaiguri, respectively, by whom they will be transmitted through the Commissioner for the consideration of Government.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 24th January 1893.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Muhammadan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Maulvi Mohammad Abul Hasnath, authorising him to register Muhammadan marriages and divorces and to exercise the other functions of a Muhammadan Registrar within the police-stations of Shahanagar, Bhagwangola, and Manullahbazar, in the district of Murshidabad.

Under section 2, Act XII of 1880 (an Act for the appointment of persons as Kazis), the Lieutenant-Governor has also been pleased to grant a sanad (license) to Maulvi Mohammad Abul Hasnath, appointing him Kazi of the said police-stations of Shahanagar, Bhagwangola, and Manullahbazar, for the celebration of marriages and the performance of other rites and ceremonies when application is made to him to perform any such functions.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 24th January 1893.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Muhammadan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Maulvi Fazle Ali, authorising him to register Muhammadan marriages and divorces and to exercise the other functions of a Muhammadan Registrar within the police-stations of Assanpur, Sagardighi, and Kalianganj, in the district of Murshidabad.

Under section 2, Act XII of 1880 (an Act for the appointment of persons as Kazis), the Lieutenant-Governor has also been pleased to grant a sanad (license) to Maulvi Fazle Ali, appointing him Kazi of the said police-stations of Assanpur, Sagardihi, and Kalianganj, for the celebration of marriages and the performance of other rites and ceremonies when application is made to him to perform any such functions.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

RAILWAY.

The 20th January 1893.

No. 16.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Toposi-Khurrabad Branch of the Toposi Branch Extension of the East Indian Railway in the villages of Toposi, Sirthakpur, Mahmudpur, Ekeria, Shaikpur, Nundee Jamuria, Konthee, Shibpur, Faridpur, and Domohanee, in pargana Shergurh and in the villages of Barabonee and Noupara in pargana Kanthanagar, and in the village of Khurrabad in pargana Shergurh, district Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 492 bighas 13 cottahs and 3 chitaks of standard measurement (corresponding to 162 acres 3 roods and 18·02 poles), as bounded by a nick on the ground, is required within the aforesaid villages.

The mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6 of Act X of 1870, and section 3, clause 1, Act XVIII of 1885, to all whom it may concern.

The 21st January 1893.

No. 17.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Simaria Ghat station yard in the villages of Simaria nisf and Ganga Prasad, pargana Malki, zilla Monghyr, it is hereby declared that for the above purpose a piece of land measuring, more or less, 249 bighas 19 cottahs and 14 chitaks of standard measurement, and bounded on the east by Simaria Ghat station yard, on the north by the villages of nisf Simaria and Ganga Prasad, on the west mahal Ganga Prasad, and on the south by the river Ganges, is required within the aforesaid villages of Simaria nisf and Ganga Prasad.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 18.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for staff quarters at Kankinara station in the Eastern Section of the Eastern Bengal State Railway System in the village of Bhatpara, pargana Habilishahar, zilla 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8 cottahs 5 chitaks of standard measurement, bounded on the north by public road, on the east by Eastern Bengal State Railway land, and on the south and west by land occupied by Koylash Doolia, Nundo Doolia and others, is required within the aforesaid village of Bhatpara.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 20th January 1893.

No. 14.—With reference to notification No. 358, of the 21st December 1892, Mr. E. A. Smith, Assistant Engineer, second grade, is posted to the Dehree Workshops Division, which he joined on the afternoon of the 8th January 1893.

C. W. ODLING,
Secy. to the Govt. of Bengal.

The 24th January 1893.

No. 19.—The following extract from a Notification issued by the Government of India, in the Military Department, is republished for information :—

No. 56, *dated the 20th January* 1893.—The undermentioned Officers and Warrant Officer have been granted extensions of furlough or leave by the Secretary of State for India :—

[Second Publication.]

IRRIGATION.

The 17th January 1893.

No. 11.—*Notification.*—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of section XI of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force in the Calcutta Canals and Tolly's Nala from 1st April 1893 :—

I.—Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; and in case of any reasonable doubt arising, the Canal Officers at any toll-station shall have authority to measure a vessel notwithstanding that it was measured on entering the canal.

II.—The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 (B.L.C.) and of these rules, be determined by the following measurements :—

A.—The product of quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the waterline to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches ; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot in net depth.

C.—In calculating the amount of toll to be levied, any portion of 100 maunds less than 10 maunds is to be omitted.

D.—Provided that in the case of vessels which entered the canals at Chitpore, Kidderpore, and Chetla empty for the purpose of loading therein, the depth shall be measured from the line of usual immersion as visible on the outside of the vessel to the bottom of the vessel, and not from the line of actual immersion at the time of measurement.

E.—In the case of steamers the tonnage, as determined by clauses A, B, C, and D, shall be reduced by one-third as an allowance for engine space.

III.—Every vessel entering the canals shall be furnished with a ticket on payment of the prescribed toll. The manjee's name, the date and hour of entry, the maundage of the vessel, the cargo it contains, and amount of toll charged, shall be entered in this ticket to identify the vessel on which toll has been paid.

IV.—Every person in charge of a boat, raft, or float, who shall pass in the canal without tendering the toll due, or who shall pass out of the canal without delivering to the toll-keeper the ticket of entrance and paying the rent that be due, shall be liable to be detained and punished according to section 10 of Act V of 1864.

V.—This ticket may be demanded and inspected by any Canal Officer, and must be kept on board and at hand for that purpose.

VI.—Every person in charge of boats entering the Calcutta Canals from the eastward must tender his toll ticket to the officer at Dhappa and Panspotta pass-stations to have it examined, stamped, and signed ; and for those entering from the westward, must deliver up the toll tickets at the above pass-stations and receive in lieu a pass, which pass must be delivered to the toll-keeper at entrance of canals. Every such person must also pay all dues, or be liable to be detained and dealt with according to section 10 of Act V of 1864.

VII.—Every person in charge of a boat found in the canals (westward of the pass-station) with toll tickets unstamped or unsigned by a pass-station-keeper will be detained and treated as having no toll ticket under section 10 of Act V of 1864.

VIII.—The manjee or owner of every vessel not having a ticket on board and producible on demand shall be liable to the provisions of section 10 of the Canals Act.

IX.—Duplicates of lost tickets, of which the numbers and date of entry can be satisfactorily established, will be granted by the Collector on further payment of a sum equal to the original amount of toll.

X.—During the detention of any vessel under section 9 of these rules, or under any other provision of the Act, the duty of Canal Officers will be to see that the vessel or its cargo are not clandestinely removed ; but they are in no way responsible for its safety, for which the manjee, owner, or agent must make their own arrangements.

XI.—The purchaser of a vessel sold under these rules, and under the Act, will have the option of taking it out of the canal on the day of purchase, or of taking out a fresh toll ticket at the rate fixed by the Schedule of Tolls in force for the time being.

XII.—No boat engaged by any officer of Government, whether civil or military, shall be exempt from toll, on the ground that the officer is travelling on public duty. The only exception of this rule shall be in the case of vessels specially engaged in the conveyance of troops on military duty.

XIII.—All vessels the *bonâ fide* property of Government, or employed on works connected with the maintenance or improvement of the canals, and duly certified as such, shall be exempted from these tolls and charges. No other vessels whatever shall be exempted.

XIV.—Every vessel, raft, or float, which has paid toll, shall be allowed three days for passing through Circular Canals, and two days for Tolly's Nala between Gurreah and Kidderpore, and three days for Soorahs outside Dhappa Lock, the days of entering and of leaving being both included. In addition to these three days, they may, without further payment, remain in the canals for the further undermentioned periods, that is to say—

Circular Canal boats.—One day for every hundred maunds up to three hundred maunds of measurement, and one day for every two hundred maunds above three hundred maunds.

Tolly's Nala boats.—Two days for first hundred maunds, and one day for every hundred maunds above first hundred maunds.

Soorahs outside Dhappa Lock.—Same as for Tolly's Nala.

Floats in either channels.—Two days for any number of timbers not exceeding fifty, and one day for every additional fifty.

Rafts in either channels.—Two days for any number of bamboos not exceeding five hundred, and one day for every additional five hundred.

XV.—Every vessel, raft, or float remaining in any part of the aforesaid canals longer than the period allowed under the foregoing rules shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll; and every vessel remaining more than thirty days in either of the canals shall, for each day in excess of thirty days, be charged demurrage equal to the full rate of toll, provided that in no case the demurrage charged shall exceed Rs. 5 per diem.

XVI.—Any vessel remaining in the canal more than two months without authority from the Supervisor shall be summarily removed.

XVII.—Boats requiring repairs shall be allowed to enter Dhappa Docks and remain there for a maximum period of thirty days, during which they will be charged at the rate of one-sixth part of the demurrage chargeable under Rule XV. Any boat remaining in the docks longer than thirty days without the special permission of the Supervisor shall pay demurrage at the full rate for such excess period.

XVIII.—No vessel shall be docked for repairs on the bank of the Calcutta Canal or of Tolly's Nala.

XIX.—Wherever mooring posts may have been put up by the Supervisor, vessels shall be made fast by the head and stern along the banks to such posts, and shall not be moored in any other manner.

XX.—The Supervisor may by notification prohibit the dropping of anchors or the putting up of bamboos or luggees in any part of the canals or on the banks; and in such parts no anchors shall be dropped, or luggees put up, under a penalty of fifty rupees, and of a fine not exceeding four rupees a day for continued disobedience of an order for removal issued by the Supervisor.

XXI.—Boats whilst loading or unloading in the canals will be allowed to use ladders; but the ladders must be gradually taken in as the water rises.

XXII.—As the water falls, the head and stern ropes must be loosened, and boats gradually pushed towards the centre of the canal: when the flood comes in, these two ropes must be gradually pulled in, and the boat kept as close to the bank as possible.

XXIII.—Only one boat shall be allowed to make fast along and in line with the canal banks, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety of other boats or obstruct the passage of other boats.

XXIV.—Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

XXV.—Hackeries, carts, bullocks, &c., using the canal roads shall, when stationary, be ranged on the side of the road farthest from the canal bank.

XXVI.—In portions of the canals where only one towing-path exists, vessels shall moor on the off side, and the towing-path side shall always be kept clear.

XXVII.—No persons shall place obstructions on the canal banks, roads, drains, or bridges (when such are on canal land), so as to impede a free passage along them or cause injury to them, or shall commit a nuisance, or deposit filth of any sort on the banks or in the canals.

XXVIII.—Any vessel, vehicle, or any other thing that may cause an obstruction to navigation, or to the banks, roads, drains, and bridges, or injury to the same, will be liable to be immediately removed and detained till all expenses incurred on account of removal, demands, and fines are paid. If a charge be not paid within ten days from date of detention, the said vessel, vehicle, or other thing will be sold to defray expenses.

XXIX.—"*Whoever personally or by his or her servant infringes the provisions of any of the paragraphs* 18, 19, *and* 20 *to* 27, *both inclusive, of the foregoing rules, shall be liable, under section II, Act V of* 1864 (*B.C.*), *to a fine not exceeding Rs.* 50 *for any one such infringement, or to a fine not exceeding Rs.* 5 *a day for a continued infringement.*"

Vide Notification No. 22, dated 16th January 1882, published in the *Calcutta Gazette* of 18th January 1882, page 60.

XXX.—At the instance of the Collector of Tolls, any Magistrate who imposes a fine under section 11 or 16 of the Act may award any portion of such fine to the informer.

XXXI.—Any person who wilfully or negligently allows a vessel to sink in the canals shall be liable to a fine not exceeding Rs. 50.

XXXII.—In every case of wreck caused by negligence or otherwise, the Supervisor and his subordinates will give every assistance in removing the same.

XXXIII.—A notice shall be affixed on such wreck when recovered, calling on those concerned to pay to the Collector all toll which may be due, or fine which may have been adjudged, as well as the expenses incurred in the recovery or removal of the wreck; and intimating that, if the sum be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, the proceeds of the sale being dealt with as directed in section 9 of the Act.

XXXIV.—Every Canal Officer is authorized to remove any vessel, anchor, pole, or other thing which he may find in a position which is in contravention of these rules, and to deal with it in such a manner as may be necessary to give effect to the rules.

XXXV.—Whenever any laden vessel is seized by a Canal Officer, it shall be the duty of the Supervisor to give immediate notice of the same to the owner or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the same.

XXXVI.—If the Supervisor be unable to ascertain the name and place of business or of abode of the owner of the cargo of any vessel or boat seized under the Canals Act, he shall notify the seizure by advertisement in his office, and in one or more of the Calcutta newspapers or advertisement papers. Such notice shall call upon the owner to cause the immediate removal of the cargo, and to pay any necessary expenses incurred in providing for its proper custody and storage.

XXXVII.—The Supervisor may incur whatever expense he may think necessary for the proper custody and storage of the cargo of any vessel seized under the Canals Act; and if the cargo be not removed within ten days from the date of seizure, he may sell the same at public auction to the highest bidder, after giving ten days' notice of the same by advertisement in one or more Calcutta newspapers or advertisement papers and affixed in his office.

XXXVIII.—The money realized at such a sale shall be applied first to defray any expenditure that may have been incurred by the Supervisor on account of the cargo sold, and the balance, if any, shall be held in deposit to be paid to the owner of the said cargo on his applying for the same.

IRRIGATION.

The 17th January 1893.

No. 12.—*Notification.*—In supersession of the rates of tolls fixed by Notification No. 286, dated 2nd August 1886, published at page 906, Part I of the *Calcutta Gazette* of the 4th August 1886, the Lieutenant-Governor of Bengal proposes, under section VI of Act V (B.C.) of 186½, to fix the following revised rates of tolls to be levied, on and after the 1st April 1893, on the undermentioned canals and channels:—

I.—The Circular Canal, comprising the whole of the still-water canal between the Dhappa and Chitpore Locks, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Calcutta Canal at the Dhappa Lock to its junction with the Biddiadharee river at Bamunghatta.

III.—The Nowbhanga Khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock, and extending to the fish market situated adjacent to, and to the west of the Dhappa Inspector's residence.

V.—Tolly's Nala, extending from a line drawn across the nala 25 feet west of the Hastings bridge at Kidderpore to the Biddiadharee river at Samookpotta.

No.	Description of vessels.	Entering the Calcutta Canals at Chitpore or Tolly's Nala at Kidderpore or Chetla.		Entering the Calcutta Canals or Tolly's Nala from the eastward.	Saltees entering Tolly's Nala at Russa or Chetla.	At Dhappa, Russa, and Gurreah, going east if not cleared by the toll paid at Chitpore or Kidderpore.
		If not proceeding further eastward than Dhappa or Russa or to river Hooghly.	If proceeding further eastward than Dhappa or Russa.			
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1	On all boats, steamers, or other vessels, except those laden with rice, lime, or firewood per 100 maunds tonnage by canal measurement ...	0 14 0	1 12 0	1 12 0	1 12 0	.....
2	On all boats, steamers, or other vessels laden with rice, per 100 maunds tonnage	0 12 0	1 8 0	1 8 0	.....	.....
3	On all boats, steamers, or other vessels laden with lime or firewood, per 100 maunds canal measurement	0 8 0	1 0 0	1 0 0	1 0 0	.....
4	On floats of roughly squared timbers, each timber	0 3 0	0 6 0	0 6 0	.....	.....
5	On floats of unwrought timber, each timber ..	0 1 6	0 3 0	0 3 0	.....	.....
6	On rafts of bamboos for each hundred or portion of each hundred	0 1 6	0 3 0	0 3 0	.....	.....
7	On saltees under 25 maunds by measurement entering by Russa toll station	.....	.....	.....	0 8 0	.....
8	On saltees of 25 maunds and less than 50 maunds by measurement entering by Russa toll station	.....	.....	.....	1 0 0	.....
	Larger saltees will be charged at the rate given in No. I above.					
9	Minimum toll on all boats, floats, or rafts	0 4 0	0 4 0	0 4 0	0 4 0	0 4 0
10	Toll on all boats, steamers, or vessels laden or empty which have already paid toll and are returning eastwards per 100 maunds tonnage ..	.....	.....	.....	.....	0 12 0

11 Monthly tickets at six times the ordinary toll as calculated by the above rates are, at the option of the payers, issued to boats carrying perishable articles going to Orphangunge Bazar or to the fish Soorah at Dhappa.

12 *Excess tolls.*—Vessels which are passing through the canals, and which enter either empty or partially loaded, are liable to pay excess tolls at the above rates, if their tonnage by canal measurement is greater when they are leaving the canals than it was when they entered them. Vessels entering at Chitpore, Kidderpore, and Chetla for the purpose of loading in the canals pay at the time of entry with reference to their line of usual immersion according to canal rules.

Demurrage.—Every vessel, raft, or float, which has paid toll, shall be allowed three days for passing through Circular Canals, and two days for Tolly's Nala between Gurreah and Kidderpore, and three days for Soorahs outside Dhappa Lock, the days of entering and leaving being both included. In addition to these three days, they may, without further payment, remain in the canals for the further undermentioned periods, that is to say—

Circular Canal boats.—One day for every hundred maunds up to three hundred maunds of measurement, and one day for every two hundred maunds above three hundred maunds.

Tolly's Nala boats.—Two days for first hundred maunds and one day for every hundred maunds above first hundred maunds.

Soorahs outside Dhappa Lock.—Same as for Tolly's Nala.

Floats in either channels.—Two days for any number of timbers not exceeding fifty, and one day for every additional fifty.

Rafts in either channels.—Two days for any number of bamboos not exceeding five hundred, and one day for every additional five hundred.

Every vessel, raft, or float remaining in any part of the aforesaid canals longer than the period allowed under the foregoing rules shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll; and every vessel remaining more than thirty days, in either of the canals, shall, for each day in excess of thirty days, be charged demurrage equal to the full rate of toll, provided that in no case the demurrage charged shall exceed Rs. 5 per diem.

NOTE.—Open dinghees accompanying large boats are entitled to the same demurrage allowance of time as the parent boats.

Steamers or flats passing through the lower Sunderbans channels pay tolls at the rate of Rs. 5 (five) each before leaving and on return to Calcutta.

Offg. Director of Public Instruction, Bengal.

Calcutta University.

NOTICE.

IT is hereby notified for general information that a Convocation of the University of Calcutta for conferring degrees will be held at the Senate House, College Square, on Saturday, the 28th January, at 2-30 P.M.

Graduates of the University in academic costume are admissible, on presenting themselves at the Senate House, at 1 P.M.

W. GRIFFITHS, *Offg. Registrar.*

SENATE HOUSE, *the 16th January* 1893.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2056B.

NOTICE is hereby given that the Second Sale of Opium, the provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 1st February 1893, at 11 A.M., and will comprise 3,642 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory	1,927
Ditto ditto at the Ghazeepore Factory	1,715
Total ...	3,642

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1892, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 6th and 16th February 1893, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Monday, the 6th February 1893, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 16th February 1893.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale down to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so—

Dates.			Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazeepore Factory; about chests.	Total about chests.

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 20th December* 1892.

No 66B.

OPIUM.

D. R. LYALL, ESQ., C.S.I.

IT is hereby notified, for the information of the public, that the standard of consistence at which provision opium is manufactured at the Ghazipur Opium Factory (Benares) has been raised from 70° to 71° The provision of the season 1891-92, which has been manufactured under the new standard consistence, will be first offered for sale in May 1893, when 861 chests will be sold.

By order of the Board of Revenue, L.P.,
T. INGLIS, *Secretary.*

CALCUTTA, *the 12th January* 1893.

No. 68B.

OPIUM.

D. R. LYALL, ESQ., C.S.I.

AN examination of the provision opium of 1891-92, received from the Patna and Ghazipur Factories, will be held at the new Opium Range, No. 14, Strand, on Thursday, the 26th January 1893, at 11 A.M Merchants, dealers and others interested in opium are invited to attend.

By order of the Board of Revenue, L.P.,
T. INGLIS, *Secretary.*

CALCUTTA, *the 12th January* 1893.

NOTIFICATION.

IN supersession of the orders contained in the Board's Notification No. 341B., dated 1st March 1892, published in the *Calcutta Gazette* of the 2nd idem, Part I, page 285, it is hereby notified to all whom it may concern, under the provisions of the Sea Customs Act, 1878, that the Collector of Customs, Chittagong, is ordinarily prohibited from granting permission to work cargo in sea-going vessels on Sundays. He shall, however, give written permission in the following cases :—

I.—When the vessel is a mail or regular steamer which calls at the port at fixed intervals.

II.—When the vessel is a native brig on which no European is employed.

III.—When the application is made to discharge or load live-stock, ship's stores, ballast or coal for the ship's use.

2. These orders do not modify the existing orders under which a fee of Rs. 6 is charged for the services of the Inspector and Preventive Officer, or the orders contained in the Resolution of Government, in the Financial Department, dated the 24th September 1888, under which a fee of Rs. 100 is payable on Christmas Day, Good Friday, Queen's Birthday, and the 1st of January, in addition to the ordinary fee for the Inspector and the Preventive Officer.

By order of the Board of Revenue, L.P.,
T. INGLIS, *Secretary.*

CALCUTTA, *the 3rd January* 1893.

NOTICE.

THE following abandoned and confiscated salt will be sold by public auction on account of Government at noon of the 31st instant at the Office of the Superintendent, Preventive Service and Sulkea Golahs, at the Custom House, where samples can be seen.

The purchasers will be required to make a deposit of one-fourth the amount of purchase-money immediately after the sale is effected, and to remove the salt within one week from the date of sale, after which the deposit-money will be forfeited and the salt resold at the risk of the former purchasers:—

CIVIL PROCESS No. 42.

PROCLAMATION OF SALE.

(Section 287 of the Code of Civil Procedure.)

District Sarun.

In the Court of the District Judge at Chapra.

EXECUTION CASE No. 31 OF 1892.

Mr. Norman Cockell, of Motihari, zilla Champaran, decree-holder, against Babu Fatteh Bahadur Singh, of Bhoputpore, pargana Majhowa, zilla Champaran, judgment-debtor.

NOTICE is hereby given that, under section 284, Act XIV of 1882, an order has been passed by this Court for the sale of the attached property mentioned in the annexed schedule in satisfaction of the claim of the decree-holder in the suit mentioned in the margin, amounting, with costs and interest up to date of sale, to the sum of Rs. 37,928-5.

Suit No. 151 of 1892 decided by the Sub-Judge, 1st Court, Sarun, Chapra, in which Mr. Norman Cockell was plaintiff, and Babu Fatteh Bahadur Singh was defendant.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the sale schedule. The sale will be of the property of the judgment-debtor above named as mentioned in the schedule below, and the liabilities and claims attaching to the said property, so far as they have been ascertained, are those specified in the schedule against each lot.

In the absence of any order of postponement, the sale will be held by the Nazir of the Court at the monthly sale commencing at 12 o'clock on the 6th February 1893 at Judge's Court, Chapra. In the event, however, of the debt above specified and the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid either personally or by duly authorised agent. No bid by, or on behalf of, the judgment-creditor above mentioned, however, will be accepted; nor will any sale to them be valid without the express permission of the Court previously given.

The following are the further *conditions of sale*:—

1. That particulars specified in the schedule below have been stated to the best of the information of the Court, but the Court will not be answerable for any error, misstatement or omission in this proclamation.

2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid or as to the bidder, the lot shall at once be again put up to auction.

3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.

4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it subject always to the provisions of section 291, Act X of 1877.

5. In the case of moveable property, the price of each lot shall be paid for at the time of sale or as soon after as the officer holding the sale directs, and in default of payment the property shall forthwith be again put up and sold.

6. In the case of immoveable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and sold.

7. The full amount of the purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.

8. In default of payment of the balance of purchase-money within the period allowed, the property shall be re-sold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, shall be forfeited to Government, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold.

Given under my hand and the seal of the Court this the 17th day of January 1893.

A. R. K. SINGH, Sarishtadar. S. P. CHATTERJEE, For District Judge.

Schedule of property.

Number of lot.	Description of property to be sold with the name of each owner where there are more judgment-debtors than one.	The revenue assessed upon the estate or part of the estate if the property to be sold is an interest in an estate or a part of an estate paying revenue to Government.	Detail of any incumbrances to which the property is liable.	Claims, if any, which have been put forward to the property and any other known particulars bearing on its nature and value.
1	The entire mahal Bhoputpore, tapa Daulta, pargana Manjhowa, consisting of 68 mauzas as entered in the Champaran Collector's register and in the previous execution petition lying within jurisdiction of Munsifi Motihari, bearing tauzi No. 585. The gross income of the entire mahal is Rs. 70,000, and the net income, deducting Rs. 15,000, Government revenue and cesses, and Rs. 5,000, costs of collection, is Rs. 50,000. A. R. K. SINGH, Sarishtadar. S. P. CHATTERJEE, For District Judge.
Chapra, the 19th January 1893. (970—1)

EXCISE.

NOTIFICATION.

1. The right of retail sale of the liquors and drugs specified below will be put up to auction at the Opium Sale-room, Board of Revenue, 2, Bankshall Street, on the 13th February 1893, and subsequent days, in the following order:—

Name of article.	Date of sale.			
Country spirit ...	Monday,	13th February 1893, commencing at 11 AM.		
	Tuesday,	14th ditto	ditto	ditto.
	Wednesday,	15th ditto	ditto	ditto.
Rum and imported liquor by glass.	Friday,	17th ditto	ditto	ditto.
Ganja, siddhi, charas, majum.	Monday,	20th ditto	ditto	ditto.
	Tuesday,	21st ditto	ditto	ditto.
Opium, madak, chandu	Wednesday,	22nd ditto	ditto	ditto.
	Thursday,	23rd ditto	ditto	ditto.
Tari	Friday,	24th ditto	ditto	ditto.
	Saturday,	25th ditto	ditto	ditto.

2. A complete list of all the shops for which licenses will be offered and a copy of each form of license are open to general inspection at the office of the Superintendent of Excise Revenue, 24, Dalhousie Square, and the number of these shops is not under any circumstances to be increased during the term of three years ending the 31st March 1896, except under the sanction of the Commissioner of Excise, Bengal, in each case. The Superintendent of Excise Revenue, however, reserves to himself the right, in case of combination, or for other cause, to transfer, subject to there being no objection on police grounds, either before or after its settlement, any shop from the site specified in the list, to some other site, provided that the new site, if it is more than 100 yards from the advertised one, does not bring the shop within a quarter of a mile of any other similar shop, the term of whose license is unexpired.

3. It is not at present intended to open any other shop during the term of the license; but the Superintendent of Excise Revenue does not absolutely bind himself in this respect. On special cause shown, and with the sanction of the Commissioner of Excise, Bengal, in each case, the number of shops may be increased: provided, however, that, whenever a new shop is opened, it will be optional to the holder of a similar license for the sale of liquor or drugs, if his shop is within a quarter of a mile of the new shop, to surrender his license without forfeiting his advance, when the Superintendent of Excise Revenue is to re-settle the shop by auction or otherwise.

4. The right of retail sale of the liquors and drugs is to be put up to auction at upset prices sanctioned by the Commissioner of Excise, Bengal.

5. The right of retail sale of the liquors and drugs is to put up to auction in separate lots of one or more shops either in the order specified in the list, or in such other order as the officer conducting the sale may deem fit. When one lot has been sold, the next lot is not to be put up until the sum payable in advance on account of the lot already sold has been actually paid: provided, however, that where the sum payable exceeds Rs. 25, a promissory note may be taken from any respectable and well-known purchaser in lieu of cash payment.

6. The purchasers of the right of retail sale of country spirit, rum, and imported liquors are entitled to sell imported liquors by the glass only, the liquor to be drunk *on* the premises.

7. The purchasers of the right of retail sale of madak and chandu shall not have the privilege of allowing consumption of the drugs on the premises of the shop.

8. The auction is to be held subject to the following conditions:—

(*a*) That the Superintendent of Excise Revenue does not bind himself to accept the highest or any bid.

(*b*) That the settlement with each accepted purchaser will, in Calcutta and the Suburbs, be contingent on the production by him of the usual Police certificate or license, as the case may be, viz.—

For Excise licenses for—

Doosta ... ...
Rum ... .
Imported liquors by glass ...
Tari ... ...
Ganja ... ...
Siddhi ... ...
Charas ... ...
Majum ... ...

} If to be held in Calcutta, a Police certificate in the form prescribed by section 36, Act IV (B.C.) of 1866, must be produced; and if to be held in the Suburbs, a Police certificate in the form prescribed by section 19, Act II (B.C.) of 1866, must be produced.

For Excise licenses for—

Opium ... ...
Madak ... ...
Chandu ... ...

} If to be held in Calcutta, a Police license in the form prescribed by section 39, Act IV (B.C.) of 1866, must be produced; and if to be held in the Suburbs, a Police license in the form prescribed by section 22 of Act II (B.C.) of 1866 must be produced.

(*c*) That the person accepted as the purchaser is to state in writing, within seven days from the date of settlement, in what building he purposes to open his shop, and is at the same time to submit a plan showing clearly and distinctly what building or portion thereof he desires to be covered by the license, it being understood that the removal of shops to other premises than those named in the list attached to this notification will be contingent on the approval of both the Excise and Police authorities, and that any sum which has been paid as an advance of the license fee under the provisions of clause (*d*) of these conditions will be returned to any person to whom a license may be subsequently refused for police reasons.

(*d*) That the term of the license is to be for three years ending the 31st March 1896, and that, except in the case of tari, the license fee for that period is to be paid in advance in the following instalments :—namely, the sum equivalent to the fee for two months at the time of sale, and one month's fee on the date on which the currency of the license commences, and one month's fee on the first day of every succeeding month, until the whole of the fee due on the license shall have been paid. In the case of tari only one month's fee is to be paid in advance at the time of sale, and fifteen days' fee on the date on which the currency of the license commences, and the rest of the fee in half-monthly instalments, viz , on the first and sixteenth day of every month, until the whole of the fee due on the license shall have been paid. This condition is to be strictly enforced in future, and failure to comply with it is to be met by immediate cancelment of the license.

(*e*) That the purchaser is not to be entitled to receive back any portion of his advance in the event of his shop being closed before the expiration of the term of the license on violation of any of the conditions of the license, or his being convicted of a non-bailable criminal offence, or of any offence against the excise laws or rules ; and in the case of the surrender of a license under Act VII (B.C.) of 1878, the licensee is to give fifteen days' previous notice in writing to the Superintendent of Excise Revenue, and pay a sum equal to the license fee for fifteen days, over and above the amounts already paid in advance; and in the case of the surrender of a license under Act I of 1878, the licensee is to give one month's previous notice in writing to the Superintendent of Excise Revenue, and pay such fine not exceeding six months' license fees as the Superintendent of Excise Revenue may adjudge, over and above the amounts already paid in advance.

(*f*) That the currency of the license is to commence on the 1st April 1893, on which date the purchaser is to open his shop, in all respects prepared for the accommodation of customers, to be certified by an Excise Officer—failure to comply with this condition is to be met by the immediate cancelment of the license, the forfeiture of the deposit, and the levy of the fees for the month, except in the case of delay caused by the non-issue of the Police certificate or Police license, for which a reasonable extension of time may be allowed upon application and cause shown to the Superintendent of Excise Revenue.

(*g*) That where the amount of the sum payable in advance is required to be paid at once in cash, and the bidder fails to make such payment, the officer conducting the sale is either immediately to put up the lot again for sale, or after the other lots in the list have been disposed of, or he may postpone the sale to such future date as he shall then and there notify ; and the defaulting purchaser is to be debarred from bidding for such lot or for any other lot, and he is not to be allowed to remain in the auction-room; and that the defaulting purchaser will be liable for any loss that may accrue to Government in case it becomes necessary to re-sell a lot at a lower rate either in consequence of his failure to deposit the sum payable at the time of sale, or to redeem his promissory note on or before 4 P.M. on the day following that on which the note was signed.

(*h*) That the purchasers are to adhere to all the provisions of the Opium, Excise and Police laws, and of the rules which have been or may from time to time be prescribed by the Board of Revenue.

9. All sales subsequent to the date of the triennial sale in March are to be held subject to the conditions contained in this notification, so far as they may be applicable.

10. Any further information regarding the auction may be had on application at the office of the Superintendent of Excise Revenue.

D. G. BONNERJEA, *Superintendent of Excise Revenue,*
Calcutta, the Suburbs, Howrah and Bally.

OFFICE OF THE SUPDT. OF EXCISE REVENUE;
24, DALHOUSIE SQUARE, CALCUTTA, *the 15th January* 1893.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series	10 0 0	2 8 0
,, each of the Madras, Bombay, and Allahabad Series ..	6 0 0	7 0 0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*) ...	.....	2 0 0
,, a part of each of the Madras Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	... ...	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit.

	For town. Rs. A. P.	For mofussil Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
each of the Madras, Bombay, and Allahabad Series, per copy	0 5 3	0 5 9
,, the Calcutta Series. For the year	7 2 6	8 6 3
,, each of the Madras, Bombay and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1892 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 20th January, 1893, and is hereby promulgated for general information :—

ACT NO. I OF 1893.

An Act to extend the provisions of the Bankers' Books Evidence Act, 1891, to the Books of Post Office Savings Banks and Money Order Offices.

WHEREAS it is expedient to extend the provisions of the Bankers' Books Evidence Act, 1891, to the books of the savings banks and money order offices of the Post Office ; It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Bankers' Books Evidence Act, 1893 ; and

(*2*) It shall come into force at once.

Addition to definition of "bank" and "banker" in section 2, sub-section (*3*), of Act XVIII of 1891.

2. After clause (*b*) of sub-section (*2*) of section 2 of the said Bankers' Books Evidence Act, XVIII of 1891, the following clause shall be added, namely :—

"(*c*) any post office savings bank or money order office."

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 12th January 1893:—

NO. 2 OF 1893.

Bill to Amend the Presidency Small Cause Courts Act, 1882.

WHEREAS it is expedient to amend the Presi- of 1882 dency Small Cause Courts Act, 1882; It is hereby enacted as follows:—

Title and commencement.

1. (*1*) This Act may be called the Presidency Small Cause Courts Act, 1893; and

(*2*) It shall come into force on the first day of

Amendment of section 7, Act XV, 1882.

2. (*1*) For the proviso to the first paragraph of section 7 of the Presidency Small Cause Courts Act, 1882, herein referred of 1882. to as "the said Act," the following shall be substituted, namely:—

"Provided that no person shall be appointed to be a Judge of such Court, or be authorised to exercise the powers of a Judge of such Court, unless he is of five years' standing—

(*a*) as a barrister of England or Ireland, or a member of the Faculty of Advocates in Scotland, or

(*b*) as an advocate, vakil or attorney of a High Court of Judicature established 25 Vict., under the Indian High Courts Act, 1861, or

(*c*) as a Judge of a Court of Civil Judicature, or

(*d*) partly in one and partly in another of such capacities:

and that no person other than a barrister, member of the Faculty of Advocates or advocate of a High Court of such standing as aforesaid shall be appointed to be Chief Judge of such Court."

(*2*) The last paragraph of section 7 of the said Act is hereby repealed.

Substitution of new section for section 9, Act XV, 1882, and temporary continuance of existing procedure and practice.

3. For section 9 of the said Act the following shall be substituted, namely:—

"9. (*1*) The High Court may from time to time, by rules having the force of law,—

Procedure and practice of Small Cause Court.

(*a*) prescribe the procedure to be followed and the practice to be observed by the Small Cause Court either in supersession of or in addition to any provisions which were prescribed with respect to the procedure or practice of the Small Cause Court on or before the thirty-first day of December, 1892, in or under the Presidency Small Cause Courts Act, 1882, or any other enact- XV of 1882. ment for the time being in force, and

(*b*) cancel or vary any such rule or rules.

"Rules made under this section may provide, among other matters, for the exercise by one or more of the Judges of the Small Cause Court of any powers conferred on the Small Cause Court by this Act or any other enactment for the time being in force."

(*2*) The law, and any rules and declarations made, or purporting to be made, thereunder, with respect to procedure or practice, in force, or treated as in force, in the Small Cause Court on the thirty-first day of December, 1892, shall be in force, unless and until cancelled or varied by rules made by the High Court under this section.

Addition to section 18, Act XV, 1882.

4. After section 18 of the said Act the following shall be added, namely:—

"18A. The Small Cause Court may allow a plaintiff at or before the first hearing of a suit in which a several liability is alleged on a cause of action arising either wholly or in part within the local limits of the jurisdiction of the Court to abandon the suit as against any defendant who

Plaintiff may abandon suit against defendant resident out of jurisdiction.

does not reside or carry on business or personally work for gain within such local limits, and to sue for a decree against such defendants only as do so reside, carry on business or personally work for gain."

Addition to section 19, Act XV, 1882.

5 After section 19 of the said Act the following shall be added, namely:—

Return of plaint.

"19A. When the right of a plaintiff and the relief claimed by him in the Small Cause Court depend upon the proof or disproof of any right to or interest in immoveable property or any other title which the Court cannot finally determine, the Court may at any stage of the proceedings return the plaint to be presented to a Court having jurisdiction to determine the title. When the Court so returns a plaint, it shall comply with the provisions of the second paragraph of section 57 of the Code of Civil Procedure and make such order with respect to costs as it may think just, and the Court shall, for the purposes of the Indian Limitation Act, 1877, be deemed to have been unable to entertain the suit by reason of defect of jurisdiction. When a plaint so returned is afterwards presented to a High Court, credit shall be given to the plaintiff for the amount of the court-fee paid in the Small Cause Court in respect of the plaint in the levy of any fees which according to the practice of the High Court arecredited to the Government.

XIV of 1882.

XV of 1877.

Repeal of Act XV, 1882, section 23 and Second Schedule.

6. Section 23 of and the second schedule to the said Act are hereby repealed.

Substitution of new Chapter for Chapter VI, Act XV, 1882.

7. For Chapter VI of the said Act the following shall be substituted, namely:—

"CHAPTER VI.

"NEW TRIALS AND APPEALS.

General finality of decrees and orders of Small Cause Court.

"37. Save as otherwise provided by this Chapter or by any other enactment for the time being in force, every decree and order of the Small Cause Court in a suit shall be final and conclusive.

New trial of contested cases.

"38. Where a suit has been contested, the Small Cause Court may, on the application of either party, made within eight days from the date of the decree or order in the suit (not being a decree passed under section 522 of the Code of Civil Procedure), order a new trial to be held, or alter, set aside or reverse the decree or order, upon such terms as it thinks reasonable, and may, in the meantime, stay the proceedings:

XIV of 1882.

Provided that nothing in this section shall apply to any suit in which an appeal to the High Court would lie under the next section of this Act.

Explanation.—Every suit shall be deemed to be contested in which the decree is made otherwise than by consent of or in default of appearance by the defendant.

Appeal from decrees and orders in certain cases.

"39. Save as otherwise provided by any enactment for the time being in force, an appeal shall lie to the High Court from every decree of the Small Cause Court made in any suit of which the amount or value of the subject-matter exceeds one thousand rupees.

Rules with respect to decrees and orders appealable under the last foregoing section.

"40. (*1*) When hearing any suit in which an appeal from the decree to be made therein would lie under the last foregoing section to the High Court, the Judge of the Small Cause Court shall record a memorandum of the substance of the evidence and a statement of the grounds of his decision.

"(*2*) The period of limitation for an appeal to the High Court under the last foregoing section shall be the same as that provided by law for an appeal from a decree of the High Court in the exercise of its original jurisdiction, and the High Court shall have all the same powers and jurisdiction in respect of and incidental to every such appeal, as if it were an appeal from a decree of such Court in the exercise of such original jurisdiction."

Investigation of claims to attached property to constitute trial of suit.

8. In the construction of section 14 of the said Act the investigation of any claim preferred to or objection made to the attachment of any property attached in execution of a decree of the Small Cause Court shall be deemed to be the trial of a suit.

Fees leviable on plaints or for processes.

9. Notwithstanding anything contained in Chapter X of the Presidency Small Cause Courts Act, 1882, the Local Government may, with the previous sanction of the Governor General in Council, declare by notification in the local official Gazette— XV of 1882.

(*1*) that the fees to be levied on plaints presented to the Small Cause Court shall be regulated by Chapter III and Schedule I of the Court-fees Act, 1870; or VII of 1870

(*2*) that the fees to be levied for serving or executing processes issued by the Small Cause Court or served or executed under its direction or control shall be regulated by Chapter IV of the Court-fees Act, 1870;

and thereupon the fees leviable on plaints or for processes, as the case may be, shall be regulated accordingly.

STATEMENT OF OBJECTS AND REASONS.

1. THE object of section 2 of the Bill for the introduction of which leave is asked is to determine, more precisely than Act XV of 1882 does, the qualifications of the persons who may be appointed to be, or to exercise the powers of, Judges of Presidency Courts of Small Causes.

2. The effect of section 3 will be to leave to the High Court all powers of making rules with respect to the procedure and practice of Presidency Small Cause Courts.

It is based on the opinion expressed, by the Hon'ble the Chief Justice and Judges of the High Court of Judicature at Fort William in Bengal, in the following paragraph of their Registrar's letter No. 1383, dated the 1st June, 1891:—

"2. It seems to the Judges convenient, in the first place, to advert to the enquiry contained in the twelfth paragraph of your letter under reply, and I am to say, with reference thereto, that they concur with His Excellency in Council in thinking that it is desirable, while retaining the Code of Civil Procedure as a basis, to have the procedure of the Small Cause Court regulated by the High Court. The exact application of the provisions of the Statute 44 & 45 Victoria, chapter 68, section 27, would not, the Judges think, quite attain the desired object. They presume, however, that that enactment has been referred to rather as furnishing an analogy than as providing an exact precedent, and they desire, therefore, to recommend that the High Court be empowered to frame by rules having the force of law a procedure for the Small Cause Court either in supersession of, or in addition to, the provisions of the Civil Procedure Code, and from time to time to modify such procedure as experience may suggest. The undertaking is no doubt one of considerable difficulty; but the Judges are prepared to accept the responsibility, being satisfied that this is the most practical mode of arriving at a procedure which shall be found satisfactory and adapted to the purposes of the Small Cause Court."

3. Section 4 of the Bill has been suggested by the following remarks in a letter addressed to the Government of Bombay by Mr. W. E. Hart, Chief Judge of the Court of Small Causes, Bombay:—

"16. In regard to the amendment of the present Act, we think that section 18 should be so amended as to enable the Court to allow a plaintiff at or before the first hearing to strike out the name of any defendant resident beyond the jurisdiction, and take a decree against such defendants as are resident within the jurisdiction, in such suits as there is a several liability, on a cause of action arising within the jurisdiction.

"17. It not unfrequently happens that a plaintiff, in the belief that all his defendants are resident within the jurisdiction, files a suit against them, without previously obtaining the leave of the Court, on a cause of action arising wholly within the jurisdiction, on which they are jointly and severally liable. But when he comes to serve them with the summons he finds that, though some are still resident within the jurisdiction, others had left Bombay before the institution of the suit, and cannot be shown to have acquiesced in it. As the law at present stands, the suit must now wholly fail against all the defendants, and the plaintiff be put to the expense of instituting a new suit (if it be not time-barred) either against all the defendants, after obtaining the leave of the Court, or against the resident defendants only without such leave. But in many cases the plaintiff is too late even to adopt this course, and loses his whole claim, the new suit being barred by limitation. The proposed amendment, which could be introduced by means of a proviso after clause (*c*), would enable him to obtain a decree in the original suit at least against the resident defendants."

In order, however, to prevent cases of improper severance it is provided that the plaintiff must purchase this privilege by abandoning his claim against the non-resident defendants.

4. Section 5 of the Bill, based on section 23 of the Provincial Small Cause Courts Act, 1887, has reference to the following remarks in Mr. Hart's letter already referred to:—

"20. On the question of jurisdiction, moreover, some of my colleagues with myself are of opinion that section 19 should be so amended as to debar this Court from the cognizance of suits involving any *question* of title to immoveable property. Clauses (*d*), (*e*), (*f*) and (*g*) prevent us from entertaining suits for the *determination of rights* in immoveable property. One object of this doubtless is to prevent the time of a Small Cause Court, which ought to be occupied in the speedy determination of petty litigation, being taken up by the protracted hearings generally involved in adjudication on questions of title to immoveable property, which, though insignificant in themselves, may have far-reaching consequences, and are therefore generally keenly contested and can very rarely be summarily disposed of. But under the present law an equal amount of time is liable to be lost over a suit (*e g.*) for rent, in which the defendant raises a question of title. Some of us think, having regard to the general policy of section 19 and to the anomaly involved in obliging a Court expressly debarred from jurisdiction to determine rights in immoveable property yet to determine questions indirectly involving such rights, which moreover in many instances are doubtless tentatively raised for the very purpose of obtaining indirectly the decision directly forbidden by the Legislature, that so soon as the Court is assured that there is a *bond fide* question of title involved in any suit it should be enabled to decline the jurisdiction. This it could do if to clause (*g*) were added some such words as 'or in which any question arises involving any such right or interest.'

21. I ought to add, however, that on this particular point we are not unanimous. The Fourth Judge Mr. Hormusji Dadabhoy, whose opinion has a peculiar value as that of an officer of long experience, both as a pleader and a Judge in this Court, considers that the amendment of section 19 ought to be rather in the direction of extending than of curtailing the jurisdiction of this Court, because the restrictions already

imposed have the effect of denying justice to poor litigants with small claims on those causes of action in which jurisdiction is withheld from this Court who are unable to incur the expense of a High Court suit. I had better quote his own words :—

'As suggestions have been invited on other matters, I take this opportunity of prominently bringing to the notice of Government a serious defect in the existing law. Section 29 of Act XV of 1882, among other things, bars the cognizance of the following classes of suits :—

(1) suits for the recovery of immoveable property ;

(2) suits for the determination of any other right to immoveable property ;

(3) suits for general average loss and suits on policies of insurance on sea-going vessels ;

(4) suits for a dissolution of partnership or for an account of partnership transactions ;

(5) suits for compensation for libel, slander, malicious prosecution or breach of promise of marriage.

'These suits are not filed in the High Court, for the obvious reason that the aggrieved parties could not afford the luxury of a High Court action. The result is a practical denial of justice in such cases. The Court had jurisdiction to entertain these demands, but it was taken away by the Act of 1882.'

"22. The great objection—to my mind an insuperable one—to Mr. Hormusji's suggestion is that without a material addition to its strength the Court could not undertake the disposal of such cases and remain what it was originally intended to be—a Court of summary procedure for the speedy determination of petty litigation. As it is at present constituted the Judges have not time for the trial of lengthy cases, nor is there in the office an establishment sufficient for the taking of long and complicated accounts. It is true that under the old Act we used to try some of the cases mentioned by Mr. Hormusji from the cognizance of which we are debarred by our present Act. But my experience of such cases was that they invariably took several days in trial. By the present Act our monetary jurisdiction was doubled. This, coupled with the annually increasing litigation in our Court, so increased the work, while no increase of the staff was contemplated, that it was absolutely necessary to limit as much as possible that class of cases which took the longest time to try. It is this consideration, I apprehend, that lies at the bottom of the restriction imposed upon our jurisdiction by section 19. Having in view the general utility of our Court to the public at large in its primary and most necessary character of a Court of summary procedure for the cheap, speedy and final determination of petty litigation, which is mostly concerned with the recovery of small debts, though I yield to none in the desire to afford cheap justice to all, I should, in the interests of the majority of litigants, be most unwilling to adopt Mr. Hormusji's suggestion to extend the jurisdiction of this Court so as to include cases of this class, except upon the terms of an addition to the staff of Judges and the strength of the office establishment. But if this cannot be given, and it should be thought right to give effect to Mr. Hormusji's proposal in the interest of those poor plaintiffs who are unable to meet the expense of a High Court suit in petty cases of ejectment, etc, I think it would be found necessary to reduce the pecuniary limit of the jurisdiction of the Court in order to enable it to deal with the increase of work so occasioned."

5. The amendment of section 38 of the Act contained in section 7 of the Bill is suggested by the following paragraph of the letter from Mr. Hart to which reference has already been made :—

"23. Another suggestion, in which we are unanimous, is that section 37 should be so amended as to make it apparent that the limitation of eight days within which application must be made for a new trial is not to be applied in the case of decrees and orders made *ex parte*, or to decrees and dismissals by default. As the section stands, it apparently overrides the previous enactment of the Limitation Act, which allows a longer period in the case of a suit determined *ex parte* for an application for a new trial. Construed literally, too, in the case of a decree *ex parte*, it would be necessary for the defendant to apply within eight days of the *date of the decree*, though he may not come to know of the existence of the suit till long after the expiration of that time. I think the insertion of the word 'contested' before the word 'suit,' wherever the latter occurs in section 37, would suffice to give effect to our recommendation. Applications for re-hearing in uncontested matters would then fall within the general law of limitation as regards the time within which they must be made. But of course the Court would still exercise a discretion as to refusing them when made unless satisfied that there were sufficient grounds for the non-appearance of the party making it, and the mere fact of the application would not necessarily operate in stay of execution."

6. The other provisions of section 7 of the Bill are founded upon the following paragraph of a letter, No. 1774 (Judicial), dated the 3rd September, 1891, from the Government of Madras :—

"3. It will be observed from the letters of the authorities consulted that there is a general consensus of opinion that—

(1) the Small Cause Court should retain the power it at present possesses of trying summarily suits between Rs. 1,000 and Rs. 2,000 in value ;

(2) there should be an appeal to the High Court in the case of all suits exceeding Rs. 1,000 in value ;

(3) sections 38 to 40 of Act XV of 1882 should be repealed.

With these opinions His Excellency in Council is in complete accord, and the first in particular he strongly endorses. As regards the institution of regular appeals against decrees in suits valued at more than Rs. 1,000, I am to invite attention to paragraph 6 of the High Court's letter, from which it will be observed that the present system of recording notes of evidence in the Small Cause Court is considered sufficient for the purposes of the Appellate Court."

7. Sections 8 and 9 of the Bill have been inserted at the suggestion of the Government of Madras.

The 11th January, 1893.

ALEX. EDW. MILLER.

J. M. MACPHERSON,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 12th January, 1893:—

NO. 3 OF 1893.

THE HABITUAL OFFENDERS BILL.

CONTENTS.

SECTIONS.

1. Title, extent and commencement.
2. Security for good behaviour of habitual offenders.
3. Power to order police surveillance instead of taking security for good behaviour.
4. Power to order police surveillance in default of security for good behaviour.
5. Power to declare convicted persons to be habitual offenders for the purposes of sections 6 and 7.
6. Power of convicting Court to order habitual offender to be placed under police surveillance in addition to sentence of imprisonment or transportation.
7. Power of Appellate Court to order police surveillance.
8. Appeal and revision in the case of orders for police surveillance.
9. Conferment, continuance and cancellation of powers.
10. Power to accept security for good behaviour in lieu of police surveillance.
11. Power to cancel order for police surveillance.
12. Power to make rules as to police surveillance.
13. Penalties for breach of rules.
14. Arrest of person under police surveillance found beyond prescribed limits.
15. Reports as to persons under police surveillance.
16. Trial of persons previously convicted of offences against coinage, stamp-law or property.
17. Amendment of Act X of 1882, section 349.
18. High Court's power of revision.
19. Power to require payment of compensation for injury caused by certain classes of offences against property.

A Bill to provide for the more effectual surveillance and control of habitual offenders, and for other purposes.

WHEREAS it is expedient to provide for the more effectual surveillance and control of habitual offenders, and for certain other matters hereinafter appearing;

It is hereby enacted as follows:—

1. (*1*) This Act may be called the Habitual Offenders Act, 1893.

Title, extent and commencement.

(*2*) It extends to the whole of British India; and

(*3*) It shall come into force on the

2. In section 110 of the Code of Criminal Procedure, 1882, for the words "receives information that any person within the local limits of his jurisdiction is an habitual robber, house-breaker or thief, or an habitual receiver of stolen property knowing the same to have been stolen, or that he habitually commits extortion, or in order to the committing of extortion habitually puts or attempts to put persons in fear of injury," the following shall be substituted, namely:—"receives information that any person within the local limits of his jurisdiction—

X of 1882.

Security for good behaviour of habitual offenders.

(*a*) is by habit a robber, house-breaker or thief, or

(*b*) is by habit a receiver of stolen property knowing the same to have been stolen, or

(*c*) habitually protects or harbours thieves or aids in the concealment or disposal of stolen property, or

(*d*) habitually commits mischief or extortion, or

(*e*) in order to the committing of extortion, habitually puts or attempts to put persons in fear of injury, or

(*f*) is of a character so desperate and dangerous as to render his being at large without security hazardous to the community."

3. When any Presidency Magistrate, District Magistrate or Sub-divisional Magistrate, or any Magistrate of the first class specially empowered in this

Power to order police surveillance instead of taking security for good behaviour.

behalf by the Local Government, has required any person referred to in section 110 of the Code of Criminal Procedure, 1882, as amended by this Act, to show cause why he should not be ordered to execute a bond for his good behaviour,

X of 1882

he may, if he shall think fit, instead of making an order under section 118 of that Code requiring such person to execute a bond as aforesaid, order that he be placed under police surveillance for any term not exceeding three years.

X of 1882

Power to order police surveillance in default of security for good behaviour.

4. Should any person ordered under section 118 of the Code of Criminal Procedure, 1882, to give security for good behaviour fail to give such security at or before the commencement of the period for which such security has been ordered to be given, the Magistrate who made the order requiring security may, instead of directing that the person be committed to, or detained in, prison under section 123 of the same Code, order that he be placed under police surveillance for any term not exceeding three years.

Power to declare convicted persons to be "habitual offenders" for the purposes of sections 6 and 7.

XLV of 1860.

5. When any person is convicted of an offence punishable under Chapter XII or Chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards and

(*a*) he is proved to have been previously convicted of any such offence, and

(*b*) the Court or Magistrate is satisfied, upon the evidence produced before him or it that he habitually commits crime, or depends on crime as a means of livelihood,

the Court or Magistrate may make an order declaring him, for the purposes of sections 6 and 7 of this Act, to be an habitual offender.

Power of convicting Court to order habitual offender to be placed under police surveillance in addition to sentence of imprisonment or transportation.

6. (*1*) Any High Court, Court of Session, Presidency Magistrate, District Magistrate or Sub-divisional Magistrate, or any Magistrate of the first class specially empowered by the Local Government in this behalf, may, if it or he shall think fit, when passing a sentence of imprisonment or transportation on an habitual offender, order that he be placed under police surveillance for any term not exceeding seven years from the date of the expiration of the sentence.

[Cf. Act X of 1882, s. 349.]

(*2*) Whenever a Magistrate of the first class who has not been specially empowered under sub-section (*1*), or a Magistrate of the second or third class has passed a sentence of imprisonment on an habitual offender, and is of opinion that he ought to be placed under police surveillance on the expiration of the sentence, he may record the opinion and submit his proceedings, and forward the offender, to the District Magistrate or the Sub-divisional Magistrate to whom he is subordinate

(*3*) The Magistrate to whom the proceedings are submitted may, if he shall think fit, examine the parties and recall and examine any witness who has already given evidence in the case, and call for and take any further evidence; and may, if he shall think fit, order that the offender be placed under police surveillance for any term not exceeding seven years from the date of the expiration of his sentence.

Power of Appellate Court to order police surveillance.

X of 1882.

7. An Appellate Court acting under clause (*b*) of section 423 of the Code of Criminal Procedure, 1882, may, if it shall think fit, order that an habitual offender who has been sentenced to imprisonment or transportation be placed under police surveillance for any term not exceeding seven years from the date of the expiration of the sentence.

Appeal and revision in the case of orders for police surveillance.

8. (*1*) Every order for police surveillance made under section 3 of this Act shall be subject to the same rights of appeal to and powers of revision by superior Courts and Magistrates as if it had been an order for security to be given made under section 118 of the Code of Criminal Procedure, 1882.

X of 18

(*2*) Every order for police surveillance made under section 6 or section 7 of this Act shall be subject to the same rights of appeal to and powers of revision by superior Courts and Magistrates as if it had formed part of the sentence to which it is attached.

Conferment, continuance and cancellation of powers.

9. The provisions of sections 39, 40 and 41 of the Code of Criminal Procedure, 1882, shall apply in the case of orders by the Local Government conferring powers on Magistrates under section 3 or section 6 of this Act.

X of 188

Power to accept security for good behaviour in lieu of police surveillance.

10. (*1*) Any person who has been placed under police surveillance may at any time apply to a Presidency Magistrate, District Magistrate or Sub-divisional Magistrate to have security for his good behaviour taken in lieu of police surveillance.

(*2*) Should the Magistrate be of opinion that the continuance of police surveillance is necessary, he may reject the application, but shall record his reasons for so doing.

(*3*) Should the Magistrate be of opinion that security may, without hazard to the community or to any person,* be taken in lieu of police surveillance, then,—

[* Cl. of 18 124-

(*a*) if the order for surveillance was made by himself or by his predecessor in office or by any subordinate Magistrate, he shall make an order under section 112 of the Code of Criminal Procedure, 1882; and,

X of

† (*b*) if the order for surveillance was made by a High Court, a Court of Session or any superior Magistrate, he shall make an immediate report of the case for the orders of such Court or Magistrate, as the case may be, and such Court or Magistrate may, if it or he shall think fit, direct that an order be made under section 112 of the said Code.

[† Cl. 1882 para

(*f*) The provisions of Chapter VIII of the said Code shall, as far as may be, apply in the case of every order made under section 112 thereof in pursuance of this section:

Provided that the bond for the good behaviour of the applicant shall, unless the applicant is discharged under section 124 or the bond is cancelled under section 125, continue in force until the expiration of the term for which he was ordered to be placed under police surveillance.

(5) When any person has furnished security for his good behaviour in pursuance of this section, the order on which he was placed under police surveillance shall become void.

[f Act X, 82, ss. 124, 5]

Power to cancel order for police surveillance.

11. Whenever a Presidency Magistrate or District Magistrate is of opinion that an order for police surveillance may be cancelled without hazard to the community or to any person, then,—

(*a*) if the order was made by himself or by his predecessor in office or by some subordinate Magistrate, he may cancel the same, and,

(*b*) if the order was made by a High Court or a Court of Session, he shall make an immediate report of the case for the orders of such Court, and such Court may, if it shall think fit, cancel the same.

[f Act XVII of 71, s 18]

Power to make rules as to police surveillance.

12. (*1*) The Local Government, with the previous sanction of the Governor General in Council, may make rules to provide for all or any of the following matters, namely:—

(*a*) the maintenance of registers of persons under police surveillance;

(*b*) the form in which the registers shall be made;

(*c*) the limits within which persons registered in any locality are permitted to reside;

(*d*) the conditions under which persons under surveillance may have their names transferred from one register to another;

(*e*) the conditions under which temporary passes may be granted to persons not desiring to change their registered place of abode;

(*f*) the conditions to be inserted in any such pass as to—

(*i*) the places to which or the limits within which the holder of the pass is authorized to go,

(*ii*) the officers before whom he shall be bound to present himself from time to time, and

(*iii*) the time during which he may absent himself;

(*g*) conditions as to answering at roll-call or otherwise, so that it may be ascertained that the persons whose names are on the register are actually present at given hours or times within the said limits;

(*h*) the inspection of the residences of such persons, and the prevention or removal of contrivances for enabling the residents therein to conceal stolen property or to leave their place of residence without leave; and

(*i*) generally, the carrying out of the purposes of this Act in regard to police surveillance.

(*2*) The Local Government, with the like sanction, may cancel or vary any rule made under this section.

(*3*) No rule, nor any cancellation or variation of a rule, made under this section, shall take effect until it has been published in the official Gazette.

Penalties for breach of rules.

13. Should any person under police surveillance commit a breach of any rule made under section 12, he shall be punished with imprisonment for a term which may extend to one year, or with fine, or with both. [Cf Act XXVII of 1871, s. 19]

Arrest of person under police surveillance found beyond prescribed limits.

14. (*1*) If any person under police surveillance is found in any part of British India beyond the limits of the locality in which he is registered without such pass as may be required by the rules made under section 12, or in a place or at a time not permitted by the conditions of his pass, he may be arrested, without warrant, by any police-officer or village-watchman, and taken before a Magistrate, who, on proof of the facts, shall order him to be removed to the district in which he ought to have resided, there to be dealt with according to the said rules. [Cf Act XXVII of 1871, s. 20]

(*2*) The procedure for the time being prescribed by law for the removal of prisoners shall apply to all persons removed under this section:

Provided that an order from the Governor General in Council, the Local Government or the Inspector General of Prisons shall not be necessary for the removal of any such person.

Reports as to persons under police surveillance.

15. After clause (*d*) of section 45 of the Code of Criminal Procedure, 1882, the following shall be inserted, namely:— X of 1882 [Cf. Act XXVII of 1871, s 21.]

"(*e*) the breach of any of the rules under section 12 of the Habitual Offenders Act, 1893, by any person under police surveillance who resides in such village,

(*f*) the absence of any such person at night without leave or his association with individuals of bad repute, or his ceasing to labour or to obtain a livelihood by honest means;

(*g*) the departure of any such person from such village without leave;

(*h*) the arrival at such village without leave of any person whom he knows or reasonably believes to be under police surveillance; [Cf Act X 1882, s. 45 (c).]

(*i*) the arrival at the village or residence therein of any person who has no ostensible means of livelihood or cannot give a satisfactory account of himself."

X of 1882. [Cf. Act X of 1882, s. 349.]

16. For section 348 of the Code of Criminal Procedure, 1882, the following shall be substituted, namely:—

Trial of persons previously convicted of offences against coinage, stamp-law or property.

"348. Whenever any person who has been declared to be an habitual offender under section 5 of the Habitual Offenders Act, 1893, or has been convicted of an offence punishable under Chapter XII or Chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards, is accused of any offence punishable under either of those Chapters with imprisonment for a term of three years or upwards, and the Magistrate before whom he is so accused having jurisdiction, is of opinion, after hearing the evidence for the prosecution and the accused, that the accused is guilty and that, by reason of his having been declared or convicted as aforesaid, he ought to receive a severer punishment than such Magistrate is empowered to inflict, he may record his opinion and submit the proceedings and forward the accused to the Court of Session.

XLV of 1860.

"The Court of Session may, if it shall think fit, examine the parties and recall and examine any witness who has already given evidence in the case, and call for and take any further evidence, and shall pass such judgment, sentence or order in the case as it may think fit and as may be according to law."

17. In the proviso to section 349 of the Code of Criminal Procedure, 1882, for the words and figures "sections 32 and 33," the words and figures "sections 32, 33 and 34," shall be substituted.

X of 1882. Amendment of Act X of 1882, section 349.

18. For the third paragraph of section 439 of the Code of Criminal Procedure, 1882, the following shall be substituted, namely:—

X of 1882. High Court's powers of revision.

"In dealing with a sentence under this section, the Court may inflict for the offence which, in its opinion, the accused has committed any punishment which it might have inflicted if the offence had been triable and tried before itself in the first instance."

Power to require payment of compensation for injury caused by certain classes of offences against property.

19. (1) Whenever it appears to the Local Government—

(a) that offences against section 427, section 428, section 429, section 435 or section 436 of the Indian Penal Code are commonly committed or that conspiracies to commit such offences or any of them are frequently hatched in any tract of country, and that the inhabitants thereof, or a large class or large classes of them, are combined to withhold information in their possession which might lead to the detection of the offenders or conspirators, or

XLV of 1860.

(b) that offences against section 395 or section 400 of the same Code or thefts of cattle are commonly committed in any tract of country by a member or members of a clan, and that the members of the clan are combined to withhold information in their possession which might lead to the detection of the offender or offenders,

the Local Government, with the previous sanction of the Governor General in Council, may, by notification, declare the provisions of this section to apply to that tract.

(2) Every such notification shall be published in the official Gazette and in such other manner as the Local Government may direct.

(3) The limits of the tract to which any such notification relates shall be defined in the notification.

(4) The Local Government may cancel any such notification or restrict or, with the previous sanction of the Governor General in Council, extend the limits of the tract to which it relates.

(5) When any offence referred to in sub-section (1) has been committed in a tract to which this section applies, and the District Magistrate is satisfied, after the expiration of a period of three months from the date of the commission of the offence, that, in consequence of such combination as aforesaid, the offender cannot be traced, he may—

(a) make an award fixing the amount of compensation payable to the sufferers for the injury caused by the offence,

(b) make an order determining the village or villages by the inhabitants of which, or the persons or class or classes of persons by whom, the amount so awarded shall be paid, and

(c) make an order assessing the proportion in which the same shall be paid by each such inhabitant or person according to his judgment of their respective means:

Provided that no portion of the compensation so awarded shall be payable by any person or class of persons whom the Magistrate shall, in such order, declare to be innocent of complicity with the offence.

(6) An award or order made under sub-section (5) shall not take effect until it has been confirmed by the Commissioner of the Division, or, where there is no such Commissioner, by the Local Government.

(7) When an assessment has been confirmed under sub-section (6) the amount assessed shall be recoverable, under the warrant of the District Magistrate, in the manner provided by sections 386 and 387 of the Code of Criminal Procedure, 1882, for the recovery of fines. X of 1882

STATEMENT OF OBJECTS AND REASONS.

THE principal object of this Bill is to provide for the more effectual surveillance of habitual offenders, and thereby to enable the police to control and check their movements. In this respect it is founded on the model of section 8 of the Prevention of Crimes Act, 1871 (34 & 35 Vict., c 112), which is believed to have been attended with excellent results.

2. Taken in detail, its provisions may be classified under four heads :—

(1) the improvement of the law relating to security for good behaviour (sections 2 to 4);

(2) the surveillance of convicted persons judicially declared to be habitual offenders (sections 5 to 15);

(3) the modification of the procedure for the trial and adequate punishment of habitual offenders (sections 16 to 18);

(4) the repression of certain offences against property by the assessment of compensation in the localities where they occur (section 19).

3. *Section 2*.—Magistrates are authorised to require security for good behaviour from persons who (*i*) habitually protect or harbour thieves or aid in the concealment or disposal of stolen property, or (*ii*) habitually commit mischief, or (*iii*) are of a character so desperate and dangerous as to render their being at large without security hazardous to the community.

4. *Sections 3 and 4*.—Magistrates are empowered to order police surveillance for any term up to three years in lieu of requiring security for good behaviour.

5. *Sections 5 to 15*.—Sections 6 to. 15 contain provisions for the surveillance of persons who have been declared under section 5 to be "habitual offenders." Two convictions under Chapter XII or Chapter XVII of the Indian Penal Code are essential; and it is further necessary before such a declaration can be made that the Court or Magistrate shall be satisfied on the evidence that the accused habitually commits crime or depends on crime as a means of livelihood.

The maximum period of police surveillance is, as in the English Act, seven years from the date of the expiration of the substantive sentence ; and such orders have been made subject to appeal and revision as if they formed part of the substantive sentence to which they are attached.

Magistrates are empowered to accept security for good behaviour in lieu of police surveillance, and to cancel orders for surveillance when this can safely be done.

6. *Section 16*.—The only modification which has been made in the procedure for the trial of habitual offenders is the amendment of section 348 of the Code of Criminal Procedure, 1882, on the lines of section 349. Section 348 provides that, when a person who has been convicted of an offence punishable under Chapter XII or Chapter XVII of the Penal Code is again accused of any such offence, he shall ordinarily, if the Magistrate before whom he is accused considers him to be an habitual offender, be committed to the Court of Session. Section 16 of the Bill authorizes the Magistrate in such cases to take cognizance of the offence himself and to enter a conviction and refer the case to the Court of Session for sentence, the Court of Session being at liberty to make or direct such further enquiry as it may think fit.

7. *Section 19*.—This section contains provisions for the repression of offences against property in cases in which they can be traced to a particular locality but the offenders cannot be identified owing to a combination of the inhabitants to withhold information which would lead to their detection. In such cases the Magistrate has been empowered to assess compensation on the residents of the locality generally, excluding any persons or classes of persons whom he finds to be clearly innocent of complicity with the offence.

The 12th January, 1893.

PHIL. P. HUTCHINS.

J. M. MACPHERSON,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 12th January, 1893:—

NO. 4 OF 1893.

A Bill to extend the provisions of the Bankers' Books Evidence Act, 1891, to the Books of Post Offices carrying on Savings Bank or Money Order Business.

WHEREAS it is expedient to extend the provisions of the Bankers' Books Evidence Act, 1891, to the books of post offices carrying on savings bank or money order business; It is hereby enacted as follows:—

XVIII of 1891.

Short title and commencement.

1. (*1*) This Act may be called the Bankers' Books Evidence Act, 1893; and

(*2*) It shall come into force at once.

Addition to definition of "bank" and "banker" in section 2, sub-section (*a*), of Act XVIII of 1891.

2. After clause (*b*) of sub-section (*a*) of section 2 of the said Bankers' Books Evidence Act, 1891, the following clause shall be added, namely:— XVIII of 1891.

"(*c*) any post office carrying on savings bank or money order business in respect of such business."

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to extend the provisions of the Bankers' Books Evidence Act (XVIII of 1891) to the books of post offices carrying on savings bank or money order business. The Select Committee on the Bill which afterwards became Act XVIII of 1891 considered that these books were public documents within the meaning of section 74 of the Indian Evidence Act, 1872, and covered therefore by section 65 of that Act, and accordingly did not recommend their inclusion in the Bill before them. It has, however, been brought to the notice of Government by the Director General of the Post Office that, without questioning the correctness of the view of the law taken by the Select Committee, there are practical advantages in bringing these books expressly under the Act of 1891 rather than relying on the Evidence Act, and, in order to secure these advantages, the present Bill has, at his request, been prepared.

The 11th January, 1893.

ALEX. EDW. MILLER.

J. M. MACPHERSON,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 12th January, 1893 :—

No. 6 of 1893.

A Bill to amend the Inland Emigration Act, 1882.

of 1882. Whereas it is expedient to amend the Inland Emigration Act, 1882; It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Inland Emigration Act, 1893; and

(*2*) it shall come into force at once.

of 1882.

Substitution of new section for section 1, Act I of 1882.

2. For section 1 of the said Inland Emigration Act, 1882, the following shall be substituted, namely :—

"This Act may be called the Assam Labour and Emigration Act, 1882.

Short title.

Local extent.

"It extends—

'*a*) to the territories respectively administered by the Lieutenant-Governors of Bengal and the North-Western Provinces and the Chief Commissioners of Oudh, the Central Provinces and Assam, and to the district of Ganjam; and

(*b*) to such other portions of the territories administered by the Governor of Fort St. George in Council as the Governor in Council, with the previous sanction of the Governor General in Council, may, by notification in the Fort St. George Gazette, from time to time, direct.

Commencement.

"It shall come into force—

(*i*) in the territories mentioned in clause (*a*) of this section at once; and

(*ii*) in any territories to which it may be extended by a notification under clause (*b*) of this section on such day as may be specified in that behalf in such notification."

Amendments of section 3.

3. (*1*) In section 3 of the said Act, in the definition of the expression "the labour districts," the words "Chittagong, the Chittagong Hill Tracts," and "Khasi Hills" are hereby repealed.

(*2*) In the same section of the said Act, in the definition of the word "emigrate," the words "not being a labour-district" are hereby repealed; and for the words "Chief Commissioner of Oudh" the following shall be substituted, namely :—

"Chief Commissioners of Oudh and the Central Provinces, or from any portion of the territories administered by the Governor of Fort St. George in Council, in which this Act may, for the time being, be in force.

Amendment of section 4.

4. In section 4 of the said Act, after the words "labour-district" each time it occurs the words "or sub-division of a labour-district" shall be inserted.

Addition of new section after section 4.

5. After section 4 of the said Act the following shall be added, namely :—

Power to exempt estates.

"4A. The Local Government may, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, declare that any specified estate or group of estates in any labour-district within the territories administered by such Government shall, subject to such conditions as the Governor General in Council may in each case from time to time prescribe, cease from a day specified in such notification to be subject to all the provisions or any specified provision of this Act; and from such day such estate or group of estates shall, subject to the conditions prescribed, cease to be subject to the provisions of this Act or to the provisions so specified, as the case may be.

"The Local Government may, with the like sanction, in like manner, vary or cancel any such notification"

Amendment of section 6.

6 In section 6 of the said Act, after the words "section four" the words and letter "section four A" be shall inserted.

Amendment of section 9.

7. For the penultimate paragraph of section 9 of the said Act the following shall be substituted, namely :—

"No such contract shall be made for a term exceeding three years or, if the contract is entered into under the provisions of section 111 of this Act, for a term exceeding one year, commencing from the date of its execution; or shall stipulate for a less rate of monthly wages for a completed daily task regulated in accordance with the provisions of this Act than five rupees in the case of a man and four rupees in the case of a woman."

Addition of new section after section 9.

8. After the same section of the said Act the following shall be inserted, namely :—

"In absence of specific obligation, underground labour not obligatory."

"9A. Unless the contract contains a specific obligation to this effect, no labourer shall be bound by any labour-contract entered into under this Act to undertake any work involving continuous labour under the ground."

Addition of new sections after section 42.

9. After section 42 of the said Act the following shall be inserted, namely :—

Employer may require medical certificate as to fitness to labour previous to contract.

"42A. If the employer with whom any labourer intends to contract or the agent of such employer has given notice to the Superintendent that before any labour-contract is entered into by him or on his behalf with

any labourer, the labourer shall be examined by a competent medical man and certified by him to be in a fit state of health and able in point of physical condition to reside and labour for hire in the labour-district in which the estate of such employer is situate, the Superintendent shall not permit such labourer to execute a labour-contract until such certificate from such medical man as aforesaid has been produced and shown to him.

Medical officer entitled to fee.

"42B. If the employer or his agent has directed that such examination shall be made by any medical officer in the service of Government, such officer making the examination shall be entitled to receive from such employer or his agent such a fee not exceeding eight annas for each labourer so examined as the Local Government may fix."

Repeal of section 86.

10. Section 86 of the said Act is hereby repealed.

Substitution of new sections for sections 111 and 112.

11. For sections 111 and 112 of the said Act the following shall be substituted, namely:—

Labour-contracts executed in labour-districts between employer and native direct.

"111. Any employer may enter into a labour-contract for any term not exceeding one year commencing from the date of the execution of the contract with any native of India within the labour-district in which the estate on which such native contracts to labour is situated. When any employer has executed any such contract with any such native within a labour-district, he shall, within one month from the date of the execution of such contract, forward it in duplicate to the Inspector within the local limits of whose jurisdiction such estate is situated. On receipt of the contract so forwarded, the Inspector shall enter an abstract thereof in a register to be kept by him for the purpose, and shall then give one copy of the contract to the labourer and the other copy to his employer.

Registration of such contracts.

Verification and cancellation of such contracts.

"111A. When, for the first time after the registration of any such contract with a labourer, the Inspector visits the estate on which such labourer is employed, the employer shall cause such labourer to appear before the Inspector for the purpose of having his contract verified, and such labourer may thereupon apply to the Inspector to cancel the contract; and, if he shows cause sufficient in the opinion of the Inspector to justify the cancellation, the Inspector may cancel the contract, and shall thereupon make an endorsement that it has been cancelled on the labourer's copy of the contract, or, if such copy be not forthcoming, shall give to the labourer a certificate to that effect.

Power of Inspector or Magistrate to require labourer who has executed such contract to appear before him.

"111B. The Inspector or Magistrate may at any time, either on the application of the employer or the labourer or of his own motion, require the employer to cause any labourer who has entered into a contract under section 111 and is employed upon any estate within the local limits of the jurisdiction of the Inspector or Magistrate to appear before him for the purpose of having his contract verified; and, if such labourer applies to the Inspector or Magistrate to cancel his contract and shows cause sufficient in the opinion of the Inspector or Magistrate to justify such cancellation, the Inspector or Magistrate may cancel the contract as provided in the last preceding section.

Labour-contracts executed within labour-districts before Inspector or Magistrate.

"112. Notwithstanding the provisions of section 111, any employer may enter into a labour-contract with any native of India in a labour-district for any term not exceeding three years commencing from the date of the execution of the contract if he appears either in person or by agent with such native before the Inspector or Magistrate within the local limits of whose jurisdiction the estate upon which such native is about to contract to labour is situated.

"Such Inspector or Magistrate shall thereupon explain the labour-contract to such native and shall, if satisfied, that he is competent to enter into and understands the same, call upon him and the employer or his agent to execute it in his presence; and, if they execute it, shall attest such execution with his signature.

"An abstract of every such labour-contract shall be entered in a register to be kept by the Inspector or Magistrate for the purpose; and one copy of such contract shall then be given to the labourer and the other copy to his employer or his agent.

"In respect of every labour-contract an abstract whereof is registered under section one hundred and eleven or under this section, the employer who executes such contract in person or by agent shall pay to the Inspector or Magistrate such fee, not exceeding one rupee, as the Local Government may from time to time direct.

Execution of labour-contract before Inspector or Magistrate of Dhubri.

"112A. For the purposes of the last preceding section an estate situated in any one of the following districts of the Assam Valley Division, namely, Kamrup, Darrang, Nowgong, Sibsagar and Lakhimpur, shall be deemed to be also situate within the local limits of the jurisdiction of the Inspector and Magistrate resident at the civil station of Dhubri in the Goalpara District; and, subject to such rules as the Local Government may prescribe in this behalf, contracts to labour on any estate in any of the labour-districts above named may be executed and registered before the Inspector or Magistrate at Dhubri in accordance with the provision of the last preceding section.

Power of Local Government to frame rules in connection with the execution of labour-contracts at Dhubri.

"112B. The Local Government may make rules consistent with this Act with respect to all or any of the following matters, namely:—

(*a*) the execution and registration of contracts under section 112A before the Inspector or Magistrate at Dhubri;

(*b*) the medical examination at Dhubri by the Civil Surgeon or other competent medical man of labourers and persons intending to become labourers and their dependents;

(*c*) the conditions under which depôts, rest-houses and other places may be established and maintained at Dhubri for the reception and lodging of labourers and persons intending to become labourers and their dependents; the sanitation and management of such depôts, rest-houses and other places; the arrangements for food, water and conservancy therein; the clothing and necessary utensils to be supplied to persons lodged therein; and the hospital accommodation for and medical treatment of such persons;

(*d*) the control and inspection by officers of Government of such depôts, rest-houses and other places; and

(*e*) the registers to be kept, and the reports and returns to be made, by the persons in charge of such depôts, rest-houses and other places."

Amendments of section 114.

12. (*1*) In section 114 of the said Act the words "who are not natives of the labour-district in which such estate is situated" are hereby repealed.

(2) To the same section the following shall be added, namely:—

"Any Inspector or Magistrate, or any person authorized as aforesaid, may require the employer to muster all persons or any particular class or classes of persons employed or residing upon such estate; and may further, subject to the general orders of the Local Government, require the employer to furnish any information which he thinks proper regarding all or any of such persons, or any particular class of such persons."

Amendment of section 115.

13. In section 115 of the said Act, for the words "whole number of days in the current month" the following shall be substituted, namely:—

"number of working days in the current month. The number of working days in any month shall be ascertained by deducting the number of Sundays from the whole number of days in the month."

Amendment of section 121.

14. For the last sentence of section 121 of the said Act the following shall be substituted, namely:—

"The Inspector shall from time to time, when visiting the estate, on the application of the employer, and may also at any other time on the application of either the employer or the labourer, endorse on the labourer's labour-contract, after such enquiry as may be necessary, the number of days so to be added to the term thereof:

"Provided that an employer who omits to apply for the endorsement of such days on any labourer's labour-contract, when the Inspector is actually visiting the estate, shall, in the absence of sufficient reasons to the contrary shown to the satisfaction of the Inspector, be debarred from applying afterwards for such endorsement in so far as days of absence which occurred prior to the date of the Inspector's last visit are concerned."

Amendment of section 128.

15. Between the first and second paragraphs of section 128 of the said Act the following shall be inserted, namely:—

"The Magistrate of the District may also of his own motion summon such a Committee, if, either from his own observation or from information derived from an Inspector's report or otherwise, he is of opinion that any estate or portion of an estate is, for any of the reasons aforesaid, unfit for the residence of labourers or of any particular class of labourers."

Addition of new section after section 128.

16. After the same section of the said Act the following shall be inserted, namely:—

"128A. If it appears to the Local Government from information derived from an Inspector's report or otherwise—

Local Government may order Committee.

(*a*) that any estate or portion of an estate is for any of the reasons given in the last preceding section unfit for the residence of labourers or of any particular class of labourers, or

(*b*) that the percentage of mortality of labourers or of any particular class of labourers employed on any estate or on any portion of an estate is such as would justify the institution of an inquiry by a medical officer under section 130 of this Act,

the Local Government may direct the Magistrate of the District to summon a Committee under the last preceding section; and the Magistrate of the District shall forthwith proceed to summon a Committee accordingly."

Addition to section 129.

17. To the last paragraph of section 129 of the said Act the following shall be added, namely:—

"Where the finding relates to the whole of any estate and the employer has no other estate in the same labour-district on which the labourer may be employed, the Inspector shall cancel the labour-contract of such labourer, and shall thereupon make an endorsement

that it has been cancelled on the labourer's copy of the contract, or, if such copy be not forthcoming, shall give to the labourer a certificate to that effect."

Addition of new section after section 129.

18. After section 129 of the said Act the following shall be inserted, namely:—

Local Government may pass orders on proceedings of Committee.

"129A. The Local Government may call for the proceedings of any Committee summoned under section 128, or section 128A, of this Act and record any finding thereon which such Committee was competent to record, and such finding shall have the same effect as the finding of a Committee under section 129."

Insertion of various words in section 130.

19. Section 130 of the said Act shall be amended by the insertion of the following words, namely:—

(*a*) after the words "Local Government" each time they occur the words " or the Magistrate of the District ";

(*b*) after the words "the number of labourers ", "the average annual number of labourers " and " for the residence of labourers " respectively the words " or of any particular class of labourer "; and

(*c*) after the words " the whole number of labourers " the words " or of such particular class of labourers ".

Amendments of section 132.

20. (*1*) In section 132 of the said Act, for the words "and that such estate or portion is thereby rendered " the words "or that such estate or portion is " shall be substituted.

(*2*) In the same section, after the word " labourers " the first time it occurs the words "or of any particular class of labourers ", and the second time it occurs the words "or of such particular class of labourers ", shall be respectively inserted.

Amendments of section 133.

21. In section 133 of the said Act, after the words "found under section one hundred and twenty-nine " the words and letter "or under section one hundred and twenty-nine A," and after the words "to labour on such estate, portion or part," the words "other than labourers whose contracts have been cancelled by the Inspector under section 129," shall be respectively inserted.

Insertion of heading before section 140.

22. Between sections 139 and 140 of the said Act the following heading shall be inserted, namely—

" H 1.—Cancelment of Labour-contracts in certain cases."

Addition of new sections after section 140.

23. After section 140 of the said Act the following shall be inserted, namely:—

Power of Local Government to cancel contract for wrongful recruitment.

"140A. If the Local Government, after such enquiry as it thinks sufficient, is of opinion that any labourer was recruited or conveyed to a labour-district, or compelled or induced to enter into a labour-contract, by any coercion, undue influence, fraud, misrepresentation or mistake, or that any such irregularity has occurred in connection with his recruitment or the execution of his contract as makes it just to rescind his contract, the Local Government may, by an order in writing, direct the labour-contract of such labourer to be cancelled.

"On receipt of any such order by the Local Government, the Inspector or Magistrate shall cancel the contract referred to, and shall thereupon make an endorsement that it has been so cancelled on the labourer's copy of the contract or, if the same be not forthcoming, shall give to the labourer a certificate to that effect.

Power to cancel contract of labourer related to labourer whose contract is cancelled or determined.

"140B. When the labour-contract of any labourer is or has been cancelled or determined under section 111A, 111B, 122, 140 or 140A, the Inspector, Magistrate or Local Government, as the case may be, may at his or its discretion, and on the application of the labourers concerned, cancel the labour-contract of any labourers employed on any estate belonging to the same employer and being the wife, husband, father, mother, son or daughter of the labourer whose labour contract is or has been so cancelled or determined.

Cancelment of contract by mutual consent.

"140C. If any employer and labourer desire to dissolve a labour-contract by mutual consent, such employer may appear in person or by agent with such labourer before the Inspector or Magistrate having jurisdiction in the local area in which the estate where the labourer is employed is situated, and, if the Inspector or Magistrate is satisfied, after such enquiry as he thinks sufficient, that both parties are desirous of dissolving the contract and that there are no good reasons why it should not be dissolved, he shall declare the labour-contract to be cancelled by mutual consent.

"Every such cancelment shall be certified by the Inspector or Magistrate on the back of both the employer's and the labourer's copies of the contract, or, if the same be not forthcoming, by an order in writing under the hand of the Inspector or Magistrate, copies of which shall be delivered to the employer and the labourer.

"Except under the provisions of this section, it shall not be lawful for any employer or labourer to dissolve or cancel any labour-contract by mutual consent.

Amendment of section 142.

24. In the last paragraph of section 142 of the said Act, for the words "third, fourth and fifth

years" the words "third year" shall be substituted.

Addition of new sections after section 142.

25. After section 142 of the said Act the following shall be inserted, namely :—

Power to equalize terms of contract in case of husband and wife.

"142A. In any case in which the contract of a labourer determines at a different time from that of any other labourer who is the wife or husband of such labourer, the Inspector or Magistrate may, on the joint application of such labourers, equalize the terms of their respective contracts, by adding to the term of the contract which will expire first or deducting from the term of the contract which will expire last, or otherwise as he may think fit.

"Every such addition or deduction from the term of any contract shall be certified by such Inspector or Magistrate on the back of both the employer's and the labourer's copies of the contract, or, if the same be not forthcoming, by writing under the Inspector or Magistrate's hand, copies of which shall be delivered to the employer and the labourer.

J.—Repatriation of Labourers and others.

Repatriation of labourers whose contract is determined under section 122.

"142B. If any labourer, not being a native of the labour-districts, whose contract is determined under section 122, desires to be sent back to his native district, the Inspector may, instead of awarding a sum as receivable by such labourer from his employer, as provided by that section, order the employer to deposit such amount, whether in excess of the three months' wages awardable under that section or otherwise, as shall, in the Inspector's opinion, be sufficient to cover the entire expenses of sending the labourer to such district. Such amount shall be deposited by the employer in the Inspector's office and shall be expended by the Inspector in sending the labourer back to his native district.

"On failure of the employer to deposit such amount within twenty-four hours in accordance with any such order, the Inspector may pay the same, and any amount so paid shall be recoverable from the employer as if it were an arrear of wages.

Repatriation of immigrants not under contract who are physically incapacitated.

"142C. If any person, being a native of India but not being a native of the labour-districts, or not being a labourer, has no means of subsistence and is, in the opinion of the Inspector or Magistrate, permanently incapacitated from earning his livelihood in a labour-district, the Inspector or Magistrate may, on the application of such person, send him back to his native district, and may, subject to the control of the Local Government, charge the expenses incurred in so doing to the Inland Labour Transport Fund.

Repatriation of labourers wrongfully recruited.

"142D. Subject to any orders which the Local Government may issue in this behalf, the Inspector or Magistrate may send back to his native district any labourer, together with his dependents (if any), whose contract has been cancelled under section 111A, 111B or 140A on the ground of coercion, undue influence, fraud, misrepresentation or mistake, or of any irregularity in connection with his recruitment or the execution of his contract, and may recover, as if it were an arrear of wages, from the employer on whose estate such labourer was under contract to labour, the whole or any part of the expenses incurred in so sending him back.

Repatriation of persons not under contract wrongfully recruited.

"142E. If it appears to the Inspector or Magistrate, on complaint made before him or otherwise, that there is reason to suppose that any native of India, not being a labourer, has been induced by any coercion, undue influence, fraud, misrepresentation or mistake to emigrate to a labour-district, the Inspector or Magistrate shall call upon the employer on whose behalf such person was made or induced to emigrate, or to whose estate he is being or has been conveyed, or, if the employer cannot be communicated with without undue delay, upon his agent or any one accompanying such person or conveying him to any labour-district or estate, to appear before the Inspector or Magistrate and show cause why such person should not be sent back to his native district.

"If the Inspector or Magistrate is of opinion after such enquiry as he thinks sufficient that such person was engaged or compelled or induced to emigrate by any such coercion, undue influence, fraud, misrepresentation or mistake as would justify his being sent back to his native district, the Inspector or Magistrate shall record a finding to this effect and shall send such person, if he so desires, together with any other persons dependent on him (if any), back to his native district

"Subject to any orders which the Local Government may issue in this behalf, the whole or any part of the amount expended in sending a person back to his native district under this section may be recovered as if it were an arrear of wages from the employer on whose behalf such person was induced to emigrate or to whose estate he was being or had been conveyed; or if the employer is not known, or if there is no such employer, by distress and sale of any moveable property belonging to the person accompanying such person or conveying him to any labour-district or estate.

Arrangements may be made for escorting persons ordered to be repatriated.

"142F. In any case in which a labourer or other person is sent back to his native district under the provisions of section 142D or section 142E, the Inspector or

Magistrate may provide an escort or make such other arrangements as may appear to him to be necessary for ensuring that such labourer or person is actually conveyed to such district. Any expenditure incurred in providing such escort or making such arrangements may be recovered as part of the amount expended in sending such labourer or other person back to his native district."

Amendment of sections 143 and 145.

26. To section 143 of the said Act the words "In addition to any other power to make rules conferred by this Act" shall be prefixed; and in section 145 of the said Act for the word "hereunder" the words "under this Act" shall be substituted.

Substitution of new section for section 152.

27. For section 152 of the said Act the following shall be substituted, namely:—

Garden-sardar making over labourers to contractors, etc.

"152. Any garden-sardar who

makes over to any contractor, sub-contractor or recruiter, or to the garden-sardar or local agent of any employer other than the employer by whom his certificate was granted or, without authority from his employer, to any other person, any persons whom he has engaged or intends to engage as labourers, or

places any such person in a contractor's depôt or in the place of accommodation provided by a recruiter in accordance with the provisions of section twenty seven, or

allows any persons engaged as labourers by any contractor or sub-contractor or recuiter to share the accommodation provided by him under section fifty-seven,

shall be punished with imprisonment for a term which may extend to three months or with fine which may extend to one hundred rupees or with both; and his certificate may be impounded by the convicting Magistrate.

"Any Magistrate impounding a certificate under this section shall send it for cancellation to the Magistrate by whom it was countersigned."

Amendment of section 164.

28. In section 164 of the said Act, after the word "inquiry" the words "or omits to comply with any requisition" shall be inserted.

Amendment of section 170.

29. In the second paragraph of section 170 of the said Act, after the words "any Inspector who receives any such statement shall" the words "if the employer so desires" be inserted, and to the same section the following shall be added, namely:—

"The Inspector may also at any time other than that of his visit to the estate on the application of either the employer or the labourer, after due enquiry, endorse such days of absence on, and add them to the term of, the labour-contract: Provided that an employer who omits to apply for the endorsement of such days on any labourer's labour-contract when the Inspector is actually visiting the estate shall be debarred, in the absence of sufficient reasons to the contrary shown to the satisfaction of the Inspector, from applying afterwards for such endorsement so far as days of absence reported in statements sent to the Inspector previous to the date of his last visit are concerned."

Addition of new section after section 171.

30. After section 171 of the said Act the following section shall be inserted, namely:—

"171A. Every employer may on or before the fifteenth day of each month send to the Inspector a statement in writing in such form as the Local Government may prescribe containing the names of all or any of his labourers who have deserted from his service during the preceding month, or who, having deserted at any previous time, have been absent during the preceding month, or who, having deserted during the month or previously, have been arrested or have returned to his service during the preceding month."

Statement of deserters.

Substitution of new section for section 173.

31. For section 173 of the said Act the following shall be substituted, namely:—

"173. The police-officer in charge of such station shall on the appearance of the parties take down in writing the statements of the labourer arrested and of the person arresting the labourer.

Procedure at police-station.

"If the labourer admits the contract and does not claim to be forwarded to a Magistrate, the police-officer may permit the person arresting the labourer to convey him to the estate on which he is under contract to labour, and shall then transmit the statements recorded and a report of his proceedings to the Magistrate within the local limits of whose jurisdiction the police-station is situated.

"If the labourer does not admit the contract or claims to be forwarded to the Magistrate, or if, for any reason, it appears to the police-officer desirable that he should be so forwarded, the police-officer shall forthwith send such labourer, together with the statements recorded as aforesaid and a report of his proceedings, to the Magistrate within the local limits of whose jurisdiction the police-station is situated.

"If the estate on which the labourer is under contract to labour is not situate within the local limits of the jurisdiction of the Magistrate referred to in the last two preceding paragraphs, such Magistrate shall forward the statements and report received by him from the police to the Magistrate within the local limits of whose jurisdiction such estate is situate. He shall also, when the labourer has been sent to him by the police, either forward the labourer to, or take security for his appearance before, such Magistrate.

"On receipt of such statements and report, the Magistrate within the local limits of whose jurisdiction such estate lies may, after making such inquiry as he considers desirable into the case, pass such order in accordance with law as he thinks proper. For the purpose of any such inquiry such Magistrate may, if he thinks fit, in any case in which the labourer arrested has not been sent to, or appeared before, him require the labourer to appear before him."

Substitution of new sections for section 182.

32. For section 182 of the said Act the following shall be substituted namely :—

Endorsement on contract of period of unlawful absence or imprisonment for offence against Act.

"182. When any labourer is convicted under section one hundred and seventy one of absence from labour or is sentenced to imprisonment for an offence under this Act, the Magistrate so convicting or sentencing him shall endorse on the employer's copy of the labour-contract the period during which such labourer is convicted under the section aforesaid of being absent from his labour or the term for which he is sentenced to imprisonment, or both, as the case may be.

Endorsement on contract of period of desertion or imprisonment for desertion.

"182A. When any labourer is convicted under section 175 of desertion from his employer's service, the Magistrate convicting him shall, on the application of the employer or his agent, endorse on the employer's copy of the labour-contract (in addition to the term of imprisonment to which the labourer may be sentenced for such desertion), the period during which the Magistrate finds that the labourer was absent from his labour in contravention of his contract owing to such desertion ;

"Provided that no such endorsement shall be made in any case in which the original term of the labour-contract has expired on the date of the conviction, if more than three years have elapsed from the date of the labourer's desertion to that of his arrest ;

"Provided also that the employer has duly reported the particulars of the desertion in the monthly statement provided for in section 171A.

Endorsement on contract of period of any other imprisonment.

"182B. When any labourer is sentenced to imprisonment for any offence other than an offence under this Act, the Court or Magistrate so sentencing him shall, on the application of the employer or his agent, endorse on the employer's copy of the labour-contract the period for which the labourer is sentenced to imprisonment, or, if such period exceeds the unexpired term of the labour-contract on the date of the sentence, so much of such period as is equal to such unexpired term.

Periods endorsed to be added to term of contract.

"182C. The periods endorsed under the three last preceding sections shall be added to the term for which the labourer contracted to serve ; and such labourer shall not be deemed to have performed his labour contract till he has served for the term specified therein in addition to the periods so endorsed."

Addition of new sections after section 183.

33. After section 183 of the said Act the following shall be inserted, namely :—

Failure to forward contract under section 111 or to cause labourer to appear under section 111B.

"183A. Whoever, being bound under section 111 to forward any labour-contract to the Inspector, or under section 111B to cause any labourer to appear before the Inspector or Magistrate, wilfully omits or neglects so to forward such labour-contract to the Inspector at or within the time specified, or to cause such labourer to appear before the Inspector or Magistrate within a reasonable time, shall be punished with fine which may extend to two hundred rupees.

Dissolving contract otherwise than under section 140C.

"183B Whoever dissolves or cancels any labour-contract by mutual consent otherwise than under the procedure prescribed in section 140C shall be punished with fine which may extend to two hundred rupees.

Amendment of section 192.

34. In section 192 of the said Act, after the words "leave allowances" the words "for meeting the cost of sending labourers and other persons back to their native districts" shall be inserted.

Amendments of schedule.

35. (1) In the schedule to the said Act, opposite the word "labour" where it first occurs, the following note shall be inserted, namely :—

"* State nature of labour, if the labourer is to be required to work under the ground.

(2) In the same schedule, for the portion which follows the tabular statement, headed "Form of Description of Labourer," the following shall be substituted, namely :—

"[*Endorsement to be filled up by Registering-officer before whom the contract is executed.*]

I hereby certify that, before the said *A B* signed this contract, I personally explained it to him.

Dated at
This day of } Signed_____
Registering Officer or Inspector or Magistrate.

[*Endorsements on labourer's copy of contract, to be filled up when the contract is determined or cancelled.*]

I hereby certify that the foregoing contract has been determined by effluxion of time.

Dated at
This day of } _____
Signature of Employer or Inspector.

I hereby certify that the foregoing contract has been cancelled under the provisions of section of Act .

Dated at
This day of } *Signature of Inspector or Magistrate.*"

Repeal of Act XXII of 1891.

36. Act XXII of 1891 (*an Act to extend the Inland Emigration Act, 1882,*) is hereby repealed.

STATEMENT OF OBJECTS AND REASONS

IN this Bill it is proposed to incorporate Act XXII of 1891 (*an Act to extend the Inland Emigration Act, 1882,*) with the Inland Emigration Act, and to amend the latter Act in accordance with the decisions arrived at by the Government of India and the Secretary of State in the correspondence marginally noted, which has been communicated to the public. The chief objects with which these amendments are proposed are, first, to prevent and remedy abuses in the system of recruiting labourers and other emigrants for employment on estates in the labour-districts; secondly, to strengthen the control of the local Administration over unhealthy estates and to enable the local authorities more readily to enforce sanitary improvements on them; and, thirdly, to restrict, as far as may be practicable, consistently with the interests of the tea industry and the present conditions of labour emigration, the operation of the penal contract system sanctioned by the Act.

Letter from the Chief Commissioner of Assam, No. 1373 J., dated the 16th April, 1890.
Letter from the Government of Bengal, No. 142, dated the 28th August, 1890.
Despatch to the Secretary of State, No. 77 (Emigration), dated the 5th October, 1891.
Letter to the Chief Commissioner of Assam, No. 2058—19, dated the 5th October, 1891.
Letter to the Government of Bengal, No. 2059—19, dated the 5th October, 1891.
Despatch from the Secretary of State, No. 13 (Emigration), dated the 11th February, 1892.
Letter to the Government of Bengal, No. 1070—7, dated the 20th May, 1892.
Letter to the Chief Commissioner, of Assam, No. 1071—7, dated the 20th May, 1892.
Letter from the Chief Commissioner of Assam, No. 3620 J., dated the 12th August, 1892.
Letter from the Government of Bengal, No. 270 T. G., dated the 4th October, 1892.

2. The amendments proposed in section 2 of the Bill are necessitated by the incorporation of Act XXII of 1891 with the Inland Emigration Act, 1882.

The title of the Act has also been altered to "the Assam Labour and Emigration Act," as the Act regulates, not only the conditions of emigration, but also those under which the labour-system is carried out.

3. The object of sub-section (*1*) of section 3 of the Bill is to exclude from the list of labour-districts the districts of Chittagong and the Chittagong Hill Tracts, which have been withdrawn by the Local Government from the provisions of the Act relating to labour-districts, and the Khasi Hills District where those provisions are no longer required.

The amendments proposed in sub-section (2) of this section are necessitated by the above changes and by the incorporation of Act XXII of 1891 with the Inland Emigration Act, 1882

4. Sections 4 and 5 of the Bill give effect to the proposals made by the late Chief Commissioner of Assam, Mr. Quinton, and approved by the Secretary of State, that power should be reserved to the Local Government to exclude sub-divisions of districts and particular gardens from all or any of the provisions of the Act relating to the labour-districts.

5. By section 7 of the Bill it is proposed to reduce the maximum term of the labour-contract which may be entered into under this Act from five to three years, the recent inquiry into the working of the labour-system having led the Government to the conclusion that contracts for longer periods than three years are not really necessary under present conditions.

6. The object of section 8 of the Bill is to provide that no labourer shall be bound to engage in work involving regular labour underground, such as work in a coal-mine, unless he has specifically contracted to do so.

7. The object of section 9 of the Bill is to supply an omission in the present system and to place at the disposal of an employer a recognized method of ascertaining, before he enters into a labour-contract with a labourer, that the labourer is in a fit state of health and able to reside and labour for hire in a labour-district.

8. In section 11 of the Bill it is proposed to recast sections 111 and 112 of the Inland Emigration Act, and to make the following changes in them :—

(1) to limit the term of a contract entered into under section 111 of the Act to one year;

(2) to limit the term of a contract entered into under section 112 of the Act to three years;

(3) to limit the execution of a contract under section 111 to the actual labour-district in which the contract is to be performed;

(4) to empower the Inspector or Magistrate to require the production before him of any labourer who has executed a contract under section 111 for verification of his contract;

(5) To place on a legal footing the existing arrangements under which labour-contracts are entered into at Dhubri in the presence of the Magistrate or Civil Surgeon by bringing such contracts within the scope of section 112 of the Act, and by empowering the Chief Commissioner to make rules having the force of law for regulating the procedure for the execution of such contracts.

The amendments specified in heads (3), (4) and (5) have been accepted by the Chief Commissioner of Assam, and are, it is reported, generally agreed to by the planting community. The amendments specified in head (2) follow from the change made by section 7 of the Bill. The amendment proposed in head (1) gives effect to the declared policy of the Government to restrict, from time to time, as may be found practicable, the operation of the penal contract system.

9. The object of sections 15 to 20 of the Bill is to strengthen the hands of the Local Administration in dealing with, and enforcing sanitary measures on, unhealthy estates employing contract labourers.

10. The object of section 23 of the Bill is to provide a remedy for cases in which labourers have been fraudulently or illegally recruited or placed on contract by specifically empowering the local Administration to cancel their labour-contracts.

11. The object of section 25 of the Bill (proposed sections 142A to 142F of the Act) is partly to legalize existing practice and partly to provide safeguards against malpractices in recruitment by empowering the local authorities to repatriate to their native districts labourers or other immigrant persons who are either physically incapacitated from earning their livelihood in a labour-district or have been fraudulently or illegally recruited or conveyed to a labour-district, and, in the latter case, to recover the cost of such repatriation from the person at fault or from the employer on whose behalf or to whose estate such persons were induced to emigrate. By section 34 of the Bill local officers have also been empowered, subject to the orders of the Chief Commissioner, to pay the cost of repatriation from the Inland Labour Transport Fund.
